Inventory Management Aug 17 2021 As markets become more dynamic and competitive, companies must reconsider how they view inventory and make changes to their production and inventory systems. They must begin to think outside the classical box and develop a new paradigm of inventory management. Exploring the trend away from classical models based on economic order quantities to dependent demand systems, *Inventory Management: Non-Classical Views* comes as a just-in-time resource. Explore the new role of inventories in business enterprises This book discusses a new paradigm for inventory management that is responsive to dynamic changes in the economy. It explores: Inventory systems that provide flexibility Inventory performance measures other than using cost as a means to control inventory

Inventory as a contributor to customer value creation, rather than a liability The book also examines why energy and the environment are to be considered in inventory decisions, the non-classical application of inventory management in fields such as healthcare and disaster relief, and non-classical approaches to measuring the performance of inventory such as information theory, fuzzy sets, and thermodynamics. While many factors may change, one certainty is that the global economy is becoming increasingly dynamic. Planting the seeds for new research in inventory control and management, this book outlines the evolving role of inventories in business enterprises. It explores how to create inventory management as a tool for continued success regardless of market fluctuations and economic variances.

Operations Management in the Travel Industry, 2nd Edition Oct 26 2019 Covering the applied managerial perspective of the travel industry, this book looks at the core disciplines and the application of theory to practice. Considering individual and corporate social responsibility, it teaches effective managerial skills by reviewing legal frameworks, quality management and marketing, financial management, and the management of shareholders and stakeholders. It discusses current trends such as sustainability and governmental emission targets against a background of the needs of a commercial business to innovate and increase profits. A valuable tool for both students and those working in the travel industry, this new edition includes new content, a revised structure and all-new international case studies.

Capital Structure Decisions Jun 22 2019 Inside the risk management and corporate governance issues behind capital structure decisions Practical ways of determining capital structures have always been mysterious and riddled with risks and uncertainties. Dynamic paradigm shifts and the multi-dimensional operations of firms further complicate the situation. Financial leaders are under constant pressure to outdo their competitors, but how to do so is not always clear. *Capital Structure Decisions* offers an introduction to corporate finance, and provides valuable insights into the decision-making processes that face the CEOs and CFOs of organizations in dynamic multi-

objective environments. Exploring the various models and techniques used to understand the capital structure of an organization, as well as the products and means available for financing these structures, the book covers how to develop a goal programming model to enable organization leaders to make better capital structure decisions. Incorporating international case studies to explain various financial models and to illustrate ways that capital structure choices determine their success, *Capital Structure Decisions* looks at existing models and the development of a new goal-programming model for capital structures that is capable of handling multiple objectives, with an emphasis throughout on mitigating risk. Helps financial leaders understand corporate finance and the decision-making processes involved in understanding and developing capital structure Includes case studies from around the world that explain key financial models Emphasizes ways to minimize risk when it comes to working with capital structures There are a number of criteria that financial leaders need to consider before making any major capital investment decision. *Capital Structure Decisions* analyzes the various risk management and corporate governance issues to be considered by any diligent CEO/CFO before approving a project.

Mergers, Acquisitions, and Other Restructuring Activities, 4E Nov 27 2019 Dr. Donald DePamphilis explains the real-world of mergers, acquisitions, and restructuring based on his academic knowledge and personal experiences with over 30 such deals himself. Zinsen, Anleihen, Kredite Oct 07 2020

Dieses Buch behandelt die Geld- und Kapitalmärkte sowie das Management von Rentenportfolios. Die Zinsbildung, die Zinsstruktur, Zinsmodelle und die Bewertung von verzinslichen Wertpapieren bilden einen ersten Schwerpunkt. Sodann werden die wichtigsten Risiken behandelt, denen Renten ausgesetzt sind: 1. Das Zinsänderungsrisiko, 2. das Währungsrisiko (bei Fremdwährungsanleihen) und 3. das Kreditrisiko. In diesem zweiten Schwerpunkt werden auch die entsprechenden Derivate und ihr Einsatz für das Hedging behandelt. Im dritten Schwerpunkt des Buches betrachten wir Kreditrisiken, so die Bonität eines Schuldners, das Rating, die risikoadjustierte Preisbildung beim Gläubiger und die Bildung von Kreditportfolios. Zudem werfen wir einen Blick auf das regulatorische Umfeld der Banken (Basel II). Das Buch richtet sich an Studierende, die eine berufliche Tätigkeit im Finanzbereich, im Investment, im Portfoliomanagement, im Kreditwesen, oder im Bereich der Unternehmensberatung anstreben - sei es bei einer Bank, einem Asset Manager, in einer Consulting-Firma oder als Selbständiger. Sodann möchte "Zinsen, Anleihen, Kredite" jene Personen ansprechen, die im Beruf stehen und Funktionen der Anlageberatung und der Kreditbeurteilung wahrnehmen.

