Atheism justified, and religion superseded Sep 13 2021

[Legal Cases, New Religious Movements, and Minority Faiths](#) Dec 04 2020 New religious movements (NRMs) and other minority faiths have regularly been the focus of legal cases around the world in recent decades. This is the first book to focus on important aspects of the relationship of smaller faiths to the societies in which they function by using specific legal cases to examine social control efforts. The legal cases involve group leaders, a groups' practices or alleged abuses against members and children in the group, legal actions brought by former members or third parties, attacks against such groups by outsiders including even governments, and libel and slander actions brought by religious groups as they seek to defend themselves. These cases are sometimes milestones in the relation between state authorities and religious groups. Exploring cases in different parts of the world, and assessing the events causing such cases and their consequences, this book offers a practical insight for understanding the relations of NRMs and other minority religions and the law from the perspective of legal cases. Chapters focus on legal, political, and social implications. Including contributions from scholars, legal practitioners, actual or former members, and authorities involved in such cases from various jurisdictions, this book presents an objective approach to understanding why so many legal actions have involved NRMs and other minority faiths in recent years in western societies, and the consequences of those actions for the society and the religious group as well.

The History of the Last Trial by Jury for Atheism in England Jun 29 2020 Holyoake, George Jacob. The History of the Last Trial by Jury for Atheism in England: A Fragment of Autobiography, Submitted for the Perusal of Her Majesty's Attorney-General and the British Clergy. London: James Watson, 1851. vi, 100 pp. Reprint available May 2005 by the Lawbook Exchange, Ltd. ISBN 1-58477-553-X. Cloth. \$65. * Holyoake [1817-1906], a notable free-thinking socialist lecturer and self-described "agitator," was the last person in England indicted for blasphemy based on remarks during a debate after one of his speaking engagements. Though convicted, he emerged the moral victor. As his account of the trial indicates, he defending his position eloquently. And his stirring critique of the blasphemy laws did much to undermine their validity in the popular mind.

[Media Portrayals of Religion and the Secular Sacred](#) Nov 22 2019 Is it true that Christianity is being marginalised by the secular media, at the expense of Islam? Are the mass media Islamophobic? Is atheism on the rise in media coverage? Media Portrayals of Religion and the Secular Sacred explores such questions and argues that television and newspapers remain key sources of popular information about religion. They are particularly significant at a time when religious participation in Europe is declining yet the public visibility and influence of religions seems to be increasing. Based on analysis of mainstream media, the book is set in the context of wider debates about the sociology of religion and media representation. The authors draw on research conducted in the 1980s and 2008-10 to examine British media coverage and representation of religion and contemporary secular values, and to consider what has changed in the last 25 years. Exploring the portrayal of Christianity and public life, Islam and religious diversity, atheism and secularism, and popular beliefs and practices, several media events are also examined in detail: the Papal visit to the UK in 2010 and the ban of the controversial Dutch MP, Geert Wilders, in 2009. Religion is shown to be deeply embedded in the language and images of the press and television, and present in all types of coverage from news and documentaries to entertainment, sports reporting and advertising. A final chapter engages with global debates about religion and media

Religion and African Civil Wars Oct 14 2021 This work analyses the part played by religion, be it Christianity, Islam or traditional beliefs, in the civil wars and insurgent conflicts that have scarred Africa.

Parliamentary Papers Jul 11 2021

Practical Religion: Being Plain Papers on the Daily Duties, Experience, Dangers and Privileges of Professing Christians Sep 25 2022 The volume now in the reader's hands is intended to be a companion to two other volumes which I have already published, entitled "Knots Untied," and "Old Paths." "Knots Untied" consists of a connected series of papers, systematically arranged, about the principal points which form the subject of controversy among Churchmen in the present day. All who take interest in such disputed questions as the nature of the Church, the Ministry, Baptism, Regeneration, the Lord's Supper, the Real Presence, Worship, Confession, and the Sabbath, will find them pretty fully discussed in "Knots Untied." "Old Paths" consists of a similar series of papers about those leading doctrines of the Gospel which are generally considered necessary to salvation. The inspiration of Scripture, sin, justification, forgiveness, repentance, conversion, faith, the work of Christ, and the work of the Holy Spirit, are the principal subjects handled in "Old Paths." The present volume contains a series of papers about "practical religion," and treats of the daily duties, dangers, experience, and privileges of all who profess and call themselves true Christians. Read in conjunction with another work I have previously put out, called "Holiness," I think it will throw some light on what every believer ought to be, to do, and expect. One common feature will be found in all the three volumes. I avow it

frankly at the outset, and will not keep it back for a moment. The standpoint I have tried to occupy, from first to last, is that of an Evangelical Churchman.

Religion and the Ku Klux Klan Oct 26 2022 As with other terrorist and extremist organizations, religion forms the basis of the Ku Klux Klan's dogmatic philosophy, providing justification for its beliefs and actions. The Klan represents a link to America's cultural past. While America has undergone tremendous social change, the secretive order has, since the end of the Civil War, kept alive the antiquated values--predicated on racism and religion--of white supremacism. Covering nearly a century of Klan ideology, this book examines the group's religious rhetoric in its literature and songs, from its heyday during the 1920s to 2014.

