Teaching Global History Jan 19 2022 This updated edition of Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why. This essential text explains how to organize curriculum around broad social studies concepts and themes, as well as student questions about humanity, history, and the contemporary world. All chapters feature lesson ideas, a sample lesson plan with activity sheets, primary source documents, and helpful charts, graphs, photographs, and maps. This new edition includes connections to the C3 framework, updates throughout to account for the many shifts in global politics, and a new chapter connecting past to present through current events and historical studies in ways that engage students and propel civic activism. Offering an alternative to pre-packaged textbook outlines and materials, this text is a powerful resource for promoting thoughtful reflection and debate on what the global history curriculum should be and how to teach it.

The Handy Military History Answer Book Jul 01 2020 Brutality and fear. Heroism and sacrifice. Military history is a fascinating, complex, and often contradictory subject. War and fighting between tribes, clans, groups and countries has been with us forever. Great leaders, great villains, pivotal moments and events become transformative, causing political, social, and technological upheavals, which were often built on the foundation of war. The Handy Military History Answer Book is a captivating, concise, and convenient look at how the world, the United States, and the lives we lead today have been changed by war and the military. The weapons, leaders, soldiers, battles, tactics, strategies, blunders, technologies, and outcomes are all examined in this powerful primer on the military, its history—and world history. From early Greeks and Romans to Genghis Khan and other great conquering militaries of the past, continuing on through the civil wars and world wars that shaped the boundaries of today's nations, and to the modern weapons, technologies, guerrilla warfare, and terrorism currently reported in the nightly news, this book investigates everything from the smallest miscalculations and maneuvers to the biggest invasions and battles, as well as the cutting-edge technologies and firepower that led to victories and helped change the world. The Handy Military History Answer Book looks at the who, the what, the why, and the how of conflicts throughout history. It answers over 1,100 questions, from the mostly widely asked to the more obscure, such as: Who cast the first stone (of human history)? Who were the "Sea Peoples?" Is there anything to the story of Ancient Troy? Could Alexander the Great have conquered the early Roman Republic? How wealthy would each of Alexander's men been had the treasure at Persepolis been divided? How many Romans lost their lives at the Battle of Cannae? Why did people underestimate Julius Caesar when he was in his thirties? How many men, and auxiliary fighters, were there in a Roman legion? Was the Battle of Actium truly decisive? And what way? Which precious metal did the Vikings prefer above all others? Do we even have his name--Genghis Khan--right? Who employed the composite bow with greater effectiveness: the Arabs or the Turks? Why did Pope Urban II go to central France in 1095? Where did Richard the Lion-Heart get his nickname? Why on earth did Hitler code-name his invasion of Russia for a German emperor who drowned? Who was the greater wit: Voltaire or King Frederick the Great? About whom did King George II remark: "Mad, is he? Well I hope he bites some of my other generals?" What great poet spent years gathering food and wine for the Spanish Armada? What was the price for King Francis' freedom, in 1526? How long did it take to learn how to use the longbow? What was the largest of the cannon brought by the Ottoman Turks to the siege of Constantinople Who took over when Genghis Khan died (after a fall from his horse)? What did the Franciscan monks say when they returned from Karakorum? Was Napoleon really not French? Who won the Battle of the Nile, and how? Where was the world's first submarine deployed? When did George Washington have to alter all his plans: and how did he go about making the change? How many people died at the Siege of Fort Sumter? What was the worst day of the Civil War, in the Far West? When were balloons first deployed in warfare? Where did the name "Uncle Sam" come from? What signals did Paul Revere watch for on the evening of April 18, 1775? What did Rasputin have to say about the approach of the First World War? How close did Hitler come to victory at Moscow in 1941? What ten days decided the outcome of World War II? What was so special about the B-24? When did the Cold War commence? What was the last action of the Yom Kippur War? What role did Colin Powell play in the run-up to war in Iraq?

The Prospect of Global History Mar 29 2020 'The Prospect of Global History' offers a new approach to the study of history, looking at the subject across a greater chronological range and seeking perspectives from sources beyond conventional European narratives.

