Leviticus as Literature Aug 13 2021 This first full-scale account of Leviticus by a world renowned anthropologist presents the biblical work as a literary masterpiece. Seen in an anthropological perspective Leviticus has a mystical structure which plots the book into three parts corresponding to the three parts of the desert tabernacle, both corresponding to the parts of Mount Sinai. This completely new reading transforms the interpretation of the purity laws. The pig and other forbidden animals are not abhorrent, they command the same respect due to all God's creatures. Boldly challenging several traditions of Bible criticism, Mary Douglas claims that Leviticus is not the narrow doctrine of a crabbed professional priesthood but a powerful intellectual statement about a religion which emphasizes God's justice and compassion.

A Sunday Devotional Nov 04 2020 As this book is being prepared I am so humbled and grateful that God has taught me patiently one on one over the years at the altar. Study of Japanese Swords Apr 28 2020 This is a series of entry-level lectures on the Japanese sword and its history for those who are interested in studying Japanese art swords. The Japanese sword was basically designed as a weapon, but Japanese swordsmiths imbued qualities of grace and beauty into the blades as well as functional superiority. The intricate patterns of surface and texture formed by their highly developed forging and tempering techniques were made only in Japan. In the past, the Japanese looked at the swords as a spiritual symbol of Samurai, temples, and shrines. Nowadays, the Japanese regard swords as a cultural art object made of steel. Varieties of the appearance of swords are closely related

to historical events. Textures, contours, and tempering designs are characteristics of a particular school (Den 伝) of swordsmiths. This is a series of lectures that discuss each period's history then talk about the swordsmiths' schools that were active in a particular province at the time. Because of that, each section starts with the history of the time. It is necessary to discuss the history to see the flow of the events that affected the swords' shape and style.

Worlds of Arthur Aug 21 2019 King Arthur is probably the most famous and certainly the most legendary medieval king. From the early ninth century through the middle ages, to the Arthurian romances of Victorian times, the tales of this legendary figure have blossomed and multiplied. And in more recent times, there has been a continuous stream of books claiming to have discovered the 'facts' about, or to unlock the secret or truth behind, the 'once and

future king'. Broadly speaking, there are two Arthurs. On the one hand is the traditional 'historical' Arthur, waging a doomed struggle to save Roman civilization against the relentless Anglo-Saxon tide during the darkest years of the Dark Ages. On the other is the Arthur of myth and legend - accompanied by a host of equally legendary people, places, and stories: Lancelot, Guinevere, Galahad and Gawain, Merlin, Excalibur, the Lady in the Lake, the Sword in the Stone, Camelot, the Round Table. The big problem with all this is that 'King Arthur' might well never have existed. And if he did exist, it is next to impossible to say anything at all about him. As this challenging new look at the Arthur legend makes clear, all books claiming to reveal 'the truth' behind King Arthur can safely be ignored. Not only the 'red herrings' in the abundant pseudo-historical accounts, even the 'historical' Arthur is largely a figment of the imagination: the evidence that we have - whether written or archaeological - is simply incapable of telling us anything detailed about the Britain in which he is supposed to have lived, fought, and died. The truth, as Guy Halsall reveals in this fascinating investigation, is both radically different - and also a good deal more intriguing.

A Guide to Teaching in the Active Learning Classroom Apr 09 2021 While Active Learning Classrooms, or ALCs, offer rich new environments for learning, they present many new challenges to faculty because, among other things, they eliminate the room's central focal point and disrupt the conventional seating plan to which faculty and students have become accustomed. The importance of learning how to use these classrooms well and to capitalize on their special features is paramount. The potential they represent can be realized only when they facilitate improved learning outcomes and engage students in the learning process in a manner different from traditional classrooms and lecture halls. This book provides an introduction to ALCs, briefly covering their history and then synthesizing the research on these spaces to provide faculty with empirically based, practical guidance on how to use these unfamiliar spaces effectively. Among the questions this book addresses are: • How can instructors mitigate the apparent lack of a central focal point in the space? • What types of learning activities work well in the ALCs and take advantage of the affordances of the room? • How can teachers address familiar classroom-management challenges in these unfamiliar spaces? • If assessment and rapid feedback are critical in active learning, how do they work in a room filled with circular tables and no central focus point? • How do instructors balance group learning with the needs of the larger class? • How can students be held accountable when many will necessarily have their backs facing the instructor? • How can instructors evaluate the effectiveness of their teaching in these spaces? This book is intended for faculty preparing to teach in or already working in this new classroom environment; for administrators planning to create ALCs or experimenting with provisionally designed rooms; and for faculty developers helping teachers transition to using these new spaces.

