Strange Kin Mar 12 2021 The ties between Ireland and the American South span four centuries and include shared ancestries, cultures, and sympathies. The striking parallels between the two regions are all the more fascinating because, studded with contrasts, they are so complex. Kieran Quinlan, a native of Ireland who now resides in Alabama, is ideally suited to offer the first in-depth exploration of this neglected subject, which he does to a brilliant degree in *Strange Kin*. The Irish relationship to the American South is unique, Quinlan explains, in that it involves both kin and kinship. He shows how a significant component of the southern population has Irish origins that are far more tangled than the simplistic distinction between Protestant Scotch Irish and plain Catholic Irish. African and Native Americans, too, have identified with the Irish through comparable experiences of subjugation, displacement, and starvation. The civil rights movement in the South and the peace initiative in Northern Ireland illustrate the tense intertwining that Quinlan addresses. He offers a detailed look at the connections between Irish nationalists and the Confederate cause, revealing remarkably similar historical trajectories in Ireland and the South. Both suffered defeat; both have long been seen as problematic, if also highly romanticized, areas of otherwise "progressive" nations; both have been identified with religious prejudices; and both have witnessed bitter disputes as to the interpretation of their respective "lost causes." Quinlan also examines the unexpected twentieth-century literary flowering in Ireland and the South -- as exemplified by Irish writers W. B. Yeats, James Joyce, and Elizabeth Bowen, and southern authors William Faulkner, Eudora Welty, and Flannery O'Connor. Sophisticated as well as entertaining, *Strange Kin* represents a benchmark in Irish-American cultural studies. Its close consideration of the familial and circumstantial resemblances between Ireland and the South will foster an enhanced understanding of each place separately, as well as of the larger British and American polities.

Handbook of Family Therapy Nov 07 2020 Integrative, research-based, multisystemic: these words reflect not only the state of family therapy, but the nature of this comprehensive handbook as well. The contributors, all well-recognized names who have contributed extensively to the field, accept and embrace the tensions that emerge when integrating theoretical perspectives and science in clinical settings to document the current evolution of couples and family therapy, practice, and research. Each individual chapter contribution is organized around a central theme: that the integration of theory, clinical wisdom, and practical and meaningful research produce the best understanding of couple and family relationships, and the best treatment options. The handbook contains five parts: • Part I describes the history of the field and its current core theoretical constructs • Part II analyzes the theories that form the foundation of couple and family therapy, chosen because they best represent the broad range of schools of practice in the field • Part III provides the best examples of approaches that illustrate how clinical models can be theoretically integrative, evidence-based, and clinically responsive • Part IV summarizes evidence and provides useful findings relevant for research and practice • Part V looks at the application of couple and family interventions that are based on emerging clinical needs, such as divorce and working in medical settings. Handbook of Family Therapy illuminates the threads that are common to family therapies and gives voice to the range of perspectives that are possible. Practitioners, researchers, and students need to have this handbook on their shelves, both to help look back on our past and to usher in the next evolution in family therapy.

ANew Creation Nov 19 2021 ANew Creation is a true story about a family, their love for each other... and of baseball. When their oldest son Mitchell came down with an undiagnosed mysterious illness, Beth and Brad Thorp took him across the nation looking for answers. After five years, and still with no understanding of the cause, Mitchell passed away. The Thorps were faced with persevering through trials that tested their faith and yet ultimately found hope, joy, and purpose by creating the Mitchell Thorp Foundation to bring the light of hope for other children and families fighting for their tomorrows. ANew Creation is an inspirational story about love, faith, perseverance, family, courage, community, forgiveness, God's grace, and restoration. It is written as a witness for Christ living through them and documenting his love and faithfulness throughout their journey, even though at times they felt God had abandoned them. God and Mitchell spoke to their spirits and profoundly showed them signs along the way to keep living and finding purpose in Mitchell's death. The Thorps hope and pray that their story will touch the hearts of many who need to know that heaven and eternity is real, and that God does intervene in their lives in awe-inspiring ways. The Thorps discovered that God never wastes a tragedy. He demonstrated that in their lives through the biblical principles of loving others in action and in truth—which ultimately created a supernatural phenomenon, a “ripple effect,” that drew people to them and ultimately transformed many lives for the glory of God.

