[Куда можно поехать на этой «жестянке»? Летопись путешествий и приключений на Citroen 2CV](#) Sep 03 2020 Во время первых презентаций Citroen 2CV французы язвительно интересовались: «Куда можно поехать на этой „жестянке“? Не страшно ли отправиться на ней до ближайшего супермаркета?» Пройдет немного времени, и неказистый с виду автомобильчик удивит мир покорением пятикилометровых вершин в Андах, раскаленных песков Сахары и Атакамы, снегов Огненной Земли и Аляски, джунглей Африки, Азии и Южной Америки. Перед вами первая в нашей стране летопись путешествий и приключений на этой замечательной машине.

**Classic Car Museum Guide** Jun 24 2022 A new, comprehensive guide to motoring and transport museums offering a fresh conversation on their role and the portrayal of our motoring history. Written by a long-established motoring writer with wide experience of driving and the fettling of old cars all over the world. This new motor museum companion includes: British motoring and transport museums guide via descriptions and photographs. 90 British museums described. Comprehensive world motor museum listing: over 350 global museums cited. Out-takes from visits to selected overseas museums. Provides a glossary of old-car/motorcycle terms and types to assist the museum visitor and old car enthusiast. Discusses the museum culture and its new age. Visits to many museums by the author were self-funded: he paid his own way.

[Making Technology Our Own?](#) Apr 10 2021 "Making Technology Our Own? focuses on how consumers, or users, acquire and master technology in different social contexts, and examines how they actively create a relationship with, and define themselves through, that technology. The authors of this collection of articles argue that the users/consumers of technology are the co-designers of the relationship to technological products."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. *Citroen* Oct 28 2022 In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.
