Identity Theft and Other Stories Jan 05 2021 Presents a collection of science fiction tales, including "Shed Skin," "Identity Theft," and "Inejectable."

[Die Spinne im Netz](#) Feb 24 2020 Greg Mandel, Ex-Mitglied des MINDSTAR-Batallions, verdient sich sein Geld inzwischen als Privatdetektiv mit einer ausgefallenen Eigenschaft: Er kann Gedanken lesen. In einer High-Tech-Zeit, in der Verbrechen über Computernetze verübt werden, in einer Zeit künstlicher Intelligenz ist Greg Mandel derjenige, der gerufen wird, wenn es hart auf hart kommt. So auch, als ein Saboteur die mächtige Organisation EVENT HORIZON bedroht. Doch diesmal ist das Netz der Intrigen, in das Mandel verstrickt wird, besonders dicht. Wertvolle wissenschaftliche Entdeckungen stehen auf dem Spiel ? und sogar die Zukunft der Erde ... Lange mußte die SF auf einen Autor wie Hamilton warten: Bei ihm verbindet sich auf geniale Weise die Tradition der Space Opera mit den modernsten Entwicklungen in der SF. Somit führt Hamilton das Genre einen Schritt weiter in die Zukunft, und das völlig unaufdringlich in einem erstklassigen Krimi!

Wonder Oct 22 2019 Webmind - the vast consciousness that spontaneously emerged from the infrastructure of the World Wide Web - has proven its worth to humanity by aiding in everything from curing cancer to easing international tensions. But the top brass at the Pentagon see Webmind as a threat that needs to be eliminated. Caitlin Decter - the once-blind sixteen-year-old math genius who discovered, and bonded with, Webmind - wants desperately to protect her friend. And if she doesn't act, everything - Webmind included - may come crashing down.

Polaris May 29 2020 Die Luxus-Raumjacht Polaris startet mit einer exklusiven Passagiergruppe ins All, um ein spektakuläres Phänomen zu beobachten. Doch kehrt sie nie zurück. Suchmannschaften finden sie schließlich menschenleer im All treibend. Der mysteriöse Fall fasziniert die Öffentlichkeit so sehr, dass man Jahre später sogar eine Auktion plant, auf der persönliche Gegenstände der Vermissten versteigert werden sollen. Der bekannte Antiquitätenhändler Alex Benedict kann sich einige der Stücke sichern. Doch dann zerstört eine Explosion einen Großteil der Sammlung, und jemand verübt ein Attentat auf ihn. Offenbar soll die Wahrheit über die Polaris mit allen Mitteln unterdrückt werden. Alex beschließt, diese Wahrheit zu enthüllen ? ganz gleich, wie weit er dafür durchs All reisen muss, ganz gleich, wie hoch das Risiko ist ?

WWW: Wonder Dec 16 2021 Caitlin Decter discovered Webmind, the vast artificial intelligence that spontaneously emerged from the World Wide Web and changed the world-from curing cancer to easing international tensions. But the Pentagon has declared war on it, recruiting hackers to delete Webmind out of existence...

Far-Seer May 09 2021 The Face of God is what every young saurian learns to call the immense, glowing object which fills the night sky on the far side of the world. Young Afsan is privileged, called to the distant Capital City to apprentice with Saleed the court astrologer. Both when the time comes for Afsan to make his coming-of-age pilgrimage, to gaze upon the Face of God, his world is changed forever- for what he sees will test his faith... and may save his world from disaster!

Flashforward May 21 2022 Robert J. Sawyer's award-winning science fiction has garnered both popular and critical acclaim. The New York Times Book Review called Frameshift "filled to bursting with ideas, characters and incidents." His novels are fixtures on the Hugo and Nebula ballots. Sawyer now brings us Flashforward, the story of a world-shattering discovery. In pursuit of an elusive nuclear particle, an experiment goes incredibly awry, and, for a few moments, the consciousness of the entire human race is thrown ahead by about twenty years. As the implications truly hit home, the pressure to repeat the experiment builds. Everyone wants a glimpse of their future, a chance to flashforward and see their successes ... or learn how to avoid their failures. Winner of the Aurora Award and the basis for the hit ABC television series. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Die Neanderthal-Parallaxe Apr 20 2022 Das Neutrino-Observatorium in Sudbury, Kanada: Ein Mann treibt plötzlich in einem Schwerwassertank. Mit knapper Not wird er gerettet und unter Quarantäne gestellt. Sein Name: Ponter Boddit. Sein Beruf: Quantenphysiker. Seine Herkunft: eine Welt, auf der die Neanderthaler den Rang der Menschen einnehmen. Die Öffentlichkeit ist schockiert über den „Höhlenmenschen“, der durch ein Computer-Implantat ihre Sprache und Kultur erlernt. In dessen Heimatwelt ist sein Lebensgefährte Adikor Huld genauso schockiert, denn er wird des Mordes beschuldigt. Es gibt nur eine Möglichkeit, seine Unschuld zu beweisen: Er muss das Portal noch einmal öffnen und Ponter aus unserer Welt zurückholen. Gewinner des HUGO AWARDS für den besten SF-Roman des Jahres!

