On China Aug 19 2019 “ Fascinating, shrewd . . . The book deftly traces the rhythms and patterns of Chinese history. ” —Michiko Kakutani, The New York Times “ No one can lay claim to so much influence on the shaping of foreign policy over the past 50 years as Henry Kissinger. ” —The Financial Times In this sweeping and insightful history, Henry Kissinger turns for the first time at book length to a country he has known intimately for decades and whose modern relations with the West he helped shape. On China illuminates the inner workings of Chinese diplomacy during such pivotal events as the initial encounters between China and tight line modern European powers, the formation and breakdown of the Sino-Soviet alliance, the Korean War, and Richard Nixon ’ s historic trip to Beijing. With a new final chapter on the emerging superpower ’ s twenty-first-century role in global politics and economics, On China provides historical perspective on Chinese foreign affairs from one of the premier statesmen of our time.

Henry Kissinger Sep 24 2022

Die Ä ra Nixon-Kissinger 1969-1974 Feb 23 2020

World Order Nov 21 2019 How have the great states and empires of world history evolved their distinct identities and attitudes? And how do these shape global relations today? World Order is the summation of Henry Kissinger's thinking about statecraft, strategy, the fates of nations and tectonic plates of history. 'Exquisitely timed, deserves to be read . . . World order depends on it.' Lionel Barber, Financial Times 'Magisterial.' Jonathan Powell, Daily Telegraph 'A sage in the age of disorder.' Christopher Meyer, The Times 'Compelling, vintage Kissinger.' Hillary Rodham Clinton, Washington Post 'Kissinger is unique . . . this book is his summa diplomatica.' Paul Johnson, Spectator, Books of the Year

Kissinger May 20 2022 From the bestselling author of The Ascent of Money and The Square and the Tower, the definitive biography of Henry Kissinger, based on unprecedented access to his private papers. Winner of the Council on Foreign Relations Arthur Ross Book Award No American statesman has been as revered or as reviled as Henry Kissinger. Once hailed as “ Super K ” —the “ indispensable man ” whose advice has been sought by every president from Kennedy to Obama—he has also been hounded by conspiracy theorists, scouring his every “ telcon ” for evidence of Machiavellian malfeasance. Yet as Niall Ferguson shows in this magisterial two-volume biography, drawing not only on Kissinger ’ s hitherto closed private papers but also on documents from more than a hundred archives around the world, the idea of Kissinger as the ruthless arch-realist is based on a profound misunderstanding. The first half of Kissinger ’ s life is usually skimmed over as a quintessential tale of American ascent: the Jewish refugee from Hitler ’ s Germany who made it to the White House. But in this first of two volumes, Ferguson shows that what Kissinger achieved before his appointment as Richard Nixon ’ s national security adviser was astonishing in its own right. Toiling as a teenager in a New York factory, he studied indefatigably at night. He was drafted into the U.S. infantry and saw action at the Battle of the Bulge—as well as the liberation of a concentration camp—but ended his army career interrogating Nazis. It was at Harvard that

Kissinger found his vocation. Having immersed himself in the philosophy of Kant and the diplomacy of Metternich, he shot to celebrity by arguing for “ limited nuclear war. ” Nelson Rockefeller hired him. Kennedy called him to Camelot. Yet Kissinger ’ s rise was anything but irresistible. Dogged by press gaffes and disappointed by “ Rocky, ” Kissinger seemed stuck—until a trip to Vietnam changed everything. *The Idealist* is the story of one of the most important strategic thinkers America has ever produced. It is also a political Bildungsroman, explaining how “ Dr. Strangelove ” ended up as consigliere to a politician he had always abhorred. Like Ferguson ’ s classic two-volume history of the House of Rothschild, Kissinger sheds dazzling new light on an entire era. The essential account of an extraordinary life, it recasts the Cold War world.

Die mundart der Kissinger gegend May 08 2021

Kissinger Oct 21 2019 Examines the character and intellectual development of Kissinger and discusses his rise to power as Nixon's special assistant for special security affairs.

Years of Upheaval Mar 06 2021

China Oct 01 2020

The Flawed Architect Sep 19 2019 This first major reassessment of Kissinger in over a decade paints a subtle, carefully composed portrait of America's most famous and infamous statesman.

