Computational Linguistics and Intelligent Text Processing Dec 29 2019 This two-volume set, consisting of LNCS 7181 and LNCS 7182, constitutes the thoroughly refereed proceedings of the 13th International Conference on Computer Linguistics and Intelligent Processing, held in New Delhi, India, in March 2012. The total of 92 full papers were carefully reviewed and selected for inclusion in the proceedings. The contents have been ordered according to the following topical sections: NLP system architecture; lexical resources; morphology and syntax; word sense disambiguation and named entity recognition; semantics and discourse; sentiment analysis, opinion mining, and emotions; natural language generation; machine translation and multilingualism; text categorization and clustering; information extraction and text mining; information retrieval and question answering; document summarization; and applications.

Using Yahoo Answers Jan 22 2022 Why Yahoo Answers? With over 20 million users in the USA alone and over a BILLION users worldwide, Yahoo Answers could be one of the best free traffic systems available today. Yahoo Answers can give you, your business and any niche, quality targeted traffic that is socially charged and motivated to buy. If you're willing to follow the advice, rules and do what is right by people who are loo...

Groundswell Mar 24 2022 Corporate executives struggle to harness the power of social technologies. Twitter, Facebook, blogs, YouTube are where customers discuss products and companies, write their own news, and find their own deals but how do you integrate these activities into your broader marketing efforts? It's an unstoppable groundswell that affects every industry -- yet it's still utterly foreign to most companies running things now. When consumers you've never met are rating your company's products in public forums with which you have no experience or influence, your company is vulnerable. In Groundswell, Josh Bernoff and Charlene Li explain how to turn this threat into an opportunity. In this updated and expanded edition of Groundswell, featuring an all new introduction and chapters on Twitter and social media integration, you'll learn to: · Evaluate new social technologies as they emerge · Determine how different groups of consumers are participating in social technology arenas · Apply a four-step process for formulating your future strategy · Build social technologies into your business Groundswell is required reading for executives seeking to protect and strengthen their company's public image.

Yahoo!? For Dummies? May 02 2020 Yahoo! For Dummies, 2nd Edition hits the shelves with refreshed information on Yahoo!'s most popular and useful features. Author Brad Hill covers registering for Yahoo!, customizing it to deliver the content of one's choosing, and getting a Yahoo! e-mail account. The book also guides you through using Yahoo!'s Web page design and hosting service (GeoCities), it's multimedia broadcast center (Broadcast), and its variety of shopping and financial services.

Applied Semantic Web Technologies Apr 12 2021 The rapid advancement of semantic web technologies, along with the fact that they are at various levels of maturity, has left many practitioners confused about the current state of these technologies. Focusing on the most mature technologies, Applied Semantic Web Technologies integrates theory with case studies to illustrate the history, current st

The Complete Idiot's Guide to Crowdsourcing Jul 16 2021 Tap into the global talent pool. Crowdsourcing leverages such social networking tools as Facebook and Twitter to tap into the power of many people to distribute one's work load or gain input. Aliza Sherman, crowdsourcing innovator, has helped her clients harness the incredible power of "crowd-think" and "crowd-do" to achieve goals as diverse as designing new products to test-marketing services to fundraising. In this guide, she explains the theory and practice of crowdsourcing and actually shows readers how to use it. ? A practical, prescriptive guide for those who want to put the ideas in such books as The Wisdom of Crowds and Here Comes Everybody into action. ? Step-by-step instructions. ? Insightful anecdotes from the world of crowdsourcing.

The Hitler Virus Oct 26 2019 Pro-Hitler sentiment in Germany and its implications are laid bare in this chilling history of the Nazi leader's continuing legacy and influence in that country since Hitler's death in 1945. 25,000 first printing.

Cultural Law Dec 09 2020 Cultural law is a new and exciting field of study and practice. The core themes of linguistic and other cultural rights, cultural heritage, traditional crafts and knowledge, the performing arts, sports, and religion are of fundamental importance to people around the world, engaging them at the grass roots and often commanding their daily attention. The related legal processes are both significant and complex. This unique collection of materials and commentary on cultural law covers a broad range of themes. Opening chapters explore critical issues involving cultural activities, artifacts, and status as well as the fundamental concepts of culture and law. Subsequent chapters examine the dynamic interplay of law and culture with respect to each of the core themes. The materials demonstrate the reality and efficacy of comparative, international, and indigenous law and legal practices in the dynamic context of culture-related issues. Throughout the book, these issues are presented at multiple levels of legal authority: international, national, and subnational.

