the astonishing and sometimes hilarious chronicle of the CBC, full of larger-than-life characters, incidents of skulduggery, and moments of both despair and exhilaration, and all underpinned by the good humour and acumen of its author. The CBC is the most intensely scrutinized institution in Canada. Everyone, it seems, has an opinion on it. Yet, oddly, its history has never been fully told before. But now the missing story that reveals all has been written – by the one person with intimate knowledge of the CBC who can be absolutely fair Knowlton Nash, who retired from the corporation in 1992. Nash brings his extensive contacts, his own experiences, his journalist’s objectivity, and his tremendous research and storytelling skills to the Byzantine tale of Canada’s public broadcaster. Ever since the 1920s, when radio took Canada by storm, there has been war between those who want to use the airwaves solely for commercial profit and those who believe in public

broadcasting for its role in education and nation-building. There have been battle between management and producers and stars; between the CBC and successive governments, Liberal and Conservative alike; between the CBC board and its executives; between the private broadcasters and the CBC; even between various CBC luminaries and the bottle. Along with his vivid and intimate portraits of these fights, Nash gives us the stories of the CBC’s many triumphs, from Foster Hewitt’s early play-by-play of Saturday Night hockey games and Matthew Halton’s dramatic broadcasts from the frontlines of the Second World War, to the magic of TV in the 1950s, the renaissance of CBC Radio in the 1970s, and CBC TV’s drama and comedy hit programs in the 1980s. There have been betrayals aplenty too, by governments determined to curb the CBC’s independence by ones means or another, or to starve it into submission, and

plotting the demise of controversial programs and equally controversial producers and personalities. Based on countless hours of research, on interviews with forty major figure from the CBC's more recent past, and on as many oral history tapes recorded by earlier CBC leaders, *The Microphone Wars* is the definitive popular history of Canada's public broadcaster. *Resisting Rights* May 12 2021 From 1948 to 1966, the United Nations worked to create a common legal standard for human rights protection around the globe. *Resisting Rights* analyzes the Canadian government's changing policy toward this endeavour from the 1940s to the 1970s, exploring how developments in international relations and evolving cultural attitudes within Canadian society created pressure on the federal government to overcome its initial reluctance to be bound by international human rights law. This timely study situates current policies within their historical context and debunks

Doctor Who and a legend in British and Canadian TV and film A major influence on the BBC and independent television in Britain in the 1960s, as well as on CBC and the National Film Board in Canada, Sydney Newman acted as head of drama at a key period in the history of television. For the first time, his comprehensive memoirs Ñ written in the years before his death in 1997 Ñ are being made public. Born to a poor Jewish family in the tenements of Queen Street in Toronto, NewmanÕs artistic talent got him a job at the NFB under John Grierson. He then became one of the first producers at CBC TV before heading overseas to the U.K. where he revitalized drama programming. Harold Pinter and Alun Owen were playwrights whom Newman nurtured, and their contemporary, socially conscious plays were successful, both artistically and commercially. At the BBC, overseeing a staff of 400, he developed a science fiction

In this provocative new book -- the first one to examine print and broadcast news coverage of women's issues in English Canada -- Barbara Freeman explores what the media were saying about women and their concerns during an important period in our history -- and why. *The Satellite Sex* is both a social history and a media case study of the years 1966-1971, when the feminist movement began once more to gather support. Women wanted equal treatment under the law, and they wanted rights they had not gained when they won the vote many years earlier. In response, the Canadian government appointed a federal inquiry

women, and hundreds of women came forward to talk to the Commission about the injustices they experienced at school, at work, in public life, in their homes, and even in their bedrooms. The Satellite Sex demonstrates that the print and broadcast media coverage of women's issues at that time were much more complex and fragmented than

revealed by research in the United States on the same era. This book, released thirty years after the Canadian Commission presented its report, also raises questions about the lack of strong feminist voices in today's news media.