The Kissinger Saga Aug 11 2021 An unrivalled insight into the early life of Henry Kissinger 'No interviews about my private life' has always been Henry Kissinger's response to curious journalists. But journalist Evi Kurz from Furth, the Kissingers' home town in southern Germany, proposed a family portrait and eventually won the trust of both brothers. This is the story of two Americans of German-Jewish descent: one of them a key figure in Cold War diplomacy and winner of the Nobel Peace Prize, the other a top businessman - two lives which are exemplars of the American dream. When Henry was born in 1923 and Walter in 1924 the Kissingers had for decades been part of a flourishing Jewish middle class in Furth, a market town in northern Bavaria. Evi Kurz describes the gradual but remorseless destruction of this community in the 1930s; the Kissinger family's decision to flee to London and then New York in 1938; the war years in America; and the hugely successful careers in postwar America of both brothers, who always remembered their home and roots in a small German town.

The Trial of Henry Kissinger Nov 14 2021 'A good liar must have a good memory: Kissinger is a stupendous liar with a remarkable memory.' Christopher Hitchens Christopher Hitchens goes straight for the jugular in *The Trial of Henry Kissinger*. Under his fearsome gaze, the former Secretary of State and National Security Advisor is accused of being a war criminal whose reckless actions and heinous disregard for international law have led to torture, kidnapping, and murder. This book is a polemical masterpiece by a man who, for forty years, was the Anglosphere's preeminent man of letters. In *The Trial of Henry Kissinger*, Hitchens' verve, style and firebrand wit are on show at the height of their potency. 'This is a disturbing glimpse into the dark side of American power, whose consequences in remote corners of the globe are all too often ignored. Its countless victims have found an impassioned and skilful advocate in Christopher Hitchens.' - Sunday Times

Nixon, Kissinger, and the Shah Dec 23 2019 *Nixon, Kissinger, and the Shah* offers a detailed account of three key historical episodes in the Nixon-Kissinger-Pahlavi partnership that shaped the global Cold War far beyond Iran's borders. It examines the emergence of Iranian primacy in the Persian Gulf as the Nixon administration looked to the shah to fill the vacuum created by the British withdrawal from the region in 1971. It then turns to the peak of the partnership after Nixon and Kissinger's historic 1972 visit to Iran, when the shah succeeded in drawing the United States into his covert war against Iraq in Kurdistan. Finally, it focuses on the decline of the partnership under Nixon's successor, Gerald Ford, through a history of the failed negotiations from 1974 to 1976 for an agreement on U.S. nuclear exports to Iran. Taken together, these episodes map the rise and fall of Iran's Cold War partnership with the United States during the decade of superpower détente, Vietnam, and Watergate.

Diplomacy Feb 05 2021 Offering a panoramic view of history and a description of firsthand diplomatic encounters, the former Secretary of State describes his ideas about diplomacy and power balances, showing how national negotiating styles influence outcomes

Kissinger Aug 23 2022

Kissinger über Kissinger Jun 21 2022 Was macht einen guten Politiker und Staatsmann aus? Welches Wissen und welche Talente braucht ein Präsident, um die Geschicke einer Nation zu lenken? Welchen Richtlinien sollte

die Außenpolitik eines Staates folgen? Der 96-jährige Henry Kissinger ist befugt wie wenige andere Zeitgenossen, solche Fragen zu beantworten. Als Berater und Außenminister der USA befand er sich an den Brennpunkten der Geschichte des 20. Jahrhunderts – und gelegentlich auch im Fadenkreuz internationaler Konflikte. Seine daraus gewonnenen Einsichten zu Taktik, Strategie und Diplomatie gelten weltweit als Leitlinien für Staatsmänner. - Henry Kissinger erinnert sich an seine Zeit in der Nixon-Regierung - Insiderwissen zur Annäherung der USA an China, zum Ende des Vietnamkriegs, zum Beginn der Entspannung im Kalten Krieg und zum Nahost-Konflikt - Henry Kissinger verbindet den analytischen Blick des Politikwissenschaftlers mit den Erfahrungen des Realpolitikers - Ein authentischer Einblick in Staatsführung, Verhandlungsstrategien und die Gestaltung von Außenpolitik - Oral History: das Buch basiert auf einem exklusiven mehrstündigen Interview mit Henry Kissinger Weltgeschichte aus erster Hand: Henry Kissingers Erinnerung an die Nixon-Ära 1968 wurde Henry Kissinger von US-Präsident Nixon zum Berater für Außen- und Sicherheitspolitik ernannt. 1973 wurde er Außenminister. Für ein Waffenstillstands- und Abzugsabkommen mit Nordvietnam erhielt er im gleichen Jahr gemeinsam mit Lê Đức Thọ den Friedensnobelpreis. In jenen Jahrzehnten hat Henry Kissinger fast jede wichtige US-amerikanische und internationale Führungspersonlichkeit getroffen. Seine diplomatischen Gespräche und politischen Entscheidungen betrafen die größten außenpolitischen Themen der Zeit und wirken bis heute nach. Mit phänomenalem Erinnerungsvermögen blickt Henry Kissinger zurück und erzählt Weltgeschichte so, dass auch die nachfolgenden Generationen das Gefühl bekommen, direkt dabei gewesen zu sein. Der Leser profitiert dabei persönlich von den einzigartigen Einsichten des großen Mannes der Diplomatie!

