Ethics from a Theocentric Perspective, Volume 1 Mar 09 2021 "Ethics from a Theocentric Perspective will surprise some, shock others, and unleash a flood of speculation about what has happened to James Gustafson. The answer quite simply is nothing has happened to Gustafson except that he has now turned his attention to developing his constructive theological position, and we should all be very glad. . . . In this, the first of two volumes, Gustafson displays his colors as a constructive theologian, and they are indeed brilliant and splendid. . . . Though Gustafson is a theologian who works in the Christian tradition, he reminds us that the God Christians worship is not merely the Christian God. For Gustafson the kind of God who is the object of the theologians's reflection eludes or surpasses the inevitably confessional activity of Christian theological reflection. Thus Gustafson, the constructive theologian, is also Gustafson the revisionist theologian who takes as his task nothing less than challenging the anthropocentrism that he alleges characterizes mainstream Western Christian theology."—Stanley Hauerwas, *Journal of Religion*

Paul's Offer of Leniency (2 Cor 10:1) Mar 21 2022 Donald Dale Walker examines one of Paul's most rhetorically dramatic texts in order to reveal how it relies on the commonplace ideas and argumentative strategies of the Hellenistic world. As a result, the reader can see how the apostle invented his ideas and appreciate how inextricably Paul's mission was wrapped up in the world in which he lived.

Constructing Paul (The Canonical Paul, vol. 1) Feb 20 2022 First of a two-volume work providing a framework for understanding the life and thought of the apostle Paul In this methodological tour de force, Luke Timothy Johnson offers an articulate, clear, and thought-provoking portrait of the life and thought of the apostle Paul. Drawing upon recent developments in the study of Paul, Johnson offers readers an invitation to the Apostle Paul. Rather than focusing on a few of Paul's letters, Johnson lays out the materials necessary to envision the apostle from the thirteen canonical letters of Paul and the Acts of the Apostles. Constructing Paul thus provides a framework within which an engagement with Paul's letters can take place. Johnson demonstrates the possibility of doing responsible and creative work across the canonical collection without sacrificing literary or

historical integrity. By bringing out the facets of the apostle from the canonical evidence, Johnson shows the possibilities for further and better inquiry into the life and thought of Paul. This first volume imagines a plausible biography for Paul and serves as an introduction to the studies in the second volume. Constructing Paul addresses all the pertinent questions related to the study of Paul. Johnson uses the canonical material as building blocks to make a case for why Paul ought to be heard today as a liberating rather than oppressing voice.

Paul Among the Gentiles: A "Radical" Reading of Romans Feb 26 2020 This exciting new interpretation of Paul's Letter to the Romans approaches Paul's most famous letter from one of the newest scholarly positions within Pauline Studies: The Radical New Perspective on Paul (also known as Paul within Judaism). As a point of departure, the author takes Paul's self-designation in 11:13 as apostle to the gentiles as so determining for Paul's mission that the audience of the letter is perceived to be exclusively gentile. The study finds confirmation of this reading-strategy in the letter's construction of the interlocutor from chapter 2 onwards. Even in 2:17, where Paul describes the interlocutor as someone who calls himself a Jew, it requests to perceive this person as a gentile who presents himself as a Jew and not an ethnic Jew. If the interlocutor is perceived in this way throughout the letter, the dialogue between Paul and the interlocutor can be perceived as a continuous, unified and developing dialogue. In this way, this interpretation of Romans sketches out a position against a more disparate and fragmentary interpretation of Romans.

The McCartney Legacy Nov 24 2019 Set against the backdrop of the Beatles splintering over both business and creative issues, *The McCartney Legacy: Volume 1: 1969-73* covers a period in which Paul McCartney recreated himself, both as a man and as a musician. This is an in-depth and revealing exploration of his creative life beyond the Beatles--featuring hundreds of interviews with fellow musicians, tour managers, recording engineers, producers, filmmakers, and more. The story of the Beatles has been told many times, covering all periods and perspectives. Paul McCartney's work in the 50 years since the Fab Four's breakup has been extraordinarily successful and enduringly popular--his 26 post-Beatles albums have sold upwards of 86.5 million copies; McCartney's 2019 *Freshen Up* tour was the highest grossing tour ever, in the entire world; and his last solo album *McCartney III* debuted at number one on the UK Albums Chart and number two on *Billboard 200*. Beside his extraordinary, creative solo output, he has collaborated with the most influential artists of his generation and the next: from Elvis Costello to Stevie Wonder, from Michael Jackson to Dave Grohl, even with Johnny Cash and Kanye West. McCartney, too, has explored new poetry styles with Allen Ginsburg and teamed up with Peter Martins and the NYC Ballet to create *Ocean's Kingdom*. The list goes on from there. And he has done all this post-Beatles and while maintaining a mostly normal family life. Paul McCartney has lived ten lifetimes in