Quantum Religion Nov 03 2020 Quantum Religion: The Entanglement of Science and Religion By: Randolph Anthony Lark Quantum Religion explores the connection between science and religion, which for thousands of years has been impossible to decipher until our modern era. Christians today are seeking solid substance to base their faith upon. Working with modern science, Randolph Anthony Lark replaces the word faith with the word fact through critical analysis connecting both disciplines. Readers will come to know of God and Heaven's existence with an in-depth look through the history of science and religion up until our twenty-first century understanding of the two and what new discoveries may await us in the next.

Cobbett's Complete Collection of State Trials and Proceedings for High Treason and Other Crimes and Misdemeanors from the Earliest Period [1163] to the Present Time[1820]. Feb 06 2021

Quantum Religion May 09 2021 In 1997 New York State's largest bingo hall opened just outside Albany, New York. After making millions for the charities that occupied the hall and cornering the bingo market in upstate New York, the state attorney general's office indicted the bingo hall owner and his family and friends in one of the largest criminal cases ever. Denying the charges, the bingo hall's owner publicly accused the attorney general of political incompetence and corruption. After settling the criminal case and costing the attorney general his seat in office, the owner then became the target of the state's Racing and Wagering Commissioner. Vindicating his political friend, concealing his own payoff and attempting to take over the bingo hall for himself, the Racing and Wagering Commissioner had the owner's license revoked and the hall closed. From the bribes it took to open the business to the political chicanery that followed, now revealed for the first time is the true story of Bingo City.

The Oxford Handbook of Religion and the American News Media May 21 2022 Whether the issue is the rise of religiously inspired terrorism, the importance of faith based NGOs in global relief and development, or campaigning for evangelical voters in the U.S., religion proliferates in our newspapers and magazines, on our radios and televisions, on our computer screens and, increasingly, our mobile devices. Americans who assumed society was becoming more and more secular have been surprised by religions' rising visibility and central role in current events. Yet this is hardly new: the history of American journalism has deep religious roots, and religion has long been part of the news mix. Providing a wide-ranging examination of how religion interacts with the news by applying the insights of history, sociology, and cultural studies to an analysis of media, faith, and the points at which they meet, *The Oxford Handbook of Religion and the American News Media* is the go-to volume for both secular and religious journalists and journalism educators, scholars in media studies, journalism studies, religious studies, and American studies. Divided into five sections, this handbook explores the historical relationship between religion and journalism in the USA, how religion is covered in different media, how different religions are reported on, the main narratives of religion coverage, and the religious press.

The War Against Proslavery Religion Mar 07 2021 Reflecting a prodigious amount of research in primary and secondary sources, this book examines the efforts of American abolitionists to bring northern religious institutions to the forefront of the antislavery movement. John R. McKivigan employs both conventional and quantitative historical techniques to assess the positions adopted by various churches in the North during the growing conflict over slavery, and to analyze the stratagems adopted by American abolitionists during the 1840s and 1850s to persuade northern churches to condemn slavery and to endorse emancipation. Working for three decades to gain church support for their crusade, the abolitionists were the first to use many of the tactics of later generations of radicals and reformers who were also attempting to enlist conservative institutions in the struggle for social change. To correct what he regards to be significant misperceptions concerning church-oriented abolitionism, McKivigan concentrates on the effects of the abolitionists' frequent failures, the division of their movement, and the changes in their attitudes and tactics in dealing with the churches. By examining the pre-Civil War schisms in the Presbyterian, Baptist, and Methodist denominations, he shows why northern religious bodies refused to embrace abolitionism even after the defection of most southern members. He concludes that despite significant antislavery action by a few small denominations, most American churches resisted committing themselves to abolitionist principles and programs before the Civil War. In a period when attention is again being focused on the role of religious bodies in influencing efforts to solve America's social problems, this book is especially timely.

Handbook of the Psychology of Religion and Spirituality, Second Edition May 29 2020 Paloutzian (experimental and social psychology, Westmont College) and Park (psychology, U. of Connecticut) provide a 33-chapter handbook on the psychology of religion and spirituality, for social and clinical psychologists, pastoral counselors, and students and researchers in psychology and religious studies. Psychologists and a few religious studies specialists from the US and some countries in Europe address the foundations, including definitions, core issues, measurement assessment, research methods, psychodynamic psychology and religion, and evolutionary psychology as a foundation for the psychology of religion; religious and spiritual development across the lifespan; and the neural and cognitive bases of religion and connections to emotion, personality, culture, and social behavior. They discuss religious practices and rituals, conversion experiences, prayer, spiritual struggles, fundamentalism, forgiveness, values, and morality, and implications for individual and collective well-being in terms of health, mental health, coping, psychotherapy, workplace spirituality research, terrorism, and other areas. New topics in this edition include cross-cultural issues, spiritual goals, emotional values, and mindfulness. Most chapters have been redesigned or rewritten, with 25 new and eight revised chapters. The main themes of the book are more integrated, and the introductory and concluding chapters argue that the application of religious meaning systems and the multilevel interdisciplinary paradigm can allow reconceptualization of the field and expand research. Lay People and Religion in the Early Eighteenth Century Apr 08 2021 This book investigates the part that Anglicanism played in the lives of lay people in England and Wales between 1689 and 1750. It is concerned with what they did rather than what they believed, and explores their attitudes to clergy, religious activities, personal morality and charitable giving. Using diaries, letters, account books, newspapers and popular publications and parish and diocesan records, Dr Jacob demonstrates that Anglicanism held the allegiance of a significant proportion of all people. They took the lead in managing the affairs of the parishes, which were the major focus of communal and social life, and supported the spiritual and moral discipline of the church courts. He shows that early eighteenth-century England and Wales remained a largely traditional society and that Methodism emerged from a strong church, which was central to the lives of most people.