Missing Kissinger Jun 16 2019 Featuring stories in which many of the characters are waiting for something to change their lives, 'Missing Kissinger' describes the search for ultimate happiness. As is often the case, the unexpected can - and usually does - occur."

Kissinger über Kissinger Oct 25 2022

Kissinger and the Yom Kippur War Jun 09 2021 The 1973 Yom Kippur War marked a turning point in the "special relationship" between the United States and Israel. While previous U.S. administrations had taken a relatively even hand in the Middle East, the action saw American support of Israel become virtually unconditional. A massive airlift of military hardware to Israel brought the U.S. and the Soviet Union closer to conflict. As the war—just two weeks in duration—played out along the Suez Canal, U.S. Vice President Spiro Agnew was forced to resign amidst bribery allegations. Watergate escalated, resulting in President Nixon's near-breakdown. Despite Secretary of State Henry Kissinger's efforts to supply arms to Israel, he was stymied by resistance in the Department of Defense, which some saw as overly provocative toward the Arabs. Ostensibly a U.S. foreign policy success, the war led directly to the 1974 oil crisis and a permanent rift in U.S. – Arab relations. Drawing on Kissinger's telephone conversations and recently declassified documents, this book tells the story of how the secretary became the chief architect of America's Middle East policy, and how his Cold War strategy played a critical role in the decision to pursue active military involvement.

Kissingers langer Schatten Nov 02 2020 Für die einen ist er Amerikas Metternich, für die anderen ein Zyniker und Kriegsverbrecher. Greg Grandin zeigt in seinem fesselnden Buch, dass Henry Kissinger vor allem eines ist: der einflussreichste Architekt des imperialen, militaristischen und weit nach rechts abgedrifteten Amerika von heute. Wer die Krise der Weltmacht USA verstehen will, der muss Kissinger verstehen – und Grandins Buch lesen. Es ist Kissinger, so argumentiert Greg Grandin, der eine militarisierte Version des amerikanischen Exzeptionalismus eingeführt hat, die bis heute einseitig den imperialen Stil der amerikanischen Außenpolitik bestimmt. Mit seinem Glauben, dass die Realität dem amerikanischen Machtwillen unterworfen werden kann, dass die Intuition des großen Staatsmanns für eine erfolgreiche Außenpolitik wichtiger ist als die genaue Kenntnis der Fakten und dass Fehler in der Vergangenheit keines Handeln in der Zukunft nicht beeinträchtigen dürfen, hat Kissinger den Aufstieg der Neokonservativen maßgeblich ermöglicht. Sein Erbe ist es, das die USA in die desaströsen Interventionen in Afghanistan und Irak hineinmanövriert und zu ihrem dramatischen Ansehensverlust in der Welt geführt hat.

Ending the Vietnam War Dec 15 2021 The Definitive Account Many other authors have written about what they thought happened -- or thought should have happened -- in Vietnam, but it was Henry Kissinger who was

there at the epicenter, involved in every decision from the long, frustrating negotiations with the North Vietnamese delegation to America's eventual extrication from the war. Now, for the first time, Kissinger gives us in a single volume an in-depth, inside view of the Vietnam War, personally collected, annotated, revised, and updated from his bestselling memoirs and his book *Diplomacy*. Here, Kissinger writes with firm, precise knowledge, supported by meticulous documentation that includes his own memoranda to and replies from President Nixon. He tells about the tragedy of Cambodia, the collateral negotiations with the Soviet Union and the People's Republic of China, the disagreements within the Nixon and Ford administrations, the details of all negotiations in which he was involved, the domestic unrest and protest in the States, and the day-to-day military to diplomatic realities of the war as it reached the White House. As compelling and exciting as Barbara Tuchman's *The Guns of August, Ending the Vietnam War* also reveals insights about the bigger-than-life personalities -- Johnson, Nixon, de Gaulle, Ho Chi Minh, Brezhnev -- who were caught up in a war that forever changed international relations. This is history on a grand scale, and a book of overwhelming importance to the public record.