the span of one and become increasingly more relevant, yet curiously, his creative output since the Beatles has never had the full exploration such a life and body of work demands. The McCartney Legacy gives McCartney's post-Beatles life and work the kind of in-depth treatment that Mark Lewisohn has given the Beatles, and Philip Norman has given John Lennon. It is the first truly comprehensive biography, and the most finely detailed exploration of McCartney's creative life beyond the Beatles, ever undertaken.

Spirit Growth Volume 1 Nov 05 2020 Through poetry, prayer and its answers, sermon notes, Bible study, and quiet time in communion with God, Gibbs describes his life in Christ. (Christian)

A History of Modern Aesthetics: Volume 1, The Eighteenth Century Feb 08 2021
Volume I: The development of aesthetics was one of the great accomplishments of eighteenth-century philosophy, as the classical conception of aesthetic experience as a form of knowledge came under pressure from increasing recognition of the emotional impact of art and from increasing emphasis on the value of freedom in the moral and political thought of the century. This opening volume of A History of Modern Aesthetics recounts how philosophers in Britain, France, and Germany developed these new approaches and searched for ways to combine them with the cognitivism of traditional aesthetics. A History of Modern Aesthetics narrates the history of philosophical aesthetics from the beginning of the eighteenth century through the twentieth century. Aesthetics began with Aristotle's defense of the cognitive value of tragedy in response to Plato's famous attack on the arts in The Republic, and cognitivist accounts of aesthetic experience have been central to the field ever since. But in the eighteenth century, two new ideas were introduced: that aesthetic experience is important because of emotional impact - precisely what Plato criticized - and because it is a pleasurable free play of many or all of our mental powers. This book tells how these ideas have been synthesized or separated by both the best-known and lesser-known aestheticians of modern times, focusing on Britain, France, and Germany in the eighteenth century; Germany and Britain in the nineteenth; and Germany, Britain, and the United States in the twentieth.

On Having Never Left May 23 2022 Written renditions, capturing bursts of verbal jazz, echoing a theme of non-duality and whispers of 'seemingly so'. Random notes of this and that; everything and nothing; stirring imaginary rantings, building to a crescendo of 'not two', neither me nor you.

Reading Corinthians and Philipians within Judaism Jun 12 2021 The commentary tradition regarding 1 Corinthians unanimously identifies the "weak" as Christ-followers whose faith was not yet sufficient to indulge in the eating of idol food with indifference, as if ideally Paul wanted them to become "strong" enough to do so. Commentaries also do not hesitate to explain that Paul advised the Corinthians that he behaved like non-Jews (e.g., ate idol food) in order to win non-Jews to Christ, convinced that he was free from any obligation to observe Jewish covenantal behavior--except when he expediently chose to mimic Jewish behavior in order to win Jews to Christ. Similarly, commentators continue to conclude that in Philipians Paul called Jews "dogs" for upholding the value of undertaking circumcision, and that he renounced such identification as "mutilation." None of these interpretations likely represent what Paul meant originally, according to Nanos. Each essay explains why, and provides new alternatives for re-reading Paul's language "within Judaism." In this process, Nanos combines investigations of relevant elements from Jewish sources and from various Cynic and other Greco-Roman contemporaries, as well as the New Testament.

The Economics of the Global Defence Industry May 11 2021 This book makes an original contribution to our knowledge of the world's major defence industries. Experts from a wide range of different countries – from the major economies of North America and Western Europe to developing economies and some unique cases such as China, India, Singapore, South Africa and North Korea – describe and analyse the structure, conduct and performance of the defence industry in that country. Each chapter opens with statistics on a key nation's defence spending, its spending on defence R&D and on procurement over the period 1980 to 2017, allowing for an analysis of industry changes following the end of the Cold War. After the facts of each industry, the authors describe and analyse the structure, conduct and performance of the industry. The analysis of 'structure' includes discussions of entry conditions, domestic monopoly/oligopoly structures and opportunities for competition. The section on 'conduct' analyses price/non-price competition, including private and state funded R&D, and 'performance' incorporates profitability, imports and exports together with spin-offs and technical progress. The conclusion explores the future prospects for each nation's defence industry. Do defence industries have a future? What might the future defence firm and industry look like in 50 years' time? This volume is a vital resource and reference for anyone interested in defence economics, industrial economics, international relations, strategic studies and public procurement.

