Mobile for Good: A How-To Fundraising Guide for Nonprofits Oct 16 2021 "Even if you can only invest 5 staff hours and a mobile and social media budget of \$1,000 annually, your nonprofit must invest in mobile and social media." -- Heather Mansfield Mobile devices are fast becoming the #1 means of digital communication. If you want a sustainable future for your nonprofit, you need to have a strong presence

on prospective donors' tablets and smartphones. Statistics prove that the most successful online fundraising campaigns are those designed for portable devices--from 2-inch smartphone screens to 17-inch laptops. In this groundbreaking book, social media pioneer Heather Mansfield offers everything you need to know to conceptualize, build, and maintain a mobile and social fundraising strategy to dramatically increase donations. In *Mobile for Good*, Mansfield takes you step by step through the entire process. Learn how to: Master your mobile fundraising strategy Create a strategic plan flexible enough to handle changes in technology Design a website and emails that work on both mobile devices and computers Choose the best mobile and online tools based on your budget and your donor demographics Build a system that tracks, evaluates, and reports campaign results Maximize the potential of Facebook, Twitter, LinkedIn, and other sites Whether your goal is to raise more funds online, launch a new program, or increase your capacity to maintain current operations, creating and executing a mobile and social media strategy is a small investment that packs a big punch. Apply the lessons of *Mobile for Good*, and your organization can and will raise more funds than ever. ADVANCE PRAISE FOR MOBILE FOR GOOD: "If I want to know what's trending, research current best practices, or discover new tools relevant to nonprofit technology, Heather Mansfield's blog Nonprofit Tech for Good and her books are always my top references. -- Viviana Pagán-Muñiz, Digital Marketing Director, SOS Children's Villages-USA "Social Media for Social Good and her blog Nonprofit Tech for Good have been my primary resources for learning how to communicate Indian conservation issues on a global scale. Thanks to Heather Mansfield's advice, we've been able to build an international brand from our tiny corner of the world." -- Vinay Datla, Director of Communications, Wildlife SOS-India "Heather Mansfield's @NonprofitOrgs online accounts have become my go-to resource for connecting with other nonprofits as well as staying informed with the latest trends in mobile and social media. Her insightful and practical advice helped WITNESS understand the need for transparency in our mobile and social media strategies." -- Marianna Moneymaker, Digital Engagement/Production Coordinator, WITNESS "Heather Mansfield's invaluable webinars and recommendations have helped us grow into one of the most effective social media users in the national aging advocacy network. We anticipate even greater growth in the future by applying the best practices offered in *Mobile for Good*." -- Pamela Tainter Causey, Director of Communications, National Committee to Preserve Social Security and Medicare "Through a partnership with Heather Mansfield, we have been able to provide mobile and social media training to more than 500 NGOs throughout the Asia Pacific region. Her knowledge of mobile and social media best practices, her ability to tailor her presentations to address the different needs of NGOs in various countries, and her practical and well-thought-out strategies have made her trainings invaluable in our commitment to help build the technological capacity of NGOs." -- Clair Deevy, Citizenship Lead, Microsoft Citizenship Asia Pacific

Hang Up the Phone! Dec 26 2019 A great philosopher said that "Anger is the fluid that love bleeds when it is cut." From that quote and my personal studies of relationships, this book was birthed. I wrote this book to help mend the wound that is caused whenever a person is forced to deal with an emotionally traumatic event such as a break-up. Whether a relationship ends with a goodbye or ends in a violent abrupt way, you have to heal from it. We all, as human beings, go through times in our lives where we get injured by life, may it be emotionally, physically, or mentally. More times than I would like to mention, I too have been injured. What I have come to understand is that an injury from a broken relationship is one that can affect your everyday life. That is why I have learned that the faster you get over being hurt or knocked down, the better you will be. It does not matter what your relationship status was; causally dating, cohabitation, courtship, domestic partnership, or marriage. This book can help you get over and headed in the right direction towards new and more fulfilling relationships in 30 days!! In this book, I share with you methods that encourage and inspire you to do what is needed, in order to move on from a relationship that has reached its ending point. Take the journey with me as we enter the world of healing!

An Illustrated Guide to Mobile Technology May 11 2021 Have you ever wondered how wireless communication has evolved from the clack-clack-clack of the telegraph key to the high speed wireless networks of today? Have you wanted to know the difference between 0G, 1G, 2G, 3G and 4G networks? And what exactly is a digital cellular network anyway? And why does it matter to you that your smart phone can talk to a network that is "digital" and "cellular", and not analog and hub-and-spoke? We'll answer all these questions in this book. And speaking of the smart phone in your hands, if you have wanted to "get in" on the mobile apps ecosystem and build a business around selling mobile apps, I'll show you how to do that in this book as well. In the section of consumer mobile apps, we'll analyze the DNA of immensely successful smart phone apps. We'll look at what it takes to make your app stand out from the crowd. I'll also explain the revenue models that you need to know to capitalize on your's app success. Similarly, if you are the owner, CEO, CTO, VP or a senior decision maker, this book will help you answer three important questions: How can I use mobile technology to: Increase sales and improve my top line Improve customer satisfaction Improve operational efficiency and boost my bottom line In the section on enterprise mobility, I do a deep-dive into several business segments, namely Retail, Logistics and Supply Chain, Field Service, Healthcare, Insurance, Banking and Financial Services, Hospitality, Travel and Tourism. You will learn about mobile-enabled multi-channel and orthogonal selling strategies, brand projection and augmented reality based selling techniques. You will learn how to do mobile enabled context based selling, and how to use technologies such as GPS, Beacons, VLC, etc. to drive footfalls into your store and increase the customer's basket size. You will learn about mobile marketing and promotions systems, and how to use mobile technology to improve customer satisfaction. I will also explain how to harness the full power of mobile technology to perform delivery management, direct store delivery, warehouse management and field service. In the chapter on healthcare, I explain how mobile medical apps, consumer medical apps, and mobile technology enabled healthcare systems are bringing about a renaissance in disease prevention, diagnosis, and treatment on an anytime, anywhere basis. You will also learn about member self-service apps and field service automation apps for the health insurance domain. In the chapter on banking, I will explain the concept of the "mobile bank branch", and how SMS banking works, how mobile to mobile money transfer systems work and how digital wallet services work. In the chapter on Hospitality, I will show how you can harness mobile technology in all three phases of your customer's travel experience, i.e. before, during and after their return from travel. In the section on mobile technology, I dive into the technological underpinnings of mobile enabled ecosystems. This section is for you, if you have wanted to know what is FDMA, TDMA, CDMA, FDD, TDD and other curiously named wireless

protocols, and why millions of people can talk on the open airwaves all at the same time without getting overheard, or why mobile spectrum is so expensive. If you are curious about what exactly lies inside your cellular phone, or how your mobile phone connects to the network and starts a call, this section will satisfy your curiosity. You will also learn about the internal workings of mobile operating systems what makes mobile OSes and processors so special, and how push notifications, mobile device management, MEAPs, mobile enabled websites or a dozen other mobile enabled eco-systems work. And finally, in the epilogue we'll try to peer over the horizon to see where mobile technology is headed and in doing so, I'll touch upon 'wearables' and automotive mobility and the internet of things.
