The Second World War: The grand alliance Sep 29 2022 Winston Churchill's six-volume history of the cataclysm that swept the world remains the definitive history of the Second World War. Lucid, dramatic, remarkable both for its breadth and sweep and for its sense of personal involvement, it is universally acknowledged as a magnificent reconstruction and is an enduring, compelling work that led to his being awarded the Nobel Prize for literature. The Grand Alliance recounts the momentous events of 1941 surrounding America's entry into the War and Hitler's march on Russia the continuing onslaught on British civilians during the Blitz, Japan's attack on Pearl Harbor and the alliance between Britain and America that shaped the outcome of the War.

The Palgrave Concise Historical Atlas of World War II Nov 19 2021 The Palgrave Concise Historical Atlas of the Second World War explores in graphical form, the causes, course, and consequences of this global war. Clear two-colour maps and

diagrams are accompanied by a facing page of explanatory text addressing not just battles and campaigns, but also clarifying the key social, economic and political aspects of the war. These tend to get less coverage in conventional military history atlases, but are vital for understanding the totality of the war experience and its enduring legacy. Students and general readers will find it a useful and accessible introduction to the war in all its facets, from its origins to its legacy.

Forgotten Bastards of the Eastern Front Aug 05 2020 'Many books claim to tell an "unknown" story of the Second World War. Few of them actually do. *Forgotten Bastards* is a rare exception . . . This is gripping history' Duncan Weldon, *Prospect*
A riveting story of World War II from the author of *Chernobyl*, winner of the Baillie Gifford Prize for non-fiction In November 1943, with the outcome of the Second World War hanging in the balance, the Allies needed a new plan. The Americans' audacious suggestion to the Soviets was to open a second air front, with the US Air Force establishing bases in Soviet-controlled territory. Despite Stalin's obvious reservations about the presence of foreign troops in Russia, he was persuaded. Operation Baseball and then Frantic were initiated in early 1944 as B-17 Superfortresses were flown from bases in Italy to the Poltova region in today's Ukraine. Award-winning historian Serhii Plokhy tells the gripping, little-known story of this encounter between American and Soviet soldiers and how their collaboration quickly fell apart, mirroring the transition from the Grand Alliance to the Cold War. Soviet secret policemen watched over the Americans, shadowing their every move. A catastrophic air raid by the Germans revealed the limitations of Soviet air defences. As their initial enthusiasm turned into disappointment, the American soldiers started calling themselves the Forgotten Bastards of Ukraine. Ultimately, no common purpose could overcome their cultural and political differences. Drawing on newly opened Russian archives as well as CIA records, *Forgotten Bastards of the Eastern Front* offers a riveting bottom-up history of one of the Second World War's most unlikely alliances.

Lives of Lord Castlereagh and Sir Charles Stewart the Second and Third Marquesses of Londonderry, 2 Jun 14 2021

The Origins of the Grand Alliance Nov 07 2020 On December 12, 1937, Japanese aircraft sank the American gunboat *Panay*, which was anchored in the Yangtze River outside Nanjing, China. Although the Japanese apologized, the attack turned American public opinion against Japan, and President Roosevelt dis

South-South Transfer Nov 27 2019 This study directs attention towards a South-South dimension of knowledge transfer: specifically, China's educational exchange programs for Africa.

Stalin's Wars May 14 2021 This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader; his relationships with his own generals and with other great world leaders; his foreign policy; and his role in instigating the Cold War. While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people, Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth

century and a remarkable politician who sought to avoid the Cold War and establish a long-term detente with the capitalist world. By means of an integrated military, political, and diplomatic narrative, the author draws a sustained and compelling personal portrait of the Soviet leader. The resulting picture is fascinating and contradictory, and it will inevitably change the way we understand Stalin and his place in history. Roberts depicts a despot who helped save the world for democracy, a personal charmer who disciplined mercilessly, a utopian ideologue who could be a practical realist, and a warlord who undertook the role of architect of post-war peace.

Memoirs of Great Britain and Ireland from the Dissolution of the Last Parliament of Charles II Until the Sea-battle Off La Hogue Jul 04 2020

The World War Two Reader Dec 29 2019 This comprehensive reader provides an overview of research in the study of the Second World War and includes chapters by some of the best known and most innovative scholars working today. It gives attention to the fighting of the war throughout the world.

