The Abominations of the Obama-Nation Aug 25 2019 Some people use the poor, minorities, and special interest groups as an excuse to take away rights from others who tend to be wealthy, white, or Christian - or all of the above. Betty Sue Prollock, a Christian and an American patriot, seeks to wake people up from their slumber and shine a spotlight on the truth: We're moving from a constitutional government founded on individual freedom to one that resembles an Islamic state. President Barack Hussein Obama Jr. and his followers, who are using the government to oppress non-victims in an effort to promote equality, must accept much of the blame. These power-hungry individuals will stop at nothing to advance their own agenda and take away the rights of the majority. Prollock argues that people in power are influencing and seducing the needy struggling with life's challenges. She makes a convincing case that if the public doesn't act soon, our God-given rights will be replaced by government-given rights and the Abominations of the Obama-Nation.

Reading Graphic Design in Cultural Context Jul 29 2022 Reading Graphic Design in Cultural Context explains key ways of understanding and interpreting the graphic designs we see all around us, in advertising, branding, packaging and fashion. It situates these designs in their cultural and social contexts. Drawing examples from a range of design genres, leading design historians Grace Lees-Maffei and Nicolas P. Maffei explain theories of semiotics, postmodernism and globalisation, and consider issues and debates within visual communication theory such as legibility, the relationship of word and image, gender and identity, and the impact of digital forms on design. Their discussion takes in well-known brands like Alessi, Nike, Unilever and Tate, and everyday designed things including slogan t-shirts, car advertising, ebooks, corporate logos, posters and music packaging.

Rethinking Race and Identity in Contemporary British Fiction Dec 10 2020 This book takes a post-racial approach to the representation of race in contemporary British fiction, re-imagining studies of race and British literature away from concerns with specific racial groups towards a more sophisticated analysis of the contribution of a broad, post-racial British writing. Examining the work of writers from a wide range of diverse racial backgrounds, the book illustrates how contemporary British fiction, rather than merely reflecting social norms, is making a radical contribution towards the possible future of a positively multi-ethnic and post-racial Britain. This is developed by a strategic use of the realist form, which becomes a utopian device as it provides readers with a reality beyond current circumstances, yet one which is rooted within an identifiable world. Speaking to the specific contexts of British cultural politics, and directly connecting with contemporary debates surrounding race and identity in Britain, the author engages with a wide range of both mainstream and neglected authors, including Ian McEwan, Zadie Smith, Julian Barnes, John Lanchester, Alan Hollinghurst, Martin Amis, Jon McGregor, Andrea Levy, Bernardine Evaristo, Hanif Kureishi, Kazuo Ishiguro, Hari Kunzru, Nadeem Aslam, Meera Syal, Jackie Kay, Maggie Gee, and Neil Gaiman. This cutting-edge volume explores how contemporary fiction is at the centre of re-thinking how we engage with the question of race in twenty-first-century Britain.

Readers Front & Center Sep 30 2022 Every teacher wants and expects his or her students to be reading increasingly complex texts, yet sometimes the gap between our expectations and our students' abilities seems wide and deep. It's tempting to look at that gap and step in to fill it for them, but then we'd be doing most of the "heavy lifting"—the understanding, analysis, and interpretation that our students should be learning for themselves. So how can teachers reverse this trend and ensure that our students are fully entering, absorbing, and experiencing texts? How can we make sure they're making complex meaning "independently and

proficiently," as the Common Core State Standards require? Readers Front & Center answers these questions by framing instruction that starts with the student. You'll learn how to do the following: Research and listen to your students so your teaching can be more targeted Notice and name your students' thinking so they can "see" what complex thinking looks and sounds like Set your students up to be problem solvers Prepare your students to do increasingly complex thinking in increasingly complex texts Filled with examples of one-on-one conferences, small groups, and whole-class scenarios, this essential book provides an accessible and inspiring model of how—and why—we need to put students at the front and center of our teaching.