Corporate Governance, Capital Markets, and Capital Budgeting Mar 31 2020

The primary contribution of this book is to integrate the important disciplines which simultaneously impact the investment appraisal process. The book presents a study that develops a new approach to investment appraisal which uses a multiple objective linear programming (MOLP) model to integrate the selected disciplines which include capital markets, corporate governance and capital budgeting. The research covers two case studies, one in the e-commerce sector and another in the airline industry in which the above disciplines are integrated. Readers from the areas of corporate governance, regulation, and accounting would find the survey of different approaches and the new integrated optimization approach particularly useful.

Neue Betriebswirtschaft Feb 08 2021 Die Betriebswirtschaft erfindet sich immer wieder neu. Sie entwickelt regelmäßig Theorien und Methoden und verfängt sich nicht in den methodischen Fehlschlüssen, die Wirtschaftswissenschaften müssten nach naturwissenschaftlichen-mathematischen Gesetzmäßigkeiten in der Wirtschaft suchen. Vor diesem Hintergrund ist die neue Betriebswirtschaft ein Ansatz, die klassische Betriebswirtschaft mit aktuellen Fragestellungen zu verbinden. Dieses Buch stellt deshalb klassische Themen wie Buchhaltung, Kosten-, Erfolgs- und Umsatzrechnung, Finanzierung dar, aber auch explizit Statistik zur Datengewinnung und Datenauswertung. All diese Themen werden stets im Lichte der aktuellen Entwicklungen von Digitalisierung, Internationalisierung und innovativen Geschäftsmodellen behandelt. Die Autoren wenden sich klassischen Funktionen des Betriebes zu, aber auch Themen wie Security, Compliance, Nachhaltigkeit, Online-Marketing, Innovationsmarketing, Strategisches Controlling, Cross-Mergers and Acquisitions, u.a. in Verbindung mit der Unternehmensbewertung, sowie Risk-Management. Das Buch richtet sich an Studierende der Wirtschaftswissenschaften

sowie an Unternehmer und Manager, die sich mit betriebswirtschaftlichen Themen in Theorie und Praxis auseinandersetzen.

Family Wealth Management Feb 29 2020

Introducing a fresh perspective on wealth management, with proven solutions to the challenges of preserving wealth and investing well in turbulent times Family Wealth Management is coauthored by two experts in the field of private wealth - one, a former director of Bain & Company and the chairman of two of the world's largest family trusts, and the other, a CEO of a leading global family office and professor of finance from University of Toronto. The book introduces you to a unique model of wealth management that produces the desired return outcomes while being consistent with a family's overarching goals and values. The approach combines the best traditional investment and portfolio management practices with innovative new approaches designed to successfully navigate through economic climates both fair and foul. While the authors address the critical "hard" issues of asset management, they also emphasize important "soft" issues of working with families to ensure that actions are congruent with objectives, in alignment with family governance principles and designed to help sustain and grow family wealth over multiple generations. The authors provide clear guidance on how to master each component. How to establish clear family vision, values, and goals as a critical foundation to a sound wealth management strategy How to establish a practical, integrated investment framework that will ensure a consistent, disciplined approach in all environments How to set a long-term family wealth strategy and define an asset allocation model that will produce the desired results How to draft an annual investment policy statement and refine the investment tactics based on capital markets trends and changes in the family's circumstance How to effectively monitor performance and respond to the need for change How to carefully select and manage an ecosystem of experienced, trusted financial advisors who will provide critical guidance through challenging period ahead How to successfully engage and educate the family to preserve and enhance the family's financial wealth and human capital over the generations

[Handbook of Research on Financial Management During Economic Downturn and Recovery](#) Mar 12 2021

Times of crisis are unexpected and they bring diverse challenges and opportunities for companies, financial markets, and the economy. On one hand, more risk and uncertainties appear, yet on the other hand, it is an opportunity to reorganize and reinvent the company. It is important for businesses to understand ways to deal with uncertainty and risk in times of economic downturn and what financial strategies and tools can be used to eliminate or reduce the potential negative effects. These effects can reach the company's financial performance, capital structure, as well as cause financial debt and the availability of cash-flow to companies. However, different financial instruments can sustain the business and deal with the difficulties of payment when sales

reduce and uncertainty increases; thus, research is essential in this critical area. When economic downturn affects the financial markets, the role of banks, country dynamics, the economy, and many other facets of the business world, financial management becomes the key for business recovery. The Handbook of Research on Financial Management During Economic Downturn and Recovery shares relevant knowledge on challenges and

opportunities caused by crises, such as the pandemic, and the effects on economic and financial arenas. The chapters cover topics such as business models to understand how companies react to pandemic and crises situations, as well as how they change their management and way of conducting business. Other important topics include sustainable development, international financial markets,

capital structure changes, uncertainty and risk, and governance and leadership. This book is ideal for shareholders, directors and managers, economists, researchers, academics, practitioners, stakeholders, researchers, academicians, and students interested in knowledge on topics about challenges in the way that companies, financial markets, financial institutions, and governments respond to risk and uncertainty.
