**The Imaginer of Memos** Feb 06 2021 The Imaginer of Memos is an example of what I call ficlution: fic, the first three letters of fiction, and lution, the last two syllables of solution to form the word ficlution: A type of writing that presents a fictitious story that is meant to entertain and stimulate; but also, to present a real human problem, combining emotions with facts, and offering a possible solution to that problem. Here is the story of a man, who struggles to overcome many handicaps, as a child and as an adult-as all humans in their own lives must do. Along the way he experiences love and triumph, pain and suffering, loneliness and friendship. Finally, he becomes aware of and he accepts a life long mission of faith:

Memos. That mission is to fill in the details of the concept of Memos to form a new social unit through which mankind may ultimately find the meaning of life and the universe. Leo Farr is happily married and has five children and five grandchildren. He is presently retired from the State of California and living in Sacramento, California. Over the years, as a counselor and supervisor in the Department of Rehabilitation, as a coach for youth sports, and as an author he has shown a deep interest in the development of children and the personality of adults. He has written three other books: *Stacey and her Lessons in Learning*; *Children, Dogs, and other Wild Things*; and *Ficlution of Coaching, Eating, and Mankind*.

*Making A Comeback* Sep 01 2020 If we are not

living abundant lives, how do we reclaim our lives in Christ? Jesus said, in John 10:10, "The thief comes only to steal, kill and destroy; I am come that they might have life, and that they might have it more abundantly." Yet, so many Christians fail to live an abundant life; in fact, too often they are just getting by, just struggling to survive. But God has so much more for us! Many of us have sat passively and watched as the enemy of our souls has come, like a thief, stealing away our joy, killing our bodies, and destroying our families. We have lost the abundance in our lives that Christ died to give us. We allowed it to be taken from us while we watched apathetically, as though we were only spectators of our own lives-not followers of a risen, active, triumphant Christ.

The time for sitting still and bemoaning our lot in life is over. God has empowered us to reclaim what we've lost. We can get our lives back! Get our health back! Get our minds back! Get our families back! Get our joy back! We do not have to wallow in defeat. We can make a comeback!

A little older and slightly more mature, he is ready to fight for Ashly's love once again. When Ashly sees him, she can't deny the attraction she feels, but her hormones are overruled by the horror of what he did to her in the past. it ignites will not consume her heart again. [A New Philosophy of Modernity and Sovereignty](#) Jun 17 2019 Tackling important philosophical questions on modernity – what it is, where it begins and when it ends – Przemyslaw Tacik challenges the idea that modernity marks a particular epoch, and

historicises its conception to offer a radical critique of it. His deconstruction-informed critique collects and assesses reflections on modernity from major philosophers including Hegel, Heidegger, Lacan, Arendt, Agamben, and Žižek. This analysis progresses a new understanding of modernity intrinsically connected to the growth of sovereignty as an organising principle of contemporary life. He argues that it is the idea of 'modernity', as a taken-for-granted era, which is positioned as the essential condition for making linear history possible, when it should instead be history, in and of itself, which dictates the existence of a particular period. Using Hegel's notion of 'spirit' to trace the importance of sovereignty to the conception of the modern epoch within German idealism, Tacik traces Hegel's influence on Heidegger through reference to the 'star' in his late philosophy which represents the hope of overcoming the metaphysical poverty of modernity. This line of thought reveals the necessity of a paradigm shift in our understanding of modernity that speaks to contemporary continental philosophy, theories of modernity, political theory, and critical re-assessments of Marxism.

*Mao's Children in the New China* Jul 31 2020 Around 18 million young Chinese people were sent to the countryside between 1966 and 1976 as part of the Cultural Revolution. *Mao's Children in the New China* allows some of them to tell their moving stories in their own voices for the first time. In this inspiring collection of interviews with former Red Guards, members of the first generation to be born under Chairman Mao talk frankly about the dramatic changes which have occurred in China over the last two decades. In discussing the impact these changes have had on their own lives, the former revolutionaries give a direct insight into how ex-Maoists view contemporary China, revealing an attitude perhaps more critical than that of most Western commentators. These poignant memoirs tell the very personal stories of how people from all walks of life were affected by both the cultural revolution and Deng Xiaoping's economic reforms. They cover

subjects as diverse as marriage and divorce, the privatization of industry, family relationships, universities and the stock market. Mao's Children in the New China is essential reading for all those interested in learning more about the personal and social history of modern China.

