Knitting With Love Knitting Graph Paper 4 Jul 02 2020 Have you ever tried to design a knitting chart using commercially available graph paper, only to knit and find out too late that the proportions are all wrong? This is because knitting stitches are not square but commercially available graph paper is. Graph paper is simply not the best option for knitters. The solution is our special charting graph paper made for knitting. The 'squares' are rectangular just like knitting stitches. In addition every 5 stitches are marked off with a heavier line so it's very easy to count where you are when following a pattern. We have created 2 different ratios to accommodate most knitting situations. A ratio of 4:5 is where 4 stitches is the same length as 5 rows (or 40 stitches = 50 rows). A ratio of 2:3 is where 2 stitches is the same length as 3 rows - which is impossible to measure accurately so you will use 20 stitches = 30 rows. Most knitting is nearer the 4:5 ratio, but knitting double and knitting with very thick yarn could be nearer to the 2:3 ratio. It is best to measure your tension (gauge) and calculate from there. This notebook contains the most common 4:5 ratio. Please click on our name above to see our other professionally printed and bound books including our 2:3 ratio if you have projects that require different a different ratio. Our professionally printed and bound Knitting Graph Paper Notebook makes a wonderfully thoughtful gift for a family member, friend, neighbor, teacher, pastor wife, co-worker and any one else who enjoys knitting Loera Publishing LLC was founded by a Midwest farmer dad and school teacher mom's daughter. Her focus is developing and publishing family friendly notebooks, planners, teacher lesson planners, journals and much more.
