Apex Predator Dec 21 2021 A future winter November 2018. The Eye of Heaven—a prototype Chinese satellite with next generation technology falls and is lost in the polar icecap. The race begins when two superpowers face off, one to learn secrets, the other to keep them. And they will send their greatest weapons wielded by the fiercest warriors to reach the prize. Special Agent Greg Cole, a man of lethal skill, pathological appetites, and a Machiavellian intellect, who engineered the theft of the satellite. For him, retrieving its secrets would be a career-making coup and nothing; no one was going to stand in his way—friend, foe, or innocent bystander. Special Agent Command Master Chief Carter Bohem—an aging warrior given one final chance to prove he can still run with the wolves, never questioned his orders or his purpose until this mission. Until his orders called for murder. Colonel Xiang Lai Peng of the People's Republic of China—Tasked by his government to retrieve the satellite at any cost, this elite unit commander will lead his men into an unimaginable nightmare where the price of success will be all too high. Captain Marcus Cartaneo USN—Commander of the USS Seawolf, a submarine bristling with a frightening array of weaponry and the combined technological might of a superpower. Yet, it is his weakness lies in the tragedy haunted crew on the verge of mutiny against a commanding officer who has lost their trust. But natural enemies are the least of our worries for as the Arctic winter storms close in; something else has awakened deep within the ice. An elder force that once roamed ancient seas with impunity, consigned to the realm of myth and legend has returned. The stories speak of its savagery; pure, insatiable and untainted by conscience or reason yet possessing immense power and fearsome intelligence. In this cold, unforgiving wasteland, man and machine will come face to face with a malevolent, unrelenting entity who will hunt them across ice, across oceans to the very doorstep of their homes. Only the survivor, only the triumphant will be the Apex Predator.

Hot SEAL, Cold Beer Feb 20 2022 An ex-Navy SEAL agrees to play fake lover for the Maid of Honor at a destination wedding only to discover that what happens on a Caribbean Island can sometimes follow you home. Nicholas Falcone, aka Nikko, aka Falcon, is five months out from active SEAL duty, putting his pre-service accounting degree to use while going to law school at night. He'd love to take a vacation between semesters, but every buck is earmarked for his education. When his fellow accountant approaches him about his sister needing an escort for a destination wedding, Nikko jumps at the idea. With the wedding families footing the bill, what does he have to lose? Surgeon Dr. Jennifer Pierce is still stinging from a broken engagement. Going to a destination wedding at the Sand Castle Resort in the Caribbean would be great if only her ex-fiancé and his new wife weren't also attending. Her options are to find a date or not go, but not going isn't really an option. That is, until she's letting her brother set her up with a guy from his accounting office...Heaven forbid. When did accountants start looking like this? **Cold Beer** is part of the SEALs in Paradise Series, Texas Series and Sand Castle Resort series. Each book can be read as a stand-alone. They do not have cliffhanger endings. **Hot SEAL, Cold Beer** is also part of the "SEALs in Paradise" connected series. Each book in the multi-author branded SEALs in Paradise series can be read stand-alone, and individual books do not have to be read in any particular order.

Moonflaw May 14 2021 For more years than he can remember, astronomer Ernie Cowarth has been sworn to secrecy on behalf of the United States government regarding an incomprehensible lunar event—later known as the "moonflaw"—that occurred in late October 1953. Due to negligent actions of the Apollo 15 crew and the crew's succumbed to their deeper curiosities during what was designed to be a restricted investigation some eighteen years later, cosmic radiation from the event was inadvertently conveyed back to Earth, where it eventually brings about a strange phenomenon: a series of disorienting and disturbing dreams that link together the minds of perfect strangers. Bizarre events ultimately coalesce in the city of Hartford, Connecticut, where a demonic entity has seized opportunity from the fallout, escalating the emissions into a dual threat. From reanimated beings known as Deceivers, who furtively project into the living realm, to a subterranean lair that swallows below the city like a flooded catacomb, unholy horrors await a cast of dream-plagued, fate-bound individuals who must face unfathomable darkness in order to save humanity as it once was before the Moonflaw.

The Greatest Navy SEAL Stories Ever Told Jan 22 2022 The Greatest Navy SEAL Stories Ever Told is the first book to place side by side extraordinary stories of Navy SEALs who put their lives on the line, and then go out and do it again the next day. They illustrate the SEAL maxim, "The person who will not be defeated cannot be defeated." SEALs in action - men of courage and ingenuity, from the rice paddies and hills of Vietnam to the plains and mountains of Afghanistan, Iraq and Pakistan appear in these pages. These stories cover the most significant overt and covert operations conducted since the U.S. Navy established Sea Land and Air Teams in 1962. The one common denominator in these chapters is the courage and ingenuity of those who proudly call themselves Navy SEALs. So far as the SEALs and other participants in these stories recall differing versions of the same events, as recounted here for the reader to make his own judgments. So far as no previously classified or sensitive information is revealed in these pages.

Seal Doc Mar 24 2022 A small team from the US Navy arrives in Vietnam in the spring of 1962. At first, its members only hear whispers about what they are supposed to accomplish. The unit goes by the name MTT 10-62 because its mission is so secret. This is the first Sea, Air and Land team—later known as the SEALs—and it

gearing up to train a group of volunteers from the Vietnamese Junk Force in counterinsurgency and maritime warfare. Told mostly through the perspective of "Doc" David—a first class hospital corpsman, first class diver, and diving medical technician—and Lt. Bill Evans, SEAL Doc shows how the first SEALs work in conjunction with Army Special Forces and others to stop the spread of communism. While the SEALs are outstanding fighters and tacticians, they get little material support to accomplish their mission. The team arrives in Da Nang with nothing but stateside uniforms, and their vehicles and gasoline must be "liberated" from Vietnamese motor pools. Meanwhile, the daily challenges the SEALs face are preparing them for a final explosive mission and setting the stage for the future development of Navy SEALs in SEAL Doc, a historical novel based on the true story of the SEALs.

Unheard, Unseen. Aug 05 2020 It is 2009 and North Korea has purchased four outdated submarine launched ballistic missile boosters from a French company that is struggling with destroying the rockets. Because they are not a weapon in and of themselves, international law governing the sale of strategic weapons cannot prevent the acquisition. Both the US and Canadian governments however, know too well what the unstable North Korean leader intends for the rocket boosters in light of his desire to successfully launch a missile of his own. When a carefully planned covert mission to intercept the rockets unravels due to mechanical problems with the ultra-quiet submarine USS Jimmy Carter, a replacement must be found and quickly! The surprising solution comes in the form of a Canadian submarine. Commander Michael Simpson, nearing the end of his career with the Canadian navy has few doubts concerning his untried boat's capabilities, and he knows that his crew is the best. The only answer to his orders is the same one that has echoed throughout the history of one of the world's best-trained navies: 'ready, aye ready'. The author is a former reader on a thrilling adventure as the officers and crew of HMCS Corner Brook undertake a mission fraught with danger. www.unheardunseen.com