The Complete Idiot's Guide to Yahoo! Jan 10 2021 A guide to the search engine's content and services covers navigation, operation, searching, email, chat, and scheduling, while showcasing Web sites devoted to news, sports, weather, finance, auctions, and shopping

Advances in Information Retrieval Jun 14 2021 This book constitutes the refereed proceedings of the 33rd annual European Conference on Information Retrieval Research, ECIR 2011, held in Dublin, Ireland, in April 2010. The 45 revised full papers presented together with 24 poster papers, 17 short papers, and 6 tool demonstrations were carefully reviewed and selected from 223 full research paper submissions and 64 poster/demo submissions. The papers are organized in topical sections on text categorization, recommender systems, Web IR, IR evaluation, IR for Social Networks, cross-language IR, IR theory, multimedia IR, IR applications, interactive IR, and question answering /NLP.

Experimental IR Meets Multilinguality, Multimodality, and Interaction May 14 2021 This book constitutes the refereed proceedings of the 8th International Conference of the CLEF Initiative, CLEF 2017, held in Dublin, Ireland, in September 2017. The 7 full papers and 9 short papers presented together with 6 best of the labs papers were carefully reviewed and selected from 38 submissions. In addition, this volume contains the results of 10 benchmarking labs reporting their year long activities in overview talks and lab sessions. The papers address all aspects of information access in any modality and language and cover a broad range of topics in the field of multilingual and multimodal information access evaluation.

Approaches and Processes for Managing the Economics of Information Systems Feb 20 2022 "This book explores the value of information and its management by highlighting theoretical and empirical approaches in the economics of information systems, providing insight into how information systems can generate economic value for businesses and consumers"--Provided by publisher.

Natural Language Processing – IJCNLP 2005 Aug 17 2021 This book constitutes the thoroughly refereed proceedings of the Second International Joint Conference on Natural Language Processing, IJCNLP 2005, held in Jeju Island, Korea in October 2005. The 88 revised full papers presented in this volume were carefully reviewed and selected from 289 submissions. The papers are organized in topical sections on information retrieval, corpus-based parsing, Web mining, rule-based parsing, disambiguation, text mining, document analysis, ontology and thesaurus, relation extraction, text classification, transliteration, machine translation, question answering, morphological analysis, text summarization, named entity recognition, linguistic resources and tools, discourse analysis, semantic analysis NLP applications, tagging, language models, spoken language, and terminology mining.

Notes and Commentary to Jock's Life of Mo Apr 24 2022 Life of Mo is a musical satire based on the life of the Prophet Mohammed. These explanatory notes, which include the full text of Life of Mo, attempt to determine the sources of the play's material, and offer further explanatory notes regarding the themes and ideas raised in the play. Superficially, Life of Mo is a musical fantasy romp, combining stories with re-writes of songs by popular artists like Dolly Parton, Freddy Mercury, Mick Jagger, Billy Joel, Led Zeppelin, Meat Loaf and Jim Steinman and others. But Life of Mo has a deeper grounding, and its sources include original texts (the Qur'an, ahadith, and Bible), and commentaries by writers like William Muir, Robert Spencer, Ali Dashti and Ali Sina. In addition, the writer has also used Internet sources, like Wikipedia, YouTube and Reddit. CF Hibbot's Notes and Commentary to Jock's Life of Mo traces through the humour and the tragedy to render a deeper appreciation and understanding of the play and the subject matter covered.

Business Ethics Mar 31 2020 The future of the free market depends on fair, honest business practices. Business Ethics: Contemporary Issues and Cases aims to deepen students' knowledge of ethical principles, corporate social responsibility, and decision-making in all aspects of business. The text presents an innovative approach to ethical reasoning grounded in moral philosophy. Focusing on corporate purpose—creating economic value, complying with laws and regulations, and observing ethical standards—a decision-making framework is presented based upon Duties-Rights-Justice. Over 40 real-world case studies allow students to grapple with a wide range of moral issues related to personal integrity, corporate values, and global capitalism. Richard A. Spinello delves into the most pressing issues confronting businesses today including sexual harassment in the workplace, cybersecurity, privacy, and environmental justice.

