**The Little Book of Talk** Nov 28 2019 Identified as one of the three prime areas of learning in the EYFS 2014, communication and language is high on the agenda of head teachers and leaders in all Early Years and school settings. Speech and 'talk' are at the centre of this requirement, and children are required to meet an expected level in order to be identified as having reached a 'good level of development'. Talk is the precursor to both reading and writing. Essentially, if children have nothing to speak about, they have nothing to write about! The best way for children to enhance their receptive vocabulary (the words they understand) and their expressive vocabulary (the words they use) is by being surrounded by adults who talk and listen to them! Adults should engage children by observing them, tuning into their passions, getting involved in their play and using their interests to trigger their curiosity and therefore form a springboard for learning. This Little Book is packed with lots of low-budget ideas, activities and experiences that will enhance and enrich children's learning journeys through talk!

Some don't even educate themselves at all. This is a disaster waiting to happen. Success will not come. Just like most entrepreneurs, I didn't go to university to study business. During my early years forming my start-up businesses, I struggled immensely with fully understanding business lingo and key terminology. There's nothing more embarrassing than not knowing key business terminology, not being able to express yourself professionally in business meetings or negotiations, not knowing the correct language to use at crucial turning points and still thinking you're a 'business owner'. I sought understanding and the appropriate knowledge needed to become a professional. I took business very seriously; if I wanted to be successful, I would need all the advantages I could get. I wanted to fix my intellectual blind spots, as I knew this was an advantage my competitors had over me. As an entrepreneur, we are problem solvers, right? So, I slowly built a mind map of all the business phrases that kept creeping up in conversations, meetings, podcasts and online courses. Business Vocabulary will enable you to...
