[The Silken Thread](#) Dec 06 2020 "Insects are seldom mentioned in history texts, yet they significantly shaped human history. The Silken Thread: Five Insects and Their Impacts on History tells the stories of just five insects, tied together by a thread originating in the Silk Roads of Asia, and how they have impacted our world. Silkworms have been farmed to produce silk for millennia, creating a history of empires and cultural exchanges; Silk Roads connected East to West, generating trade centers and transferring ideas, philosophies, and religions. The western honey bee feeds countless people, and their crop pollination is worth billions of dollars. Fleas and lice carried bacteria that caused three major plague pandemics, moved along the Silk Roads from Central Asia. Bacteria carried by insects left their ancient clues as DNA embedded in victims' teeth. Lice caused outbreaks of typhus, especially in crowded conditions such as prisons and concentration camps. Typhus aggravated the effects of the Irish potato famine, and Irish refugees took typhus to North America. Yellow fever was transported to the Americas via the trans-Atlantic slave trade, taking and devaluing the lives of millions of Africans. Slaves were brought to the Americas to reduce labor costs in the cultivation of sugarcane, which was itself transported from south Asia along the Silk Roads. Yellow fever caused panic in the United States in the 1700s and 1800s as the virus and its mosquito vector migrated from the Caribbean. Constructing the Panama Canal required defeating mosquitoes that transmitted yellow fever. The silken thread runs through and ties together these five insects and their impacts on history"--

Blue & Gray Navies Oct 16 2021 A longtime military history professor at Virginia Military Institute and prolific author, Spencer Tucker examines the important roles played by the Union and Confederate navies during the Civil War. His book makes use of recent scholarship as well as official records and the memoirs of participants to provide a complete perspective for the general reader and enough detail to hold the interest of the specialist. Tucker opens with an overview of the U.S. Navy's history to 1861 and then closely examines the two navies at the beginning of the war, looking at the senior leadership, officers and personnel, organization, recruitment practices, training, facilities, and manufacturing resources. He discusses the acquisition of ships and the design and construction of new types, as well as ship armament and the development of naval ordnance, and North and South naval strategies. The book then takes a close look at the war itself, including the Union blockade of the Confederate Atlantic and Gulf coasts, riverine warfare in the Western theater, Confederate blockade running and commerce raiders, and the Union campaigns against New Orleans, Charleston, Vicksburg, and on the Red River. Tucker covers the major battles and technological innovations, and he evaluates the significance of the Union blockade and the demands it placed on Union resources. Fourteen maps and a glossary of terms help readers follow the text. Extensive endnotes provide additional material.

Inside Connecticut and the Civil War Mar 09 2021 This collection of nine original essays provides a rich new understanding of Connecticut's vital role in the Civil War. The book's nine chapters address an array of individual topics that together weave an intricate fabric depicting the state's involvement in this tumultuous period of American history. In-depth examinations of subjects as diverse as the abolitionist movement in Windham County, the shipbuilding industry in Mystic, and post-traumatic stress disorder in Connecticut veterans serve as an excellent companion to Matthew Warshauer's earlier book on the subject, Connecticut in the American Civil War: Slavery, Sacrifice, and Survival. Contributors include David C. W. Batch, Luke G. Boyd, James E. Brown, Michael Conlin, Emily E. Gifford, Todd Jones, Diana Moraco, Carol Patterson-Martineau, and Michael Sturges. Ebook Edition Note: 6 illustrations have been redacted.

Zombies on Kilimanjaro Apr 29 2020 A father and son climb Mount Kilimanjaro. On the journey to the roof of Africa they traverse the treacherous terrain of fatherhood, divorce, dark secrets and old grudges, and forge an authentic adult relationship. The high-altitude trek takes them through some of the weirdest landscapes on the planet, and the final all-night climb to the frozen summit tests their endurance. On the way to the top father and son explore how our stories about ourselves can imprison us in the past, and the importance of letting go. The mountain too has a story to tell, a story about Climate Change and the future of humankind - a future etched all too clearly on Kilimanjaro's retreating glaciers.

The Architecture of War Nov 24 2019 Chronicles the development of military architecture in the twentieth century.

