Special Forces, Strategy and the War on Terror

Aug 17 2021 This volume undertakes a systematic analysis of the relationship between Special Forces and contemporary strategy, explaining the resurgence of interest in Special Forces, particularly in the West, by exploring their appeal over traditional conventional force options in the current 'War on Terror'. Special Forces, Terrorism and Strategy comprises four overarching themes: theory and practice command and control culture and technology operations and the 'War on Terror'. By developing a credible theory about the role of Special Forces in contemporary strategy, Alastair Finlan assesses the changing character of the relationship between conventional forces and Special Forces, illustrating the prominent role of these forces in the 'War on Terror'. This book will be of great interest to students of strategic studies and military history, as well as for professional military colleges.

Die Ambler-Warnung Jul 24 2019 Der neue Ludlum - Bestsellergarantie! Robert Ludlum beherrscht unangefochten das Feld des klassischen Spionage- und Agententhillers. Auch sein neuester Roman bietet wieder eine rasante Story um Intrige und tödlichen Verrat: Ex-Agent Hal Ambler wird von seinen einstigen Auftraggebern auf einer entlegenen Insel gefangen gehalten. Als ihm die Flucht gelingt, nimmt eine mörderische Jagd ihren Lauf.

Blood Run Sep 29 2022 Biochemist Emma Caldrige joins Jackson Rand, pharmaceutical CEO, on a humanitarian mission to deliver vaccines to remote villages in Africa. But after narrowly escaping a crew of trained assassins, Emma realizes that there is more to this mission than she anticipated. Rand is keeping secrets from her, information that could cost both of them their lives...not to mention millions more. After its eradication nearly forty years ago, the smallpox virus is once again threatening the world. With no known cure and limited stores of

vaccine, the highly contagious, deadly and disfiguring disease has the power to wipe out entire cities. Rand's company was hired to secure the last known vials, but some have gone missing in Africa and a ruthless government now hunts them for use as a biochemical weapon. Emma must locate these vials before the killer plague is unleashed on the innocent, ravaging a world that never expected to see it again. She runs to the border, finding and freeing hostages as she does. But an insurgency is rising around them, blocking their every attempt to escape. Surrounded and with no choice but to head to the desert, Emma must stop the virus and lead her ragtag team to freedom...if the Sahara doesn't kill them first.

The Green Berets in the Land of a Million Elephants Jun 14 2021 The untold story of US Special Forces in Laos, one of the longest secret wars of the Cold War—by a military historian and Special Forces veteran. The Secret War in Laos was one of the first “long wars” fought by

US Special Forces, spanning a period of about thirteen years. It was one of the largest CIA-paramilitary operations of the time, kept out of the view of the American public until now. Between 1959 and 1974, Green Berets were covertly deployed to Laos during the Laotian Civil War to prevent the Communist Pathet Lao from taking over the country. Operators disguised as civilians and answering only to “Mister,” were delivered to the country by Air America, where they reported to the US Ambassador. With limited resources, they faced a country in chaos. Maps had large blank areas and essential supplies often didn't arrive at all. In challenging tropical conditions, they trained and undertook combat advisory duties with the Royal Lao Government. Shrouded in secrecy until the 1990s, this was one of the first major applications of special warfare doctrine. Now, the story is comprehensively told for the first time using official archival documents and interviews with veterans.

Die Bourne Initiative Jul 28 2022 Jason Bourne ist auf der Flucht. Das NSA glaubt, er leite die Geschicke seines verstorbenen Freundes Boris Karpov, einst Kopf des russischen Geheimdienstes FSB. Vor seinem Tod hat dieser eine Cyberwaffe entwickelt, die in der Lage wäre, Amerika in die Knie zu zwingen. Mit einem Tötungskommando auf den Fersen, ist Bourne gezwungen, einer Einheit seines Erzfeindes Keyre beizutreten - eines somalischen Terroristen, dem er einst das Handwerk legte. Mächtiger ist als je zuvor ist Keyre der Einzige, der Bourne Schutz bieten kann. Aber zu welchem Preis?

Robert Ludlum's The Geneva Strategy Jun 26 2022 One evening in Washington, DC, several high-ranking members of government disappear in a mass kidnapping. Among the kidnapped is Nick Rendel, a computer software coding expert in charge of drone programming and strategy. He is the victim with the most dangerous knowledge, including confidential passwords and codes that are used to program the drones. If revealed, his kidnappers could reprogram the drones to strike targets within the United States. Jon Smith and the Covert One team begin a worldwide search to recover the officials, but as the first kidnapping victims are rescued, they show disturbing signs of brainwashing or mind-altering drugs. Smith's investigation leads him to Fort Detrick, where a researcher, Dr. Laura Taylor, had been attempting to create a drug to wipe memory from soldiers suffering from post-traumatic stress syndrome. But Dr. Taylor's research was suspended almost a year ago, when she was placed in a mental institution.