*The Arabic-English Translator as Photographer* Oct 08 2020 By choosing to use different linguistic approaches as a theoretical basis of their study of translation as a process of picture-taking, *The Arabic-English Translator as Photographer: A Linguistic Account* offers readers an original view of the translator's work. In addition to laying emphasis on the importance of giving full consideration to the mental image(s) conjured up in the mind of the translators, the book provides an accessible introduction to structural semiotics, interpretive semiotics, functional grammar, semantics and cognitive linguistics for students and researchers who are new to the field. The book can be used as a basis for (post)graduate students, especially students of MA and PhD in Translation Studies as well as students in modern languages schools. The book focuses on a specific pair of languages, English and Arabic, and presents the relationships generated by texts' translation, including adverts and other types of texts, between these two languages.

*David's Capacity for Compassion* Apr 13 2021 In this book Barbara Green demonstrates how David is shown and can be read as emerging from a young naive, whose early successes grow into a tendency for actions of contempt and arrogance, of blindness and even cruelty, particularly in matters of cult. However, Green also shows that over time David moves closer to the demeanor and actions of wise compassion, more closely aligned with God. Leaving aside questions of historicity as basically undecidable Green's focus in her approach to the material is on contemporary literature. Green reads the David story in order, applying seven specific tools which she names, describes and exemplifies as she interprets the text. She also uses relevant hermeneutical theory, specifically a bridge between general hermeneutics and the specific challenges of the individual (and socially located) reader. As a result, Green argues that characters in the David narrative can proffer occasions for insight, wisdom, and compassion. Acknowledging the unlikelihood that characters like David and his peers, steeped in patriarchy and power, can be shown to learn and extend wise compassion, Green is careful to make explicit her reading strategies and offer space for dialogue and disagreement.

*Material Transgressions* Jun 03 2020 *Material Transgressions* reveals how Romantic-era authors think outside of historical and theoretical ideologies that reiterate notions of sexed bodies, embodied subjectivities, isolated things, or stable texts. The essays gathered here examine how Romantic writers rethink materiality, especially the subject-object relationship, in order to challenge the tenets of Enlightenment and the culture of sensibility that privileged the hegemony of the speaking and feeling lyric subject and to undo supposedly invariable matter, and representations of it, that limited their writing, agency, knowledge, and even being. In this volume, the idea of transgression serves as a flexible and capacious discursive and material movement that braids together fluid forms of affect, embodiment, and textuality. The texts explored offer alternative understandings of materiality that move beyond concepts that fix gendered bodies and intellectual capacities, whether human or textual, idea or thing. They enact processes — assemblages, ghost dances, pack mentality, reiterative writing, shapeshifting, multi-voiced choric oralities — that redefine restrictive structures in order to craft alternative modes of being in the world that can help us to reimagine materiality both in the Romantic period and now. Such dynamism not only reveals a new materialist imaginary for Romanticism but also unveils textualities, affects, figurations, and linguistic movements that alter new materialism's often strictly ontological approach. List of contributors: Kate Singer, Ashley Cross, Suzanne L. Barnett, Harriet Kramer Linkin, Michael Gamer, Katrina O'Loughlin, Emily J. Dolive, Holly Gallagher, Jillian Heydt-Stevenson, Mary Beth Tegan, Mark Lounibos, Sonia Hofkosh, David Sigler, Chris Washington, Donelle Ruwe, Mark Lussier.

*Contemporary Arguments in Natural Theology* Jan 23 2022 In recent years there has been a bold revival in the field of natural theology, where "natural theology" can be understood as the attempt to demonstrate that God exists by way of reason, evidence, and argument without the appeal to divine revelation. Today's practitioners of natural theology have not only revived and recast all of the traditional arguments in the field, but, by drawing upon the findings of contemporary cosmology, chemistry, and biology, have also developed a range of fascinating new ones. *Contemporary Arguments in Natural Theology* brings together twenty experts working in the field today. Together, they practice natural theology from a wide range of perspectives, and show how the field of natural theology is practiced today with a degree of diversity and confidence not seen since the Middle Ages. Aimed primarily at advanced undergraduates and graduate students, the volume will also be of interest to researchers in philosophy, theology, biblical studies, and religious studies, as an indispensable resource on contemporary theistic proofs.

