Seeking Truth and Hiding Facts Feb 27 2020 A unique analysis of the numbers that came to define Chinese politics and how this quantification evolved over time. For decades, a few numbers came to define Chinese politics—until those numbers did not count what mattered and what they counted did not measure up. Seeking Truth and Hiding Facts argues that the Chinese government adopted a system of limited, quantified vision in order to survive the disasters unleashed by Mao Zedong's ideological leadership. Jeremy Wallace explains how that system worked and analyzes how the problems that accumulated in its blind spots led Xi Jinping to take drastic action. Xi's neopolitical turn—aggressive anti-corruption campaigns, reassertion of party authority, and personalization of power—is an attempt to fix the problems of the prior system, as well as a hedge against an inability to do so. The book argues that while of course dictators stay in power through coercion and cooptation, they also do so by convincing their populations and themselves of their right to rule. Quantification is one tool in this persuasive arsenal, but it comes with its own perils.

Seeking Hidden Treasures Apr 30 2020 There are few things more intriguing in life than a hunt for hidden treasures. In a collection of short stories, commentaries, essays, and a novella, James Magner presents diverse characters, engaging plots, and enriching insights into the human condition. Within Magner's stories, his characters search for buried gold, seek a forgotten safe, lift cash from gangsters, solve a murder, escape Nazi-occupied Vienna with hidden assets, secure loot from a Spanish shipwreck, assist an uncle who may be living on top of a goldmine, and embark on other adventures that lead to entertaining and sometimes dangerous situations. Magner's essays explore a variety of topics including the necessary limits of science as a tool for understanding the meaning of our lives and the world, and the significant role of luck in life and poker. Finally in a novella set in Las Vegas in 2015 during a famous international poker tournament, Magner details a deceitful conspiracy scheme while also recounting his real-life experiences as he won more than a quarter of a million dollars (lifetime winnings \$400,000). Seeking Hidden Treasures shares the struggles and joys of an eclectic group of characters on unique quests to find riches with the potential to change their lives forever.

Attention Seeking Dec 07 2020 'Everything depends on what, if anything, we find interesting: on what we are encouraged and educated to find interesting, and what we find ourselves being interested in despite ourselves. There is our official curiosity and our unofficial curiosity (and psychoanalysis is a story about the relationship between the two)...' Based on three connected talks on the subject of attention, this pocket-sized book from Adam Phillips is a fascinating and memorable introduction to idea and the uses of our attention.

A Journey to Seeking God, Real or Myth? Jan 28 2020 A true story and now a speaker of God's love and his empowerment bringing one around not only to the love of God but to work towards the image of his son in obedience and love of the Father, the goal is to love one another as he so love's us, yes, sometimes difficult. I sit here in my little Eden - my backyard, I hear the mockingbird serenading in the background a gift from nature and God who has put joy back into my life and love. I comfortably write these words from witness of my children and myself; it is my hope that everyone that reads and witnesses God's supernatural will share it with another and another and another; that we will speak freely the full story of witness. Perhaps the atheists who believe they can do it alone and in their last moments of life call for a priest, suddenly there not sure God is real and there. A change of heart is different from a change of mind - - think.

Lying Down in the Ever-Falling Snow May 24 2022 First used to describe the weariness the public felt toward media portrayals of societal crises, the term compassion fatigue has been taken up by health professionals to name—along with burnout, vicarious traumatization, compassion stress, and secondary traumatic stress—the condition of caregivers who become “too tired to care.” Compassion, long seen as the foundation of ethical caring, is increasingly understood as a threat to the well-being of those who offer it. Through the lens of hermeneutic phenomenology, the authors present an insider's perspective on compassion fatigue, its effects on the body, on the experience

of time and space, and on personal and professional relationships. Accounts of health professionals, alongside examinations of poetry, images, movies, and literature, are used to explore the notions of compassion, hope, and hopelessness as they inform the meaning of caring work. The authors frame their exposé of compassion fatigue with the very Canadian metaphor of “lying down in the snow.” If suffering is imagined as ever-falling snow, then the need for training and resources for safe journeying in “winter country” becomes apparent. Recognizing the phenomenon of compassion fatigue reveals the role that health services education and the moral habitability of our healthcare environments play in supporting professionals’ ability to act compassionately and to endure.