The Global History Manifesto Mar 09 2021 This book, in a sentence, claims that an ahistorical and ill informed doom and gloom atmosphere in Western public debate threatens to turn into a selffulfilling prophecy, that a new 'Global Optimism Literature' represented by e. g. Hans Rosling and Steven Pinker, based on vast historical sources and social scientific data fortunately intends to correct this misperception, that the also newly emerged sub-discipline of Global History in spite of severe birth diseases could contribute substantially to this mission, and when it all comes down to it: do we have a choice anyway?

A Global History of Runaways Dec 26 2019 During global capitalism's long ascent from 1600–1850, workers of all kinds—slaves, indentured servants, convicts, domestic workers, soldiers, and sailors—repeatedly ran away from their masters and bosses, with profound effects. A Global History of Runaways, edited by Marcus Rediker, Titas Chakraborty, and Matthias van Rossum, compares and connects runaways in the British, Danish, Dutch, French, Mughal, Portuguese, and American empires. Together these essays show how capitalism required vast numbers of mobile workers who would build the foundations of a new economic order. At the same

time, these laborers challenged that order—from the undermining of Danish colonization in the seventeenth century to the igniting of civil war in the United States in the nineteenth.

A Global History of Sexuality Apr 10 2021 A Global History of Sexuality provides a provocative, wide-ranging introduction to the history of sexuality from the late eighteenth century to the present day. Explores what sexuality has meant in the everyday lives of individuals over the last 200 years Organized around four major themes: the formation of sexual identity, the regulation of sexuality by societal norms, the regulation of sexuality by institutions, and the intersection of sexuality with globalization Examines the topic from a comparative, global perspective, with well-chosen case studies to illuminate the broader themes Includes interdisciplinary contributions from prominent historians, sociologists, anthropologists, and sexuality studies scholars Introduces important theoretical concepts in a clear, accessible way

Global History and New Polycentric Approaches Dec 06 2020 This book is open access under a CC BY 4.0 license. Rethinking the ways global history is envisioned and conceptualized in diverse countries such as China, Japan, Mexico or Spain, this collection considers how global issues are connected with our local and national communities. It examines how the discipline had evolved in various historiographies, from Anglo Saxon to southern European, and its emergence in Asia with the rapid development of the Chinese economy motivation to legitimate the current uniqueness of the history and economy of the nation. It contributes to the revitalization of the field of global history in Chinese historiography, which have been dominated by national narratives and promotes a debate to open new venues in which important features such as scholarly mobility, diversity and internationalization are firmly rooted, putting aside national specificities. Dealing with new approaches on the use of empirical data by framing the proper questions and hypotheses and connecting western and eastern sources, this text opens a new forum of discussion on how global history has penetrated in western and eastern historiographies, moving the pivotal axis of analysis from national perspectives to open new venues of global history.

Document-Based Assessment Activities for Global History Classes Aug 26 2022 Covers all significant eras of global history. Encourages students to analyze evidence, documents, and other data to make informed decisions. Develops essential writing skills.

Doing Global History Apr 22 2022 The field of Global History has experienced an unprecedented boom in the last two decades and carved itself deeply into the practice of historical research. Despite this, its conceptual foundations have rarely been explored. This introduction to what Global History is brings together theory and practice with 6 key concepts, delivered through 6 accessible case studies. Re-evaluating the central concerns and key approaches in the field, it offers an up-to-date discussion of the foundations of Global History, its guiding questions, and principal methods 'at work'. Doing Global History offers students valuable insights into the ways general concepts can be used and applied when doing historical research. The 6 concepts- connections, actors, structures, space, time and transit- and their accompanying examples will not only help readers to get a solid grasp of what global history means, but will stimulate further engagement in the field. Wenzhuemer successfully shows that global history is best considered as a perspective, not a theory or paradigm, and guides the reader through ways it can be used in practice to draw new and exciting conclusions. Tailored for classroom and student use, this book will be invaluable to advanced undergraduates and postgraduates of Global History.