*Still Learning to Read* Jun 15 2021 Foreword by Colby Sharp In the decade since the first edition of *Still Learning to Read* was published, the prevalence of testing and the Common Core State Standards have changed what is expected of both teachers and students. The new edition of *Still Learning to Read* focuses on the needs of students in grades 3-6 in all aspects of reading workshop, including reading workshop, read-aloud, classroom design, digital tools, fiction, nonfiction, and close reading. The book stays true to its original beliefs of slowing down and knowing our readers, but it also takes into account the sense of urgency that changing times and standards impose on classrooms. This edition examines current trends in literacy, includes a new section on intentional instructional planning, and provides expanded examples of mini-lessons and routines that promote deeper thinking about learning. It also includes a brand new chapter on scaffolding for reading nonfiction and showcases the authors' latest thinking on close reading and text complexity. Online videos provide glimpses into classrooms as students make book choices, work in small groups, and discuss their reading notebooks. Expanded and updated book lists, recommendations for digital tools, lesson cycles, and sections specifically written for school leaders round out this foundational resource.

*Writing the Reader* Nov 01 2022 The history of the novel is also a history of shifting views of the value of novel reading. This study investigates how novels themselves participate in this development by featuring reading as a multidimensional cultural practice. English novels about obsessive reading, written in times of medial transition, serve as test cases for a model that brings together analyses of form and content.

*Translation and Localisation in Video Games* May 03 2020 This book is a multidisciplinary study of the translation and localisation of video games. It offers a descriptive analysis of the industry – understood as a global phenomenon in entertainment – and aims to explain the norms governing present industry practices, as well as game localisation processes. Additionally, it discusses particular translation issues that are unique to the multichannel nature of video games, in which verbal and nonverbal signs must be cohesively combined with interactivity to achieve maximum playability and immerse players in the game's virtual world. Although positioned within the theoretical framework of descriptive translation studies, Bernal-Merino incorporates research from audiovisual translation, software localisation, computer assisted translation, comparative literature, and video game production. Moving beyond this framework, *Translation and Localisation in Video Games* challenges some of the basic tenets of translation studies and proposes changes to established and unsatisfactory processes in the video game and language services industries.

*Reading Poetry* Jan 11 2021 *Reading Poetry* offers a comprehensive and accessible guide to the art of reading poetry. Discussing more than 200 poems by more than 100 writers, ranging from ancient Greece and China to the twenty-first century, the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight. This third edition has been significantly updated in response to current developments in poetry and poetic criticism, and includes many new examples and exercises, new chapters on 'world poetry' and 'eco-poetry', and a greater emphasis throughout on American poetry, including the impact traditional Chinese poetry has had on modern American poetry. The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry, leading readers from specific features of form and figurative language to larger concerns with genre, intertextuality, Caribbean poetry, world poetry, and the role poetry can play in response to the ecological crisis. The workshop exercises at the end of each chapter, together with an extensive glossary of poetic and critical terms, and the number and range of poems analysed and discussed – 122 of which are quoted in full – make *Reading Poetry* suitable for individual study or as a comprehensive, self-contained textbook for university and college classes.

*ESL Readers and Writers in Higher Education* Feb 21 2022 *ESL Readers and Writers in Higher Education* describes the challenges ESL students in U.S. postsecondary institutions face when studying in a second language, and offers suggestions for how teachers, advisors, tutors, and institutions might provide support that meets the reading and writing needs of this very important student population. Because the ESL profession as a whole, including what professionals are doing in the classroom, sits under the umbrella of an institutional response to a language-related challenge, some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom. As such, this book is based on the assertion that language development support is not the sole responsibility of language teachers. Everyone on campuses that hosts ESL students bears some responsibility for these students' language development. Chapters are therefore, intentionally adapted to appeal to a wide variety of readers from classroom teachers, and teachers in training, to admissions officers, academic advisors, and international student advisors.

