Der lange Weg zur Freiheit Feb 08 2021 »Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

The Report: Sri Lanka Oct 19 2021 While the presidential and parliamentary elections in 2015 instigated a wait-and-see approach within Sri Lanka's private sector, the outcome is expected to be positive in the longer term, bringing improved stability and a more encouraging environment for foreign investment. Under what has been described as a more liberal, open and business-oriented government, Sri Lanka is entering a period in which it stands to grow rapidly. In 2016 the country should begin to see the benefits of the recent reform agenda, as the new leadership introduces policies that will help bring about strong and sustainable growth.

Piemont Süd Sep 25 2019 Hausgemachte Pasta und vollmundiger Wein: Feinschmeckern ist das Piemont längst ein Begriff. Weinberge, kurvige Straßen und mittelalterliche Dörfer prägen die Region. Bald schon geht es von den sanften Hügeln weiter nach oben, hinauf in die Westalpen – hier wird es rauer und das Revier für Wanderer beginnt: Wilde Berglandschaften wollen entdeckt werden und eine unverfälschte Natur zieht in ihren Bann. Der Rother Wanderführer »Piemont Süd« stellt 50 Touren vom Monviso bis zu den Ligurischen Alpen vor. Die Tourenausswahl umfasst leichte bis anspruchsvolle Halbtages- und Tageswanderungen in den Cottischen Alpen, den Seealpen und den Ligurischen Alpen. Eines der Highlights im wahrsten Sinn des Wortes ist der Monviso (oder Monte Viso), der über 3.800 Meter hoch ist und alle umliegenden Berge überragt. Auch 15 Mehrtagestouren werden vorgestellt, die zwischen zwei und elf Tagen dauern. Denn die Einsamkeit und Wildheit der piemontesischen Bergwelt lässt sich auf Trekkingtouren am intensivsten erfahren. Jede Tour wird mit einer exakten Routenbeschreibung, einem Kartenausschnitt mit eingezeichnetem Wegverlauf und einem aussagekräftigen Höhenprofil vorgestellt. Nicht nur die farbige Schwierigkeitsbewertung, sondern auch die Liste der Top-Touren erleichtert die Auswahl der Ziele. Außerdem gibt es Hintergrundinfos zur Region sowie zahlreiche Tipps zu Unterkünften und Einkehrmöglichkeiten. Die Bergjournalistin und Fotografin Iris Kürschner hat bereits zahlreiche Bücher, Wanderführer und Artikel über die Westalpen verfasst. Neben der einmaligen, einsamen Landschaft liegen ihr besonders die Menschen dort und die kulturellen Besonderheiten am Herzen.

Post-disaster Navigation and Allied Services over Opportunistic Networks Mar 24 2022 This book provides the details of developing a digital pedestrian map construction system over the intermittently connected mobile network. Over the past couple of decades, countries across the world, both developing and developed, have witnessed a significant number of disasters. Thus, it has become mandatory for each of the disaster-prone countries to equip themselves with appropriate measures to cope with the challenges of providing post-disaster services. Some of the serious challenges are incapacitated communication infrastructure, unstable power supply and inaccessible road networks. Out of these challenges, the destruction of road networks, especially in developing countries, acts as a major hindrance to effective disaster management. To be more specific, the success of a disaster response operation generally depends on the speed of evacuation and transportation of adequate amount of relief materials at the right time to the disaster-affected areas. Hence, map-based navigation support is a primary requirement for post-disaster relief operations. This book also provides the solution of the two other important post-disaster management services such as situational awareness and resource allocation. Both of these services are invariably dependent on the existence of navigation support. Finally, in order to offer such services, the other challenge is to address the problem of incapacitated communication infrastructure. This book also deals with such challenges in post-disaster scenarios and develops automated post-disaster management services.

Business Analytics Feb 20 2022 Technological advances in the last five years have allowed organizations to use Business Analytics to provide insights, increase understanding and it is hoped, gain the elusive 'competitive edge'. The rapid development of Business Analytics is impacting all enterprise competences profoundly and classical business professions are being redefined by a much deeper interplay between business and information systems. As computing capabilities for analysis has moved outside the IT glass-house and into the sphere of individual workers, they are no longer the exclusive domain of IT professionals but rather accessible to all employees. Complex open-source data analytics packages and client-level visualization tools deployed in desktops and laptops equip virtually any end-user with the instruments to carry out significant analytical tasks. All the while, the drive to improve 'customer experience' has heightened the demand for data involving customers, providers and entire ecosystems. In response to the proliferation of Business Analytics, a new Center and Masters of Science Program was introduced at the National University of Singapore (NUS). The Center collaborates with over 40 different external partner organizations in Asia-Pacific with which all MSBA students undertake individual projects. Business Analytics: Progress on Applications in Asia Pacific provides a useful picture of the maturity of the Business Analytics domain in Asia Pacific.
