[Land and Disaster Management Strategies in Asia](#) Aug 23 2022 This book focuses on land and disaster governance in Asian countries. The Asian region has become increasingly vulnerable to natural disasters, including floods, cyclones, storms, earthquakes, drought, typhoons and tsunamis. Further, as a result of unsustainable changes being made in patterns of land use, catchment and coastal zones, increasing population density, migration patterns, and the spread of consumer culture across countries, the impact of natural disasters has increased manifold. The book addresses two major concerns in this field. Firstly, it discusses topics intended to raise awareness among all stakeholders of the critical aspects of disaster management in the context of Asia. Secondly, it calls upon policymakers, researchers, academics, practitioners, private enterprises and civil society organizations, as well as all those who have been, are and will be affected by natural disasters to search for innovative and novel approaches to reducing risk and managing disasters.

[South Asian English](#) Apr 26 2020 This volumes examines selected formal and functional characteristics of English in South Asia, where English was introduced in the sixteenth century and now has over fifty million users. An integrative and interdisciplinary collection, the books brings together invited papers by acclaimed creative writers from India and Pakistan and by international linguists and English educators. The five major facets of South Asian English discussed are context and uses: structure and contact; functions and innovations; the curriculum; and the multilingual's creativity. The volume provides current perspectives on complex issues of concern to teachers and students of world Englishes.