Quantum Night Oct 14 2021 The Hugo and Nebula Award-winning author of *Red Planet Blues*, *FlashForward*, and the novels of the *WWW* trilogy explores the thin line between good and evil that every human being is capable of crossing... Experimental psychologist Jim Marchuk has developed a flawless technique for identifying the previously undetected psychopaths lurking everywhere in society. But while being cross-examined in court about his breakthrough, Jim is shocked to discover that he has lost his memories of six months of his life almost twenty years ago—a dark time during which he himself committed heinous acts. Jim is reunited with Kayla Huron, his forgotten girlfriend from his lost period and now a quantum physicist who has made a stunning discovery about the nature of human consciousness. As a rising tide of violence and hate sweeps across the globe, the psychologist and the physicist combine forces in a race against time to see if they can do the impossible—change human nature—before the entire world descends into darkness.

Starplex Jun 22 2022 The acclaimed author of "Far-Seer" and "End of an Era" embarks on a fantastic journey. A series of mysterious, artificial wormholes have brought the far reaches of space immediately close. But is the Earth ready for who--or what--the wormholes may bring?

Flash Jul 23 2022

Wake Jul 19 2019 Although Caitlin Decter is blind, she can effortlessly surf the Internet by following its complex paths clearly in her mind. When she receives an implant to restore her sight, instead of seeing reality, the landscape of the World Wide Web explodes into her consciousness.

Hybrids Aug 20 2019 In *Hominids*, Nebula Award-winning author Robert J. Sawyer introduced a character readers will never forget: Ponter Boddit, a Neanderthal physicist from a parallel Earth who was whisked from his reality into ours by a quantum-computing experiment gone awry-making him the ultimate stranger in a strange land. In that book and in its sequel, *Humans*, Sawyer showed us the Neanderthal version of Earth in loving detail-a tour de force of world-building; a

masterpiece of alternate history. Now, in *Hybrids*, Ponter Boddit and his Homo sapien lover, geneticist Mary Vaughan, are torn between two worlds, struggling to find a way to make their star-crossed relationship work. Aided by banned Neanderthal technology, they plan to conceive the first hybrid child, a symbol of hope for the joining of their two versions of reality. But after an experiment shows that Mary's religious faith--something completely absent in Neanderthals - is a quirk of the neurological wiring of Homo sapiens' brains, Ponter and Mary must decide whether their child should be predisposed to atheism or belief. Meanwhile, as Mary's Earth is dealing with a collapse of its planetary magnetic field, her boss, the enigmatic Jock Krieger, has turned envious eyes on the unspoiled Eden that is the Neanderthal world *Hybrids* is filled to bursting with Sawyer's signature speculations about alternative ways of being human, exploding our preconceptions of morality and gender, of faith and love. His Neanderthal Parallax trilogy is a classic in the making, and here he brings it to a stunning, thought-provoking conclusion that's sure to make *Hybrids* one of the most controversial books of the year. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Triggers Nov 15 2021 On the eve of a secret military operation, an assassin's bullet strikes President Seth Jerrison. He is rushed to the hospital, where surgeons struggle to save his life—and where Professor Ranjip Singh is experimenting with a device that can erase traumatic memories. Then a terrorist bomb detonates. In the operating room, the president suffers cardiac arrest. He has a near-death experience—but the memories that flash through Jerrison's mind are not his own. The electromagnetic pulse generated by the bomb amplified and scrambled Professor Singh's equipment, allowing a random group of people to access one another's minds. One of those people can retrieve the President Jerrison's memories—including classified information regarding the upcoming military mission, which, if revealed, could cost countless lives. But the task of determining who has switched memories with whom is a daunting one—particularly when some of the people involved have reason to lie...