The Tanana Chiefs May 14 2021 At the turn of the twentieth century, life was changing drastically in Alaska. The gold rush brought an onslaught of white settlers to the area, railroad companies were pushing into the territory, and telegraph lines opened up new lines of communication. The Native groups who had hunted and fished on the land for more than a century realized that if they did not speak up now, they would lose their land forever. This is the story of a historic meeting between Native Athabaskan leaders and government officials, held in Fairbanks, Alaska in 1915. It was one of the first times that Native voices were part of the official record. They sought education and medical assistance, and they wanted to know what they could expect from the federal government. They hoped for a balance between preserving their way of life with seeking new opportunities under the law. The Tanana Chiefs chronicles the efforts by Alaska Natives to gain recognition for rights under Western law and the struggles to negotiate government-to-government relationships with the federal government. It contains the first full transcript of the historic meeting as well as essays that connect that first gathering with the continued efforts of the Tanana Chiefs Conference, which continues to meet and fight for Native rights.

American Heathens Jan 28 2020 In the 19th-century debate over whether the United States should be an explicitly Christian nation, California emerged as a central battleground. Racial groups that were perceived as godless and uncivilized were excluded from suffrage, and evangelism among Indians and the Chinese was seen as a politically incendiary act. Joshua Paddison sheds light on Reconstruction's impact on Indians and Asian Americans by illustrating how marginalized groups fought for a political voice, refuting racist assumptions with their lives, words, and faith. Reconstruction, he argues, was not merely a remaking of the South, but rather a multiracial and multiregional process of reimagining the nation.

Homelands and Waterways Jul 04 2020 This monumental history traces the rise of a resolute African American family (the author's own) from privation to the middle class. In doing so, it explodes the stereotypes that have shaped and distorted our thinking about African Americans—both in slavery and in freedom. Beginning with John Robert Bond, who emigrated from England to fight in the Union Army during the Civil War and married a recently freed slave, Alexander shows three generations of Bonds as they take chances and break new ground. From Victorian England to antebellum Virginia, from Herman Melville's New England to the Jim Crow South, from urban race riots to the battlefields of World War I, this fascinating chronicle sheds new light on eighty crucial years in our nation's troubled history. The Bond family's rise from slavery, their interaction with prominent figures such as W. E. B. DuBois and Booker T. Washington, and their eventual, uneasy realization of the American dream shed a great deal of light on our nation's troubled heritage.

Legendary Locals of Holyoke Jul 28 2022 Holyoke is home to some of the most amazing and courageous individuals. In 1658, European pioneer John Riley, along with other early planters, was instrumental in establishing a community in the West Springfield area called Ireland Parish, which eventually became known as Holyoke. This tenacious man led the way for many other trailblazers, including George Ewing, who envisioned utilizing hydropower to operate factories and inspired town engineers to design one of the first planned cities in the United States. In 1898, the progressive Elizabeth Towne encouraged Holyoke residents and an international audience with her New Thought movement that advocated a healthy lifestyle. Another outstanding citizen, Timothy Alben, judiciously leads the Massachusetts State Police, while Holyoke's Henry Jennings honorably served his country in the armed forces, as a commander of the Holyoke War Memorial Building, and on the Holyoke City Council. Barbara Bernard has astutely kept residents informed about current events for the last 70 years. **Legendary Locals of Holyoke** chronicles the community's finest men and women who survived and prospered through harsh circumstances and against all odds.

Irish San Francisco May 26 2022 The Irish have always been an important part of San Francisco. An 1852 census showed that almost nine percent of the city of 36,000 hailed from Ireland; by 1900, nearly a quarter of the population had come here from the Emerald Isle. Today a walk through any part of the city will showcase influential Irish street names such as Downey, Fell, Kearney, O'Farrell, O'Shaughnessy, and McAllister. Churches such as St. Brigid's and St. Patrick's still are supported by many of the faithful, while landmark buildings such as the Fairmont, Phelan, and Flood stand sentinel over the city's bustling downtown. Many businesspeople handle their finances through the successors of the original Hibernia Bank, established here by Irish immigrants in 1859. And after work, many folks like to relax with a pint at pubs such as Kate O'Brien's, Abbey Tavern, or the Little Shamrock.