Classics in Translation, Volume I Dec 06 2020 Here, translated into modern idiom, are many works of the authors whose ideas have constituted the mainstream of classical thought. This volume of new translations was born of necessity, to answer the needs of a course in Greek and Roman culture offered by the Department of Integrated Liberal Studies at the University of Wisconsin. Since its

original publication in 1952, Classics in Translation has been adopted by many different academic institutions to fill similar needs of their undergraduate students. This new printing is further evidence of this collection's general acceptance by teachers, students, and the reviewing critics.

Collected Works of Paul Valéry - Poems Jan 07 2021 Poems ranging from "La Jeune Parque" and "Le Cimetière marin" to occasional and light verse written as letters to friends, dedications in books, and inscriptions on ladies' fans demonstrate the wide scope of Valéry's lyric preoccupation. The bilingual edition, with David Paul's English translations facing the French texts, includes the autobiographical "Recollection," quoted below, and excerpts on poetry, selected and translated from Valéry's notebooks by James Lawler. Paul Valéry turned to the discipline of poetry during the First World War, to escape from the "commotion of a world gone mad." "I fashioned myself a poetry," he wrote, "that had no other law than to establish for me a way of living with myself, for a part of my days." Originally published in 1971. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Foucault and Fiction Dec 26 2019 Foucault and Fiction develops a unique approach to thinking about the power of literature by drawing upon the often neglected concept of experience in Foucault's work. For Foucault, an 'experience book' is a book which transforms our experience by acting on us in a direct and unsettling way. Timothy O'Leary develops and applies this concept to literary texts. Starting from the premise that works of literature are capable of having a

profound effect on their audiences, he suggests a way of understanding how these effects are produced. Offering extended analyses of Irish writers such as Swift, Joyce, Beckett, Friel and Heaney, O'Leary draws on Foucault's concept of experience as well as the work of Dewey, Gadamer, and Deleuze and Guattari. Combining these resources, he proposes a new approach to the ethics of literature. Of interest to readers in both philosophy and literary studies, this book offers new insights into Foucault's mature philosophy and an improved understanding of what it is to read and be affected by a work of fiction.

The Theology of Saint Paul, Volume 1 Sep 27 2022

Paul's Epistle to the Romans Volume 1 May 31 2020 Commentary on Paul's Epistle to the Romans. Vol 1 includes commentary on chapters 18, and the forthcoming vol 2 will have commentary on chapters 9-16. Written from a Torah perspective, this commentary views Paul's theology as in harmony with the Torah, not as contradictory to it. This is a verse-by-verse commentary utilizing the Greek text (though written for the English reader), with judicious use of rabbinic materials as they illuminate the text.

Jesus, Paul and Matthew, Volume Two Apr 22 2022 This book is the second of two volumes which reflect on the trend in biblical scholarship that contrasts the vision of the historical Jesus with that of the apostle Paul, on the one hand, and the vision of Paul with that of the evangelist Matthew, on the other. It argues that Jesus replaced the concept of 'politics of holiness' with that of 'politics of compassion'. This means that the church as a community of Jesus-followers forms a fictive family, replacing a soteriology grounded in the biological family. God's adoption of people as 'God's children' is based on the potential of people to absorb the divine into their humanity. This truism is to be found in the visions shared by the peasant Jesus, the apostle Paul and the rabbi Matthew, as well as in creedal Christianity. The book concludes with autobiographical reflective notes, analogous to the parabolic story of the travellers to Emmaus from Jerusalem (Luke 24) and that of the African eunuch (Acts 8) on his way back from Jerusalem to Africa. The notes serve to consolidate the two volumes on Jesus, Paul and Matthew and their messages of God's wisdom, justice and mercy.

