Demarketing Apr 01 2020 We all understand the basic principles underpinning marketing activity: to identify unfulfilled needs and desires and boost demand for the solutions a product is offering. The mantra is always "sell more". De-marketing tries for the very opposite. Why would a company actively try to decrease demand? There are many good reasons to do so: a firm cannot supply large enough quantities, or wants to limit supply to a region of narrow profit margin. Or, crucially, to discourage undesirable customers: those that could be bad for brand reputation, or in the case of the finance sector, high risk. De-marketing can yield effective solutions to these issues, effectively curtailing demand yet (crucially) not destroying it. Nevertheless, the fundamental negativity of de-marketing strategies often causes organisations to hide them from view and, as a result, they are rarely studied. This then is the first book to cast light on the secretive, counterintuitive world of de-marketing, deconstructing its mysteries and demonstrating how to incorporate them into a profit-driven marketing plan. A selection of thought leaders in strategic marketing mix theory with illustrative global cases, providing insight into how these strategies have been employed in practice and measuring their successes and failures. It 's a must-read for any student or researcher that wants to think differently about marketing.

Science between Europe and Asia Jul 25 2019 This book explores the various historical and cultural aspects of scientific, medical and technical exchanges that occurred between central Europe and Asia. A number of papers investigate the printing, gunpowder, guncasting, shipbuilding, metallurgical and drilling technologies while others deal with mapping techniques, the adoption of written calculation and mechanical clocks as well as the use of medical techniques such as pulse taking and electrotherapy. While human mobility played a significant role in the exchange of knowledge,

translating European books into local languages helped the introduction of new knowledge in mathematical, physical and natural sciences from central Europe to its periphery and to the Middle East and Asian cultures. The book argues that the process of transmission of knowledge whether theoretical or practical was not a simple and one-way process from the donor to the receiver as it is often admitted, but a multi-dimensional and complex cultural process of selection and transformation where ancient scientific and local traditions and elements. The book explores the issue from a different geopolitical perspective, namely not focusing on a singular recipient and several points of distribution, namely the metropolitan centres of science, medicine, and technology, but on regions that are both recipients and distributors and provides new perspectives based on newly investigated material for historical studies on the cross scientific exchanges between different parts of the world.

Mañana es San Perón Oct 08 2020 The regime of Juan Perón is one of the most studied topics of Argentina's contemporary history. This new book—an English translation of a highly popular, critically acclaimed Spanish language edition—provides a new perspective on the intriguing Argentinian leader. Mariano Plotkin's cultural approach makes Perón's popularity understandable because it goes beyond Perón's charismatic appeal and analyzes the Perónist mechanisms used to generate political consent and mass mobilization. Mañana es San Perón is the first book to focus on the cultural and symbolic dimensions of Perónism and populism. Plotkin also presents important material for the study of populism and the modern state in this region. Mañana es San Perón explores the creation of myths, symbols, and rituals which constituted the Perónist political imagery. This political imagery was not designed to reinforce the legitimacy of a political system defined in abstract terms, but to assure the undisputed loyalty of different sectors of society to the Perónist government and to Perón himself. The evolution of the institutional framework that made the creation of this symbolic apparatus possible is also discussed. This well-researched book shows the methods designed by the Perónist regime to broaden its social base through the incorporation and activation of groups which had traditionally occupied a marginalized position within the political system—non-union workers, women, and the poor. Plotkin investigates how Perón used the education system to build his popularity. He examines the public assistance programs financed through the Eva Perón Foundation, and demonstrates how they were used to politicize women for the first time. He explains how Eva Perón and the Perónist regime not only tried to gain the support of women as voters but also as potential 'missionaries' who would spread the Perónist word in the privacy of their homes. This well-written and engaging account of one of Latin America's most colorful and appealing leaders is an excellent resource on Argentina and Latin American history and politics.

An Annotated Catalogue of the Edward C. Atwater Collection of American Popular Medicine and Health Reform: A-L May 15 2021 This is a catalogue of the Edward C. Atwater Collection of rare books dealing with popular medicine in early America which is housed at the University of Rochester Medical School library. The books described in the catalogue were written by physicians and other professionals to provide information for the non-medical audience. The books taught human anatomy, hygiene, temperance and diet, how to maintain health, and how to cope with illness especially when no professional help was available. The books promoted a healthy lifestyle for the readers, giving guidance on everything from physical fitness and recreation to the special health needs of women. The collection consists of works dealing with reproduction [from birth control to delivering and caring for a baby], venereal disease, home-nursing, epidemics, and the need for public sex education. These books, covering areas largely ignored by the medical profession, made important contributions to the health of the American public, and the collection is a vital piece of medical history. The collector is Edward C. Atwater, Professor Emeritus of Medicine and the History of Medicine at the University of Rochester Medical School. Christopher Hoolihan is History of Medicine Librarian at the University of Rochester Medical School's Edward G. Miner Library.

