Boatbuilding Manual Jul 26 2022 One of the most widely read texts on the subject, Boatbuilding Manual has been used for years as a standard reference at both boatbuilding and design schools. This fourth edition emphasizes traditional wooden construction but also surveys plywood, wood-epoxy, fiberglass, steel, aluminum, and other boatbuilding methods. The chapters on interpreting plans, lofting, and moldmaking are common to all methods. New to this edition are several chapters arising from the Miscellaneous Details chapter of earlier editions; an appendix on sharpening tools; expanded tables of metric equivalents; an expanded and annotated source guide for plans, fasteners, hardware, wood, and other staples of boatbuilding; and a list of additional reading. Thoroughly updated with respect to modern tools and materials, Boatbuilding Manual remains both a professional reference and the first book a budding amateur should buy.

Principles and Practice of Pediatric Sleep Medicine E-Book Dec 27 2019 Principles and Practice of Pediatric Sleep Medicine, 2nd Edition, written by preeminent sleep medicine experts Drs. Sheldon, Kryger, Ferber, and Gozal, is the most comprehensive source for diagnosing and managing sleep disorders in children. Newly updated and now in full color throughout, this medical reference book is internationally recognized as the definitive resource for any health practitioner who treats children, providing absolute guidance on virtually all of the sleep-associated problems encountered in pediatric patients. Consult this title on your favorite e-reader, conduct rapid searches, and adjust font sizes for optimal readability. Organized format separates coverage into Normal and Abnormal sleep for quick access to the key information you need. Abundantly referenced chapters help you to investigate topics further. Equips you with a complete understanding of both medical and psychiatric sleep disorders. New and expanded chapters regarding sleep related breathing disorders; parasomnias; differential diagnosis of pediatric sleep disorders; hypersomnia; school start times and implications; and the evaluation and management of circadian rhythm disturbances. Extensive coverage on obstructive sleep apnea, diagnosis and treatment; evaluation and management of sleepy children; evaluation and management of circadian rhythm abnormalities; and pharmacology.

Boatbuilding Manual Oct 29 2022 Boatbuilding Manual is one of the most widely read texts on the subject, and it has been used for years as a standard reference at both boatbuilding and design schools. A builder and designer for more than 55 years, Robert Steward has rare abilities as a writer and draftsman. His phrasing is clear and easy, and he writes the absolute minimum necessary for a complete understanding of the subject. This fourth edition, like its predecessors, emphasizes traditional wooden construction but also surveys plywood, wood-epoxy, fiberglass, steel, aluminum, and other boatbuilding methods. The chapters on interpreting plans, lofting, and moldmaking are common to all methods. New to this edition are several chapters arising from the "Miscellaneous Details" chapter of earlier editions; an appendix on sharpening tools; expanded tables of metric equivalents; an expanded and annotated source guide for plans, fasteners, hardware, wood, and other staples of boatbuilding; and a list of additional reading. Praise for Boatbuilding Manual: ". . . the best building manual for wooden boats there is--clear, concise but inclusive, and written so the inexperienced boatbuilder can read it."--John Gardner, Mystic Seaport Museum "I first got acquainted with the Boatbuilding Manual in the early 1970s when Murray Peterson, the yacht designer, gave me a copy saying, 'Read this. It's the best book on small-boat building I've ever seen.' I had to agree and it's still true. Steward's book is in a class of its own. It's the book I always recommend for boatbuilding classes, and we've used it to fine advantage at the local high school."--Sonny Hodgdon, Hodgdon Yachts, Inc., East Boothbay, Maine This is a book at home in the workshop, not the library. Pulled from beneath a pile of shavings, it is the thing to help make a tough decision or to quiet an unwelcome adviser."--SAIL
