Trade Unions and Labour Movements in the Asia-Pacific Region Aug 25 2022 Recent developments in the world economy, including deindustrialisation and the digital revolution, have led to an increasingly individualistic relationship between workers and employers, which in turn has weakened labour movements and worker representation. However, this process is not universal, including in some countries of Asia, where trade unions are closely aligned with the interests of the dominant political party and the state. This book considers the many challenges facing trade unions and worker representation in a wide range of Asian countries. For each country, full background is given on how trade unions and other forms of worker representation have arisen. Key questions then considered include the challenges facing trade unions and worker representation in each country, the extent to which these are a result of global or local developments and the actions being taken by trade unions and worker representative bodies to cope with the challenges.

**Strategic Management** May 10 2021 The 9th edition of Strategic Management offers comprehensive coverage of all the core areas of business strategy with a strong global perspective. Key features: Balanced coverage of prescriptive and emergent models of strategic management. Application of strategic theory to new areas including technology and innovation strategy, sustainability and green strategy, entrepreneurial strategy and public sector strategy. Major revisions to chapters on Strategic Purpose, Knowledge and Networks, Theories of Entrepreneurship and International and Global Strategy in line with key developments. 20 brand new cases and updated case material throughout exploring the shifting economic fortunes of companies around the world, the rise of developing nations and rapid changes in communications and

technology including the impact of the Corona virus. Range of tools within the book and online to support your learning including key strategic principles, strategic project ideas, critical reflections, questions and further reading. Richard Lynch is Emeritus Professor of Strategic Management at Middlesex University, London.

**History of the American Auto** Jun 18 2019 A comprehensive history of the automobile in America. More than a century of coverage, including the latest models. Told in a lively picture-and-caption format. Thousands of images, including rare factory photos, period advertising, and styling proposals.

Snake Oil Oct 03 2020 The rapid spread of ‘fracking’ (hydraulic fracturing) has temporarily boosted natural gas and oil production, particularly in the USA, but it has also sparked a massive environmental backlash in local communities. The fossil fuel industry is promoting fracking as the biggest energy development of the century, with seductive promises of energy independence and benefits to local economies. Snake Oil casts a critical eye on the oil-industry hype that has hijacked the discussion over energy security. This is the first book to look at fracking from both economic and environmental perspectives, informed by the most thorough analysis of shale gas and oil drilling data ever undertaken. Is fracking the miracle cure-all to our energy ills, or a costly distraction from the necessary work of reducing our fossil fuel dependence?

**365 Cars You Must Drive** Feb 25 2020 What began as a solution for

transportation has evolved into a desire for speed, luxury, personal expression, and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars that any self-respecting auto enthusiast just has to know—and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest, authors Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them, and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know? factoid, the author's clever suggestions for "The Perfect Passenger" and the "Soundtrack" coming out of the speakers, Behind the Wheel notes, and a "Perfect Drive" for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now - all of it adds up to at-a-glance fun reading to go with informative essays on each car, archival and full-color photos, and more. See Motorbooks author Matt Stone interviewed by Jay Leno on JayLenosGarage.com: <http://www.jaylenosgarage.com/video/jays-book-club-matt-stone/1164286/>

**Collaborating at the Trowel's Edge** Mar 28 2020 "Eighteen

contributors - many with tribal ties - cover the current state of collaborative indigenous archaeology in North America to show where the discipline is headed. Continent-wide cases, from the Northeast to the Southwest, demonstrate the situated nature of local practice alongside the global significance of further decolonizing archaeology. And by probing issues of indigenous participation with an eye toward method, theory, and pedagogy, many show how the archaeological field school can be retailored to address politics, ethics, and critical practice alongside traditional teaching and research methods."

**Handbook of Clinical Interviewing With Children** Sep 14 2021 The Handbook of Clinical Interviewing with Children is one of three interrelated handbooks on the topic of interviewing for specific populations. It presents a combination of theory and practice plus concern with diagnostic entities for readers who work, or one day will work, with children (and their parents and teachers) in clinical settings. The volume begins with general issues (structured versus unstructured interview strategies, developmental issues when working with children, writing up the intake interview, etc.), moves to a section on major disorders with special relevance for child populations (conduct disorders, attention-deficit hyperactivity disorder, learning disorders, etc.), and concludes with a section addressing special populations.

**Used Car Buying Guide 2007** Oct 27 2022 Features recommendations and ratings on hundreds of small, medium, and large-sized cars based on quality, economy, performance, and comfort standards, with judgments on crash protection, and assessments of available options

**Automotive News** Jul 12 2021

Plunkett's Automobile Industry Almanac 2007 Jul 20 2019 Provides information on the truck and specialty vehicles business, including: automotive industry trends and market research; mergers, acquisitions, globalization; automobile manufacturers; truck makers; makers of specialty vehicles such as RVs; automobile loans, insurance and other financial services; dealerships; and, components manufacturers.