Global History und Weltgeschichte Mar 21 2022 Die Globale Geschichte ist seit einem Jahrzehnt ein etablierter Teilbereich der Geschichte. Abkehr vom Eurozentrismus der Forschung und Analyse weltgeschichtlicher Entwicklungen zählt zu ihren Grundforderungen. Allein ein Blick in die wichtigen Geschichtswerke des 20. Jahrhunderts zeigt, dass die historische Forschung sich dieser Fragen und Problemfelder sehr wohl bewusst war. Weltgeschichte erscheint so als ein Vorläufer globalgeschichtlicher Ansätze. Das Buch führt auf anschauliche und beispielhafte Weise in die Modelle und Denkstrukturen der Global History ein und macht durch eine umfassende Analyse deutlich, wie sich die Global History entwickelt hat, was darunter zu verstehen ist und welche Perspektiven sich mit dieser neuen Forschungsrichtung verbinden.

Global History, Globally Jan 07 2021 In recent years historians in many different parts of the world have sought to transnationalize and globalize their perspectives on the past. Despite all these efforts to gain new global historical visions, however, the debates surrounding this movement have remained rather provincial in scope. Global History, Globally addresses this lacuna by surveying the state of global history in different world regions. Divided into three distinct but tightly interweaved sections, the book's chapters provide regional surveys of the practice of global history on all continents, review some of the research in four core fields of global history and consider a number of problems that global historians have contended with in their work. The authors hail from various world regions and are themselves leading global historians. Collectively, they provide an unprecedented survey of what today is the most dynamic field in the discipline of history. As one of the first books to systematically discuss the international dimensions of global historical scholarship and address a wealth of questions emanating from them, Global History, Globally is a must-read book for all students and scholars of global history.

Circulations in the Global History of Art May 23 2022 The project of global art history calls for balanced treatment of artifacts and a unified approach. This volume emphasizes questions of transcultural encounters and exchanges as circulations. It presents a strategy that highlights the processes and connections among cultures, and also responds to the dynamics at work in the current globalized art world. The editors' introduction provides an account of the historical background to this approach to global art history, stresses the inseparable bond of theory and practice, and suggests a reevaluation of materialist historicism as an underlying premise. Individual contributions to the book provide an overview of current reflection and research on issues of circulation in relation to global art history and the globalization of art past and present. They offer a variety of methods and approaches to the treatment of different periods, regions, and objects, surveying both questions of historiography and methodology and presenting individual case studies. An 'Afterword' by James Elkins gives a critique of the present project. The book thus deliberately leaves discussion open, inviting future responses to the large questions it poses.

Debating New Approaches to History Aug 14 2021 With its innovative format, Debating New Approaches to History addresses issues currently at the top of the discipline's theoretical and methodological agenda. In its chapters, leading historians of both older and younger generations from across the Western world and beyond discuss and debate the main problems and challenges that historians are facing today. Each chapter is followed by a critical commentary from another key scholar in the field and the author's response. The volume looks at topics such as the importance and consequences of the 'digital turn' in history (what will history writing be like in a digital age?), the challenge of posthumanist theory for history writing (how do we write the history of non-humans?) and the possibilities of moving beyond traditional sources in history and establishing a dialogue with genetics and neurosciences (what are the perspectives and limits of the so-called 'neurohistory'?). It also revisits older debates in history which remain crucial, such as what the gender approach can offer to historical research or how to write history on a global scale. Debating New Approaches to History does not just provide a useful overview of the new approaches to history it covers, but also offers insights into current historical debates and the process of historical method in the making. It demonstrates how the discipline of history has responded to challenges in society – such as digitalization, globalization and environmental concerns – as well as in humanities and social sciences, such as the 'material turn', 'visual turn' or 'affective turn'. This is a key volume for all students of historiography wanting to keep their finger on the pulse of contemporary thinking in historical research.

Global History And Migrations Feb 26 2020 Humans have been on the move for millennia. They have done so slowly as well as quickly, sometimes involuntarily, sometimes transported by force, often relocated at great cost in lives, but they have always moved. Over the centuries, improved transportation has eased the movement, even in the face of man-made or natural obstacles. But in modern times, migration has accelerated and its reach has become truly global. Whether it is Turkish gastarbeiter in Germany, Japanese Nisei in Seattle, Filipinos in Kuwait, or Haitians in Brooklyn, the costs and benefits of human mobility on such a wide and rapid scale are hotly debated. Global History and Migrations, the second volume of the Global History Series, explores the historical background of this issue by focusing on recent history, a time when human movements have been at their most dynamic. This book provides a rich, cross-cultural foundation for a more enlightened understanding of migration and its role in the unfolding shape of global history.