[British Identity in World War I](#) Nov 17 2021 This book analyzes the development of the Lost Generation narrative following the First World War. The author examines narratives that illustrate the fracture of upper-class identity, including well-known examples of the Lost Generation—Robert Graves, Siegfried Sassoon, and Vera Brittain—as well as other less typical cases—George Mallory and JRR Tolkien—to demonstrate the effects of the First World War on British society, culture, and politics.

Battle Cry of Freedom Jul 21 2019 Filled with fresh interpretations and information, puncturing old myths and challenging new ones, Battle Cry of Freedom will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative fully integrates the political, social, and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War--the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry--and then moves into a masterful chronicle of the war itself--the battles, the strategic maneuvering on both sides, the

politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war--slavery--and adopt a policy of emancipation as a second war aim. This "new birth of freedom," as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing "second American Revolution" we call the Civil War, a war that transformed a nation and expanded our heritage of liberty.

Into The Silence Oct 28 2022 WINNER OF THE 2012 SAMUEL JOHNSON PRIZE A monumental work of history, biography and adventure - the First World War, Mallory and Mount Everest "The price of life is death" For Mallory, as for all of his generation, death was but a frail barrier that men crossed, smiling and gallant, every day. As climbers they accepted a degree of risk unimaginable before the war. What mattered now was how one lived, and the moments of being alive. While the quest for Mount Everest may have begun as a grand imperial gesture, it ended as a mission of revival for a country and a lost generation bled white by war. In a monumental work of history and adventure, Davis asks not whether George Mallory was the first to reach the summit of Everest, but rather why he kept climbing on that fateful day.

Magdalena Feb 08 2021 A captivating new book from Wade Davis--award-winning, best-selling author and National Geographic Explorer-in-Residence for more than a decade--that brings vividly to life the story of the great Río Magdalena, illuminating Colombia's complex past, present, and future Travelers often become enchanted with the first country that captures their hearts and gives them license to be free. For Wade Davis, it was Colombia. Now in a masterly new book, Davis tells of his travels on the mighty Magdalena, the river that made possible the nation. Along the way, he finds a people who have overcome years of conflict precisely because of their character, informed by an enduring spirit of place, and a deep love of a land that is home to the greatest ecological and geographical diversity on the planet. As Gabriel García Márquez once wrote during his own pilgrimage on the river: "The only reason I would like to be young again would be the chance to travel again on a freighter going up the Magdalena." Only in Colombia can a traveler wash ashore in a coastal desert, follow waterways through wetlands as wide as the sky, ascend narrow tracks through dense tropical forests, and reach verdant Andean valleys rising to soaring ice-clad summits. This rugged and impossible geography finds its perfect coefficient in the topography of the Colombian spirit: restive, potent, at times placid and calm, in moments explosive and wild. Both a corridor of commerce and a fountain of culture, the wellspring of Colombian music, literature, poetry, and prayer, the Magdalena has served in dark times as the graveyard of the nation. And yet, always, it returns as a river of life. At once an absorbing adventure and an inspiring tale of hope and redemption, Magdalena gives us a rare, kaleidoscopic picture of a nation on the verge of a new period of peace. Braiding together memoir, history, and journalism, Wade Davis tells the story of the country's most magnificent river, and in doing so, tells the epic story of Colombia.

Elephant Company Jan 27 2020 NEW YORK TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK The remarkable story of James Howard "Billy" Williams, whose uncanny rapport with the world's largest land animals transformed him from a carefree young man into the charismatic war hero known as Elephant Bill In 1920, Billy Williams came to colonial Burma as a "forest man" for a British teak company. Mesmerized by the intelligence and character of the great animals who hauled logs through the jungle, he became a gifted "elephant wallah." In *Elephant Company*, Vicki Constantine Croke chronicles Williams's growing love for elephants as the animals provide him lessons in courage, trust, and gratitude. *Elephant Company* is also a tale of war and daring. When Japanese forces invaded Burma in 1942, Williams joined the elite British Force 136 and operated behind enemy lines. His war elephants carried supplies, helped build bridges, and transported the sick and elderly over treacherous mountain terrain. As the occupying authorities put a price on his head, Williams and his elephants faced their most perilous test. *Elephant Company*, cornered by the enemy, attempted a desperate escape: a risky trek over the mountainous border to India, with a bedraggled group of refugees in tow. Part biography, part war epic, *Elephant Company* is an inspirational narrative that illuminates a little-known chapter in the annals of wartime heroism. Praise for *Elephant Company* "This book is about far more than just the war, or even elephants. This is the story of friendship, loyalty and breathtaking bravery that transcends species. . . . *Elephant Company* is nothing less than a sweeping tale, masterfully written." Sara Gruen, *The New York Times Book Review* "Splendid . . . Blending biography, history, and wildlife biology, [Vicki Constantine] Croke's story is an often moving account of [Billy] Williams, who earned the sobriquet "Elephant Bill," and his unusual bond with the largest land mammals on earth." *The Boston Globe* "Some of the biggest heroes of World War II were even bigger than you thought. . . . You may never call the lion the king of the jungle again." *New York Post* "Vicki Constantine Croke delivers an exciting tale of this elephant whisperer-cum-war hero, while beautifully reminding us of the enduring bonds between animals and humans." Mitchell Zuckoff, author of *Lost in Shangri-La* and *Frozen in Time*

