Roma Activism Sep 17 2021 Exploring contemporary debates and developments in Roma-related research and forms of activism, this volume argues for taking up reflexivity as practice in these fields, and advocates a necessary renewal of research sites, methods, and epistemologies. The contributors gathered here – whose professional trajectories often lie at the confluence between activism, academia, and policy or development interventions – are exceptionally well placed to reflect on mainstream practices in all these fields, and, from their particular positions, envision a reimagining of these practices.

High Resolution Archaeology and Neanderthal Behavior Nov 07 2020 The aim of this book is to provide a new insight on Neanderthal behaviour using the data recovered in level J of Romani rockshelter (north-eastern Spain). Due to the sedimentary dynamics that formed the Romani deposit, the occupation layers are characterized by a high temporal resolution, which makes it easier to interpret the archaeological data in behavioural terms. In addition, the different analytical domains (geoarchaeology, lithic technology, zooarchaeology, taphonomy, anthracology, palaeontology) are addressed from a spatial perspective that is basic to understand human behaviour, but also to evaluate the behavioural inferences in the framework of the archaeological formation processes.

[The Middle to Upper Palaeolithic Transition in Iberia](#) Oct 19 2021 This volume focuses on the phenomenon of the Transition from the Middle to the Upper Palaeolithic in the Iberian Peninsula, with special reference to the site of Abric Romani (Capellades, Barcelona), more broadly the northern Iberian sites, and the theoretical and typological systematics that have been used hitherto in the study of the transitional process. The core of the study is the development of the Transition from the latest Mousterian facies, to the appearance of the earliest Upper Palaeolithic. A secondary focus concentrates on the methods used until now to conduct similar studies.

Moving Places Aug 05 2020 Moving Places draws together contributions from Europe, Latin America, Asia, and Africa, exploring practices and experiences of movement, non-movement, and place-making. The book centers on "moving places": places with locations that are not fixed but relative. Locations appearing to be reasonably stable, such as home and homeland, are in fact always subject to practices, imaginaries, and politics of movement. Bringing together original ethnographic contributions with a clear theoretical focus, this volume spans the fields of anthropology, human geography, migration, and border studies, and serves as teaching material in related programs.

European Demography and Economic Growth Oct 26 2019 First published in 1979, European Demography and Economic Growth presents a collection of essays on the demographic development of individual European economies like Austria, Hungary, Germany, France, Italy, Norway, Portugal etc. It provides a comparative analysis to clarify many crucial issues connected with the growth in European population from mid-eighteenth century. It looks at the suitable criteria for assessing the applicability of general theory to the experience of individual nations. It showcases the over-riding contrast between substantial economic variations on a national and regional level and the existence of common underlying demographic trends. This book will be useful for scholars and researchers of economic history, political economy, European history, population geography and economics in general.

The Horoscope of Emperor Baldwin II Jul 24 2019 In this book Filip Van Tricht presents a microstudy of political, social and cultural life in Latin-Byzantine Constantinople and Romania in the mid-13th century.

Rainbows in Your Eyes Sep 05 2020 Andrew Dorincourt has the blood of powerful shifters in his veins. It's his job to take care of his siblings, who are his pack, and he has no intention of letting anything get in the way. However, he's seen the love shared not only by his parents but by the Papas, the men who raised his mother, and he wants that for himself. The problem is none of the young women he's dated have left him wanting anything more than to go home alone. Perhaps he'd have more success by dating men, as his brother does. Only it seems he's not very successful at that, either. Dairic is the son of Ricciu, a Brachi who'd been stranded on Terra for decades, and David Knight, an ichthyologist who traveled up the Amazon in search of his heart's desire. Seeing the deep love his fathers have for each other, Dairic determines to settle for nothing less. At any rate, the dating pool is pretty much empty in the Lagoon of Dreams, and so he goes to the States, where he intends to become a herpetologist. In order to do that, he must mingle with normals, Terrans who have no idea extraterrestrials share the planet with them. When he walks among Terrans, he must disguise his heritage by wearing sunglasses to conceal his rainbow-colored eyes and long-sleeved shirts to hide his scale-patterned skin. After being kidnapped and sold to a high-ranking member of the London underworld to be displayed as the Snake Boy, Dai despairs of ever seeing his beloved family again, until Drew wanders into the House of Oddities and helps Dai escape. Is it fate, kismet, or destiny that brings together the offspring of two very unique families? Have these two been waiting for each other, and will the future hold the love they'd both been seeking?

Women and Genocide Jan 22 2022 Illuminating the unique experiences of women both during and after genocide, JoAnn DiGeorgio-Lutz and Donna Gosbee's edited collection is a vital addition to genocide scholarship. The contributors revisit genocides of the twentieth and twenty-first centuries, from Armenia in 1915 to Gujarat in 2002, examining the roles of women as victims, witnesses, survivors, and rescuers. The text underscores women's experiences as a central yet often overlooked component to the understanding of genocide. Drawing from narratives, memoirs, testimonies, and literature, this groundbreaking volume brings together women's stories of victimization, trauma, and survival. Each chapter is framed by a consistent methodology to allow for a comparative analysis, revealing the ways in which women's experiences across genocides are similar and yet profoundly different. By looking at genocide from a gendered perspective, Women and Genocide constitutes an important contribution to feminist research on war and political violence. Featuring critical thinking questions and concise histories of each genocidal period discussed, this highly accessible text is an ideal resource for both students and instructors in this field and for anyone interested in the study of women's lives in times of violence and conflict.

