Structural Firefighting: Strategy and Tactics Nov 06 2020 The fourth edition of *Structural Firefighting: Strategy and Tactics* meets and exceeds the course objectives and outcomes for the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) non-core course, *Strategy and Tactics* (C0279). *Structural Firefighting: Strategy and Tactics* prepares the fire officer to take command at structure fires, effectively using available resources. The goal of this text is to explain proven tactics and strategies used at structure fires. It is designed to be used by all fire officers, from company officer to chief of department. The Fourth Edition provides the necessary tools to achieve maximum productivity under adverse fireground conditions. It references NFPA fire investigations, applicable NFPA statistics and standards, the NIOSH Firefighter Fatality Investigation and Prevention Program, and the Technical Report Series from the U.S. Fire Administration. It has been expanded to include information from recent studies by the National Institute of Standards and Technology (NIST), Underwriters Laboratories (UL), and others. The Fourth Edition contains new content on integration of initial rapid intervention crews, updated content on vent-enter-isolate-search tactics, and more, while continuing to emphasize the role of preincident planning and command decisions that maximize life safety, extinguishment, and property conservation. A multitude of case studies, incident summaries, and extensive end-of-chapter activities promote application of chapter content and critical thinking skills. This text allows a company officer or incident commander to learn fireground procedures at an accelerated pace, thus reducing the cost in lives and property associated with learning by experience only. The Fourth Edition also includes: New and significantly expanded, in-depth Suggested Activities that challenge the reader to apply the strategies and tactics presented in each chapter Incident Summaries that summarize real fireground events and lessons learned Fallacy/Fact boxes that defuse myths and clarify the facts Updated statistics on significant fires in various occupancy types Safety and strategy tips throughout each chapter