Everyone ' s Guide to the South African Economy (13th edition) Mar 25 2022 Recession, inflation, interest rates, income tax, exchange rates ... We are bombarded with these terms every day - by newspapers, the radio, TV and the internet - but what do they actually mean? And how do they impact on you? In this updated edition of Everyone ' s Guide to the South African Economy, all these issues - and more - are addressed. The book clearly explains and evaluates a wide range of economic occurrences - from the budget and the rand/dollar exchange rate to the balance of payments and the role of the South African Reserve Bank. The book investigates the causes and consequences of the 2008/2009 global financial and economic crisis, looks at the sub-Saharan African economy, and explores human development issues in South Africa and their implications for policy-making. If you are baffled by the specialised jargon of economists and bankers and want to know more about the economic forces that subtly dictate your day-to-day existence, Everyone ' s Guide to the South African Economy will put you in the picture. This is essential reading for every South African consumer and taxpayer. Economics, after all, is too important to be left to economists.

New Testament Textual Criticism and Exegesis Apr 13 2021 For many years, Professor Joel Delobel has served as a member of the Department of Biblical Studies of the Faculty of Theology, K.U. Leuven (1969-2001). His research has tended to focus on Luke-Acts, Pauline Literature and especially Textual Criticism (he is a member of Das Institut für Neutestamentliche Textforschung, Münster). His friends and colleagues in the Department of Biblical Studies of the Faculty of Theology and elsewhere have honoured him with a Festschrift on the occasion of his retirement. The congratulatory volume deals with an issue that is dear to him: the mutual link between textual criticism and exegesis, which he himself once referred to as the 'Siamese twins'. A number of international scholars in the field of

textual criticism have treated different aspects of this relationship. Some contributions are of a more general nature: B. Aland deals with the criteria used to judge the value of smaller New Testament Papyrus fragments, J. Lust compares the textual critical investigation of the Old Testament to that of the New, W.L. Petersen studies the earliest form of the text of the Gospel. Other contributions are related to a specific text: Mt 21,28-32 (J.K. Elliott); Mk 16,8 (C. Focant); Lk 7,42b (T. Baarda); Lk 22, 43-44 (C.M. Tuckett); Lk 24,12 (F. Neiryneck); Jn 4,1 (G. Van Belle); Jn 12,31 (M.-E. Boismard); Jn 16,13 (R. Bieringer); Acts 15,20.29; 21,25 (C.-B. Amphoux); Rom 16,7 (E.J. Epp); Rom 16,25-27 (R.F. Collins); 1 Cor 2,1 (V. Koperski); The Epistle of James (D.C. Parker); Rev 13,9-10 (J. Lambrecht) and Rev 13,18 (J.N. Birdsall); J. Verheyden deals with the New Testament text in the 2nd Century, more specifically in the writings of Justin.

Handbook of Teaching for Physical Therapists - E-Book Mar 01 2020 Whether you are practicing in an in-patient or an out-patient facility, academic institution, or clinical residency program, this well-respected handbook gives you the background and guidance you need to effectively educate individuals across the continuum of physical therapy practice. Practical, real-life examples show you how to: incorporate health literacy and needs of the learner; assess and adapt to the various learning styles of patients; use simulations in education; facilitate the development of clinical reasoning skills; and assess learning outcomes and the effectiveness of your teaching. Plus, four all-new chapters and major revisions of all content throughout the book keep you on top of the latest research and best practices. Coverage of the theory and application of educational principles across the continuum of PT practice provides the information you need to improve your skills in the educational process both in academic and clinical settings. Two section format divides content into two parts: designing academic and clinical education programs and teaching students in academic and clinical settings; and teaching patients and families in clinical and community settings. Variety of teaching and teaching assessment methods expands your teaching, learning, and assessment repertoires. Case stories at the beginning of

each chapter allow you to see the relevance of the information in the chapter. Threshold concepts highlight key ideas that are important to know. Annotated bibliography at end of each chapter provides resources for further study. NEW! Chapter on Authentic Assessment: Simulation-Based Education reflects the new ways to facilitate student learning through the use of human simulation models. NEW! Chapter on Strategies for Planning and Implementing Interprofessional Education covers the fundamental concepts of team-based care and interprofessional learning. NEW! Chapter on What Makes a Good Clinical Teacher? translates current research on clinical teaching into clinical education and practice. NEW! Chapter on Facilitating the Teaching and Learning of Clinical Reasoning helps you apply current research on clinical reasoning in rehabilitation to clinical education and teaching. NEW! Two combined chapters on Patient Education and Health Literacy (previously chapters 8 and 12) and Applied Behavioral Theory and Adherence: Models for Practice (previously chapters 9 and 10) provide focused presentations on current thinking and practical strategies for addressing health literacy issues in the clinical environment. NEW! Expanded chapter on Post-Professional Clinical Residency and Fellowship Education offers more information on models and trends in residency education and mentoring.