Advances in Computational Intelligence Oct 19 2021 The two-volume set LNAI 12468 and 12469 constitutes the proceedings of the 19th Mexican International Conference on Artificial Intelligence, MICAI 2020, held in Mexico City, Mexico, in October 2020. The total of 77 papers presented in these two volumes was carefully reviewed and selected from 186 submissions. The contributions are organized in topical as follows: Part I: machine and deep learning, evolutionary and metaheuristic algorithms, and soft computing. Part II: natural language processing, image processing and pattern recognition, and intelligent applications and robotics.

The Five Watersheds of History & Theology Sep 29 2022 The Five Watersheds of History and Theology takes a fresh look into 21st Century Christianity in light of cultural distortions and the Kingdom of God. The Bible is the bestselling book of all times and is used as the source document of Christianity. The Bible has touched cultures all over the world and has been the substratum for both the Roman Catholic church and the Protestant Church. The challenge facing the 21st century church attrition rate and the decline of interest in attending church, particularly in Europe, Australia, and North America has led to many becoming atheist or pursuing other religious perspectives. Why are so many revisiting their commitment to the Christian faith? Many people today approach Christianity, and now the Bible, with great skepticism due to the great racial and cultural divide that is associated with Christianity. The Five Watersheds of History and Theology explores how the, once polarizing, Christian faith has lost its impact over time in spite of having such powerful historical roots. This book examines how the central

theme of the Bible, "The Kingdom of God," in its Jewish context, which was the original context in which God chose to communicate His message, lost its cultural influences and context. There are five watersheds (an event or period marking a turning point in a course of action or state of affairs), that have totally reshaped the message of the Bible and the scriptures, and has distorted the biblical view of God, Romanization, Europeanization, Colonization, Westernization, and Americanization of the Gospel. These Five Watersheds have made tremendous impacts upon the Christian faith-- some positive and some negative. You will learn how the faith was formulated and distorted through socio-economics, politics and race; and what necessary amendments are needed to our current approach to the faith.

Messenger & Mail Hacking + CD May 26 2022

Get On Google Front Page Nov 19 2021 Get on Google front page. Read the latest collection of SEO tips for 2011. You'll learn to:-pick the very best keywords, short-tail and long-tail-add meta tags with meta description to page source-optimize the text and images within website pages-get your URL backlinks out to thousands of sites-monitor visitors trends-build online platform, increase visibility-and so much more.

The Psychology of Advertising Sep 25 2019 The Psychology of Advertising offers a comprehensive exploration of theory and research in (consumer) psychology on how advertising impacts the thoughts, emotions, and actions of consumers. It links psychological theories and empirical research findings to real-life industry examples, showing how scientific research can inform marketing practice. Advertising is a ubiquitous and powerful force, seducing us into buying wanted and sometimes unwanted products and services, donating to charitable causes, voting for political candidates, and changing our health-related lifestyles for better or worse. This revised and fully updated third edition of the Psychology of Advertising offers a comprehensive and state-of-the art overview of psychological theorizing and research on the impact of online and offline advertising and discusses how the traces consumers leave on the internet (their digital footprint) guides marketers in micro-targeting their advertisements. The new edition also includes new coverage of big data, privacy, personalization, and materialism, and engages with the issue of the replication crisis in psychology, and what that means in relation to studies in the book. Including a glossary of key concepts, updated examples, and illustrations, this is a unique and invaluable resource for advanced undergraduate and graduate students and instructors. Suitable for psychology, advertising, marketing, and media courses. it is also a valuable guide for professionals working in advertising, public health, public services and political communication.

Envisioning the Future of Online Learning Feb 29 2020 This book shares insights into the various ways technology can be used for educational purposes, utilizing an approach suitable for both novice and advanced practitioners in this niche area. It features selected papers presented at the International Conference on e-Learning 2015 (ICeL 2015), where professionals discussed how technology can not only serve as a tool in the classroom, but as the classroom itself. As the title "Envisioning the Future of Online Learning" suggests, this book showcases current best practices in the field of e-learning, where technology has been leveraged to re-engineer the landscape of education, particularly in the context of Malaysia.

The Outreach of Digital Libraries: A Globalized Resource Network Jul 24 2019 This book constitutes the refereed proceedings of the 14th International Conference on Asia-Pacific Digital Libraries, ICADL 2012, held in Taipei, China, in November 2012. The 27 revised full papers, 17 revised short papers, and 13 poster papers were carefully reviewed and selected from 93 submissions. The papers are organized in topical sections on cultural heritage preservation, retrieval and browsing in digital libraries, biliometrics, metadata and cataloguing, mobile and cloud computing, human factors in digital library, presevation systems and algorithms, social media, digital library algorithms and systems, recommendation applications and social networks.