Edexcel GCSE History (9-1): Superpower relations and the Cold War 1941-91 eBook Dec 09 2020 Superpower relations and the Cold War 1941-91 eBook is part of Oxford's brand new Edexcel GCSE History series. This digital textbook series provides the most up-to-date Edexcel exam practice and a tried-and-trusted accessible approach to help students get the best grades they are capable of, and enjoy their history lessons. This digital textbook is written as part of our commitment to the inclusive presentation of diverse histories, and developed by a team of practising teachers with Edexcel examining experience and led by Aaron Wilkes, head of history, PGCE History lead and trusted author. This period study takes a closer look at the relations between East and West over a 50-year period, the events that led to the Cold War crisis, and the eventual collapse of the Soviet Union. Exam-style Questions, Nail it! features and carefully Sources and Interpretations help students prepare for their Edexcel exam. Meanwhile, Later On and Earlier On features help students make connections across time periods. How to...Exam Practice pages provide step-by-step, accessible ways to practise essential history skills. Perfect for use alongside Kerboodle, which is packed full of auto-marked quizzes, exam practice, film clips of interviews with historians, and continuing exam support. We are working towards endorsement of this digital textbook from Edexcel.

The Grand Alliance Jul 28 2022 Dealing with war on a giant scale, THE GRAND ALLIANCE focuses on events as Britain, after fighting a desperate battle alone, was joined in the struggle against the enemy by Soviet Russia and the United States. Hitler's invasion of Russia brought to an end a period of almost exactly a year during which Britain and her Empire had stood alone. Six months later, the United States, attacked by Japan, joined the war and the Grand Alliance was born. It was a momentous turn in the course of the war and Sir Winston Churchill noted, 'United we could subdue everybody else in the world. Many disasters, immeasurable cost and tribulation lay ahead, but there was no more doubt about the end.'

No Conquest, No Defeat Mar 31 2020 In early 2019, the Islamic Republic of Iran marked its fortieth anniversary, despite decades of isolation, political pressure,

sanctions and war. Observers of its security policies continue to try and make sense of this unlikely endurance. Some view the regime as a purely rational actor, whose national security decisions and military affairs are shaped by the same considerations as in other states. Others believe that it is ideology driving Tehran's strategy. Either way, virtually everyone agrees that the mullahs' policies are fundamentally different from those pursued by their monarchical predecessors. *No Conquest, No Defeat* offers a historically grounded overview of Iranian national security. Tabatabai argues that the Islamic Republic is neither completely rational nor purely ideological. Rather, its national security policy today is largely shaped by its strategic culture, a product of the country's historical experiences of war and peace. As a result, Iranian strategic thinking is perhaps best characterized by its dynamic yet resilient nature, one that is continually evolving. As the Islamic Republic enters its fifth decade, this book sheds new light on Iran's controversial nuclear and missile programs and its involvement in Afghanistan, Iraq, Lebanon, Syria and Yemen.

Historical Dictionary of U.S. Diplomacy from World War I through World War II

Feb 29 2020 The period from the outset of World War I to the end of World War II was among the most significant in the history of the United States. Twice it was drawn into 'foreign entanglements'_wars it initially thought were no concern of its own and of which it tried to steer clear_only to realize that it could not stand aside. With each one, it geared up in record time, entered the fray massively, and was crucial to the outcome. Each war tested the American people and their leaders, and in each case the country came out of the conflagration stronger than before_and even more important_yet stronger relative to other countries than it had ever been. This was the period when the United States became a world leader. *The Historical Dictionary of U.S. Diplomacy from World War I through World War II* relates the events of this crucial period in U.S. history through a chronology, an introductory essay, and over 600 cross-referenced dictionary entries on key persons, places, events, institutions, and organizations.

Roosevelt's Lost Alliances May 02 2020 Shows how Franklin D. Roosevelt alienated his inner circle of advisors as he built an alliance between him, Winston Churchill and Joseph Stalin, an alliance that eroded when Harry Truman took the presidency after Roosevelt's death, eventually leading to the Cold War.