*Teaching and Learning the English Language* Mar 13 2021 *Teaching and Learning the English Language* is a practical guide for anyone seeking to improve their teaching, whether through formal study or on their own. It covers: · Fundamentals of English language · Psychological and social learning processes · TESOL teaching methods and approaches · Lesson planning and classroom management · Language evaluation and assessment · Teaching pronunciation, spelling, grammar, vocabulary and discourse · Teaching listening, reading, writing and speaking · English teacher professional development Pedagogical features include chapter summaries, activities for students and key readings recommendations, and the book is also supported by online resources: video case studies, additional exercises and multiple choice quizzes. *Developing Readers in the Academic Disciplines* Aug 18 2021 Being literate in an academic discipline means more than simply being able to read and comprehend text; it means you can think, speak, and write as a historian, scientist, mathematician, or artist. Doug Buehl strips away the one-size-fits-all approach to content area literacy and presents a much-needed instructional model for disciplinary literacy, showing how to mentor middle and high school learners to become "academic insiders" who are college and career ready. This thoroughly revised second edition of *Developing Readers in the Academic Disciplines* shows how to help students adjust their thinking to comprehend a range of complex texts that fall outside their reading comfort zones. This book --a natural companion to Buehl's *Classroom Strategies for Interactive Learning*, which has been bolstering student comprehension for almost three decades--provides the following supports for teachers: Instructional tools that adapt generic literacy practices to discipline-specific variations Strategies for frontloading instruction to activate and build background knowledge New approaches for encouraging inquiry around disciplinary texts In-depth exploration of the role of argumentation in informational text Numerous examples from science, mathematics, history and social studies, English/language arts, and related arts to show you what vibrant learning looks like in various classroom settings *Developing Readers in the Academic Disciplines* introduces teachers from all disciplines to new kinds of thinking and, ultimately, teaching that helps students achieve new levels of understanding.

*Modern Popular Theatre* Jul 05 2020 This book offers a concise history of popular theatre since the early twentieth century. Using key popular culture theories and critical perspectives, Jason Price analyses popular theatres across different cultural and political contexts, drawing on a diverse range of international artists and theatre-makers who have worked with popular forms, including Vsevolod Meyerhold, Blue Blouse, Bertolt Brecht, Erwin Piscator, the San Francisco Mime Troupe, the Bread and Puppet Theatre and more. As well as defining what 'popular' means in relation to performance and the audiences who watch it, the book considers some of the political frameworks and causes that popular theatre has been placed in service of, such as socialism, the New Left and the gay rights movement. It also addresses the uses of cabaret, puppetry and circus outside their native popular contexts, examining the role they play in avant-garde and experimental theatre practices. In doing so, Price encourages readers to look beyond popular theatre as a simple form of entertainment and to consider its potential as a form of political activism, as a community-builder, and as a valuable tool for artistic experimentation.

Imagining Punjab, Punjabi and Punjabi in the Transnational Era Feb 09 2021 This book moves away from originary myths of region and identity that have dominated academic and mediated representations of Punjab, a land-locked region divided between India and Pakistan after the Partition of 1947, and instead focuses on the role of the imagination in producing Punjab. It deconstructs Punjab as an ethno-spatial, ethno-linguistic and ethno-cultural construct produced by the communities who dwell there, those who have left it and those formed by new narratives of the region. By isolating imaginings of Punjab that are not centred on exclusivist regional, linguistic, sectarian or caste perspectives, contributions to this book propose the concept of free-flowing cartographies in relation to Punjab, which facilitate its imaginings as a geographical region, a social construct and a state of consciousness. The region is simultaneously imagined as a small place, a neighbourhood, a city, and a village, but also as a performative practice and a certain ways of doing things. Through focusing on a number of Punjabi spaces and communities and engaging with Punjab as a geographical region, social construct and state of consciousness, the papers in the book hope to contribute to broader debates on transnationalism, postnationalism, micronationalism, and new identity narratives emerging in the twenty first century. This book was originally published as a special issue of *South Asian Diaspora*.