Religion and Myth in T.S. Eliot's Poetry Oct 22 2019 T.S. Eliot was arguably the most important poet of the twentieth century. Nonetheless, there remains much scope for reconsidering the content, form and expressive nature of Eliot's religious poetry, and this edited collection pays particular attention to the multivalent spiritual dimensions of his popular poems, such as 'The Lovesong of J. Alfred Prufrock', 'The Waste Land', 'Journey of the Magi', 'The Hollow Men', and 'Choruses' from *The Rock*. Eliot's sustained popularity is an intriguing cultural phenomenon, given that the religious voice of Eliot's poetry is frequently antagonistic towards the 'unchurched' or secular reader: 'You! Hypocrite lecteur!' This said, Eliot's spiritual development was not a logical matter and his devotional poetry is rarely didactic. The volume presents a rich and powerful range of essays by leading and emerging T.S. Eliot and literary modernist scholars, considering the doctrinal, religious, humanist, mythic and secular aspects of Eliot's poetry: Anglo-Catholic belief (Barry Spurr), the integration of doctrine and poetry (Tony Sharpe), the modernist mythopoeia of *Four Quartets* (Michael Bell), the 'felt significance' of religious poetry (Andy Mousley), ennui as a modern evil (Scott Freer), Eliot's pre-conversion encounter with 'modernist theology' (Joanna Rzepa), Eliot's 'religious agrarianism' (Jeremy Diaper), the maternal allegory of *Ash Wednesday* (Matthew Geary), and an autobiographical reading of religious conversion inspired by Eliot in a secular age (Lynda Kong). This book is a timely addition to the 'return of religion' in modernist studies in the light of renewed interest in T.S. Eliot scholarship.

Politics, Religion and the Press Aug 12 2021 The decade of the 1860s was a turbulent period in Irish politics, both at home and abroad, and saw the rise and apparent failure of the separatist Fenian movement. In England, this period also witnessed the first realistic attempt at establishing a genuinely popular press amid Irish migrants to Britain. This was to be an ideological battle as both secular nationalists and the Roman Catholic Church, for their very distinct reasons, desperately wished to communicate with a reading public which owed its existence in large measure to the massive immigration of the years of the Famine. Based on extensive archival research, this book provides the first serious study of the Irish press in Britain for any period, through a detailed analysis of three London newspapers, *The Universal News* (1860-9), *The Irish Liberator* (1863-4) and *The Irish News* (1867). In so doing, it provides us with a window onto the complex of relationships which shaped the lives of the migrants: with each other, with their English fellow Catholics, with the Catholic Church and with the state. A central question for this press was how to reconcile the twin demands of faith and fatherland.

The Three Trials of William Hone Oct 02 2020 A collection of all three trials celebrating Hone's innocence on charges of profane and seditious libel and upholding freedom of the press.

Religion and Politics in Comparative Perspective Nov 15 2021 Misztal and Shupe bring together theoretical and empirical studies that focus on fundamentalist social movements in North and Central America and Eastern Europe and that examine the role religion plays in determining the direction of social evolution. Each chapter emphasizes a common set of processes at work: how religious identities arise or reemerge to confront the globalization trend, how various social movements cope with pressures to conform their identities, and how the globalization trend sets in motion the antithetical reaction of the nationalistic/religious dialectic that it was thought to have eliminated.

The history of the last trial by jury for atheism in England: a fragment of autobiography Feb 24 2020

The history of Scotland. With a survey of the religious history of Scotland; essays on the national music [&c.]. Dec 24 2019

Religion in the News Mar 27 2020 Stewart M Hoover offers a cultural-historical analysis of the rise of religious stories in the media - the Islamic Revolution in Iran, televangelism and its scandals, the political agenda of the Evangelical New Right, to name but a few. The author's penetrating analysis brings into sharp focus: the relationship between religion and the news media, both in everyday practice and in the larger context of American public discourse; the place of religion in American life; the role of the media in cultural discourse; and the prospects of institutional religion in the media age.

Proceedings of the National Convention to Secure the Religious Amendment of the Constitution of the United States Jun 17 2019