**Harrison Ford** Jan 26 2020 Harrison Ford is known for such iconic roles as Han Solo, Indiana Jones and Rick Deckard - but his career of 50 years (and counting) encompasses a plethora of other thought-provoking

roles. His off-screen persona has been no less intriguing. Covering a wide timespan, this book assesses Harrison Ford as 'star' from the difficult Hollywood studio years where he began, his blockbusters of the 1980s, through to the impact of ageist culture on his artistry of recent years. The author argues that Ford has generally been seen as a potent, irresistible combination of tradition and modernity. He is an actor who both reflects and utilises changing ideas about American masculinity in the context of Hollywood film production: particular male types are revealed as much in his trademark trustworthy hero act as in his more fallible, less conservative and therefore commercially riskier characters. Luzon Aguado explores these particular star identities and every fluctuation in between. She gives due attention to his much-neglected acting abilities while examining the crucial interplay between star persona and the constraints and conventions of genre. Going beyond standard accounts of Ford's production and pinpointing overlooked aspects of his work, and the creation of the star through cultural artefacts like magazine interviews and advertising campaigns, this book reveals the depth and dimensions of the enduring American screen legend that is Harrison Ford.

Television Program Master Index Mar 08 2021 This work indexes books, dissertations and journal articles that mention television shows. Memoirs, autobiographies, biographies, and some popular works meant for fans are also indexed. The major focus is on service to researchers in the history of television. Listings are keyed to an annotated bibliography. Appendices include a list of websites; an index of groups or classes of people on television; and a list of programs by genre. Changes from the second edition include more than 300 new shows, airing on a wider variety of networks; 2000-plus references (more than double the second edition); and a large increase in scholarly articles. The book provides access to materials on almost 2300 shows, including groundbreaking ones like *All in the Family* (almost 200 entries); cult favorites like *Buffy: The Vampire Slayer* (200-plus entries); and a classic franchise, *Star Trek* (more than 400 entries for all the shows). The shows covered range from the late 1940s to 2010 (*The Walking Dead*). References range from 1956 to 2013.

**Assertiveness and Diversity** Dec 25 2019 The book explores the

relationship between assertiveness and diversity. The case studies and personal stories illustrate how individuals, teams, and organizations can make a difference and make it possible for everyone to be valued for who they are respected for what they do.

**Bayesian Astrophysics** Aug 21 2019 Provides an overview of the fundamentals of Bayesian inference and its applications within astrophysics, for graduate students and researchers.

The Cultural Lives of Whales and Dolphins Jul 24 2022 In the songs and bubble feeding of humpback whales; in young killer whales learning to knock a seal from an ice floe in the same way their mother does; and in the use of sea sponges by the dolphins of Shark Bay, Australia, to protect their beaks while foraging for fish, we find clear examples of the transmission of information among cetaceans. Just as human cultures pass on languages and turns of phrase, tastes in food (and in how it is acquired), and modes of dress, could whales and dolphins have developed a culture of their very own? Unequivocally: yes. In *The Cultural Lives of Whales and Dolphins*, cetacean biologists Hal Whitehead, who has spent much of his life on the ocean trying to understand whales, and Luke Rendell, whose research focuses on the evolution of social learning, open an astounding porthole onto the fascinating culture beneath the waves. As Whitehead and Rendell show, cetacean culture and its transmission are shaped by a blend of adaptations, innate sociality, and the unique environment in which whales and dolphins live: a watery world in which a hundred-and-fifty-ton blue whale can move with utter grace, and where the vertical expanse is as vital, and almost as vast, as the horizontal. Drawing on their own research as well as a scientific literature as immense as the sea—including evolutionary biology, animal behavior, ecology, anthropology, psychology, and neuroscience—Whitehead and Rendell dive into realms both humbling and enlightening as they seek to define what cetacean culture is, why it exists, and what it means for the future of whales and dolphins. And, ultimately, what it means for our future, as well.

The Wrong Guys May 30 2020 Exposes a harrowing vulnerability in the criminal justice system and the practice of coercive interrogation as

reflected by a 1997 murder case involving four innocent Navy servicemen who were separately forced to confess to the crime and are still serving sentences even though the real killer has been caught. 15,000 first printing.

Intercultural Public Relations Feb 07 2021 Intercultural Public Relations: Theories for Managing Relationships and Conflicts with Strategic Publics develops a coherent framework to unify the theories of public relations and intercultural communication, and, within the framework, examines empirical studies of intercultural interactions. This book follows an intercultural approach, which considers how individuals and entities with dissimilar cultural identities interact and negotiate to solve problems and reach mutually satisfying outcomes. This work provides a theory-driven, empirically supported framework that will inform and guide the research and practices of intercultural public relations. Furthermore, it provides numerous levels of analysis and incorporates the use and challenges of social media. The book examines theories and issues in three integrated processes: Identification of publics Relationship management Conflict resolution These areas represent the most critical functions that public relations contributes to organizational effectiveness: scanning the environment, identifying strategic publics, and building long-term, quality relationships with these publics to reduce costs, gain support, and empower the publics themselves. In doing so, the book adopts simultaneously public-centered and organization-centered perspectives. This unique work will serve as an essential reference for students, practitioners, and scholars in today's global public relations environment.

The Modern Presidency Nov 16 2021 THE MODERN PRESIDENCY is a concise, accessible and sophisticated text that uses cases to illustrate important aspects of presidential action and decision-making. Written by a top scholar on the presidency, and thoroughly updated through the summer of 2009 to include the presidency of Barack Obama, the book looks at presidents as individuals and at the large institutions that make up the modern presidency. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
