Speedlights & Speedlites Sep 28 2022 Canon Speedlites and Nikon Speedlights
are small, off-camera flashguns that can provide big results - if you know
how to use them properly. Acclaimed Boston photographers Lou Jones, Bob
Keenan and Steve Ostrowski guide you through the technical and creative
aspects of how to get the most out of these powerful tools in this
indispensable guide, packed full of inspirational images and comprehensive
diagrams of the lighting set ups used to capture them. They are
significantly more advanced, lighter and considerably cheaper than a
standard flashgun, and have many advantages. They are small (and cheap)
enough that a number can be carried in your kit, and they can be used in
combination, triggered wirelessly. They use through-the-lens (TTL) metering,
which allows you to use the in-camera LCD and histograms to calculate the
required power/direction, rather than havng to use a light meter or trial
and error. They use proprietary, dedicated technology (from Canon and Nikon)
that means there are no compatability issues. Getting the most out of them,
however, remains a mystery - most photographers still just use their
speedlights in the same way as a standard flash gun. This is where this book
comes in.

Digital Wildlife Photography Sep 16 2021 "From how many frames you need to shoot per second to capture that WOW moment to where to focus on a bird with a big beak to get the best depth of field, this book has it all for the wildlife photographer. It is an impressive mix of technology with just plain good advice for image-taking, and they discuss each point specifically for shooting wildlife, because it is a totally unique type of photography. The lighting and shutter speed for a macro flower shot is not the same that you'd need for a bird in flight or a kangaroo jumping across a field. Mix together this fantastic info with the many years of experience that the Gerlachs have shooting and teaching and the absolutely jaw-dropping images and you really do have a perfect storm for a book"--

The Hot Shoe Diaries Oct 17 2021 When it comes to photography, it's all about the light. After spending more than thirty years behind the lens—working for National Geographic, Time, Life, and Sports Illustrated—Joe McNally knows about light. He knows how to talk about it, shape it, color it, control it, and direct it. Most importantly, he knows how to create it...using small hot shoe flashes. In *The Hot Shoe Diaries*, Joe brings you behind the scenes to candidly share his lighting solutions for a ton of great images. Using Nikon Speedlights, Joe lets you in on his uncensored thought process—often funny, sometimes serious, always fascinating—to demonstrate how he makes his pictures with these small flashes. Whether he's photographing a gymnast on the Great Wall, an alligator in a swamp, or a fire truck careening through Times Square, Joe uses these flashes to create great light that makes his pictures sing.

The Nikon Creative Lighting System Apr 23 2022 Mike Hagen opens up a whole new world to those photographers who are already well versed in photography, but may not have a clue about flash photography. With the new and rapidly evolving technology, flash photography (especially advanced light modeling with modern iTTL flash systems) has become an art in itself and should be mastered by all aspiring photographers-amateurs as well as professionals-who are often helpless when it comes to using the full potential of these systems. Using a simple, step-by-step method for setting up and using the newest Nikon iTTL flash units, Mike teaches all the steps required to achieve consistent and amazing flash photos. He solves the common frustrations associated with flash and teaches readers how to use the SB-500, SB-600, SB-700, SB-800, SB-900, SB-910, and R1C1 strobes. Also included is a chapter showing system configuration so readers can duplicate the desired results on their own. Beginning at a basic level and progressing to more advanced techniques, Mike teaches you everything you need to know about mastering Nikon's iTTL flash system.
