Robert Bryan Jul 14 2021 Since his boyhood days watching test pilots roar through the sky over his Long Island, NY, home, Robert Bryan was fascinated with flight. Add to that his love of a good story and his vocation as an Episcopal priest and you have the three great themes of his life. After his graduation from Yale Divinity School—where he met Marshall Dodge and the two created the immensely popular storytelling duo “Bert and I”—Bryan became a minister to the remote settlements of Quebec's North Shore. In the mid-20th century, the best way to reach parishioners was by bush plane, so Robert rose to the task. He went on to spend 50 years as a bush pilot and minister, logging more than 12,000 hours at the controls. This endearing memoir traces his life and adventures during that time and weaves in his experiences performing and recording with Dodge.

Dictablanda Mar 30 2020 In 1910 Mexicans rebelled against an imperfect dictatorship; after 1940 they ended up with what some called the perfect dictatorship. A single party ruled Mexico for over seventy years, holding elections and talking about revolution while overseeing one of the world's most inequitable economies. The contributors to this groundbreaking collection revise earlier interpretations, arguing that state power was not based exclusively on hegemony, corporatism, or violence. Force was real, but it was also exercised by the ruled. It went hand-in-hand with consent, produced by resource regulation, political pragmatism, local autonomies and a popular veto. The result was a dictablanda: a soft authoritarian regime. This deliberately heterodox volume brings together social historians, anthropologists, sociologists, and political scientists to offer a radical new understanding of the emergence and persistence of the modern Mexican state. It also proposes bold, multidisciplinary approaches to critical problems in contemporary politics. With its blend of contested

elections, authoritarianism, and resistance, Mexico foreshadowed the hybrid regimes that have spread across much of the globe. Dictablanda suggests how they may endure. Contributors. Roberto Blancarte, Christopher R. Boyer, Guillermo de la Peña, María Teresa Fernández Aceves, Paul Gillingham, Rogelio Hernández Rodríguez, Alan Knight, Gladys McCormick, Tanalís Padilla, Wil G. Pansters, Andrew Paxman, Jaime Pensado, Pablo Piccato, Thomas Rath, Jeffrey W. Rubin, Benjamin T. Smith, Michael Snodgrass

Village Horse Doctor Nov 06 2020 In the inimitable yarn-spinning fashion of *Horse Tradin'* and *Wild Cow Tales*, Ben K. (Doc) Green now takes us back with him to the deep Southwest and the never-a-dull-moment years he spent as practicing horse doctor—working out of Fort Stockton, Texas—along the Pecos and the Rio Grande, in one of the last big “horse countries” of North America. With precious little formal schooling, but with a perfect (if sometimes profane) corral-side manner and plenty of natural wit, Doc became the first to hang up a shingle out there in the trans-Pecos country. And he didn't start small! The territory he had for his practice was 420 miles north and south by 360 miles east and west. And he covered that territory by all means known to man—shank's mare, horseback, buckboard, and (his standby for long hauls) a beat-up old coupe on whose body panels he kept his books in chalk. To go with Doc on his rounds, visiting his “patients,” is a nostalgic and hilarious journey into a spacious yesterday—and a liberal education in the kind of horse and cow savvy of which precious little remains in the modern world. As a horseman it was a savvy he came by naturally. But perhaps he learned most from his own research: his own book on horse confirmation, privately published in several printings, is still a bible among practical horsemen; his research in his own laboratory on horse colors and pigmentation has made him an expert on what makes a “strawberry roan” or a “coyote dun.” But the meat of Ben Green's books is in his yarns. To hear him tell the tales of his struggles with mean and friendly stockmen, yellowweed fever, banditos, poison hay, and “drouth”—to say nothing of his canny mix of science and horse sense when treating animals “that ain't house pets”—is a 100-proof old-time pleasure.