Fossil Hunter Dec 04 2020 *Fossil Hunter* is hard SF in the tradition of Larry Niven about a world inhabited by the Quintaglios, a dinosaurian species that has evolved a human level of intelligence and culture. Toroca, a Quintaglio geologist, is under attack for his controversial new theory of evolution. But the origins of his people turn out to be more complex than even he imagined, for he soon discovers the wreckage of an ancient starship -- a relic of the aliens who transplanted Earth's dinosaurs to this solar system. Now, Toroca must convince Emperor Dybo that evolution is true; otherwise, the territorial violence the Quintaglios inherited from their tyrannosaur ancestors will destroy the last survivors of Earth's prehistoric past.

Red Planet Blues Oct 02 2020 Robert J. Sawyer, the author of such 'revelatory and thought-provoking' novels as

TRIGGERS and The WWW Trilogy, presents a noir mystery expanded from his HUGO and NEBULA AWARD-nominated novella IDENTITY THEFT and his AURORA AWARD-winning short story 'Biding Time', set on a lawless Mars in a future where everything is cheap, and life is even cheaper ... Alex Lomax is the one and only private eye working the mean streets of New Klondike, the Martian frontier town that sprang up 40 years ago after Simon Weingarten and Denny O'Reilly discovered fossils on the Red Planet. Back on Earth, where anything can be synthesized, the remains of alien life are the most valuable of all collectibles, so shiploads of desperate treasure hunters stampeded to Mars in the Great Martian Fossil Rush. Trying to make an honest buck in a dishonest world, Lomax tracks down killers and kidnappers among the failed prospectors, corrupt cops, and a growing population of transfers - lucky stiffes who, after striking paleontological gold, upload their minds into immortal android bodies. But when he uncovers clues to solving the decades-old murders of Weingarten and O'Reilly, along with a journal that may lead to their legendary mother lode of Martian fossils, God only knows what he'll dig up ...

Every (deutsche Ausgabe) Nov 03 2020 Nach »Der Circle« legt Dave Eggers mit »Every« eine rasante Fortschreibung seines Weltbestsellers vor - ein hochbrisanter Thriller Der Circle ist die größte Suchmaschine gepaart mit dem größten Social-Media-Anbieter der Welt. Eine Fusion mit dem erfolgreichsten Onlineversandhaus brachte das reichste und gefährlichste – und seltsamerweise auch beliebteste – Monopol aller Zeiten hervor: Every. Delaney Wells ist »die Neue« bei Every und nicht gerade das, was man erwarten würde in einem Tech-Unternehmen. Als ehemalige Försterin und unerschütterliche Technikskeptikerin bahnt sie sich heimlich ihren Weg, mit nur einem Ziel vor Augen: die Firma von innen heraus zu zerschlagen. Zusammen mit ihrem Kollegen, dem nicht gerade ehrgeizigen Wes Kavakian, sucht sie nach den Schwachstellen von Every und hofft, die Menschheit von der allumfassenden Überwachung und der emoji-gesteuerten Infantilisierung zu befreien. Aber will die Menschheit überhaupt, wofür Delaney kämpft? Will die Menschheit wirklich frei sein? Wie schon bei »Der Circle« weiß Dave Eggers wie kein zweiter unsere Wirklichkeit so konsequent weiterzudenken, dass einem der Atem stockt beim Lesen. Man kann nur inständig hoffen, dass die Realität nicht schneller voranschreitet, als Dave Eggers schreiben kann.

Triggers Jan 17 2022 On the eve of a secret military operation, an assassin's bullet strikes President Seth Jerrison. He is rushed to the hospital, where surgeons struggle to save his life. At the same hospital, Professor Ranjip Singh is experimenting with a device that can erase traumatic memories. Then a terrorist bomb detonates. In the operating room, the president suffers cardiac arrest. He has a near-death experience, but the memories that flash through Jerrison's mind are not

his own. It quickly becomes clear that the electromagnetic pulse generated by the bomb amplified and scrambled Professor Singh's equipment, allowed a random group of people to access one another's minds. And now one of those people can retrieve President Jerrison's memories – including classified information regarding the upcoming military mission, which, if revealed, could cost countless lives. But the task of determining who has switched memories with whom is a daunting one – particularly when some of the people involved have reason to lie...