The Rise and Decline of the American Century

Jan 28 2020 In 1941 the magazine publishing titan Henry R. Luce urged the nation's leaders to create an American Century. But in the post-World-War-II era proponents of the American Century faced a daunting task. Even so, Luce had articulated an animating idea that, as William O. Walker III skillfully shows in *The Rise and Decline of the American Century*, would guide United States foreign policy through the years of hot and cold war. The American Century was, Walker argues, the counter-balance to defensive war during World War II and the containment of communism during the Cold War. American policymakers pursued an aggressive agenda to extend U.S. influence

around the globe through control of economic markets, reliance on nation-building, and, where necessary, provision of arms to allied forces. This positive program for the expansion of American power, Walker deftly demonstrates, came in for widespread criticism by the late 1950s. A changing world, epitomized by the nonaligned movement, challenged U.S. leadership and denigrated the market democracy at the heart of the ideal of the American Century. Walker analyzes the international crises and monetary troubles that further curtailed the reach of the American Century in the early 1960s and brought it to a halt by the end of that decade. By 1968, it seemed that all the United States had to offer to allies and non-hostile nations was convenient military might, nuclear deterrence, and the uncertainty of détente. Once the dust had fallen on Lyndon B. Johnson's presidency and Richard M. Nixon had taken office, what remained was, *The Rise and Decline of the American Century*

shows, an adulterated, strategically-based version of Luce's American Century. Revisiting the Vietnam War and International Law Mar 31 2020 This collection of scholarly and critical essays about the legal aspects of the Vietnam War explores various crimes committed by the United States against North Vietnam: war of aggression; war crimes in bombing civilian targets such as schools and hospitals, and using napalm, cluster bombs, and Agent Orange; crimes against humanity in moving large parts of the population to so-called strategic hamlets; and alleged genocide and ecocide. International lawyer Richard Falk, who observed these acts personally in North Vietnam in 1968, uses international law to show how they came about. This book brings together essays that he has written on the Vietnam War and on its relationship to international law, American foreign policy, and the global world order. Falk argues that only a stronger adherence to international law can save the world from such

Covert Capital Mar 12 2021 The capital of the U.S. Empire after World War II was not a city. It was an American suburb. In this innovative and timely history, Andrew Friedman chronicles how the CIA and other national security institutions created a U.S. imperial home front in the suburbs of Northern Virginia. In this covert capital, the suburban landscape provided a cover for the workings of U.S. imperial power, which shaped domestic suburban life. The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world. As the U.S. expanded its power abroad by developing roads, embassies, and villages, its subjects also arrived in the covert capital as real estate agents, homeowners, builders, and landscapers who constructed spaces and living monuments that

both nurtured and critiqued postwar U.S. foreign policy. Tracing the relationships among American agents and the migrants from Vietnam, El Salvador, Iran, and elsewhere who settled in the southwestern suburbs of D.C., Friedman tells the story of a place that recasts ideas about U.S. immigration, citizenship, nationalism, global interconnection, and ethical responsibility from the post-WW2 period to the present. Opening a new window onto the intertwined history of the American suburbs and U.S. foreign policy, *Covert Capital* will also give readers a broad interdisciplinary and often surprising understanding of how U.S. domestic and global histories intersect in many contexts and at many scales. *American Crossroads*, 37 *Strategic Review* Apr 12 2021 ... dedicated to the advancement and understanding of those principles and practices, military and political, which serve the vital security interests of the United States.

extensive research in the Russian archives, this book examines the Soviet approach to the Vietnam conflict between the 1954 Geneva conference on Indochina and late 1963, when the overthrow of the South Vietnamese president Ngo Dinh Diem and the assassination of John F. Kennedy radically transformed the conflict. The author finds that the USSR attributed no geostrategic importance to Indochina and did not want the crisis there to disrupt détente. The Russians had high hopes that the Geneva accords would bring years of peace in the region. Gradually disillusioned, they tried to strengthen North Vietnam, but would not support unification of North and South. By the early 1960s, however, they felt obliged to counter the American embrace of an aggressively anti-Communist regime in South Vietnam and the hostility of its former ally, the People's Republic of China. Finally, Moscow decided to disengage from Vietnam, disappointed that its efforts to avert an

Robert Ludlum's The Bourne Sacrifice Oct 26 2019 Jason Bourne tackles a global media conspiracy in the latest electrifying entry in Robert Ludlum's #1 New York Times bestselling series. Jason Bourne has faced many killers before, but none as dangerous or as cruelly inventive as the assassin who calls himself Lennon. Bourne thought he had Lennon cornered in Iceland, only to have the killer escape in a fiery explosion. Now Lennon's trail leads Bourne to New York and then to Washington - and the body count rises with each deadly encounter. But who is Lennon working for? Bourne believes the assassin has a shadowy new employer called the Pyramid. The only clue to the group's agenda is a young German woman murdered in Washington on her way to a covert meeting. But the woman's entire identity turns out to be a lie, and news reports of her death have been strangely twisted and suppressed. Finding the truth about this woman may be Bourne's only chance to catch Lennon - and

Beziehungen und jede Form der Kommunikation, für alle Individuen, Unternehmen, Organisationen und Zivilisationen rund um den Globus. Mangelndes Vertrauen zerstört auch die erfolgreichsten Unternehmen, die mächtigste Regierung und die florierendste Wirtschaft. Trotz der offensichtlich immensen Macht von Vertrauen spielt es im realen Geschehen kaum eine Rolle und gehört wohl zu den am meisten unterschätzten Faktoren unserer Wirtschaft und Gesellschaft. Stephen M. R. Covey zeigt in seinem viel beachteten Buch „Schnelligkeit durch Vertrauen“, dass Vertrauen kein weicher Faktor ist, sondern ein pragmatischer und realer Wert, den man erschaffen und zur Handlungsgrundlage machen kann. Er präsentiert konkrete Vertrauensregeln und Prinzipien und zeigt, wie auf allen Ebenen eines Unternehmens Vertrauen aufgebaut, gelebt und gefördert werden kann. Seine These: Vertrauen ist eine Schlüsselkompetenz und ein Art Teilchenbeschleuniger für die Wirtschaft.