The Blood Telegram Jul 18 2019 Finalist for the Pulitzer Prize in General Nonfiction Winner of the Council on Foreign Relations' Arthur Ross Book Award Winner of the Lionel Gelber Prize for Best Foreign Affairs Book Winner of the Asia Society's Bernard Schwartz Book Award Winner of the Cundill Prize for Historical Literature Winner of the Society for Historians of American Foreign Relations' Robert H. Ferrell Book Prize Winner of the Ramnath Goenka Award One of the Best Books of the Year at • The Economist • Financial Times • The New Republic • The Washington Post • Kirkus Reviews • A New York Times Notable Book This magnificent history provides the first full account of Richard Nixon and Henry Kissinger ' s secret support for Pakistan in 1971 as it committed shocking atrocities in Bangladesh—which led to war between India and Pakistan, shaped the fate of Asia, and left major strategic consequences for the world today. Drawing on previously unheard White House tapes, recently declassified documents, and his own extensive investigative reporting, Gary Bass uncovers an astonishing unknown story of superpower brinkmanship, war, scandal, and conscience. Revelatory, authoritative, and compulsively readable, *The Blood Telegram* is a thrilling chronicle of a pivotal chapter in American foreign policy.

Sideshow Aug 31 2020 Details the Nixon administration's ignominious conduct in relation to Cambodia

Die USA und Chile - Kissinger und der amerikanische Einfluss auf die Politik Allendes Oct 13 2021

Studienarbeit aus dem Jahr 2007 im Fachbereich Amerikanistik - Kultur und Landeskunde, Note: 1,3, Freie Universität Berlin, Veranstaltung: Die USA im Kalten Krieg, 17 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Warum Chiles politische Linksentwicklung Anfang der 70er Jahre von den Amerikanern besonders kritisch beäugt wurde und welche Konsequenz diese Tendenz weltpolitisch nach sich zog, soll in der vorliegenden Arbeit ansatzweise beantwortet werden. Handelte es sich lediglich um die häufig propagierte Sorge Washingtons die Etablierung eines zweiten Kubas könnte bereits als Beweis für die Domino-Theorie auf amerikanischem Kontinent gelten? Oder befürchtete die Nixon Administration im Rahmen des Kalten Krieges das Experiment der demokratisch gewählten Regierung Allendes – ein friedlicher Weg zum Sozialismus – könnte gar zum Erfolg führen und somit eine falsche Signalwirkung für ausstehende Wahlen in Europa haben? Für letztere Annahme würde Kissingers klare Aussage sprechen, in der er die Bedeutungslosigkeit des südamerikanischen Kontinents betont: “ You come here speaking of Latin America, but this is not important. Nothing important can come from the South. History has never been produced in the South. The axis of history starts in Moscow, goes to Bonn, crosses over to Washington, and then goes to Tokyo. ” Vielmehr bereitete den USA die Entwicklung des Eurokommunismus, besonders des italienischen Kommunismus, starkes Kopfzerbrechen, war doch ein etwaiger Erfolg der kommunistischen Partei durch ihre Abkehr vom Moskauer Diktat und durch ein eigenständiges, reformiertes Konzept nun nicht mehr völlig auszuschließen. Zwar verfolgte Nixon vorgeblich eine Politik der Détente, dennoch durfte im Nullsummenspiel des Kalten Krieges der eigene Einfluss in Westeuropa nicht geschmälert werden. Der außen- und sicherheitspolitischer Berater sowie späterer Außenminister Henry Kissinger stand als Vertreter der Realpolitik einer sozialistisch-kommunistischen Ausbreitung in Südamerika besonders skeptisch gegenüber, was sich in seinem vehementen Engagement in der Angelegenheit Chile widerspiegelte. Um die Ereignisse vor und während der Regierung Allendes bis hin zu dessen Sturz einordnen und bewerten zu können, erscheint es mir sinnvoll den Weg bis zum tatsächlichen

Amtsantritt Allendes zu untersuchen, die Politik der Unidad Popular und die Reaktion Washingtons darauf zu analysieren sowie die Position Kissingers als Vertreter der Realpolitik näher zu beleuchten.

Henry Kissinger and the American Century Jan 24 2020 What made Henry Kissinger the kind of diplomat he was? What experiences and influences shaped his worldview and provided the framework for his approach to international relations? Suri offers a thought-provoking, interpretive study of one of the most influential and controversial political figures of the twentieth century.