The Revolution That Never Was Apr 01 2020 Will Hutton argues that Keynesian revolution has yet to take place. Economists, he finds, have not yet come to terms with the heart of Keynes' argument: that there are limits to what prices can do in a market economy. But referring closely to Keynes' writings, Hutton demonstrates that Keynes was concerned to show how the financial sector of the economy originated and how it reinforced the incapacities of the market economy. Post-war Keynesianism, Will Hutton concludes, has overstressed the role of fiscal policy in programmes of Keynesian economic management: it is but one element in a larger policy of financial and momentary leverage aimed at leaning against these market incapacities. By insisting that government intervention is a prerequisite to the proper functioning of the market, Keynesianism in effect becomes a political philosophy challenging the entire panoply of economic and political liberalism. As such it may require important changes in the structure of government if it is to be implemented successfully.

Translation Nov 28 2019 In a time when millions travel around the planet; some by choice, some driven by economic or political exile, translation of the written and spoken word is of ever increasing importance. This guide presents readers with an accessible and engaging introduction to the valuable position translation holds within literature and society. Leading translation theorist, Susan Bassnett traces the history of translation, examining the ways translation is currently utilised as a burgeoning interdisciplinary activity and considers more recent research into developing technologies and new media forms. Translation displays the importance of translation across disciplines, and is essential reading for students and scholars of translation, literary studies, globalisation studies, and ancient and modern languages.

Multiliteracies, Emerging Media, and College Writing Instruction Oct 20 2021 This book proposes a broad-based multiliteracies theory and praxis for college writing curriculum. Khadka expands on the work of the New London Group's theory of multiliteracies by integrating work from related disciplinary fields such as media studies, intercultural communication, World Englishes, writing studies, and literacy studies to show how they might be brought together to aid in designing curriculum for teaching multiple literacies, including visual, digital, intercultural, and multimodal, in writing and literacy classes. Building on insights developed from qualitative analysis of data from the author's own course, the book examines the ways in which diverse groups of students draw on existing literacy practices while also learning to cultivate the multiple literacies, including academic, rhetorical, visual, intercultural, and multimodal, needed in mediating the communication challenges of a globalized world. This approach allows for both an exploration of students' negotiation of their cultural, linguistic, and modal differences and an examination of teaching practices in these classrooms, collectively demonstrating the challenges and opportunities afforded by a broad-based multiliteracies theory and praxis. This book will be of particular interest to scholars and researchers in writing studies, rhetoric and communication studies, multimodality, media studies, literacy studies, and language education.

Rastafari and the Arts Jun 23 2019 *Drawing on literary, musical, and visual representations of and by Rastafari*, Darren J. N. Middleton provides an introduction to Rasta through the arts, broadly conceived. The religious underpinnings of the Rasta movement are often overshadowed by Rasta's association with reggae music, dub, and performance poetry. *Rastafari and the Arts: An Introduction* takes a fresh view of Rasta, considering the relationship between the artistic and religious dimensions of the movement in depth. Middleton's analysis complements current introductions to Afro-Caribbean religions and offers an engaging example of the role of popular culture in illuminating the beliefs and practices of emerging religions. Recognizing that outsiders as well as insiders have shaped the Rasta movement since its modest beginnings in Jamaica, Middleton includes interviews with members of both groups, including: Ejay Khan, Barbara Makeda Blake Hannah, Geoffrey Philp, Asante Amen, Reggae Rajahs, Benjamin Zephaniah, Monica Haim, Blakk Rasta, Rocky Dawuni, and Marvin D. Sterling.
