Questions Are the Answer Mar 09 2021 What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. **Questions Are the Answer** delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.

Learning Swift May 31 2020 Swift is Apple's new programming language and the future of iOS and OS X app development. At its surface, Swift is easy to jump into, but it has complex elements that are critical to becoming proficient at turning an idea into reality. Develop the skills and confidence to dive passionately into creating compelling, maintainable, and elegant apps in Swift. This book provides an approachable, step-by-step introduction into programming with Swift. Each topic is separated into comprehensive sections that are full of practical examples and easy-to-understand explanations. Each section builds on the previous topics to develop a comprehensive understanding of app development in Swift. It begins by giving an overview of the key features with practical examples and progresses to more advanced topics that help differentiate the skillful developers from the mediocre ones. It covers topics, such as variables, optionals, closures, generics, and memory management. In addition, this book also covers the art of programming, such as maintainability, useful design patterns, and resources for furthering your knowledge. This all culminates in writing a basic iOS app that will get you well on your way to turning your own app ideas into a reality.

The CIA as Organized Crime Jul 21 2019 This book provides insight into the paradigmatic approaches evolved by CIA decades ago in Vietnam which remain operational practices today in Afghanistan, El Salvador, Iraq, Syria, Yemen and elsewhere. Valentine's research into CIA activities began when CIA Director William Colby gave him free access to interview CIA officials who had been involved in various aspects of the Phoenix program in South Vietnam. The CIA would rescind it, making every effort to impede publication of The Phoenix Program, which documented the CIA's elaborate system of population surveillance, control, entrapment, imprisonment, torture and assassination in Vietnam. While researching Phoenix, Valentine learned that the CIA allowed opium and heroin to flow from its secret bases in Laos, to generals and politicians on its payroll in South Vietnam. His investigations into this illegal activity focused on the CIA's relationship with the federal drugs agencies mandated by Congress to stop illegal drugs from entering the United States. Based on interviews with senior officials, Valentine wrote two subsequent books, The Strength of the Wolf and The Strength of the Pack, showing how the CIA infiltrated federal drug law enforcement agencies and commandeered their executive management, intelligence and foreign operations staffs in order to ensure that the flow of drugs continues unimpeded to traffickers and foreign officials in its employ. Ultimately, portions of his research materials would be archived at the National Security Archive, Texas Tech University's Vietnam Center, and John Jay College. This book includes excerpts from the above titles along with updated articles and transcripts of interviews on a range of current topics, with a view to shedding light on the systemic dimensions of the CIA's ongoing illegal and extra-legal activities. These terrorism and drug law enforcement articles and interviews illustrate how the CIA's activities impact social and political movements abroad and in the United States. A common theme is the CIA's ability to deceive and propagandize the American public through its impenetrable government-sanctioned shield of official secrecy and plausible deniability. Though investigated by the Church Committee in 1975, CIA praxis then continues to inform CIA praxis now. Valentine tracks its steady infiltration into practices targeting the last population to be subjected to the exigencies of the American empire: the American people.

Talk to Me Jun 24 2022 From respected journalist, professor, and founder of the Writer's Symposium by the Sea, a book that demystifies the art and science of interviewing, in the vein of On Writing Well or How to Read Literature Like a Professor. "Dean Nelson is one of the best interviewers around."—Anne Lamott Interviewing is the single most important way journalists (and doctors, lawyers, social workers, teachers, human resources staff, and, really, all of us) get information. Yet to many, the perfect interview feels more like luck than skill—a rare confluence of rapport, topic, and timing. But the thing is, great interviews aren't the result of serendipity and intuition, but rather the result of careful planning and good journalistic habits. And Dean Nelson is here to show you how to nail the perfect interview every time. Drawing on forty-years of award-winning journalism and his experience as the founder and host of the Writer's Symposium by the Sea, Nelson walks readers through each step of the journey from deciding whom to interview and structuring questions, to the nitty gritty of how to use a recording device and effective note-taking strategies, to the ethical dilemmas of interviewing people you love (and loathe). He also includes case studies of famous interviews to show readers how these principles play out in real time. Chock full of comprehensive, time-tested, gold-standard advice, Talk to Me is an indispensable guide to the subtle art of the interview guaranteed to afford readers with the skills and confidence they need the next time they say, "talk to me."

