[Rowan's Ascension](#) Jul 13 2021 A rancher and witch. A down on his luck cowboy. A love foretold for hundreds of years. People called them the Wicked Witches of the West from the time the Murphy triplets were five and accidentally set their house on fire. Nothing they did disabused the notion they were different from the rest of the children in Saddlebrook, Wyoming. After their mother died giving birth to them, the girls were in the care of their father, big Gus Murphy, who didn’t know a thing about how to raise three little girls. Much less little witches. When the Triad Ranch is at its lowest point, and Gus injured, Rowan, the eldest, runs the horse ranch as best she can, but things are desperate. Then Jesse Nelson appears and she recognizes him as the boy and then man of her dreams—her mate. She is drawn to him as her powers strengthen with each passing moment. Jesse doesn’t know what to make of the crazy ranch, or the oddball characters on it, but he is hungry and alone. Rowan is everything he ever wanted and all that he can’t have. Little does he know what awaits him and Rowan when the world around them explodes with magic, black and white. When Rowan ascends to her true power with her cowboy at her side, she and her sisters have to use their combined strength to triumph or die in the darkest of magic.

Jesus in the Theology of Rowan Williams Jul 25 2022 Brett Gray traces the portrayal of Christ that emerges throughout Williams' diverse writings, including in his engagements with literature and philosophy. What emerges is a vision of Jesus that grows from the roots of the Christian tradition, but is pronounced in a contemporary idiom and sensitive to modern concerns. Although attentive to the broad sweep of the Christian tradition, Williams' Christology is also seen in this book to be a particular British artefact, shaped in dialogue with thinkers such as Donald MacKinnon and Gillian Rose. What is ultimately brought to the surface in this work is the profoundly hopeful, if frequently under-pronounced, eschatology underlying Williams' Christology. Jesus is the “last word”, changing creation's possibilities and summoning it into an endless and vivifying journey.

[A Challenge to Change](#) Aug 02 2020

Future Sea Jan 07 2021 A counterintuitive and compelling argument that existing laws already protect the entirety of our oceans—and a call to understand and enforce those protections. The world’s oceans face multiple threats: the effects of climate change, pollution, overfishing, plastic waste, and more. Confronted with the immensity of these challenges and of the oceans themselves, we might wonder what more can be done to stop their decline and better protect the sea and marine life. Such widespread environmental threats call for a simple but significant shift in reasoning to bring about long-overdue, elemental change in the way we use ocean resources. In *Future Sea*, ocean advocate and marine-policy researcher Deborah Rowan Wright provides the tools for that shift. Questioning the underlying philosophy of established ocean conservation approaches, Rowan Wright lays out a radical alternative: a bold and far-reaching strategy of 100 percent ocean protection that would put an end to destructive industrial activities, better safeguard marine biodiversity, and enable ocean wildlife to return and thrive along coasts and in seas around the globe. *Future Sea* is essentially concerned with the solutions and not the problems. Rowan Wright shines a light on existing international laws intended to keep marine environments safe that could underpin this new strategy. She gathers inspiring stories of communities and countries using ocean resources wisely, as well as of successful conservation projects, to build up a cautiously optimistic picture of the future for our oceans—counteracting all-too-prevalent reports of doom and gloom. A passionate, sweeping, and personal account, *Future Sea* not only argues for systemic change in how we manage what we do in the sea but also describes steps that anyone, from children to political leaders (or indeed, any reader of the book), can take toward safeguarding the oceans and their extraordinary wildlife.

Being Us Nov 17 2021 -Tanner- She was beautiful. Loved. Strong. After hiding away for six months with just my dog to keep me company, I was forced out of the shadows only to end up in the arms of an enemy. Beatrix Lister saved my life. I had been taking care

of myself for so long, I didn't know how to ask for help, but she refused to go down without a fight. She was warm where I was frigid. She was kind and caring where I was a cold-blooded monster. I did things to survive. I battled the evils of the world to live. I didn't deserve her heart but fell in love with her anyway. As much as I wanted to be with her, I needed answers and I would do anything to get them. Even if it meant breaking the heart of the only woman I had ever loved. ~ -Bee- He was lonely. Intense. Brave. Tanner Horsch came into my life unexpectedly. He was like a tornado, ripping up everything in its path. There was something about him that I craved. His touch. His words. His need to survive. But as we were getting to know each other, he still had walls up. He refused to let me in knowing my family didn't approve of him. I refused to let him go. After being in the wrong place at the wrong time, he escaped and eventually he ran right into my arms. He was the villain of someone else's story, but he was the hero of mine. I just prayed that he could see that not all monsters are truly evil. Before it was too late, and he gave himself to the enemy. My family. **WARNING:** Please be advised that there are scenes in this book that mention past child abuse and trauma. If you have triggers, please read with caution. Victor Arnautoff and the Politics of Art Apr 22 2022 Victor Arnautoff reigned as San Francisco's leading mural painter during the New Deal era. Yet that was only part of an astonishing life journey from Tsarist officer to leftist painter. Robert W. Cherny's masterful biography of Arnautoff braids the artist's work with his increasingly leftist politics and the tenor of his times. Delving into sources on Russian émigrés and San Francisco's arts communities, Cherny traces Arnautoff's life from refugee art student and assistant to Diego Rivera to prominence in the New Deal's art projects and a faculty position at Stanford University. As Arnautoff's politics moved left, he often incorporated working people and people of color into his treatment of the American past and present. In the 1950s, however, his participation in leftist organizations and a highly critical cartoon of Richard Nixon landed him before the House Un-American Activities Committee and led to calls for his dismissal from Stanford. Arnautoff eventually departed America, a refugee of another kind, now fleeing personal loss and the disintegration of the left-labor culture that had nurtured him, before resuming his artistic career in the Soviet Union that he had fought in his youth to destroy.

Human Rights in the Community Feb 08 2021 There has been a considerable focus in the last few years on the meaning of the Human Rights Act 1998 and its real and potential impact on judges and lawyers. Much has been written on the implications of the new legislation for a variety of areas of law. With the rising level of case-law the emphasis is now turning to the impact of the legislation on specific areas of social life. In this volume the focus is on the practice of human rights and how they are enforced in reality. There is much discussion in the literature of a human rights culture but how precisely is such a culture to be created, and how do we make sense of human rights? In order to address these questions this volume is in two parts. Part I examines general issues surrounding the full and effective implementation of human rights. Part II explores the implications of human rights standards in particular areas in order to test whether a human rights culture has emerged.