World Order Jul 30 2020 a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process, or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as National Security Advisor and Secretary of State, World Order guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavík.

Die Realpolitik der Kissinger-Ära Jan 16 2022 Studienarbeit aus dem Jahr 2008 im Fachbereich Politik - Internationale Politik - Region: USA, Note: 2,0, Freie Universität Berlin (John-F.-Kennedy-Institut), Veranstaltung: Einführung in die US Außen- und Sicherheitspolitik, 13 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Der 1923 in Fürth geborene und 1954 an der Harvard University promovierte Politikwissenschaftler Henry A. Kissinger gilt als einer der bedeutendsten Außenminister der Vereinigten Staaten von Amerika. Möchte man seine Außenpolitik bewerten, ist es notwendig sich die Veränderungen der auswärtigen Beziehungen gegen Ende der 1960er Jahre vor Augen zu führen. Das Internationale System transformierte sich zu einem desintegrierten Netzwerk bi-, multi- und transnationaler Beziehungen, welches den USA die Grenzen des eigenen außenpolitischen Engagements aufgezeigte. Kissingers Aufgabe als Nationaler Sicherheitsberater unter Präsident Richard M. Nixon (1969-1974) und anschließend während der Watergate-Affäre und als Außenminister unter Nixons Nachfolger Gerald R. Ford (1974- 1977) war es, diese Grenzen zu erkennen sowie die amerikanische Außenpolitik als Realpolitik neu zu definieren und auszurichten. Der im Folgenden verwendete Begriff der Realpolitik meint eine (Außen)Politik, welche die tatsächlich gegebenen Umstände, Chancen und Risiken innerhalb eines bestimmten Bereichs betrachtet und anhand einer sachlichen, neutralen Analyse, frei von ideologischem oder sonstigem wertorientierten Denken, Entscheidungen trifft. Kissingers Realpolitik basierte dabei auf einem System aus Ordnung und Sicherheit. Erstmals seit dem Zweiten Weltkrieg entwickelte diesbezüglich ein amerikanischer Politiker mit überragendem akademischem Ruf ein pragmatisch-realistisches Verständnis von Außenpolitik. Kissinger löste sich weitestgehend von dem festen Freund-Feind-Schema seiner Vorgänger und setzte an den Anfang jeder großen Unternehmung eine klare Ziel-Mittel-Bestimmung. Die sogenannte Balance- oder Gleichgewichtspolitik eröffnete die Chance zu großen außenpolitischen Erfolgen und war zugleich Grundlage für die moralischen Verfehlungen Kissingers außenpolitischer Entscheidungen. Der Harvard-Professor konnte Ende der 1960er Jahre auf umfangreiche theoretische Kenntnisse, jedoch kaum auf außenpolitische Erfahrungen zurückgreifen. Seine Geheimdiplomatie war geprägt von wenig Abstimmung mit supranationalen Institutionen und beendete den Internationalismus der Nachkriegszeit.

Weltordnung Jul 22 2022

Henry A. Kissinger Dec 03 2020

Kissinger the Negotiator Sep 12 2021 Foreword by Henry Kissinger In this groundbreaking, definitive guide to the art of negotiation, three Harvard professors—all experienced negotiators—offer a comprehensive examination of one of the most successful dealmakers of all time. Politicians, world leaders, and business executives around the world—including every President from John F. Kennedy to Donald J. Trump—have sought the counsel of Henry Kissinger, a brilliant diplomat and historian whose unprecedented achievements as a negotiator have been universally acknowledged. Now, for the first time, Kissinger the Negotiator provides a clear analysis of Kissinger's overall approach to making deals and resolving conflicts—expertise that holds powerful and enduring lessons. James K. Sebenius (Harvard Business School), R. Nicholas Burns (Harvard Kennedy School of Government), and Robert H. Mnookin (Harvard Law School) crystallize the key elements of Kissinger's

approach, based on in-depth interviews with the former secretary of state himself about some of his most difficult negotiations, an extensive study of his record, and many independent sources. Taut and instructive, *Kissinger the Negotiator* mines the long and fruitful career of this elder statesman and shows how his strategies apply not only to contemporary diplomatic challenges but also to other realms of negotiation, including business, public policy, and law. Essential reading for current and future leaders, *Kissinger the Negotiator* is an invaluable guide to reaching agreements in challenging situations.

