Das Assessment-Center-Verfahren der Eignungsbeurteilung Jan 25 2020 Aus den Besprechungen: "Die beiden ersten Beiträge dieses Sammelbandes aus der Reihe 'Management Forum' führen in Geschichte und Verfahren des Assessment-Center (AC) ein. Es folgen sechs Erfahrungsberichte aus der Praxis, und zwar aus drei Industriebetrieben, zwei Banken und einem Warenhaus, die aus verschiedenen Ländern stammen. Der Tenor ist durchweg positiv. Die weiteren sechs Aufsätze sind Forschungsbeiträge, die sich kritisch mit grundlegenden Vorgängen und Problemen des AC auseinandersetzen (u.a. Anforderungsanalyse, Wahrnehmungs- und Beurteilungsvorgänge, Validitätsaspekte, Umfang der Beurteilungsdimensionen). Vor allem die Ausführungen von Neuberger stehen dabei in erfrischendem Kontrast zu der üblichen positiven Beurteilung in Wissenschaft und Praxis, wenn er die Verknüpfung der Grundannahmen des AC mit den Mythen und Ritualen der unternehmensspezifischen Kultur aufdeckt. Insgesamt bietet dieser Band - nicht zuletzt wegen der gegensätzlichen Positionen - eine

lohnende Lektüre!" (Prof. Dr. H. Klaus) #zfbf 7/8, 1990#1

Konzeption eines Assessment Centers. Der Key Account Manager in der Immobilienverwaltung und im Facility Management Apr 20

2022 Studienarbeit aus dem Jahr 2020 im Fachbereich Psychologie - Wirtschaftspsychologie, Note: 1,0, SRH Fernhochschule, Sprache: Deutsch, Abstract: Im Fokus der Arbeit steht die Konzeption eines Assessment Centers am Beispiel eines Key Account Managers mit Schwerpunkt Immobilienverwaltung und Facility Management. Da die genannte Position auch die Führung von zehn qualifizierten Mitarbeitern, Kundenkontakt sowie weitere fachliche Verantwortung beinhaltet, ist die Position auf der mittleren Managementebene anzusiedeln. Die Methode des Assessment Centers ist geeignet, um die Bewerber ganzheitlich und umfassend praxisorientiert zu betrachten, da der im Rahmen der Durchführung anfallende Zeit- und Kostenaufwand durch mögliche Kosten bei einer Fehlbesetzung zu rechtfertigen ist. Folglich ist das Ziel dieser Arbeit, ein Assessment Center zu entwickeln, das die Auswahl eines möglichst passgenauen Bewerbers gestattet, um die Aufwendungen für einen weiteren Personalbeschaffungsprozess zu umgehen. Dabei sollen persönliche, soziale, methodische und personale Kompetenzen herausgearbeitet werden, die besonders relevant für die zu besetzende Stelle sind. Zur detaillierten Stellenbeschreibung soll ein entsprechendes Anforderungsprofil unter Berücksichtigung der einzelnen Dimensionen erstellt werden. Durch Gegenüberstellung einzelner Verfahren und Instrumente sollen die geeigneten herausgefiltert werden und auf die Dimensionen im Anforderungsprofil übertragen werden. Zur Visualisierung der einzelnen Verfahren und Instrumente wird eine Matrix erstellt, die zur Durchführung des Assessment Centers herangezogen werden kann. Knowledge in Risk Assessment and Management Nov 03 2020 Exciting new developments in risk assessment and management Risk assessment and management is fundamentally founded on the knowledge available on the system or process under consideration. By offering a fresh perspective on risk assessment and management, the book represents a significant contribution to the development of a sturdier foundation for

the practice of risk assessment and for risk-informed decision making. How should K be described and evaluated in risk assessment? How can it be reflected and taken into account in formulating risk management strategies? With the help of numerous case studies and real-world examples, this book answers these and other critical questions at the heart of modern risk assessment, while identifying many practical challenges associated with this explicit framework.