Interactions with Search Systems Aug 24 2019 Information seeking is a fundamental human activity. In the modern world, it is frequently conducted through interactions with search systems. The retrieval and comprehension of information returned by these systems is a key part of decision making and action in a broad range of settings. Advances in data availability coupled with new interaction paradigms, and mobile and cloud computing capabilities, have created a broad range of new opportunities for information access and use. In this comprehensive book for professionals, researchers, and students involved in search system design and evaluation, search expert Ryen White discusses how search systems can capitalize on new capabilities and how next-generation systems must support higher order search activities such as task completion, learning, and decision making. He outlines the implications of these changes for the evolution of search evaluation, as well as challenges that extend beyond search systems in areas such as privacy and societal benefit.

Gulliver's Travels - Jonathan Swift, New Edition Sep 05 2020 Presents a collection of essays analyzing Jonathan Swift's Gulliver's travels, including a chronology of the author's works and life.

House of Faith House of Cards Nov 07 2020 "Concise. Vivid. Honest." - Dan Barker, critically acclaimed author of 'Godless' and 'Losing Faith in Faith' "Brutally honest, insightful, and compelling storytelling." - Lyndon Lamborn, author of 'Standing for Something More' When a young couple searched for clues connecting them to a famous ancestor, their journey led them on a path they never expected – converting to Mormonism. House of Faith House of Cards tells the turbulent life story of their son, Eric, including all the typical Mormon experiences, and some extraordinary episodes no Mormon will ever encounter. He participated with family members in his first secret temple ritual – normally reserved for adults – at the age of four, only to be excluded from a similar ceremony, involving his family, thirteen years later. In 1857, a company of 120 immigrants set out from a small Arkansas town, toward California. In a tragic twist of fate, they never reached their destination. While encamped in southern Utah, local Mormons and Paiute Indians launched an ambush, brutally slaughtering the group, in what became known as the Mountain Meadows massacre. 125 years later, Eric would be raised as a Mormon in the same Arkansas community where this wagon train initially departed. There, he learned just how much some people still despised that faith. While training for and serving a church mission in Canada, in the mid-1990s, Eric shared a room and became acquainted with a fellow missionary named Mark Hacking. Less than a decade later, when the disappearance and murder of Hacking's wife became highly publicized, several international media outlets approached Eric, searching for any juicy detail of the man's troubled past. These stories are just the tip of the iceberg.

Humans End Movie Final Chapter Aug 29 2022 This is part two and three in the final chapter of Humans End screenplay of the journeys and sagas of the human and social experiments. This is a frantic and frenzied rush to attempt to save the human experience, driven by maniacal and holistic perspectives, and to attempt to reverse the damaging degeneration of the male Y chromosome and male pineal gland maturation decay due to the neutrino tau destruction on the human body. This screenplay makes penitent narratives of human health, lifestyles, future innovations and drama, and horror and political possibilities of some solutions, coupled with a total finality of the human experience as we know it.

Non-prototypical Clefts in French Nov 27 2019 This monograph is the first large-scale corpus analysis of French il y a clefts. While most research on clefts focusses on the English 'prototypical' it-cleft and its equivalents across languages, this study examines the lesser-known il y a clefts – of both presentational-eventive and specificational type – and provides an in-depth analysis of their syntactic, semantic and discourse-functional properties. In addition to an extensive literature review and a comparison with Italian c'è clefts and with French c'est clefts, the strength of the study lies in the critical approach it develops to the common definition of clefts. Several commonly used criteria for clefts are applied to the corpus data, revealing that these criteria often lead to ambiguous results. The reasons for this ambiguity are explored, thus leading to a better understanding of what constitutes a cleft. In this sense, the analysis will be of interest to specialists of Romance and non-Romance clefts alike.