Ironclad Captains of the Civil War Jul 01 2020 "Extraordinary" highly recommended "Midwest Book Review" "Valuable" *The NYMAS Review* "If it sailed on the brown water of America's Western rives during the Civil War and flew the Stars and Stripes of the Union Navy, Myron Smith more than likely knows about it" *America's Civil War*. From 1861 to 1865, the American Civil War saw numerous technological innovations in warfare chief among them was the ironclad warship. Based on the Official Records, biographical works, ship and operations histories, newspapers and other sources, this book chronicles the lives of 158 ironclad captains, North and South, who were charged with outfitting and commanding these then-revolutionary vessels in combat. Each biography includes (where known) birth and death information, pre- and post-war career, and details about ships served upon or commanded.

Shell Game Jan 07 2021 She hit the New York Times list with *Bone by Bone*. Now her repackaged backlist will fly off the shelves. When a legendary magic trick goes horribly awry on national TV, detective Kathleen Mallory knows the gruesome death won't be the last. For misdirection is the heart of all magic- and perfect crimes.

Stephen R. Mallery: Confederate Navy Chief Jul 13 2021

Wildest Dream May 23 2022 * Chronicles all three of Mallery's Everest expeditions * Illuminates how Mallery reconciled his ambitions on Everest with his unquestioned love for his wife and family Since the discovery in 1999 of George Mallery's body on Everest, controversy has raged over whether Mallery and Andrew Irvine could have summited the mountain. Every detail of the climb has been dissected and Mallery's skill as a mountaineer has been hotly debated. Observing the debate, Peter and Leni Gillman felt that the essence of who Mallery was as an individual had been lost. In *The Wildest Dream* they offer the most comprehensive biography ever written about one of the 20th century's most intriguing personalities. Exploring Mallery's early years, the Gillmans take the reader to Cambridge and Bloomsbury where Mallery consorted with some of the most colorful literary and artistic figures of Edwardian England: Rupert Brooke, James and Lytton Strachey, Maynard and Geoffrey Keynes, and Duncan Grant, among others. *The Wildest Dream* moves on to examine exactly what Mallery accomplished as a climber, evaluating the quality of his routes and skills within the context of climbing in the early 1900s. At the heart of this biography, and of Mallery's life, is his wife, Ruth. The letters they exchanged during the many separations caused by World War I and three Everest expeditions reveal the depth of their commitment to each other and the unwavering support and strength Ruth offered George. The Everest expeditions are also insightfully rendered, offering perspective on criticisms levied at Mallery after the 1921 and 1922 attempts. The authors examine how Mallery, a dedicated husband and father, arrived at his fateful decision to participate in the doomed 1924 expedition and why he continued to press for a summit attempt when the odds seemed stacked against him. As Mallery once declared, a climber was what he was, and this is what climbers did; this was how they fulfilled their wildest dreams.

Stephen Russell Mallery Jul 25 2022 Just as Confederate naval action is commonly overshadowed by the land battles of the Civil War, the navy's originator, Stephen Mallery, is often overlooked in favor of more famous leaders. Mallery had served as one of Florida's U.S. senators for ten years before becoming navy secretary in the Confederate government, challenged to create a valid military force where none had existed. This biography chronicles Mallery's formative years in Key West, his decades of public service, and his declining days. It discusses his career in the United States Senate, where he chaired the Committee for Naval Affairs, helping to strengthen in an ironic twist of fate the very navy he would later attempt to defeat. The work also examines the challenges and obstacles Mallery faced in creating a navy for the South. Special attention is given to Mallery's family relationships. Primary sources include autobiographical documents and archival records.