Befreit Mar 20 2022 Von den Bergen Idahos nach Cambridge – der unwahrscheinliche » Bildungsweg « der Tara Westover. Tara Westover ist 17 Jahre alt, als sie zum ersten Mal eine Schulklasse betritt. Zehn Jahre später kann sie eine beeindruckende akademische Laufbahn vorweisen. Aufgewachsen im ländlichen Amerika, befreit sie sich aus einer ärmlichen, archaischen und von Paranoia und Gewalt geprägten Welt durch – Bildung, durch die Aneignung von Wissen, das ihr so lange vorenthalten worden war. Die Berge Idahos sind Taras Heimat, sie lebt als Kind im Einklang mit der grandiosen Natur, mit dem Wechsel der Jahreszeiten – und mit den Gesetzen, die ihr Vater aufstellt. Er ist ein fundamentalistischer Mormone, vom baldigen Ende der Welt überzeugt und voller Misstrauen gegenüber dem Staat, von dem er sich verfolgt sieht. Tara und ihre Geschwister gehen nicht zur Schule, sie haben keine Geburtsurkunden, und ein Arzt wird selbst bei furchterlichsten Verletzungen nicht gerufen. Und die kommen häufig vor, denn die Kinder müssen bei der schweren

Arbeit auf Vaters Schrottplatz helfen, um über die Runden zu kommen. Taras Mutter, die einzige Hebamme in der Gegend, heilt die Wunden mit ihren Kräutern. Nichts ist dieser Welt ferner als Bildung. Und doch findet Tara die Kraft, sich auf die Aufnahmeprüfung fürs College vorzubereiten, auch wenn sie quasi bei null anfangen muss ... Wie Tara Westover sich aus dieser Welt befreit, überhaupt erst einmal ein Bewusstsein von sich selbst entwickelt, um den schmerzhaften Abnabelungsprozess von ihrer Familie bewältigen zu können, das beschreibt sie in diesem ergreifenden und wunderbar poetischen Buch. » Befreit wirft ein Licht auf einen Teil unseres Landes, den wir zu oft übersehen. Tara Westovers eindringliche Erzählung — davon, einen Platz für sich selbst in der Welt zu finden, ohne die Verbindung zu ihrer Familie und ihrer geliebten Heimat zu verlieren — verdient es, weithin gelesen zu werden. « J.D. Faith and Politics in Iran, Israel, and the Islamic State Feb 07 2021 Religious faith has been gaining in reach and influence throughout global politics over the last three decades, most prominently in the Middle East, and theologies of this nature are based on the understanding that faith in God is to be based, primarily and predominantly, on the realness of God's presence. The West, accustomed to its own discussion on religion and politics emphasising democracy and individual freedoms, has been at a loss to explain and engage these rising religious polities. Through an innovative approach to the role of faith in politics, Faith and Politics in Iran, Israel, and the Islamic State considers political theologies of the real formulated during the twentieth century and proposes that, while religion in the West has been committed to absolutist vision, these theologies have drawn their strength from a commitment to their concrete, divinely infused reality.

The second section defines the range of activities culturally determined to be a part of the enterprise known as literacy. The third focuses on the processes that individuals engage in when they perform the act of reading. The fourth section visits the environment in which the knowledge that comprises literacy is passed on from one generation to the next. The last section, an epilogue to the whole enterprise of reading research, provides apt philosophical reflection.
