Testimonien zum Corpus Hippocraticum: Nachleben der hippokratischen Schriften bis zum 3. Jahrhundert n. Chr Dec 09 2020 Das Corpus Hippocraticum stellt mit seinen mehr als 60 Werken aus dem 5. und 4. Jahrhundert vor Chr. die älteste abendländische medizinische Literatur dar. Die hippokratischen Schriften wurden seit der frühhellenistischen Zeit von griechischen Autoren immer wieder kommentiert und zitiert. Später finden sich Zitate auch in der lateinischen und vor allem in der arabischen Literatur. 1997 und 2001 erschien der Teil II »Galen«. Im jetzt vorgelegten Teil I dienen die Autoren aus dem 5. Jahrhundert vor Chr. bis zum 3. Jahrhundert nach Chr. als Quellen. Zusätzlich wurden ausgewertet Caelius Aurelianus sowie die

spätantiken Kompilatoren Oreibasios, Aetios aus Amida, Alexandros aus Tralleis und Paulos aus Aiginia, weil sie auf ältere Quellen zurückgehen.

Nelson Pediatric Symptom-Based Diagnosis E-Book Jun 26 2022 Patients don't present with a disease; they present with symptoms. Using a practical, symptom-based organization, *Nelson Pediatric Symptom-Based Diagnosis: Common Diseases and their Mimics, 2nd Edition*, offers authoritative guidance on differential diagnosis and treatment of diseases and disorders in children and adolescents, and covers the symptoms you're likely to see in practice, their mimics, and uncommon disorders. Drs. Robert M. Kliegman, Heather Toth, Brett J. Bordini, and Donald Basel walk you through what to consider and how to proceed when faced with common symptoms such as cough, fever, headache, autistic-like behaviors, chronic pain, chest pain, gait disturbances, and much more. Begins with a presenting symptom and leads you through differential diagnosis and a concise review of treatment recommendations. Contains more than a dozen new topics including Disease Mimics: An Approach to Undiagnosed Diseases, Autistic-like Behaviors, Shock, Hypertension, Neurocognitive and Developmental Regression, Chronic Pain, Hypertonicity, Movement Disorders, Hypermobility, and more. Features a new focus on symptoms of rarer diseases that are mimics of more common diseases. Offers a user-friendly approach to Altered Mental

Status such as coma and other CNS disorders, with numerous clinically useful tables and figures to guide clinical decision making in various care settings. Uses a highly templated format for easy reference and quick answers to clinical questions, with the same consistent presentation in each chapter: History, Physical Examination, Diagnosis (including laboratory tests), Imaging, Diagnosis, and Treatment. Includes numerous full-color illustrations, algorithms, tables, and "red flags" to aid differential diagnosis. Serves as an ideal companion to Nelson Textbook of Pediatrics, 21st Edition. Content in this book is referenced and linked electronically to the larger text, providing easy access to full background and evidence-based treatment and management content when you own both references.

Textbook of Neonatal Resuscitation Mar 31 2020 New 8th Edition! Innovative

resource for interactive, simulation-based teaching and learning The Neonatal Resuscitation Program (NRP) is an educational program jointly sponsored by the American Academy of Pediatrics (AAP) and the American Heart Association (AHA). The course is designed to teach an evidence-based approach to resuscitation of the newborn to health care professionals who care for newborns at the time of delivery. NRP Essentials and NRP Advanced The NRP, 8th edition, introduces a new educational methodology to better meet the needs of health care professionals who manage the newly born baby. New in the 8th edition Key Points at the beginning of each lesson. Quick Response (QR) codes that enable the reader to view short videos about the topics on their mobile device. Lesson Review Questions grouped together at the end of each lesson. Quality Improvement Opportunities and Frequently Asked Questions in each lesson. New sections in Lesson 10 (Special Considerations) about resuscitation of the newborn with a myelomeningocele or an abdominal wall defect. Three Supplemental Lessons (Improving Resuscitation Team Performance, Resuscitation Outside the Delivery Room, and Bringing Quality Improvement to Your Resuscitation Team) that allow NRP users to enhance their resuscitation knowledge and performance.

The New Pediatrics Apr 12 2021 The "new pediatrics" that has developed over the past several decades defines itself by its shift away from the physical problems of children to encompass their emotional, psychological, social, and even, as some pediatricians have interpreted, their spiritual well-being. In an engaging, nontechnical style, Dorothy Pawluch also discusses the human impact of transforming technologies on the individual practitioners. All disciplines concerned with the role of the child in society must pause to think about the inner world of the profession that for over a century has argued that children and their problems, medical and otherwise, are different and also claimed that it, better than anyone else, understands these problems.

Anatomy Trains Oct 26 2019 Das Buch geht auf die funktionellen Zusammenhänge der Muskel-Faszien-Ketten ein. Zum leichten Verständnis benutzt der Autor dazu die Metapher von Schienen bzw. Eisenbahnlinien, die miteinander korrespondieren müssen. Außerdem: Informationen und Hinweise zur Begutachtung von Haltungs- und Bewegungsmustern, praxisbezogene Anwendungstipps für die Behandlung der myofaszialen Meridiane. Neu in der 2. Auflage: • Über 450 farbige Abbildungen (anatomische Zeichnungen, Fotos von anatomischen Präparaten, Fotos + erklärende Zeichnungen, Patientendarstellungen) • durchgehend vierfarbig gestaltet

Pediatric Neurotoxicology Sep 05 2020 This book focuses on children and the impact of neurotoxins on the developing brain to guide the practice of psychologists working with children in clinical and school settings. Each chapter covers a distinct neurotoxin or group of neurotoxins, with particular emphasis on the impact of the neurotoxin exposure on the developing brain and long-term cognitive and psychosocial outcomes. This is more complex than studying neurotoxins with adults because of the rapid development occurring in the child's brain. Further, children are more susceptible than adults to the effects of neurotoxins due to their developmental status. Many of the

effects discussed in this volume occur in utero, thus setting the stage for an altered developmental trajectory.

Pediatric Secrets: First South Asia Edition Sep 25 2019

A Guide to Assessments That Work Jun 02 2020 "This volume addresses the assessment of the most commonly encountered disorders or conditions among adults, older adults, and couples. Evidence-based strategies and instruments for assessing mood disorders, anxiety disorders, couple distress and sexual problems, health-related problems, and many other conditions are covered in depth. With a focus throughout on assessment instruments that are feasible, psychometrically sound, and useful for typical clinical practice, a rating system has been designed to provide evaluations of a measure's norms, reliability, validity, and clinical utility. Standardized tables summarize this information in each chapter, providing essential information on the most scientifically sound tools available for a range of assessment needs."--BOOK JACKET.

Pediatric Dermatology, An Issue of Pediatric Clinics, Aug 05 2020 Educational opportunities for pediatric residents and primary care providers that contribute to increased competence in pediatric dermatology are an important component of improving the quality and efficiency of dermatologic care provided to children and adolescents. The 13 articles that comprise this issue have been selected to capture a significant proportion of the most common skindiseases that are seen in children and adolescents. They are intended to provide practical information on diagnosis and initial management that can be performed by the primary care provider and to provide a framework for allowing for more active involvement by the primary care provider with regards to ongoing management of these conditions. From atopic dermatitis to vitiligo, the pediatric primary care provider is guaranteed to see these conditions in their practice.