The End of Diversity in Art Historical Writing Oct 24 2019 The End of Diversity in Art Historical Writing is the most globally informed book on world art history, drawing on research in 76 countries. In addition some chapters have been crowd sourced: posted on the internet for comments, which have been incorporated into the text. It covers the principal accounts of Eurocentrism, center and margins, circulations and atlases of art, decolonial theory, incommensurate cultures, the origins and dissemination of the "October" model, problems of access to resources, models of multiple modernisms, and the emergence of English as the de facto lingua franca of art writing.

Labour-Intensive Industrialization in Global History Oct 04 2020 The prevailing view of industrialization has focussed on technology, capital, entrepreneurship and the institutions that enabled them to be deployed. Labour was often equated with other factors of production, and assigned a relatively passive role. Yet it was labour absorption and the improvement of the quality of labour over the course of several centuries that underscored the timing, pace and quality of global industrialization. While science and technology developed in the West and whereas the use of fossil fuels, especially coal and oil, were vital to this process, the more recent history has been underpinned by the development of comparatively resource- and energy-saving technology, without which the diffusion of industrialization would not have been possible. The labour-intensive, resource-saving path, which emerged in East Asia under the influence of Western technology and institutions, and is diffusing across the world, suggests the most realistic route humans could take for a further diffusion of industrialization, which might respond to the rising expectations of living standards without catastrophic environmental degradation.

Teaching Recent Global History Dec 18 2021 Teaching Recent Global History explores innovative ways to teach world history, beginning with the early 20th century. The authors' unique approach unites historians, social studies teachers, and educational curriculum specialists to offer historically rich, pedagogically innovative, and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history. Highlighting the best scholarship for each major continent, the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students. Each of the eight main chapters highlights a particularly important event or theme, which is then complemented by a detailed discussion of a particular methodological approach. Key features include: • An overarching narrative that helps readers address historical arguments; • Relevant primary documents or artifacts, plus a discussion of a particular historical method well-suited to teaching about them; • Lesson plans suitable for both middle and secondary level classrooms; • Document-based questions and short bibliographies for further research on the topic. This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students.

A Global History of the Twentieth Century Jun 12 2021 In this volume, a distinguished group of scholars examine the national experiences of six major twentieth-century powers-- the United States, Japan, Turkey, China, India and Germany—to discern the centuries' legacies for today and the lessons for tomorrow. They explore core themes including anticolonialism, democracy, socialism, nationalism, industrialization, nuclear weapons, and globalization and provide their own personal interpretations of the century, as well as their respective nation's experiences and historical memory of the era. Together, they provide a broad historical context of the forces that shaped the twentieth century that will be of interest to scholars and students of history as well as policymakers.

Firearms Nov 05 2020 This book is a history of firearms across the world from the 1100s up to the 1700s, from the time of their invention in China to the time when European firearms had become clearly superior. It asks why it was the Europeans who perfected firearms when it was the Chinese who had invented them, but it answers this question by looking at how firearms were used throughout the world.

Reviewing Global History and Geography Aug 02 2020 This book is intended to serve as an intensive review to prepare students to master the mandated New York State Regents examination.

A Global History of Modern Historiography Nov 24 2019 So far histories of historiography have concentrated almost exclusively on the West. This is the first book to offer a history of modern historiography from a global perspective. Tracing the transformation of historical writings over the past two and half centuries, the book portrays the transformation of historical writings under the effect of professionalization, which served as a model not only for Western but also for much of non-Western historical studies. At the same time it critically examines the reactions in post-modern and post-colonial thought to established conceptions of scientific historiography. A main theme of the book is how historians in the non-Western world not only adopted or adapted Western ideas, but also explored different approaches rooted in their own cultures.