The Secrets of Picking a College (and Getting In!) Sep 22 2019 Two award-winning professors, a former admissions officer at a major university (now a counselor at a prestigious high school), and a gifted high school senior (now in the throes of the college admissions process himself) team up to offer you over 600 tips, techniques, and strategies to help you get in to the college of your choice. Comprehensive, yet easy-to-read, this book will teach you: How to size up the colleges you're considering—and come up with a coherent list. What are college nights, college fairs, and college rep visits—and how you can use each to your advantage. What are "holistic", "contextualized", and "legacy" admissions—and how each can work for you. How some schools count "demonstrated interest"—and how you can take advantage of this little-known fact. What are Early Decision, Early Action, and Single-Choice Early Action—and whether any is right for you. How to figure out the true costs of college, and what is the difference between "need-" and "merit-based" aid. What it means when colleges say they meet "100% of demonstrated financial aid" and what "loan-free" means. When and how to make campus visits—and what to do on each. How to prepare for each section of the ACT or SAT—and how to increase your scores. What admissions officers are looking for in your application—and how to give it to them. How to write the all-important Common App essay—and present your extra-curricular activities. How to prepare for an alumni interview—and present yourself in the best light. Whom to ask for letters-of-recommendation—and how to help them write the best possible letter. How to compare your final offers—and, in some cases, substantially improve them. When it's good to wait out the "wait list"—and when not. - and much, much more. When you understand the college admissions process, you can maximize your chance of success. Why not put yourself ahead of the pack?

Jetzt Mar 29 2020 Sie lesen jetzt das Wort »jetzt« – und schon ist es vergangen. Das flüchtige Dasein der Gegenwart hat Philosophen und Physiker vor die größten Rätsel gestellt: Was ist die Zeit? Und warum fließt sie? Generationen von Wissenschaftlern haben sich vergeblich um Antworten bemüht, einige haben es aufgegeben. Nicht so Richard A. Muller. Er hat eine Theorie der Zeit aufgestellt, die neu ist und experimentell überprüfbar. Um sie vorzustellen, erklärt er zunächst mit großem Geschick die physikalischen Grundkonzepte wie Relativität, Entropie, Verschränkung, Antimaterie und Urknall. Darauf aufbauend entfaltet er seine provozierend neue Sicht mit all ihren Folgen für die Philosophie oder die Frage nach der Willensfreiheit. Eine kraftvolle und überzeugende Vision für die Lösung des alten Rätsels der Zeit. »Muller hat einen bemerkenswert frischen und aufregenden Ansatz für die Erklärung der Zeit.«

Saul Perlmutter, Physik-Nobelpreisträger »Ein provokatives und gut argumentiertes Buch über die Natur der Zeit.« Lee Smolin

How To Find Your Passion: 23 Questions That Can Change Your Entire Life Jan 27 2020 Discover Your Passion by Asking the Right Questions. Imagine being able to finally find your passion and have complete clarity about what you were meant to do. There is a short-cut to finding your passion and that is asking the right questions. Einstein once said, "If I had an hour to solve a problem and my life depended on the solution, I would spend the first 55 minutes determining the proper question to ask; for once I know the proper question, I could solve the problem in less than five minutes." You may be asking yourself, 'Why should I focus on a question when what I really want is an answer.' It's simple. Answers come from questions and the quality of any answer is directly determined by the quality of the question. Ask the wrong question, get the wrong answer. Ask the right question, get the right answer. In a serendipitous meeting with Billy Ray Cyrus (country music singer and actor), Michelle Kulp discovered her passion simply because Billy Ray asked her the right question at the right time. Until then, she was living life in survival mode, living paycheck-to-paycheck, feeling deeply unfulfilled, purpose-less and passion-less. Within a short time after her meeting with Billy Ray she found the answer she was looking for and her entire life changed! This book is full of life-altering questions designed to uncover your passion and purpose. Here's a sample of what you'll discover in this book: Three tools to connect you to your inner wisdom so you can get the guidance you need. How time on the clock can lead you directly to your passions. The unique ways your energy is giving you hidden messages. How to know when your soul is speaking to you. Ways to break free from all the distractions so you can find your passion. Why going small can help you go big. How negatives contain important messages which can show you how to get to the positives. And so much more! If you're ready to go from confusion to clarity and find your passion now, click the BUY NOW button and take the next step to creating your dream life!