Becoming a Physical Education Teacher Dec 21 2021 Teaching physical education is a challenging but rewarding occupation. Finding a way into the profession can be a daunting task while regular changes in government policy can make it hard to stay up to date. This engaging new book explains the process of becoming and being a teacher of secondary school physical education, from the various routes of entry into the profession, to the realities of being a qualified PE teacher, to the ways in which experienced teachers can become teacher educators and nurture the next generation. It combines rich personal accounts of teaching in, and being taught, physical education, with practical advice for trainees, newly qualified teachers and established professionals, with an emphasis throughout on the importance of critical self-reflection. The book begins by exploring the nature and purpose of physical education and examining the historical development of initial teacher training. It examines recent changes in training, policy and curriculum, and offers an overview of the various ways of becoming a PE teacher, including the Post Graduate Certificate in Education (PGCE) and school and employment based routes. The book offers advice on what to expect at interview, meeting the standards for qualifying to teach, and on how to survive the difficult first year as a newly-qualified teacher. It also outlines the challenges and rewards of being a qualified teacher, mentor or curriculum leader, as well as a teacher educator within higher education. Concise, helpful, and filled with sensible insights based on real experiences of teaching physical education, Becoming a Physical Education Teacher is an essential read for anybody considering entering the profession, or for students, trainees, newly qualified or experienced teachers wanting to understand better the process of becoming, and being, a successful PE teacher.

Marissa Mayer and the Fight to Save Yahoo! Aug 05 2020 When Yahoo hired star Google executive Mayer to be its CEO in 2012 employees rejoiced. They put posters on the walls throughout Yahoo's California headquarters. On them there was Mayer's face and one word: HOPE. But one year later, Mayer sat in front of those same employees in a huge cafeteria on Yahoo's campus and took the beating of her life. Her hair wet and her tone defensive, Mayer read and answered a series of employee-posed questions challenging the basic elements of her plan. There was anger in the room and, behind it, a question: Was Mayer actually going to be able to do this thing? MARISSA MAYER AND THE FIGHT TO SAVE YAHOO! is the inside story of how Yahoo got into such awful shape in the first place, Marissa Mayer's controversial rise at Google, and her desperate fight to save an Internet icon. In author Nicholas Carlson's capable hands, this riveting book captures Mayer's rise and Yahoo's missteps as a dramatic illustration of what it takes to grab the brass ring in Silicon Valley. And it reveals whether it is possible for a big lumbering tech company to stay relevant in today's rapidly changing business landscape. PRAISE FOR MARISSA MAYER AND THE FIGHT TO SAVE YAHOO! The New York Times says the book is "a lot of fun to read" and "an impressive feat." The New York Times also writes, "As Nicholas Carlson demonstrates in MARISSA MAYER AND THE FIGHT TO SAVE YAHOO!, a vivid account of her vertiginous career climb, Mayer is worth paying attention to for reasons that transcend gender. Carlson presents her as a complex personality who defies most stereotypes." "A corporate thriller [that does] a superb job of bringing to life the dramatic story of Yahoo." --The Financial Times "A quick, compelling read...[one that] is, without question, a riveting lens from which to study Yahoo: There are ups, there are downs, there are heroes, and there are villains." --Fortune

Ethics in a Computing Culture Jun 02 2020 ETHICS IN A COMPUTING CULTURE introduces key ideas in moral theory and professionalism to explore the hottest topics in computer ethics. With a unique blend of theory, application, and critical thinking exercises, each chapter underscores the interdisciplinary links between computing and diverse areas of study. Abundant multicultural cases are presented throughout to highlight contrasts and conflicts in ethical perspectives across the globe. ETHICS IN A COMPUTING CULTURE encourages students to continually read, reflect and write to hone sharp critical thinking skills. Students learn that that computing is not a purely technical discipline but one with moral and social implications that affect everyday life. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Crossing the Kingdom Jul 28 2022 For many people, the Kingdom of Saudi Arabia evokes images of deserts, camels, and oil, along with rich sheikh in white robes, oppressed women in black veils, and terrorists. But when Loring Danforth traveled the country in 2012, he found a world much more complex and intriguing than he could have ever imagined. With vivid descriptions and moving personal narratives, Danforth takes us across the Kingdom, from the headquarters of Saudi Aramco, the country's national oil company on the Persian Gulf, to the centuries-old city of Jeddah on the Red Sea coast with its population of undocumented immigrants from all over the Muslim world. He presents detailed portraits of a young woman jailed for protesting the ban on women driving, a Sufi scholar encouraging Muslims and Christians to struggle together with love to know God, and an artist citing the Quran and using metal gears and chains to celebrate the diversity of the pilgrims who come to Mecca. Crossing the Kingdom paints a lucid portrait of contemporary Saudi culture and the lives of individuals, who like us all grapple with modernity at the dawn of the twenty-first century.