Cyber Trips Apr 08 2021 Im Jahr 2101 hat die Menschheit nach erbitterten Kämpfen gegen die künstliche Intelligenz KAMI einen herben Rückschlag erlitten. Millionen wurden von ihrem technologischen Virus infiziert und verloren jeglichen eigenen Willen. Während auf der ganzen Welt nach einem Heilmittel geforscht wird, versucht die Kämpferin Andra hingegen Kontakt mit KAMI aufzunehmen — überzeugt davon, dass das Programm eine Persönlichkeit entwickelt hat ...

Distant Early Warnings Nov 22 2019 "The 21st Century Belongs to Canada" On a per capita basis, Canada has more world-class science-fiction writers than any country on Earth. Collected here are the best recent works by Hugo Award winners Spider Robinson, Robert J. Sawyer, and Robert Charles Wilson, Hugo nominees Paddy Forde, James Alan Gardner, Nalo Hopkinson, and Peter Watts, and Aurora Award winners Julie E. Czerneda and Karl Schroeder - 14 advance reports of wonders and dangers yet to come. "Robert J. Sawyer is the public face of Canadian science fiction." - Quill & Quire Robert J. Sawyer - called "the Dean of Canadian Science Fiction" by the "Ottawa Citizen" and "Canada's answer to Michael Crichton" by the "Montreal Gazette" - has published 18 novels, including the Hugo Award-winning "Hominids," the Nebula Award-winning "The Terminal Experiment," and the John W. Campbell Memorial Award-winning "Mindscan." The following is the list of contributing authors with links to a brief bio on the author: Julie E. Czerneda, Paddy Forde, James Alan Gardner, Nalo Hopkinson, Spider Robinson, Robert J. Sawyer, Karl Schroeder, Peter Watts, and Robert Charles Wilson, plus the poetry of Carolyn Clink.

Homínidos Apr 27 2020

The Oppenheimer Alternative Sep 25 2022 On the 75th anniversary of the dropping of the atomic bomb, Hugo and Nebula-winning author Robert J. Sawyer takes us back in time to revisit history...with a twist. While J. Robert Oppenheimer and his Manhattan Project team struggle to develop the A-bomb, Edward Teller wants something even more devastating: a bomb based on nuclear fusion--the mechanism that powers the sun. Teller's research leads to a terrifying discovery: by the year 2030, the sun will eject its outermost layer, destroying the entire inner solar system--including Earth. As the war ends with the use of fission bombs against Japan, Oppenheimer's team, plus Albert Einstein and Wernher von Braun, stay together--the

greatest scientific geniuses from the last century racing against time to save our future. Meticulously researched and replete with real-life characters and events, *The Oppenheimer Alternative* is a breathtaking adventure through both real and alternate history.

Mindscan Mar 07 2021 Hugo Award-winning author Robert J. Sawyer is back with *Mindscan*, a pulse-pounding, mind-expanding standalone novel, rich with his signature philosophical and ethical speculations, all grounded in cutting-edge science. Jake Sullivan has cheated death: he's discarded his doomed biological body and copied his consciousness into an android form. The new Jake soon finds love, something that eluded him when he was encased in flesh: he falls for the android version of Karen, a woman rediscovering all the joys of life now that she's no longer constrained by a worn-out body either. But suddenly Karen's son sues her, claiming that by uploading into an immortal body, she has done him out of his inheritance. Even worse, the original version of Jake, consigned to die on the far side of the moon, has taken hostages there, demanding the return of his rights of personhood. In the courtroom and on the lunar surface, the future of uploaded humanity hangs in the balance. *Mindscan* is vintage Sawyer -- a feast for the mind and the heart. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Factoring Humanity Feb 06 2021 A twenty-first-century scientist sacrifices her family life to decipher the strange signals coming from interstellar space, messages that show her how to build an extraordinary machine that allows one to travel via the mind. Reprint.

End of an Era Mar 19 2022 Paleontologist Brandon Thackeray uses a newly developed, still-experimental timeship to investigate what really killed off the dinosaurs.

