[Message and Medium](#) Feb 25 2020 Studies of digital communication technologies often focus on the apparently unique set of multimodal resources afforded to users and the development of innovative linguistic strategies for performing mediated identities and maintaining online social networks. This edited volume interrogates the novelty of such practices by establishing a transhistorical approach to the study of digital communication. The transhistorical approach explores language practices as lived experiences grounded in historical contexts, and aims to identify those elements of human behaviour that transcend historical boundaries, looking beyond specific developments in communication technologies to understand the enduring motivations and social concerns that drive human communication. The volume reveals long-term patterns in the indexical functions of seemingly innovative written and multimodal resources and the ideologies that underpin them, and shows that methods are not necessarily contingent on their datasets: historical analytic frameworks can be applied to digital data and newer approaches used to understand historical data. These insights present exciting opportunities for English language researchers, both historical and modern.

Longman Academic Writing Series Sep 26 2022 The Longman Academic Writing Series helps English language students master the writing skills needed to succeed in their academic careers. Hodges Harbrace Handbook, 2016 MLA Update Feb 07 2021 Continuously evolving to address the needs of today's students, THE HODGES HARBRACE HANDBOOK, 19th Edition, guides student writers in developing their understanding of the rhetorical situation. This understanding enables even those students with minimal experience or confidence in their writing to learn to write more effectively--to choose the most pertinent

information, arrange it well, and use the most appropriate language when writing for an audience. This grammar-first handbook provides comprehensive coverage of grammar, style, punctuation, mechanics, writing, and research--all presented in the context of rhetorical concerns, including the writer, reader, message, context, and purpose. Like all of its predecessors, the nineteenth edition provides both teachers and students the ease of reference and attention to detail that have made the HARBACE handbooks THE standard of reliability since 1941. This edition has been updated to reflect guidelines from the 2016 MLA HANDBOOK, Eighth Edition. On the End of Privacy Mar 28 2020 In preparation for this book, and to better understand our screen-based, digital world, Miller only accessed information online for seven years. On the End of Privacy explores how literacy is transformed by online technology that lets us instantly publish anything that we can see or hear. Miller examines the 2010 suicide of Tyler Clementi, a young college student who jumped off the George Washington Bridge after he discovered that his roommate spied on him via webcam. With access to the text messages, tweets, and chatroom posts of those directly involved in this tragedy, Miller asks: why did no one intervene to stop the spying? Searching for an answer to that question leads Miller to online porn sites, the invention of Facebook, the court-martial of Chelsea Manning, the contents of Hillary Clinton's email server, Anthony Weiner's sexted images, Chatroulette, and more as he maps out the changing norms governing privacy in the digital age.

2015 Writer's Market Dec 05 2020 The most trusted guide to getting published! Want to get published and paid for your writing? Let the 2015 Writer's Market guide you through the process with thousands of publishing opportunities for writers, including listings for book publishers, consumer and trade magazines, contests and awards, and literary agents. These listings include contact and submission information to help writers get their work published. Beyond the listings, you'll find all-new editorial material devoted to the business and promotion of writing, including advice on pitching to agents and editors, managing your freelance business, and building a readership. This edition also includes the ever popular--and updated--pay-rate chart, plus dozens of articles and essays like these: • Kate Meadows, freelance writer and editor, shares seven habits of financially savvy writers. • Carol Tice, professional writer, teaches you how to build your writing career with social media. • Dana W. Todd, public relations professional, explains how to successfully pitch you and your work like a PR pro. You also gain access to: • Lists of professional writing organizations • Sample query letters • A free digital download of Writer's Yearbook featuring the 100 Best Markets Finally, NEW TO THIS YEAR'S EDITION is an exclusive webinar "How to Find More Success Freelancing," taught by Robert Lee Brewer, editor of Writer's Market. It takes a lot more than flawless writing to be a freelance writer. This hour-long webinar will help you to increase your chances of success. You'll learn the current freelance landscape, how to find freelance opportunities, how to secure assignments, negotiating strategies, and more. Whether the goal is to publish a book, write a magazine article, or freelance for local businesses, this webinar is for writers looking to find more success with their freelancing and ultimately make more money. "Every writer needs a toolbox filled with craft, a drop of talent, and hope. Successful writers know they must add the Writer's Market. You should too." -Barbara O'Neal, author of The All You Can Dream Buffet, 7-time RITA award-winner, and RWA Hall of Fame member "The business of writing is unnecessarily intimidating. Editors want good writing, so why can it be so hard to get published. Writer's Market helps make sense of that big question, offering the kind of straight-shooting advice writers needs. I bought my first copy over a decade ago and still feel grateful that I was able to send my first submissions without embarrassing myself. Writer's Market is an invaluable tool that I find myself recommending again and again." -Erica Wright, author of the novel The Red Chameleon and poetry collection Instructions for Killing the Jackal, as well as Senior Editor for Guernica Magazine