Secession on Trial Dec 26 2019 This book focuses on the post-Civil War treason prosecution of Confederate President Jefferson Davis, which was seen as a test case on the major question that animated the Civil War: the constitutionality of secession. The case never went to trial because it threatened to undercut the meaning and significance of Union victory. Cynthia Nicoletti describes the interactions of the lawyers who worked on both sides of the Davis case - who saw its potential to disrupt the verdict of the battlefield against secession. In the aftermath of the Civil War, Americans engaged in a wide-ranging debate over the legitimacy and effectiveness of war as a method of legal adjudication. Instead of risking the 'wrong' outcome in the highly volatile Davis case, the Supreme Court took the opportunity to pronounce secession unconstitutional in *Texas v. White* (1869).

War and Sacrifice Jun 19 2019 This collection of papers on the archaeology of conflict covers a wide range in both time and space, running from Sub-Neolithic Finland to early Modern Ireland. Mallery Dec 18 2021 Als Kunststudentin Quilla Chen tapfer in einen venezianischen Kanal springt, um einen selbstmordgefährdeten Mann zu retten, hat sie keine Ahnung, dass dieser Mann der älteste Sohn einer der reichsten Familien Amerikas ist. Aber Jakob Mallery hat seine eigenen, dunklen Geheimnisse - eine Kokainabhängigkeit, welche seinen epischen Aufstieg an die Spitze verstärkt hatte, aber nun, da seine Sucht stärker wird, alles gefährdet. Ihre Anziehung zueinander ist spürbar und sie werden kurz darauf ein Liebespaar. Als Jakob und Quilla nach Seattle zurückkehren, überredet Jakob sie, seine Familie kennenzulernen. So wird Quilla in deren Leben und Lieben verwickelt. Die einzige Person, welche den Neuankömmling hasst, ist Jakobs Geschäftspartner, Gregor. Er ist der Mann, der Jakob aufgrund seiner eigenen ehrgeizigen Ziele in die Sucht geführt hat. Als er Quilla eine große Geldsumme anbietet, damit sie Jakob verlässt, wird Gregor vom wütenden Jakob und mit der Unterstützung dessen Vaters aus der Firma entlassen. Gregor, gedemütigt und aufgebracht, konfrontiert Jakob und Quilla bei einem öffentlichen Treffen, was deren Leben bedrohen könnte...

Norton of Everest Sep 15 2021 Major Norton gave the order to fire two or three times - Their advanced machine gunners could be seen rushing forward and establishing themselves in commanding posts - Almost at once the ridge we were occupying was swept by machine gun fire - E.F. Norton lived a life of distinction in the declining years of the British Empire. Born into an accomplished, well-travelled family, he followed his heart and enlisted for a professional career as a soldier. A distinguished military career followed, punctuated with indulgences in his passion for exploration and mountaineering. The British Empire was starting to crumble, and Norton would be called upon more than once to rise to a variety of challenges. Norton's gift for leadership was first demonstrated via his rapid progression through the ranks in the First World War, which paved the way for future leadership appointments, having earned the confidence and respect of those under his command. Events in the Second World War followed suit, when Norton was abruptly assigned the post of acting governor of Hong Kong, entrusted to save the civilian population from imminent Japanese invasion. The 1924 Everest expedition also exemplifies the pattern of having had leadership thrust upon him - in this case when General Charles Bruce was struck down by malaria on the approach march. Leading from the front, Norton set an altitude record for climbing on Everest without supplementary oxygen - a record only bettered in 1978 when Reinhold Messner and Peter Habeler made the first ascent of Everest without oxygen. Yet tragedy would follow Norton's achievement, when George Mallery and Andrew Irvine disappeared high on the mountain. In *Norton of Everest*, Hugh Norton has written sensitively and knowledgeably about his father's remarkable life as mountaineer, soldier, naturalist, artist and family man. As on Everest, the real story is not only the death of the gallant, but also the heroics of the quiet survivors like E.F. Norton.