Seeking Conflict in Mesoamerica Mar 30 2020 Seeking Conflict in Mesoamerica focuses on the conflicts of the ancient Maya, providing a holistic history of Maya hostilities and comparing them with those of neighboring Mesoamerican villages and towns. Contributors to the volume explore the varied stories of past Maya conflicts through artifacts, architecture, texts, and images left to posterity. Many studies have focused on the degree to which the prevalence, nature, and conduct of conflict has varied across time and space. This volume focuses not only on such operational considerations but on cognitive and experiential issues, analyzing how the Maya understood and explained conflict, what they recognized as conflict, how conflict was experienced by various groups, and the circumstances surrounding conflict. By offering an emic (internal and subjective) understanding alongside the more commonly researched etic (external and objective) perspective, contributors clarify insufficiencies and address lapses in data and analysis. They explore how the Maya defined themselves within the realm of warfare and examine the root causes and effects of intergroup conflict. Using case studies from a wide range of time periods, Seeking Conflict in Mesoamerica provides a basis for understanding hostilities and broadens the archaeological record for the “seeking” of conflict in a way that has been largely untouched by previous scholars. With broad theoretical reach beyond Mesoamerican archaeology, the book will have wide interdisciplinary appeal and will be important to ethnohistorians, art historians, ethnographers, epigraphers, and those interested in human conflict more broadly. Seeking Home Aug 23 2019 In book 1 of the series, *Left for Dead*, during a record breaking polar vortex, snow storms inundated the South, leaving behind snow and ice more common to the Dakotas. An unknown enemy attacked the world, leaving society without modern technology. Without the internet, air travel, and few running vehicles of any kind, regional conflicts redefine modern warfare. Forces of darkness moved into the vacuum of power left in the wake of the global disaster, reeking havoc on an unsuspecting civilian populous. Book 4, *Seeking Home* picks up where book 3, *Facing Darkness* left off. Asher Latham, aka Polar Bear, and his small group of friends, who upon escaping their icy tomb inside the maximum security prison, swore an oath to keep a new moral code, have been working hard to reunite with their loved ones. They’ve managed to find several family members, but more are still missing. They’ve overcome seemingly insurmountable odds, fought and won against dark forces, who if left to their own devices, would turn the region into a tyrannical regime not seen since the dark ages. In book 3, they joined up with a group of church members hiding out inside Budcamp’s RV dealership. Together, the new and much larger group have worked to salvage anything they might need from Nashville’s largest mall, which sits under floodwaters. Armed men in a canoe have surprised one of their own, threatening his life. Will Asher and the others inside the mall come to his rescue in time? Will they find their still missing loved ones? Will they survive the winter?

Seeking Truth Oct 05 2020 Seeking Truth motivates a person to find truth. Most of us exist within a psychological illusion of the truth. This illusion of truth exists in a holographic sense. We literally exist within our thoughts. While covered within an analogous shell one filters any new ideas and thoughts through preconceived parameters. In this sense you could hear, see or experience bonafide truth but be unable to accept it as the truth for this reason the scientific method for establishing truth necessitates that an experiment must be performed time and time again with the same results. In common law the truth shall be established by two or more witnesses. May your shell illusion, vaporize. May you see, hear, understand and intuit truth.

Seeking Justice in Child Sexual Abuse Sep 16 2021 St. Mary County is a small rural midwestern enclave with a unique approach to handling accusations of child sexual abuse. Hoping to spare children the trauma of lengthy court appearances and probing interrogations, St. Mary’s professionals strive to obtain confessions from accused sex offenders rather than ask the victim to bear the burden of proof. Treating this county as a critical case study, scholars from a variety of fields come together to analyze this community’s unique approach. They address relevant case law, innovative treatments for both victim and offender, and the social history of child sexual abuse as a national policy concern. They cover legal burdens and scientific methods, prosecutors and protocol, the interrogation of victims and suspects, the use of expert witnesses, defense strategies, and practice wisdom in videotaping. In addition, they examine the unfolding drama of a single legal case from incidence to conviction. The result is a fascinating dialogue that confronts the unique complexities of child sexual abuse for readers on all sides of the issue. Introducing a model that makes enormous headway in the pursuit of justice, fairness, and trauma treatment, this interdisciplinary text is an indispensable tool for all communities seeking redress.

