**Family Matters** May 02 2020 Read Aloud Stories for parents and children to read together. Engaging stories communicate Biblical Truth. A great addition to your home library. Unless children are trained in self-control and self-discipline early in their lives, they move into their adult years without a sense of personal, familial, or societal responsibility. They are unable to make mature individual decisions and they are unable to effectively disseminate the gospel message in obedience to the Great Commission. Andrea Schwartz, author of *Teach Me While My Heart Is Tender*, has again drawn from her family-life experiences to every area of life. These five stories focus on the necessity of responsibility and self-discipline in the "small things" working from the premise that, "Whoever can be trusted with very little can also be trusted with much" (Luke 16:10). The stories are meant to be read by parents and children together and serve as useful conversation starters to educate boys and girls so they can be effective citizens in the Kingdom of God.

*Joyful Resilience as Educational Practice* Aug 24 2019 Teaching is hard work. Teaching

is rewarding work. An abundance of research on teachers' mental health, teacher burnout, and attrition in the profession has proven the truth of the first claim. And, without reading a word of academic research, teachers know the truth of the second: there are numerous challenges and complexities involved in this noble profession. Teachers also know the truth of our second claim—that teaching is immensely rewarding work. The editors and authors of *Joyful Resilience as Educational Practice: Transforming Teaching Challenges into Opportunities* argue that the reciprocities of teaching keep them and countless other teachers in the profession. While teaching is one of the most demanding professions on earth, it is also one of the most rewarding professions. Editors Michelle C. Hughes and Ken Badley hope readers and teaching colleagues alike will be reminded of the rewards and the unexpected paybacks found in teaching. *Joyful Resilience as Educational Practice* is offered as a love letter, a "hang-in-there, you've got this" message to teacher colleagues everywhere. May readers be reminded that teaching is a calling. The editors invite readers to wrestle with, take courage, and find joyful resilience in the professional challenges named in this book.

Breiten Raum nimmt daher die Praxis der Montessori-Pädagogik mit ihren Übungen und Materialien ein. Eine deutsche Übersetzung dieser

**A New Education for New Minds** Aug 17 2021 The education system provides a great way to peer into the potential of the human mind, but it's come up short in unleashing it. Marquis R. Nave, who has taught English at the college level for 10 years, has discovered that student's minds are the center of education and that their ideas about their mental capabilities is crucial to developing a new education. Students who don't believe in the creative power of their minds end up being trained to do work. Educators and educational institutions must help them activate their mental potential so they can create solutions for themselves and the world. In a series of essays, Nave examines the shortcomings of the education system, challenging the way we perceive and think about knowledge, education, and our own awareness. A second section helps students write effective, college-level essays. Whether you're a student, an educator, or a supporter of educational reform, *A New Education for New Minds* will spark ideas that have long lingered in your own mind.

**The Myth of the ADHD Child, Revised Edition** Nov 19 2021 A fully revised and updated edition of the groundbreaking book on tackling the root causes of children's attention and behavior problems rather than masking the symptoms with medication. When *The Myth of the A.D.D. Child* was first published in 1995, Dr. Thomas Armstrong made the controversial argument that many behaviors labeled as ADD or ADHD are simply a child's active response to complex social, emotional, and educational influences. In this fully revised and updated edition, Dr. Armstrong shows readers how to address the underlying causes of a child's attention and behavior problems in order to help their children implement positive changes in their lives. The rate of ADHD diagnosis has increased sharply, along with the prescription of medications to treat it. Now needed more than ever, this book includes fifty-one new non-drug strategies to help children overcome attention and behavior problems, as well as updates to the original fifty proven strategies.

That's what Andrea Schwartz has accomplished in this collection of essays on The Biblical Trustee Family. Stemming from her long years in homeschooling. Andrea elevates the Kingdom mandate as the driving purpose behind God's creation of the family, and the family's central task: education. Her passion is to equip Christian families - especially homeschooling mothers - not only with the tools of learning, but the tools of dominion.