Shaping Language Rights Dec 09 2020 The European Charter for Regional or Minority Languages protects and promotes traditionally used regional or minority languages in Europe. This volume provides an in-depth analysis of the provisions of the Charter in light of the monitoring work done by the Committee of Experts since 2001. An article-by-article commentary by legal experts examines the meaning and implications of the provisions of the Charter and studies best practice and shortcomings in its implementation by states parties.

Pope Urban II's Council of Piacenza Jun 02 2020 The Council of Piacenza is among the most important moments of the Reform that was sweeping through the Western Church at the end of the eleventh century. It is often regarded as a launching pad for the First Crusade, though the matter is obscure and serves only to hide the assembly's true significance as a turning point in the papal schism between Popes Gregory VII/Urban II and the so-called anti-pope Clement III. The canons promulgated at Piacenza became landmarks not only for the eleventh- and twelfth-century Reform, but more broadly for the Church of the High Middle Ages and even beyond. Robert Somerville situates Piacenza in historical context, discusses the sources, the attendance, and the need for a new edition of the legislation. The official canons are lost, but several dozen twelfth-century manuscripts were consulted for a new edition of these provisions. The account finishes with a commentary on Piacenza's legislation and a discussion of the subsequent legislation of Urban II's synods. Somerville completes the picture of what can be known about the papal synods of one of the most influential Roman pontiffs of the Middle Ages.

Danger! Educated Gypsy Feb 08 2021 Professor Ian F. Hancock, Gypsy, scholar, linguist, activist (although not necessarily or always in that order), has spent a good deal of his life kicking against the received opinions and dearth of opportunities that have long oppressed the Romani community. His impact upon Romani Studies has been truly remarkable, both in terms of his contributions to linguistics and Gypsy historiography and in his re-assessment of Romani identity within the Western cultural fabric. No less influential has been his personal development as a scholar and activist for his own community.

[Liturgy and Society in Early Medieval Rome](#) Jun 26 2022 The liturgy, the public worship of the Catholic Church, was a crucial factor in forging the society of early medieval Rome. As the Roman Empire dissolved, a new world emerged as Christian bishops stepped into the power vacuum left by the dismantling of the Empire. Among these potentates, none was more important than the bishop of Rome, the pope. The documents, archaeology, and architecture that issued forth from papal Rome in the seventh and eighth centuries preserve a precious glimpse into novel societal patterns. The underexploited liturgical sources in particular enrich and complicate our historical understanding of this period. They show how liturgy was the "social glue" that held together the Christian society of early medieval Rome – and excluded those who did not belong to it. This study places the liturgy center stage, filling a gap in research on early medieval Rome and demonstrating the utility of investigating how the liturgy functioned in medieval Europe. It includes a detailed analysis of the papal Mass, the central act of liturgy and the most obvious example of the close interaction of liturgy, social relations and power. The first extant Mass liturgy, the First Roman Ordo, is also given a new presentation in Latin here with an English translation and commentary. Other grand liturgical events such as penitential processions are also examined, as well as more mundane acts of worship. Far from a pious business with limited influence, the liturgy established an exchange between humans and the divine that oriented Roman society to God and fostered the dominance of the clergy.

Nationalism and Terror Mar 31 2020 This book covers the full story of the Ustasha, a fascist movement in Croatia, from its historic roots to its downfall. The authors address key questions: In what international context did Ustasha terrorism grow and develop? How did this movement rise to power, and then exterminate hundreds of thousands of innocents? Who was Ante Pavelić, its leader? Was he a shrewd politician, able to exploit for his independent project Mussolini's imperial ambitions, Hitler's pan-German aims, and the anti-Bolshevism of the Holy See and the Western bloc? Or was he, consciously or not, a pawn in other hands, in a complex international scenario where Croatia was only arena among many? And after the movement's collapse, how were several of the most prominent Ustasha leaders able to evade capture by Tito's victorious army? The facts and documents confront us with the ambivalence of terrorism. The book places the appearance of the Ustasha movement not only in the context of the interwar Kingdom of Yugoslavia but also in the wider perspective of the emergence of European fascism.

[Minority Integration in Central Eastern Europe](#) Dec 29 2019 "The book presents a timely examination on a range of issues present in the discussions on the integration of ethnic minorities in Central Eastern Europe: norm setting, equality promotion, multiculturalism, nation-building, social cohesion, and ethnic diversity. It insightfully illustrates these debates by assessing them diachronically rather than cross-nationally from the legal, political and anthropological perspective. The contributors unpack concepts related to minority integration, discuss progress in policy-implementation and scrutinize the outcomes of minority integration in seven countries from the region. The volume is divided into three sections taking a multi-variant perspective on minority

Romani Writing Jul 28 2022 The Roma (commonly known as "Gypsies") have largely been depicted in writings and in popular culture as an illiterate group. However, as Romani Writing shows, the Roma have a deep understanding of literacy and its implications, and use writing for a range of different purposes. While some Romani writers adopt an "oral" use of the written medium, which aims at opposing and deconstructing anti-Gypsy stereotypes, other Romani authors use writing for purposes of identity-building. Writing is for Romani activists and intellectuals a key factor in establishing a shared identity and introducing a common language that transcends linguistic and geographical boundaries between different Romani groups. Romani authors, acting in-between different cultures and communication systems, regard writing as an act of cultural mediation through which they are able to rewrite Gypsy images and negotiate their identity while retaining their ethnic specificity. Indeed, Romani Writing demonstrates how Romani authors have started to create self-images in which the Roma are no longer portrayed as "objects", but become "subjects" of written representation.
