Two years ago the Red Cross membership was hardly more than twenty-five thousand; today it is twenty-three million. Two years ago its income for war relief was trivial; this last year it was well over money given twice because given quickly, money skillfully expended by experts, with every penny vouched for and recorded with absolute accuracy and fidelity. And I believe that America is ready to refill the Red Cross treasury whenever the right moment comes to ask for it. America's heart has been deeply touched by the miseries of others. But do we Americans appreciate the seriousness of our own position? I think not. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **Clara Barton** Sep 05 2020 Highlights the life and accomplishments of the teacher who organized efforts to bring nursing care to wounded soldiers during the Civil War and who went on to become the founder of the American Red Cross.

The American Red Cross from Clara Barton to the New Deal Oct 31 2022 In dark skirts and bloodied boots, Clara Barton fearlessly ventured on to Civil War battlefields to tend to wounded soldiers. She later worked with civilians in Europe during the Franco-Prussian War, lobbied legislators to ratify the Geneva conventions, and founded and ran the American Red Cross. The American Red Cross from Clara Barton to the New Deal tells the story of the charitable organization from its start in 1881, through its humanitarian aid during wars, natural disasters, and the Depression, to its relief efforts of the 1930s.

Marian Moser Jones illustrates the tension between the organization's founding principles of humanity and neutrality and the

political, economic, and moral pressures that sometimes caused it to favor one group at the expense of another. This expansive book narrates the stories of: • U.S. natural disasters such as the Jacksonville yellow fever epidemic of 1888, the Sea Islands hurricane of 1893, and the 1906 San Francisco earthquake• crises abroad, including the 1892 Russian famine and the Armenian massacres of 1895–96• efforts to help civilians affected by the civil war in Cuba• power struggles within the American Red Cross leadership and subsequent alliances with the American government• the organization's expansion during World War I• race riots in East St. Louis, Chicago, and Tulsa between 1917 and 1921• help for African American and white Southerners after the Mississippi flood of 1927• relief projects during the Dust Bowl and after the New Deal An epilogue relates the history of the American Red Cross since the beginning of World War II and illuminates the organization's current practices as well as its international reputation. -- Manon S. Parry, University of Amsterdam

American Red Cross Text-Book on Home Dietetics May 02 2020 Excerpt from American Red Cross Text-Book on Home Dietetics This book is designed for general use in classes to be taught under the supervision of the American Red Cross

Nursing Service. The aim of the course is to give in a simple way the underlying principles of cookery. These are presented in fifteen lessons. There are also directions for fourteen lessons in practical cookery. For convenience a lesson in theory will usually be followed by one in practical cookery. For this reason one of each series of lessons is placed in each chapter of the book, in spite of the fact that this disturbs somewhat the logical arrangement of the subject-matter. The individual recipes are given for convenience in laboratory work. They may also be used if the teaching is done by the demonstration method unless it is desirable to prepare sufficient food to serve the class and then the home recipe may be used. Where meals are to be prepared, the home recipes are to be used and it will be convenient to have the pupils work in groups. Lack of time will often prevent the preparation of all the foods suggested in the practical lessons. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