A House for God Sep 25 2019 THE CHRISTIAN LIFE IS ABOUT SERVING A PURPOSE GREATER THAN OURSELVES. DISCOVER THAT PURPOSE NOW! There is one thing we are to seek. One vision given for us to fulfill. A single mission that would serve as the goal for something so large as a nation, yet specific to us as individuals. There is one primary cause by which we are to define all that we are, all that we have, and all that we do. What we are to seek above all else is the Kingdom of God and His righteousness (Matt. 6:33) and to do the will of God on earth as it is in heaven (Matt. 6:10). A vital, governing institution for this mission is the family - in specific, the trustee family. It is the Christian family that holds this great Kingdom mission "in trust" and instills this mission in its members. It is the Christian family that serves as the first church, state, workplace, and school in which children are prepared for godly dominion. Therefore, Christian parents are called to establish Kingdom-driven families. They are to build a home for God - a house that is dedicated to the service of the King and His Kingdom. To aid in this calling, Christian author and education expert, Andrea Schwartz has carefully put together this collection of essays entitled *A House for God: Building a Kingdom-Driven Family*. Both your personal life and your family life will be challenged and transformed through the pages of this easy-to-read, insightful book on building a Kingdom-driven family.

**Das überreizte Kind** Dec 21 2021 Dr. Stuart Shanker revolutioniert die Erziehung unserer Kinder: Seine Methode der Selbstregulierung ermöglicht Kindern aller Altersstufen – und deren Eltern – zu einer besonderen inneren Balance zu finden, einem Zustand von ruhiger Wachsamkeit. Von klein an wirken zu viele Reize auf sie ein, spätestens ab dem Schulalter sind sie einem oft unvorstellbaren Stress ausgesetzt. Das macht unruhig, unkonzentriert, aggressiv und hyperaktiv. Erwachsene reagieren meist mit einer Forderung nach Gehorsam – was leider nur dazu führt, dass der Druck weiter erhöht wird. Dr. Shankers Methode geht an die Wurzeln und bietet eine wirkliche Lösung. So kann Kindern – vom Kleinkind bis zum Teenager – geholfen werden. Jedem einzelnen.

The Sandbox Revolution Jul 28 2022 It is a complex time to be a parent. Our climate is in crisis, and economic inequality is deepening. Racialized violence is spreading, and school shootings are escalating. How do we, as parents, cultivate in our children a love of the earth, a cry for justice, and a commitment to nonviolence? Where do we place our bodies so we teach our kids that resistance is crucial and change is possible? What practices do we hold as a family to encourage them to work with their hands, honor their hearts, and nurture their spirits? The Sandbox Revolution calls upon our collective wisdom to wrestle with the questions, navigate the challenges, offer concrete practices, and remind parents of the sacredness of the work. Written by parents who are also writers, pastors, teachers, organizers, artists, gardeners, and activists, this anthology offers a diversity of voices and experiences on topics that include education, money, anti-racism, resistance, spirituality, disability justice, and earth care.

**Fundamentals of Gifted Education** Dec 29 2019 The field of gifted education is characterized by a confusing array of perspectives concerning such fundamental issues as definition, philosophy, curriculum, social and emotional development, and underserved populations. The mission of this book is to provide a coherent framework that instructors and service providers can use in planning effective programs, providing appropriate counseling services, and evaluating programs for the gifted. Most sections are organized around fundamental issues confronting the field and follow a common structure: an introductory chapter that provides historical and theoretical background and organizing questions followed by several point-of-view chapters written by experts that provide varied perspectives on the topic at hand. Distinguishing Features Comprehensive Coverage - The book's forty-five manageable-length chapters cover the full range of topics that must be considered in planning programs and services for gifted students both within and outside of school. Coherent Structure - Section introductions provide background information and organizing questions to guide chapter authors who provide varying views of the issue at hand. The emphasis is not on the "right way" or the "wrong way" (except when clearly documented bad practice is discussed), but on how best practice stems from well-informed and logical decision-making. Decision Making Focus - The book's introductory chapter addresses the need for a clearly developed and consistently applied set of values to guide decision making. Likewise, each section introduction includes a decision making framework regarding some aspect of educating,

counseling, or parenting gifted students. This book is appropriate for introductory level courses in gifted education or courses in program development and planning. It is also suitable for school personnel responsible for making program planning decisions in the area of gifted education and for academic libraries with holdings in this area.