This volume incorporates the insights and perspectives of experts working in a variety of disciplines, including philosophy, law, communication and rhetorical studies, theology, psychology, history, and education. For each virtue, there is a conceptual chapter, an application chapter, and a developmental chapter. Lying and Illness Jan 20 2022 Lying rearranges human relationships, contests ideologies and cultural assumptions, and manipulates social reality. In this volume, lying will be shown as one fundamental way of dealing with major issues and challenges with which individuals are confronted, such as health, body and identity concerns. In studying lying in the context of health and illness, the contributors explore the ways people gain power, or negotiate power within the limitations of ethical and moral arrangements they cannot effectively challenge. They consider whether lying is a part of the domain of medicine in particular and the specific benefit people draw or seek from lying in the domain of illness and medicine. Seeking Love, Marriage and Family May 12 2021 Coming out of the womb, we did not come with the knowledge, so therefore Love, Marriage and Family are things one has to learn. The title of this book really describe the book. Love, Marriage, and Family. Most people think love is something mysterious, love is one of the most used word in the English language, but also one of the most confused word. Love is a choice, since you have to pick who you want to love, there are so many types of love. Marriage is a vocation, vocation means a calling from God, in another word you are called to love your spouse to consecrate your life to your partner, to commit, with intimacy, and passion. Marriage is not for everyone, one of the most problem people are confronted with in a marriage, the ladies don't know the purpose of a man in a marriage and the men don't see why a lady is necessary. This book exposed the physiques of both gender, the ladies can endure more than the guys, they are conditioned to carry, nurture, deliver, push, sensitive, which is of their beauty. But the guys are very physical, they have

strength, discipline, smart, more logical. Looking at it they are quite different but they were created to complete each other, they will get together and create one human being. As Humans God expects us to live as a community which is a product of families, When God said love your neighbor as you love yourself, if you have to enumerate your neighbor, who should be your first neighbor, your first should be your spouse, then your children. So society expects a great participation of your family to have a nice world. This book is pretty deep there are so much to learn, Definitely you will have a great time reading this book.

Yesteryear's Faith Seeking Understanding Jul 14 2021 The voices of yesteryear's scholastics are silenced. Scholastic distinctions discarded. Faith seeking understanding cancelled. This book turns to university professors who brought classical, medieval, Reformation, and Renaissance thought to bear on the teaching of the doctrine of providence at the early New England Colleges. Their ultimate purpose was to exonerate God from the charge that he was the author, even actor, of evil. Their scholastic method drew from a long and surprisingly ecumenical and philosophical enterprise in the history of the church. This book's aim is to let the scholastic approaches to the mystery of divine providence speak for themselves. Part One introduces the reader to the art of disputation and provides a guided historical-theological tour of scholastic distinctions that were used by doctors of the church to explain issues related to the doctrine of divine providence. Part Two invites the reader to follow the author on his journeys to Harvard, Yale, the College of New Jersey, and the College of Rhode Island, and Providence Plantations' commencement-day disputations as he engages in Platonic-like dialogues with presidents, rectors, and students of the New England Colleges. While the dialogues are imagined, the characters, times, locations, and quoted texts are real.

Dream Seeking Sep 23 2019 Lin and Richard, like so many people, dreamed of a life in the sun, away from the pace and problems of their stressed lives as teachers. Summer holidays in Europe were always over too quickly, and they began to feel the attraction of life in Greece. After an 'accidental' holiday on the small Greek island of Nisyros, albeit having been badly organised by a tour company which promptly went out of business, the spell was well and truly cast. After several more visits to the island during the holidays, ill-health caused a change in their circumstances in England. Whilst enjoying the freedom to walk, read and generally slowdown, they felt that now was the opportunity to seek their dream. Packing an elderly Landrover, Richard and Garry, the son of a friend, drove to Nisyros, whilst Lin and their daughter Sue, took the more obvious route and flew. Speaking only limited Greek on an island where so few of the inhabitants spoke little or no English, created both frustration and hilarity! Sue and her friend Amy stayed for a part of the summer, their presence causing a significant stir amongst the people of the small mountain village of Nikia where Lin, Richard and Garry had made their home. From killing the pig to burying the donkey; from cleaning rooms to repairing doors; from washing in well-water inhabited by several species of aquatic life, to dancing at the festivals, their life was filled with a variety and richness of experiences which have to be read to be believed. This year was the beginning of the realisation of their dream. Reviews "The new Interface is stunning in its simplicity and ease of use." - PC Magazine

These six distinctly different personalities explore information from various sources and discuss some ramifications of their findings. They learn doctrines and theories about creation and immortality and the many forms that afterlife might take. They search for and find truth in many forms. After search for the "afterlife" has generated more question than answers they turn to a search for the "meaning of life".