Humans Aug 24 2022 Robert J. Sawyer, the award-winning and bestselling writer, hits the peak of his powers in *Humans*, the second book of *The Neanderthal Parallax*, his trilogy about our world and parallel one in which it was the *Homo sapiens* who died out and the Neanderthals who became the dominant intelligent species. This powerful idea allows Sawyer to examine some of the deeply rooted assumptions of contemporary human civilization dramatically, by confronting us with another civilization, just as morally valid, that has made other choices. In *Humans*, Neanderthal physicist Ponter Boddit, a character you will never forget, returns to our world and to his relationship with geneticist Mary Vaughan, as cultural exchanges between the two Earths begin. As we see daily life in another present-day world, radically different from ours, in the course of Sawyer's fast-moving story, we experience the bursts of wonder and enlightenment that are the finest pleasures of science fiction. *Humans* is one of the best SF novels of the year, and *The Neanderthal Parallax* is an SF classic in the

making. *Humans* is a 2004 Hugo Award Nominee for Best Novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Terminal Experiment Sep 01 2020 Dr. Peter Hobson has created three electronic simulations of his own personality. But they all have escaped from Hobson's computer into the web-and one of them is a killer.

Hominids Oct 26 2022 Robert Sawyer's SF novels are perennial nominees for the Hugo Award, the Nebula Award, or both. Clearly, he must be doing something right since each one has been something new and different. What they do have in common is imaginative originality, great stories, and unique scientific extrapolation. His latest is no exception. *Hominids* is a strong, stand-alone SF novel, but it's also the first book of *The Neanderthal Parallax*, a trilogy that will examine two unique species of people. They are alien to each other, yet bound together by the never-ending quest for knowledge and, beneath their differences, a common humanity. We are one of those species, the other is the Neanderthals of a parallel world where they, not *Homo sapiens*, became the dominant intelligence. In that world, Neanderthal civilization has reached heights of culture and science comparable to our own, but is very different in history, society, and philosophy. During a risky experiment deep in a mine in Canada, Ponter Boddit, a Neanderthal physicist, accidentally pierces the barrier between worlds and is transferred to our universe, where in the same mine another experiment is taking place. Hurt, but alive, he is almost immediately recognized as a Neanderthal, but only much later as a scientist. He is captured and studied, alone and bewildered, a stranger in a strange land. But Ponter is also befriended-by a doctor and a physicist who share his questing intelligence and boundless enthusiasm for the world's strangeness, and especially by geneticist Mary Vaughan, a lonely woman with whom he develops a special rapport. Meanwhile, Ponter's partner, Adikor Huld, finds himself with a messy lab, a missing body, suspicious people all around, and an explosive murder trial that he can't possibly win because he has no idea what actually happened. Talk about a scientific challenge! Contact between humans and Neanderthals creates a relationship fraught with conflict, philosophical challenge, and threat to the existence of one species or the other-or both-but equally rich in boundless possibilities for cooperation and growth on many levels, from the practical to the esthetic to the scientific to the spiritual. In short, Robert J. Sawyer has done it again. *Hominids* is the winner of the 2003 Hugo Award for Best Novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Relativity Jan 25 2020 *Relativity* is the first American collection by Hugo and Nebula Award winning author Robert J. Sawyer. It includes stories, essays, articles and speeches by Sawyer, as well as an introduction by Mike Resnick, an afterword and crossword puzzle by Valerie Broege and cover art by Jael.

Iterations Jul 11 2021

Neandertal paralaks Dec 24 2019

Rollback Jun 10 2021 Dr. Sarah Halifax decoded the first-ever radio transmission received from aliens thirty-eight years ago. Now, a second message is received, and Sarah, now eighty-seven, may hold the key to deciphering this one, too...if she lives long enough. A wealthy industrialist offers to pay for Sarah to have a rollback--a hugely expensive experimental rejuvenation procedure. She accepts on condition that Don, her husband of sixty years, gets a rollback, too. The process works for Don, making him physically twenty-five again. But in a tragic twist, the rollback fails for Sarah, leaving her in her eighties. While Don tries to deal with his newfound youth and the suddenly vast age gap between him and his wife, Sarah heroically struggles to figure out what a signal from the stars contains before she dies.

WWW: Watch Sep 20 2019 It calls itself Webmind. An emerging consciousness within the World Wide Web, it has befriended Caitlin Decter and grown eager to learn about her world. But Webmind has also come to the attention of WATCH, the secret United States government agency that monitors the Internet for any potential threats-and wants it purged from cyberspace.

