Driven Oct 22 2019 An exclusive look at one of the world's most successful and controversial companies, and the mysterious family behind it. BMW is arguably the most admired carmaker in the world. It's financial performance is the envy of its competitors, and BMW products inspire near-fanatical loyalty. While many carmakers struggle with falling sales, profits and market share, demand for BMWs continues to grow, frequently outpacing production. Now, David Kiley-Detroit Bureau Chief at USA Today and author of *Getting the Bugs Out*, which covered Volkswagen's demise and rebirth, goes inside the fabled German automaker to see how it does what it does so well. With unprecedented access to BMW executives, Kiley goes behind the walls of BMW's famed "Four Cylinders" headquarters in Munich at a time when the company is in its most aggressive, and some say riskiest, expansion in its history and when some of the company's new products, like the 7 Series sedan and Z4 roadster, are for the first time drawing as many barbs from critics as bouquets. Kiley covers intimate details of the boardroom drama surrounding the company's nearly disastrous acquisition and subsequent sale of the British Rover Group and its expansion into selling MINI and Rolls Royce cars. Besides being a world-class carmaker, BMW is also considered one of the smartest consumer marketing companies and Kiley explores the extraordinary value and management of the BMW brand mystique. He also takes a revealing look at the mysterious and ultra-private Quandt family of Bad Homburg Germany, which owns a controlling stake in BMW: Johanna and Susanne Quandt, two of the wealthiest women in Europe and Stefan Quandt, one of the wealthiest bachelors on the continent. David Kiley (Ann Arbor, MI) is the Detroit Bureau Chief at USA Today who has covered the auto industry for 17 years. He has been featured on *Nightline*, *CNBC*, *CNN*, *MSNBC*, *NPR* and the *Today* show. He is also the author of *Getting the Bugs Out: The Rise, Fall, and Comeback of Volkswagen in America* (0-471-26304-4), also available from Wiley.

Lemon-Aid New Cars and Trucks 2012 Sep 01 2020 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scans cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: The Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

Lemon-Aid Used Cars and Trucks 2012-2013 May 21 2022 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Finnegan's Follies Aug 20 2019 This is a most unusual book in that it provides you with clues, evidence, and everything you need to know in order to solve a modern-day crime. On March 5, 2022, 18-year-old Zoey King drove into a pedestrian area and struck me with her car. The impact broke a minimum of 5 bones, including my shoulder and the orbital bone above my eye, and shattered my eye into three parts. I sustained 2nd and 3rd degree road rash on my head, arms, legs, feet, and buttocks. The car came to rest in the pedestrian area. Despite this, a cop named Peter Finnegan, and his boss, Sergeant Todd Engstrom, signed documents claiming that I was drunk and stepped out in front of poor Zoey. Numerous witnesses had told these two officers that I had only drunk two beers. There was even a video of me that proved I was sober. Drunk? No way. And how many people do you know, drunk or otherwise, that deliberately stepped out in front of a speeding car? It was all lies. Zoey stated that she could not see me, stated that it happened so fast, and said she thought the speed limit was 25mph (According to the our number one cop, Peter Finnegan, the "unposted" speed limit was 20mph. So why did Zoey say she thought it was 25? Because speeders almost always say that when they are caught speeding. It's cliché. In these pages are actual crime scene photographs and police reports. You get to read what they have to say and read what I have/had to say. Then you get to decide who you believe. Do you think you are smart enough to figure it out? Haven't you ever wanted to be a juror? Did you ever wish that someone would come along and prove that corruption is more common than most people think? After reading this, you'll never look at the world the same way again. Yes, Virginia, a lot of cops really are corrupt. But it never stops there.

Then comes lawyers, Judges, Insurance adjusters/investigators(sic), and a whole bunch of other equally shady characters.

The Devine Color of Money Feb 24 2020 "How far do you go?" That was truck driver, Marvin Casey's question. "How far? Do you chance the love of a good woman? Do you risk your own life?" Marvin gladly takes the job when he is shown the money, he needs the cash so bad just watching Tony Trejo count it made his knees weak and his mouth water. The Lion looks at the needy driver, "Are you sure you want to do this?" The sign read "123 miles to Laredo, Marvin can taste the balance of the money owed to him. The scale house at Mile Marker 119, "the Devine Weigh Station is his last hurdle, "Lord, please, bypass me!" he prays. The trucker looks over to see a Texas D.O.T. Officer sitting at the scale's entrance, the State Trooper and the driver lock eyes just a moment and the officer immediately waives the truck driver in for an inspection. "SHIT!" he yells. "Outlaw!" a voice says over his CB radio, "I believe that "Full Grown is waiving at you!"
