[Subnational Movements In South Asia](#) Mar 06 2021 South Asian politics have been increasingly dominated by ethnic movements seeking control over parts of existing national states, each in the name of their own distinct identity. The leaders of these movements justify their claims by asserting the moral right of their "nation" to its homeland. Although the government usually treats these separatist movements as divisive threats to domestic stability, the movements express their legitimacy with the rhetoric of cultural nationalism. However, this book presents sub-nationalism not as a culturally specific phenomenon but as a politically convenient self-classification, used as an instrument of identity, mobilization, power, and counter-hegemony by political actors. Drawing on detailed analyses of seven South Asian cases—Kashmir, Punjab, Sindh, Baluchistan, Assam, Tamilnadu, and Sri Lanka—the contributors move beyond sociological and economic explanations of the origin and evolution of South Asian nationalism to formulate a political explanation based on theories of cultural nationalism and collective action.

[Electoral Politics in India](#) Apr 26 2020 The general elections held in 2014 in India — the largest democracy in the world — to elect the 16th Lok Sabha brought in dramatic results. This important volume explains not only the startling victory of the Bharatiya Janata Party (BJP) but also the equally surprising downfall of the Congress Party. It examines not why BJP won and the Congress lost, but why the scale of BJP's victory and that of Congress's defeat was so very different from the results in the years 2004 and 2009. The volume presents an in-depth analysis of the electoral results, state-wise studies, the factors leading up to these outcomes, and the road India has travelled since then. With contributions from India's leading political scientists, psephologists, sociologists and political commentators, this book will be of great interest to scholars and researchers of Indian politics, democracy and political parties, as well as South Asian studies.

Pain, Pride, and Politics May 28 2020 Pain, Pride, and Politics is an examination of diasporic politics based on a case study of Sri Lankan Tamils in Canada, with particular focus on activism between December 2008 and May 2009. Amarnath Amarasingam analyzes the reactions of diasporic Tamils in Canada at a time when the separatist Tamil movement was being crushed by the Sri Lankan armed forces and revises currently accepted analytical frameworks relating to diasporic communities. This book adds to our understanding of a particular diasporic group, while contributing to the theoretical literature in the area. Throughout, Amarasingam argues that transnational diasporic mobilization is at times determined and driven as much by internal organizational and communal developments as by events in their countries of origin, a phenomenon that has received relatively little attention in the scholarly literature. His work provides an in-depth examination of the ways in which a separatist sociopolitical movement beginning in Sri Lanka is carried forward, altered, and adapted by the diaspora and the struggles that are involved in this process.

Mobilizing the Marginalized Sep 19 2019 "In Dalit Politics, Amit Ahuja uses the Dalit case to develop a powerful new theory of the often orthogonal relationship between social and political mobilization. He argues that when a marginalized ethnic group's social mobilization precedes its electoral mobilization, the marginalized group's ethnic party will perform poorly. This is because any political inclusion won by a marginalized group's movement weakens the ethnic bloc voting required by its ethnic political party to succeed. When Dalit social movements succeed, competition for their votes increases at the local level, which in turn lowers the importance of caste for differentiating among parties. In areas where marginal groups have a tradition of successfully social mobilization, they prefer material goods over symbolic goods-- which serves to divvy up party preferences within the group. Yet when Dalit social mobilization is absent or weak, other parties do not compete for them. Without competition for marginalized voters, their voting blocs are preserved. Ironically, marginalized ethnic group parties are more likely to succeed. Ahuja also analyzes the human development outcomes and finds another irony: in the social sphere, caste solidarity improves public goods provision for the marginalized group, but in the electoral sphere, the effects are negative because such parties are weak political clients. Democratically elected officials are less accountable to them. Featuring a powerful research base and a highly original thesis, Mobilizing the Marginalized promises to change how we think about democracy in the developing world"--

Electoral Politics in Sri Lanka Mar 18 2022 This volume examines and analyses electoral politics in Sri Lanka through the theoretical framework of manipulation. The following questions guided the study: how do political actors manipulate elections, and what are the salient features of electoral politics in Sri Lanka?

Primary and secondary data formed the basis of the analysis, examining eight presidential elections. The research findings indicated that Sri Lankan governments, political parties and political leaders have taken advantage of six types of electoral manipulation, including constitutional tinkering, field fixing, time fixing, vote suppression, process manipulation and resource manipulation. Through a close examination of eight presidential elections, research carried out for the volume found that elections are often associated with violence; presidential elections are mainly a majoritarian affair in which minority communities play only a marginal role; there is a significant gender imbalance, as women's participation in the electoral process is very limited; despite the presence of a large number of candidates contesting the election, it always remains a two-way race; and amid extensive manipulation and other problems, voter participation tends to be high. This volume will be a valuable resource for students, academics and researchers who focus on democracy, good governance, electoral studies and South Asian politics and history, and will enhance the conceptual foundation of democracy advocates and activists.

