Kontinuität im Wandel Aug 13 2021 Wim Wenders, Großauteur des Global Art Cinema und weltweit ausgestellt Fotograf, feierte im August letzten Jahres seinen 75. Geburtstag. Anlass genug, sich seinem gewaltigen, uns mittlerweile mehr als ein halbes Jahrhundert begleitenden Werk erneut zu widmen. Hierzu lädt der Sammelband ein, dessen dreizehn Beiträge Wenders' Arbeiten, angefangen bei den Kurzfilmen der 1960er Jahre bis hin zu den reifen Spätwerken wie "Don't Come Knocking" (2005) oder "Submergence" (2017), chronologisch abschreiten und einer Wieder- und Neusichtung unterziehen. Was verbindet Wenders mit Theodor W. Adorno, was mit Terrence Malick, was mit André Bazin? Wie lässt sich seine legendäre Roadmovie-Trilogie mit Niklas Luhmann lesen? Wie wird Disability in seinen Filmen repräsentiert? Auf welche Weise war er mitverantwortlich für das größte britische Roadmovie aller Zeiten?

Warum zieht es ihn immer wieder in die einstige Bergbaustadt Butte, Montana? Was macht ihn zu einem großen Vorreiter des 'slow cinema'? Dies sind nur einige der Fragen, auf die der Band Antwort gibt.

The Strategy for Korea's Economic Success Jun 30 2020 Korea's

economic success has inspired numerous studies and research projects in past decades. Despite good efforts to analyze the strategy of Korea, earlier studies have not been able to comprehensively and systematically explain the country's "miraculous" growth. After thorough analysis of these earlier studies, a new model has been developed by showing that a country or firm does not have to be more innovative or possess more resources to have a competitive advantage over others. In *The Strategy for Korea's Economic Success*, Hwy-Chang Moon details four factors that comprise the ABCD model and illustrates how the Korean government, corporations, and people have exemplified these factors in achieving their current level of success. The four factors are agility (speed + precision), benchmarking (learning + best practices), convergence (mixing + synergy), and dedication (diligence + goal-orientation). Together, these factors have enabled Korea's economic success and will continue to drive the next level of growth. Anyone can become more competitive with proper implementation of the ABCDs. Korea's development strategy holds special value, because it is more practical and appropriate for many developing countries. For more developed countries, on the other hand, the ABCDs can be used to fast-track the next phase of growth. Moon also highlights the role of internationalization in broadening the scope of strategic choices, and shows how the combined implementation of internationalization and the ABCDs deepens the pool of strategic resources.
