[Handbook of Microscopy](#) Oct 26 2019 Handbook of Microscopy is a manual that deals mainly with the basic instruments and techniques used in light microscopy and its biological applications. A large section is devoted to the study of organic matter in microfossils preserved in rocks, in view of its stratigraphic importance in mining and oil prospecting. This text is comprised of six chapters; the first of which introduces the reader to the basic principles as well as to the instruments and techniques used in light microscopy. This book also discusses the microscopes and electronic flashlights for photomicrography, along with the use of monochromatic light, stereological and physicochemical microanalysis, microanalysis by electron microscopy, and microdetermination of physical values. Attention then turns to staining and impregnation and methods of fixation, examination, cutting, and mounting. The remaining chapters focus on the microscopy of topological stains and non-specific cytological stains, with emphasis on special methods used in animal and plant histology and protistology and mycological methods in pathology. This book is written specifically for microscopists.

**Data Intelligence and Cognitive Informatics** Aug 24 2019 This book discusses new cognitive informatics tools, algorithms and methods that mimic the mechanisms of the human brain which lead to an impending revolution in understating a large amount of data generated by various smart applications. The book is a collection of peer-reviewed best selected research papers presented at the International Conference on Data Intelligence and Cognitive Informatics (ICDICI 2020), organized by SCAD College of Engineering and Technology, Tirunelveli, India, during 8-9 July 2020. The book includes novel work in data intelligence domain which combines with the increasing efforts of artificial intelligence, machine learning, deep learning and cognitive science to study and develop a deeper understanding of the information processing systems.

[The J. Paul Getty Museum Journal](#) Aug 29 2022 The J. Paul Getty Museum Journal 14 is a compendium of articles and notes pertaining to the Museum's permanent collections of antiquities, decorative arts, paintings, and photographs. Volume 14 includes articles written by Dietrich von Bothmer, Dietrich Willers, Jean-Louis Zimmermann, Marjatta Nielsen, R. R. R. Smith, Lawrence J. Bliquez, Anne Ratzki-Kraatz, Charissa Bremer-David, Simon Jervis, Gillian Wilson, C. Gay Nieda, Rosalind Savill, M. Roy Fisher, Nigel Glendinning, Burton B. Fredericksen, Graham Smith and Anne McCauley.

[Ordines Coronationis Franciae, Volume 2](#) Jan 22 2022 The ordines coronationis are essentially the scripts for the coronation of Frankish and French sovereigns. Combining detailed religious, ceremonial, and political material, they are an extraordinarily important source for the study of individual rulers or dynasties, as well as for the study of kingship, queenship, and the evolution of political institutions. Complete in two volumes, Richard A. Jackson's is the first full edition of these texts, including all the ordines from the early thirteenth century through the end of the fifteenth century, a period during which the texts shift from Latin to the vernacular, and the institutions of kingship become distinctively French.

**Catalogue de Timbres de France 2019** Jun 02 2020 A catalogue made by collectors for collectors. This year the Spink Maury Catalogue, heir to the prestigious Maury, Ceres and Dallay catalogues, continues its work of research, compiled over generations of philately. It covers all French stamps from 1849 to the present day, offering hundreds of changes – with oddities, new varieties and discoveries presented, as always, in an exceptional way. Included in the new material is the continuation of the monographic studies, presenting a stamp per page with all varieties known until the First World War; a redesign of types Merson and Pasteur; and a specialised part devoted to Marianne de Beaujard, reviewed in depth. In addition the section on current usage stamps (TUC) is fully updated following feedback from our contributors and readers. France has one of the most beautiful philatelic legacies in the world, and we are pleased to be its modest ambassador to the numerous international readers who join us each year. “Layout and coverage are sumptuous ... The trite phrase “mine of information” does not begin to do justice to this immense achievement. To any collector of France beyond the elementary stage, this would be a bargain at twice the official retail price ... Highly recommended. ....an absolute must for collectors of French stamps...” Michael Round, Journal of the France & Colonies Philatelic Society

**Decorative Arts** Jul 04 2020 This volume includes concise, illustrated entries on the more than 450 examples of furniture, porcelain, and silver from the Museum's collection. New to this expanded edition are sections devoted to maiolica and glass. An index of previous owners and updated bibliographies are of particular help to the scholar.

*Napoleon's Imperial Guard Uniforms and Equipment. Volume 2* Mar 24 2022 The author of *Battle for Paris 1815* examines the uniforms and equipment of the cavalry of Napoleon's Imperial Guard. Few military formations have attracted more attention than Napoleon's Imperial Guard, and fewer still have been so extravagantly clothed and accoutered with the finest materials and the brightest colors. On both campaign and parade, the Guard, and especially the cavalry regiments, provided a dazzling display of military grandeur. From the green and gold trappings of the Chasseurs à Cheval, to the multicolored Mamelukes, the Guard cavalry was among the most brilliantly dressed formations ever to grace the field of battle. In compiling this magnificent volume, the author has collected copies of almost all the surviving documents relating to the Guard, which includes a vast amount of material regarding the issuing of dress items, even in some instances down to company level. This information is supported by around 100 contemporary prints, many of which have never been published before, as well as images of original items of equipment held in museums and private collections across the globe. In addition, the renown military artist, Keith Rocco has produced a series of unique paintings commissioned exclusively for this book. This glorious book is, and will remain, unsurpassed as the standard work on the clothing and equipment of the cavalry of the Imperial Guard. It is sure to be treasured by reenactors, wargamers, and modelers, as well as historians and enthusiasts as one of the most important publications ever produced on this most famous of military formations.