**1636: Seas of Fortune** Feb 18 2022 A new addition to the multiple New York Times best-selling Ring of Fire series. After carving a place for itself in war-torn 17th century Europe, citizens of the modern town of Grantville, West Virginia, the up-timers and their allies take on continental America and the Japan! A cosmic catastrophe, the Ring of Fire, strands the West Virginia town of Grantville in the middle of Europe during the Thirty Years War. The repercussions of that event transform Europe and, in a few years, begin spreading across the world. By 1636, the Ring of Fire's impact is felt across two great oceans, the Atlantic and Pacific. Stretching Out: The United States of Europe seeks out resources -- oil, rubber and even aluminum ore -- to help it wage war against the foes of freedom. Daring pioneers cross the Atlantic and found a new colony on the Wild Coast of South America. The colonists hope that with the up-timers' support and knowledge they can prosper in the tropics without resort to Indian and African slavery. Then a slave ship visits the colony, seeking water.... and the colonists must make a fateful

choice. Rising Sun: In 1633, the wave of change emanating from the Ring of Fire reaches Japan. The Shogun is intrigued by samples of up-time technology, but it's a peek at what fate had in store for Japan in the old time line that has the greatest impact -- setting events in motion whose tremors are felt thousands of miles away and for years to come, as Japan pulls back from a policy of isolation and stakes out its own claim in the brave new world created by the Ring. At the publisher's request, this title is sold without DRM (Digital Rights Management). Beautifully written and researched.' - Isabella Tree, author of *Wilding* The physical world is infinitely complex, yet most of us are able to find our way around it. We can walk through unfamiliar streets while maintaining a sense of direction, take shortcuts along paths we have never used and remember for many years places we have visited only once. These are remarkable achievements. In *Wayfinding*, Michael Bond explores how we do it: how our brains make the 'cognitive maps' that keep us orientated, even in places that we don't know. He considers how we relate to places, and asks how our understanding of the world around us affects our psychology and behaviour. The way we think about physical space has been crucial to our evolution: the ability to navigate over large distances in prehistoric times gave *Homo sapiens* an advantage over the rest of the human family. Children are instinctive

explorers, developing a spatial understanding as they roam. And yet today few of us make use of the wayfaring skills that we inherited from our nomadic ancestors. Most of us have little idea what we may be losing. Bond seeks an answer to the question of why some of us are so much better at finding our way than others. He also tackles the controversial subject of sex differences in navigation, and finally tries to understand why being lost can be such a devastating psychological experience. For readers of writers as different as Robert Macfarlane and Oliver Sacks, *Wayfinding* is a book that can change our sense of ourselves. **Pivotal Praying** Jun 22 2022 We all face critical forks in the road-marriage, the death of a loved one, the birth of a child, or a personal health crisis. How are we to pray at these junctures? Perhaps our instinct is to send up a quick "911" prayer, but authors John Hull and Tim Elmore demonstrate how by praying the right prayer at the right time, we can see the incredible impact of what God can do. Scripture offers countless examples of men and women who prayed strategically and saw results. Remember Solomon's prayer for wisdom? He received it-and wealth beyond his imagination as well. And how about Hannah's desire for a child? God honored her prayer; her son Samuel became the greatest judge in Israel's history. *Pivotal Praying* uses these examples and others to illustrate the power of effective-and ineffective-praying. For those seeking to enlarge their prayer vision and alter their

When her marriage suddenly ends, and a diary documenting her beloved Opa's escape from Nazi-occupied Netherlands in the summer of 1942 is discovered, Naomi Lewis decides to retrace his journey to freedom. Travelling alone from Amsterdam to Lyon, she discovers family

secrets and her own narrative as a second-generation Jewish Canadian. With vulnerability, humour, and wisdom, Lewis's memoir asks tough questions about her identity as a secular Jew, the accuracy of family stories, and the impact of the Holocaust on subsequent generations.