Concrete Volume 1: Depths Jan 19 2022 Part man, part...rock? Over seven feet tall

and weighing over a thousand pounds, he is known as Concrete but is in reality the mind of one Ronald Lithgow, trapped inside a shell of stone, a body that allows him to walk unaided on the ocean's floor or survive the crush of a thousand tons of rubble in a collapsed mineshaft...but prevents him from feeling the touch of a human hand. These stories of Concrete are as rich and satisfying as any in comics: funny, heartbreaking, and singularly human. Depths, the first in a series of collections reprinting the classic early Concrete stories along with never-before-collected short stories, includes the Eisner-nominated "Orange Glow" and "Vagabond," Paul Chadwick's autobiographical account of a cross-country hitchhiking trip. • "Probably the best comic being published today by anyone, anywhere."—Harlan Ellison • Paul Chadwick's Concrete has won five Eisner Awards and three Harvey Awards. • One of GQ's "20 Graphic Novels You Should Read."

The Law, the Covenant and God's Plan Apr 10 2021

Theology and Technology, Volume 1 Mar 29 2020 Originally published nearly forty years ago as a spiritual successor to Carl Mitcham and Robert Mackey's Philosophy and Technology, the essays collected in the two volumes of Theology and Technology span an array of theological attitudes and perspectives providing sufficient material for careful reflection and engagement. The first volume offers five general attitudes toward technology based off of H. Richard Niebuhr's five ideal types in Christ and Culture. The second volume includes biblical, historical, and modern theological engagements with the place of technology in the Christian life. This ecumenical collection ranges from authors who enthusiastically support technological development to those cynical of technique and engages the Christian tradition from the church fathers to recent theologians like Bernard Lonergan and Jacques Ellul. Taken together, these essays, some reproductions of earlier work and others original for this project, provide any student of theology a fitting entrée into considering the place of technology in the realm of the sacred.

Steaming Volume Six Aug 02 2020 Alas, the Steaming series is coming to an end. This will be the second to last volume. This edition contains letters from 6/27/06 to 6/1/08. As you can see, the frequency of correspondence is now starting to greatly diminish. I didn't know it then but the KP Site was starting to take on water. Technology was rapidly advancing and it was leaving me behind. Hell, I was still editing my webpages the old-fashioned way, using a 1999 version of Microsoft Frontpage. This dog was too old to learn new tricks and it was starting to show. I love the letters in Volume 6. They're about people I knew and loved, places I knew and loved, and the special times I had with these people in those places. Almost everyone from my era is now present and accounted for and most agree they remember only the good times. Even veterans of the Newport News overhaul seem less jaded. Time had finally softened the Norfolk nightmare. Could it be that even the Y2K gang was becoming sentimental too? It sure seemed that way. The Big E's

last generation of nukes and engineers were reporting aboard during this era of correspondence. These yarns (and the ones that had been coming in for six years) were now required reading. The KP Site was a poorly kept secret. Even the scrambled-egg-on-the-hat types were secretly lurking. A tale uploaded one day was discussed the next down in the plants, up in the wardrooms, and even in some remote NAVSEA office. We 1960s, 1970s, 1980s, and 1990s old salts might not have contributed much to overall plant safety, but we certainly inspired many a 3rd Class Petty Officer to accept his or her lot in life and strive to be noteworthy on a ship that had a history like no other. Grandfathers, fathers, and now sons and daughters could brag that they steamed on the mighty Enterprise. No other ship of the line had sailors that loved their home more. How could that be? The Big E was a genuine shitshow. Everything was FUBAR. HP-tape and J-B Weld held most of it together. There wasn't even a supply chain that could help anymore. But yet, everyone did their job and did it better than any other snipe or twidget in the fleet. They understood they were part of a legend. They knew it would actually mean something to have served on the Carrier with Class. Sadly, her time is up. Sure, another ship will call herself Enterprise, but that one-immaculate, sleek, pristine, state of the art-could never be as special. What made the CVN 65 unique was her crew, not her labyrinth of machines. No other ship in the world had men and women serving with such pride.

The Apostles in Plain English Volume 1: the Apostle Paul Aug 26 2022 Five years in the making, this first of a series is a lot more than just a compilation of Bible studies. This collection of Paul's writings presents them from broader perspectives that are much more applicable to modern life than one might expect. Each study is limited to a few pages for the sake of brevity. These studies are done from a whole new 21st century perspective that is sure to educate while making the process enjoyable. Over 550 pages of enlightenment! A must-read for believers, whether they attend church or not! An inspirational guide for secular folks too!