Illegal Alien Feb 18 2022 Although the intelligent visitors of the Tosok race are initially welcomed by all when their ship is disabled and lands on Earth, people's feelings for the Tosoks take a sudden turn for the worse when a human scientist is found dead.

Bauchentscheidungen Mar 27 2020 Warum der Bauch oft die besseren Entscheidungen trifft als der Verstand: Der internationale Bestseller jetzt bei Pantheon Wie wir durch Intuition schneller und effektiver handeln können Ein Mann verliebt sich in eine Frau, deren »Partnerprofil« eigentlich nicht zu ihm passt. Eine gute Ärztin spürt, wenn mit langjährigen Patienten etwas nicht in Ordnung ist, auch wenn sie nicht immer sofort sagen kann, was ihnen fehlt. Intuition schlägt Vernunft: Der weltweit renommierte Psychologe Gerd Gigerenzer zeigt anschaulich, warum rationales Abwägen in vielen Situationen nicht zum besten Ergebnis führt. Denn gute Entscheidungen basieren oft auf einer unbewussten Intelligenz, die sehr schnell operiert und gerade in komplexen Lagen verblüffend einfach funktioniert. Ein bahnbrechendes Buch, das unser Bild vom menschlichen Verstand revolutioniert.

Der dunkle Pfad Aug 12 2021 Welchem Pfad wirst du folgen? Menschen und Zor, einst erbitterte Feinde, sind nun enge Freunde. Admiral Marais, die legendäre „Dunkle Schwinge“, ist längst tot, doch einige seiner Weggefährten leben bei den Zor. Commander Jackie Laperriere ist Kommandantin der Cicero-Flottenbasis. Als bislang völlig unbekannte Aliens in

Menschengestalt versuchen, Cicero zu übernehmen, gelingt es ihr, sie zu vertreiben. Doch der Sieg ist teuer erkauf: Cicero muss evakuiert werden, und dafür droht Jackie das Kriegsgericht. Während des Angriffs der Aliens wird auch Laperrieres Bewusstsein kurzzeitig von den Aliens okkupiert. Dadurch wurde offenbar ihre Fähigkeit zu mentalem Kontakt geweckt. Nun sieht sie sich in die Rolle des Mächtigen Qu'u gedrängt, eines Helden der Zor-Mythologie, dessen Aufgabe es ist, die esGa'uYal, die Diener des Täuschers, zurückzuschlagen ...

WWW: Wake Sep 13 2021 A Hugo and Nebula Award-winning author joins Ace with a stunning new science fiction epic. Caitlin Decter is young, pretty, feisty, a genius at math, and blind. When she receives an implant to restore her sight, instead of seeing reality she perceives the landscape of the World Wide Web-where she makes contact with a mysterious consciousness existing only in cyberspace.

Calculating God Jun 29 2020 An alien shuttle craft lands outside the Royal Ontario Museum in Toronto. A six-legged, two-armed alien emerges and says, in perfect English, "Take me to a paleontologist." In the distant past, Earth, the alien's home planet, and the home planet of another alien species, all experienced the same five cataclysmic events at the same time (one example: the meteor that wiped out the dinosaurs). Both alien races believe this proves the existence of God: i.e., he's obviously been playing with the evolution of life on each of these planets. From this provocative launch point, Sawyer tells a fast-paced, morally and intellectually challenging story of ambitious scope and touching humanity. *Calculating God* is SF on a grand scale. *Calculating God* is a 2001 Hugo Award Nominee for Best Novel.

Das Atlantis-Gen Jun 17 2019 Wie wurden wir eigentlich zur Krone der Schöpfung? Vor 70.000 Jahren stand die Menschheit vor der Auslöschung ... Doch ein unerklärlicher Entwicklungssprung setzte den Homo sapiens an die Spitze der Evolution ... Nach geheimen Erkenntnissen liegt der Schlüssel hierfür im Atlantis-Gen, dem Vermächtnis der atlantischen Hochkultur ... Der mysteriöse Großkonzern Immari ist auf der Suche nach diesem Gen ... Das Ziel: ein neuer Typus Mensch ... Dafür beschwört Immari eine globale Katastrophe unvorstellbaren Ausmaßes herauf ... Nur die Geheimorganisation Clocktower kennt diesen fatalen Plan ... Als in der Antarktis ein Höhlenlabyrinth aus atlantischer Vorzeit gefunden wird, beginnt der Kampf um die Zukunft der Menschheit!