Competition on the Internet Jun 26 2022

Groundswell, Expanded and Revised Edition Mar 12 2021 Corporate executives struggle to harness the power of social technologies. Twitter, Facebook, blogs, YouTube are where customers discuss products and companies, write their own news, and find their own deals but how do you integrate these activities into your broader marketing efforts? It's an unstoppable groundswell that affects every industry -- yet it's still utterly foreign to most companies running things now. When consumers you've never met are rating your company's products in public

 Artificial Intelligence for Customer Relationship Management Jun 22 2019 The second volume of this research monograph describes a number of applications of Artificial Intelligence in the field of Customer Relationship Management with the focus of solving customer problems. We design a system that tries to understand the customer complaint, his mood, and what can be done to resolve an issue with the product or service. To solve a customer problem efficiently, we maintain a dialogue with the customer so that the problem can be clarified and multiple ways to fix it can be sought. We introduce dialogue management based on discourse analysis: a systematic linguistic way to handle the thought process of the author of the content to be delivered. We analyze user sentiments and personal traits to tailor dialogue management to individual customers. We also design a number of dialogue scenarios for CRM with replies following certain patterns and propose virtual and social dialogues for various modalities of communication with a customer. After we learn to detect fake content, deception and hypocrisy, we examine the domain of customer complaints. We simulate mental states, attitudes and emotions of a complainant and try to predict his behavior. Having suggested graph-based formal representations of complaint scenarios, we machine-learn them to identify the best action the customer support organization can chose to retain the complainant as a customer.

 New Frontiers in Artificial Intelligence Jan 28 2020 This book constitutes the thoroughly refereed joint post-proceedings of three international workshops organized by the Japanese Society for Artificial Intelligence, held in Tokyo, Japan in June 2006 during the 20th Annual Conference JSAI 2006. The volume starts with eight award winning papers of the JSAI 2006 main conference that are presented along with the 21 revised full workshop papers, carefully reviewed and selected for inclusion in the volume.

 Web Information Systems Engineering - WISE 2009 Oct 31 2022 This book constitutes the proceedings of the 10th International Conference on Web Information Systems Engineering, WISE 2009, held in Poznan, Poland, in October 2009. The 33 revised full papers and 17 revised short papers presented together with two keynote talks were carefully reviewed and selected from around 144 submissions. The papers are organized in topical sections on web computing, industrial session, tagging, semantics, search, visualization, web services, trust and uncertainty, recommendation and quality of service, user interfaces, web understanding, exploiting structures information on the web, systems, data mining and querying, querying and workflow and architecture.

 Do the Right Thing Jul 04 2020 This book puts an interesting perspective on the approach of business improvement, presenting in very clear ways how to understand, embrace, and obtain realistic improvements. It directly explains business improvement in a holistic approach that starts with the core of a business and drives all the way through successful improvement initiatives. This method will help a company defy the next economic downturn, incubate a new venture, or re-invent your organization to achieve the next level of performance. Drive your company to be an industry best in class leader. If you are in any way involved in your company's business improvement as a business professional, technology manager, or engaged executive leader you will find these methods successful, reality based, and ultimately the right thing for your company.

 Triangulating Methodological Approaches in Corpus Linguistic Research Oct 07 2020 Contemporary corpus linguists use a wide variety of methods to study discourse patterns. This volume provides a systematic comparison of various methodological approaches in corpus linguistics through a series of parallel empirical studies that use a single corpus dataset to answer the same overarching research question. Ten contributing experts each use a different method to address the same broadly framed research question: In what ways does language use in online Q+A forum responses differ across four world English varieties (India, Philippines, United Kingdom, and United States)? Contributions will be based on analysis of the same 400,000 word corpus from online Q+A forums, and contributors employ methodologies including corpus-based discourse analysis, audience perceptions, Multi-Dimensional analysis, pragmatic analysis, and keyword analysis. In their introductory and concluding chapters, the volume editors compare and contrast the findings from each method and assess the degree to which 'triangulating' multiple approaches may provide a more nuanced understanding of a research question, with the aim of identifying a set of complementary approaches which could arguably take into account analytical blind spots. Baker and Egbert also consider the importance of issues such as researcher subjectivity, type of annotation, the limitations and affordances of different corpus tools, the relative strengths of qualitative and quantitative approaches, and the value of considering data or information beyond the corpus. Rather than attempting to find the 'best' approach, the focus of the volume is on how different corpus linguistic methodologies may complement one another, and raises suggestions for further methodological studies which use triangulation to enrich corpus-related research.