*The Inevitability of Tragedy* Mar 26 2020 A new portrait of Henry Kissinger focusing on the fundamental ideas underlying his policies: Realism, balance of power, and national interest. Few public officials have provoked such intense controversy as Henry Kissinger. During his time in the Nixon and Ford administrations, he came to be admired and hated in equal measure. Notoriously, he believed that foreign affairs ought to be based primarily on the power relationships of a situation, not simply on ethics. He went so far as to argue that under certain circumstances America had to protect its national interests even if that meant repressing other countries' attempts at democracy. For this reason, many today on both the right and left dismiss him as a latter-day Machiavelli, ignoring the breadth and complexity of his thought. With *The Inevitability of Tragedy*, Barry Gewen corrects this shallow view, presenting the fascinating story of Kissinger's development as both a strategist and an intellectual and examining his unique role in government through his ideas. It analyzes his contentious policies in Vietnam and Chile, guided by a fresh understanding of his definition of Realism, the belief that world politics is based on an inevitable, tragic competition for power. Crucially, Gewen places Kissinger's pessimistic thought in a European context. He considers how Kissinger was deeply impacted by his experience as a refugee from Nazi Germany, and explores the links between his notions of power and those of his mentor, Hans Morgenthau—the father of Realism—as well as those of two other German-Jewish émigrés who shared his concerns about the weaknesses of democracy: Leo Strauss and Hannah Arendt. *The Inevitability of Tragedy* offers a thoughtful perspective on the origins of Kissinger's sober worldview and argues that a reconsideration of his career is essential at a time when American foreign policy lacks direction.

Henry Kissinger Apr 07 2021

*Kissinger* Mar 18 2022 A biography of the political figure, based on more than one hundred and fifty interviews with Kissinger and others, chronicles his childhood in Nazi Germany, his rise in politics, and his political relationships.

Henry Kissinger - Weltpolitiker und Mensch May 28 2020

*Kissinger on Kissinger* Apr 26 2020 In a series of riveting interviews, America's senior statesman discusses the challenges of directing foreign policy during times of great global tension. As National Security Advisor to Richard Nixon, Henry Kissinger transformed America's approach to diplomacy with China, the USSR, Vietnam, and the Middle East, laying the foundations for geopolitics as we know them today. Nearly fifty years later, escalating tensions between the US, China, and Russia are threatening a swift return to the same diplomatic game of tug-of-war that Kissinger played so masterfully. *Kissinger on Kissinger* is a series of faithfully transcribed interviews conducted by the elder statesman's longtime associate, Winston Lord, which captures Kissinger's thoughts on the specific challenges that he faced during his tenure as NSA, his general advice on leadership and international relations, and stunning portraits of the larger-than-life world leaders of the era. The result is a frank and well-informed overview of US foreign policy in the first half of the 70s—essential reading for anyone hoping to understand tomorrow's global challenges.

*Henry Kissinger and American Power* Feb 17 2022 [Henry Kissinger and American Power] effectively separates the man from the myths." —The Christian Science Monitor | Best books of August 2020 The definitive biography of Henry Kissinger—at least for those who neither revere nor revile him Over the past six decades, Henry Kissinger has been America's most consistently praised—and reviled—public figure. He was hailed as a “miracle worker” for his peacemaking in the Middle East, pursuit of détente with the Soviet Union, negotiation of an end to the Vietnam War, and secret plan to open the United States to China. He was assailed from the left and from the right for his indifference to human rights, complicity in the pointless sacrifice of American and Vietnamese lives, and reliance on deception and intrigue. Was he a brilliant master strategist—“the 20th century's greatest 19th century statesman”—or a cold-blooded monster who eroded America's moral standing for the sake of self-promotion? In this masterfully researched biography, the renowned

diplomatic historian Thomas Schwartz offers an authoritative, and fair-minded, answer to this question. While other biographers have engaged in hagiography or demonology, Schwartz takes a measured view of his subject. He recognizes Kissinger's successes and acknowledges that Kissinger thought seriously and with great insight about the foreign policy issues of his time, while also recognizing his failures, his penchant for backbiting, and his reliance on ingratiating and fawning praise of the president as a source of power. Throughout, Schwartz stresses Kissinger's artful invention of himself as a celebrity diplomat and his domination of the medium of television news. He also notes Kissinger's sensitivity to domestic and partisan politics, complicating—and undermining—the image of the far-seeing statesman who stands above the squabbles of popular strife. Rounded and textured, and rich with new insights into key dilemmas of American power, *Henry Kissinger and American Power* stands as an essential guide to a man whose legacy is as complex as the last sixty years of US history itself.