Agricultural and Pastoral Societies in Ancient and Classical History Nov 17 2021 Introduces readers to the cross-cultural study of ancient and classical civilizations. The book is divided into two sections, the first examining the ongoing interaction between ancient agrarian and nomadic societies and the second focusing on regional patterns in the dissemination of ideas.

Globalization and Global History Sep 15 2021 Globalization and Global History argues that globalization is not an exotic and new phenomenon. Instead it emphasizes that globalization is something that has been with us as long as there have been people who are both interdependent and aware of that fact. Studying globalization from the vantage point of long-term global history permits theoretical and empirical investigation, allowing the authors collected to assess the extent of ongoing transformations and to compare them to earlier iterations. With this historical advantage, the extent of ongoing changes - which previously appeared unprecedented - can be contrasted to similar episodes in the past. The book is divided into three sections. The first focuses on how globalization has been written about from a historical perspective. The second part advances three different takes on how best to view globalization from a very long-term stance. The final section continues this interpretative thread by examining more narrow aspects of globalization processes, ranging from incorporation processes to systemic disruptions.

Champagne Jun 19 2019 From the smash of a bottle on the side of a new ship to the pop of the cork at a New Year's Eve party champagne signals celebration, fun, and camaraderie all over the world. Bubbly, as we affectionately call it, is a symbol of luxury and decadence and the go-to drink whenever there is an important toast. This history from Becky Sue Epstein is a celebration of the world's most celebratory drink. Here, Epstein chronicles champagne's story, from the world's first sparkling wine,

produced in Limoux, Languedoc, in 1531 by monks at an abbey in Saint-Hilaire to the celebrities who made champagnes famous and continue to do so today— from Dom Perignon to the widow Veuve Cliquot. Most important, Epstein fully explains the distinction between champagne and sparkling wine. In this informative chronicle, she answers whether French champagne is really better than other sparkling wines and elucidates the science behind that characteristic fizz and bubble. She takes the reader on a tour of vineyards in wine regions around the world and teaches the correct techniques for storing and serving champagne and sparkling wines. Whether you prefer magnums of Cristal or the affordable thrill of Cold Duck, Champagne is an invaluable complement to any bubbly glass and an informative, elegant gift for connoisseurs, beginners, and wine lovers of all kinds.

The Global History of Paleopathology Jan 27 2020 The first comprehensive global history of the discipline of paleopathology

Explorations in History and Globalization Jul 13 2021 Considering the ways in which the 'global turn' is changing the theory and practice of historical disciplines, *Explorations in History and Globalization* engages with the concept and methodology of globalization, challenging traditional divisions of space and time to offer a range of perspectives on how globalization has affected social, economic, political and cultural history. Each chapter covers a specific theme, discussing how globalization has shaped these themes and how they have contributed to globalization throughout history. Including topics such as ecological exchanges, trade, exchanges of knowledge, migration, empire and urbanization, this volume both explains historical trajectories through a global analytical framework and provides tools that students can employ when posing their own research questions about historical globalization. Containing suggestions for further reading and guidance on the ways in which primary source material can be used as a basis for global historical studies, this is the ideal volume for all students interested in the global exchanges between people throughout history.

What Is Global History? May 31 2020 The first comprehensive overview of the innovative new discipline of global history Until very recently, historians have looked at the past with the tools of the nineteenth century. But globalization has fundamentally altered our ways of knowing, and it is no longer possible to study nations in isolation or to understand world history as emanating from the West. This book reveals why the discipline of global history has emerged as the most dynamic and innovative field in history—one that takes the connectedness of the world as its point of departure, and that poses a fundamental challenge to the premises and methods of history as we know it. *What Is Global History?* provides a comprehensive overview of this exciting new approach to history. The book addresses some of the biggest questions the discipline will face in the twenty-first century: How does global history differ from other interpretations of world history? How do we write a global history that is not Eurocentric yet does not fall into the trap of creating new centrism? How can historians compare different societies and establish compatibility across space? What are the politics of global history? This in-depth and accessible book also explores the limits of the new paradigm and even its dangers, the question of whom global history should be written for, and much more. Written by a leading expert in the field, *What Is Global History?* shows how, by understanding the world's past as an integrated whole, historians can remap the terrain of their discipline for our globalized present.