The Internet and National Elections Sep 12 2021 This volume provides a comparative analysis of the use of the World Wide Web in countries around the world for political campaign purposes. Research teams around the world conducted analyses in technologically advanced nations, as well as those with low Internet diffusion, and a variety of countries in the middle range of network penetration, and from a variety of political and cultural contexts. The book represents an important contribution towards gaining a cross-national understanding of the current and emerging impacts of the Internet on political practice. To that end, the contributors collect and analyze data related to the structure for political action and information provision. They examine twelve types of political actors engaged in elections, including candidates, parties, non-governmental organizations, government, media and individual citizens. Exploring the complex dynamics between politics, culture, and information technology at both the national and global levels, The Internet and National Elections will be of interest to students and researchers of political science, communication studies, international relations, media and Internet studies.

Ruling Dynasties of Independent India - Volume 2 Jun 09 2021 This book is written to get an overall idea of “dynastic politics” in India. It is always kept in mind that a citizen of India should know more about the politicians who are in the Government and form policies, etc. to take the country in the proper direction, at the same time the book should be interesting. Wherever possible, family trees are shown as well as the assets of our politicians. It was natural to start with the Nehru Gandhi family, being one of the largest and long-ruling families at the helm of all affairs. Then State-wise, the families are chosen and the account is presented. Since the volume is huge, this book is in two volumes. States are chosen alphabetically. So, even if the Nehru Gandhi family is in Volume 1, Tamil Nadu, Telangana, Uttar Pradesh, etc. are in Volume 2. Early rulers in Indian history used to handover the throne to their sons and then to the next generations for generations to come until some larger event upset the process, mostly conspiracies by persons like very close aides of the king or a revolt. Similar lines were followed even during our democracy passing on the rule to the next generation, which gave rise to dynastic rule. Indian politics has witnessed a large spectrum of politicians from various fields. Initially, it consisted mainly of leaders from the field of

law. But now, we find that we have eminent personalities from the sports field, actors, actresses, superstars from the silver screen; the literary field is no exception; we have writers, poets, and so on; economists find a special place in the political arena; politics does not shun even criminals or few dacoits who then turned to politics after their surrender. Businessmen, kings or we can say princes from princely states as Britishers decided to call them are also found here. We have the learned people in politics as well as the illiterate people (angutha chhaap) who learnt to sign only after assuming office on getting elected.

Electoral Dynamics in the States of India Feb 05 2021 This empirically rich volume presents a holistic picture of the electoral process in Indian states and the return of the BJP to power. Lok Sabha and Vidhan Sabha Elections, 1989-1990 Feb 23 2020

Regionalisierung des indischen Parteiensystems May 08 2021 Studienarbeit aus dem Jahr 2008 im Fachbereich Politik - Internationale Politik - Region: Südasien, Note: 1,0, Ruprecht-Karls-Universität Heidelberg (Südasien Institut), Veranstaltung: Das indische Parteiensystem nach der Unabhängigkeit, Sprache: Deutsch, Abstract: Nach der Unabhängigkeit Indiens im Jahr 1947 haben sich in den indischen Bundesstaaten spezifische Parteiensysteme herausgebildet, welche sowohl durch neu entstandene Parteien als auch durch gesellschaftliche Konfliktlinien beeinflusst wurden. Einige dieser neu entstandenen Parteien haben ihren politischen Ursprung in den Demokratisierungsprozessen der zwanziger Jahre, wo sie oftmals in Form politischer Subkulturen mit eigenen Bewegungen in Erscheinung traten. Im südindischen Madras, dem heutigen Tamil Nadu, kam es in diesem Zusammenhang ebenfalls zur Entstehung von regionalen politischen Bewegungen und Parteien, welche zunehmend eine spezielle nationalistische Rückbesinnung auf das drawidisch-tamilische Erbe zum Inhalt hatten. Ein weiterer maßgeblicher Faktor ihres politischen Strebens bestand im Protest gegen die brahmanisch geprägte Sozialstruktur und Gesellschaftsform. Dabei erwiesen sich die aus der politischen Bewegung hervorgegangenen Parteien als besonders erfolgreich und konnten sich nach der indischen Unabhängigkeit fest im regionalen Parteiensystem etablieren. Inhalt dieser Arbeit ist eine Entwicklungsanalyse der politischen drawidisch-tamilischen Bewegung von ihren Ursprüngen in den 20er Jahren bis in die späten 80er Jahre. Der Tod MGRs am Ende des Untersuchungszeitraumes stellt einen markanten Einschnitt dar, von dem aus auf eine über vierzigjährige Verankerung der drawidisch-tamilischen Parteien im Parteiensystem Madras / Tamil Nadus zurückgeblickt werden kann. Darüber hinaus soll hinsichtlich der späteren tamilischen Parteien den Fragen nachgegangen werden, aufgrund welcher Faktoren diese Parteien aus der vorkolonialen Drawidenbewegung hervorgegangen sind und welche Strategien sie zur Wähler