Selected Papers of Walter E. Thirring with Commentaries Jun 30 2020 "... with the huge success of the quantum theory, starting especially with the Schrödinger equation in 1926, came a feeling among the leading physicists that mathematics should keep in the background or, as one person put it, 'elegance is for tailors'. From the other side, mid-twentieth century mathematicians were not much more hospitable about intrusions of physics, as we can see, for instance, in Hardy's well known little essay. Walter was one of the first, in the post-war years, to try to put things back together." -- from the Foreword by Elliott Lieb This book contains Thirring's scientific contributions to mathematical physics, statistical physics, general relativity, quantum field theory, and elementary particle theory from 1950 onward. The order of the papers within the various sections is chronological and reflects the development of the fields during the second half of this century. In some cases, Thirring returned to problems decades later when the tools for their solution had ripened. Each section contains introductory comments by Thirring, outlining his motivation for the work at that time.

E-Paper Displays Jul 24 2022 E-PAPER DISPLAYS An in-depth introduction to a promising technology, curated by one of its pioneering inventors Electronic paper (e-paper) has one of the most promising futures in technology. E-paper's potential is unlimited, as the displays require extremely low power and imitate the aesthetic of ink on the page. This allows e-paper devices to have a wider range of viewing angles than traditional LED products and are capable of being viewed in direct sunlight—and without any additional power. As a result, e-paper displays create less eye strain,

have a greater flexibility in their use, and have the potential to be used in place of paper for billboard advertising, educational applications, and transport signage, and more. In *E-Paper Displays*, editor Bo-Ru Yang and his team of experts present a detailed view into the important technologies involved in e-paper displays, with a particular emphasis on how this technology's unique properties make possible a wide range of personal and professional electronic products. As climate change makes efficient energy use more important than ever, e-paper can become an essential tool for future products on a large scale. As we rely more and more on technology, having lightweight devices with long battery life will become critical. This book provides engineers and innovators with an introduction to this important technology and shows new pathways for development. *E-Paper Displays* readers will also find: The editor is one of the leading pioneers in this technology Contributions from an international team of experts in e-paper technology Descriptions of many advanced display types that rely on different principles than the widely used LCD and OLED types Another innovative title from Wiley-SID (Society for Information Displays) series As we enter a new stage in our industrial development, *E-Paper Displays* is an essential reference for computer engineers and developers, as well as innovators and scientists, and their students.

Human Development and Interaction in the Age of Ubiquitous Technology Feb 19 2022 The human condition is affected by numerous factors in modern society. In modern times, technology is so integrated into culture that it has become necessary to perform even daily functions. *Human Development and Interaction in the Age of Ubiquitous Technology* is an authoritative reference source for the latest scholarly research on the widespread integration of technological innovations around the globe and examines how human-computer interaction affects various aspects of people's lives. Featuring emergent research from theoretical perspectives and case studies, this book is ideally designed for professionals, students, practitioners, and academicians.