***Annals of the Wars of the Eighteenth Century* Aug 24 2019**

***The Grand Alliance* Apr 24 2022** An account of World War II and the union formed between the United States, Great Britain, and the Soviet Union

The Second World War Jul 24 2019 The Second World War ended the Nazi attempt to establish Germany as the dominant power in Europe and the world; and Japan's aim of controlling South East Asia and the Pacific. It also resulted in the creation of two super-powers and led to the Cold War. A. W. Purdue provides one of the most concise yet comprehensive accounts of the entire course of World War Two, covering both the European and the Asian Pacific conflicts. Thoroughly revised and updated in the light of the latest scholarship, this second edition of an established text: - Challenges accepted views and reassesses the war, rejecting the simplistic concept of a 'war against fascism' - Discusses the historiography and critically analyses key themes and issues, as well as examining current debates -

Considers changes in popular attitudes to the Second World War Ideal for students and general readers alike, this is an essential introduction to the causes, nature and significance of World War Two from the perspective of the twenty-first century.

A Collection of Several Treaties, &c. Since the Late Revolution Mar 24 2022
***War and Diplomacy* Feb 20 2022** War and Diplomacy uses documents from Stalin's personal files, now kept at the Archives of the President of the Russian Federation, in order to study the history of the creation of the anti-Hitler coalition, a short-lived but grand alliance of States and peoples that saved mankind from the threat of enslavement during the Second World War. The documents from Stalin's files are published in full, except for certain pieces of protocol nature, and most of them are published for the first time. They contain many revelations and give an idea of the mechanisms of decision-making within the Soviet Government and amongst its key figures of the time, giving an unprecedented insight into the intensive and dramatic negotiations which were taking place between Stalin, Roosevelt and Churchill, and also on a larger scale, between the USSR, the USA and Great Britain.

Annals of the Wars of the Eighteenth Century, Compiled from the Most Authentic Histories of the Period Jan 28 2020

Hitler and His Allies in World War Two Feb 08 2021 In an area where in-depth studies of Hitler's relations with Nazi Germany's allies, and the failure of Nazi Germany to make more effective use of them during the war, are scant, this is a survey that looks at the Soviet Union, Japan, France, Italy, Spain, Romania and Hungary and their relationship to Nazi Germany. Using a comparative approach, seven case studies examine themes such as co-operation and resistance, military and economic aid, treatment of Jews, relations with the enemies and the popular sentiment towards Germany. Jonathan Adelman has provided students of the Second World War with a welcome mine of information and a unique perspective on a much-studied topic.

The Balkans in World War Two Jan 10 2021 Between 1939 and 1941 Britain had a terrible dilemma. She was keen to see Turkey, Bulgaria, Greece, Romania and Yugoslavia join the Allies against Nazi Germany. But the 1939 Molotov Ribbentrop Pact had changed everything: the Balkan countries were far more afraid of Stalin than of Hitler. Britain and France were also concerned about the Soviets giving so much oil to Germany: in 1940 Britain almost went to war with the USSR in an attack on the Caucasus. This book looks at how Britain tried to solve these dilemmas and ultimately failed to do so.

***Allies and Adversaries* Oct 31 2022** During World War II the uniformed heads of the U.S. armed services assumed a pivotal and unprecedented role in the formulation of the nation's foreign policies. Organized soon after Pearl Harbor as the Joint Chiefs of Staff, these individuals were officially responsible only for the nation's military forces. During the war their functions came to encompass a host of foreign policy concerns, however, and so powerful did the military voice become on those issues that only the president exercised a more decisive role in their outcome. Drawing on sources that include the unpublished records of the Joint Chiefs as well as the War, Navy, and State Departments, Mark Stoler analyzes the

wartime rise of military influence in U.S. foreign policy. He focuses on the evolution of and debates over U.S. and Allied global strategy. In the process, he examines military fears regarding America's major allies--Great Britain and the Soviet Union--and how those fears affected President Franklin D. Roosevelt's policies, interservice and civil-military relations, military-academic relations, and postwar national security policy as well as wartime strategy.

The Causes of War Sep 05 2020 This is the fourth volume of a projected six-volume series charting the causes of war from 3000 BCE to the present day, written by a leading international lawyer, and using as its principal materials the documentary history of international law, largely in the form of treaties and the negotiations which led up to them. These volumes seek to show why millions of people, over thousands of years, slew each other. In departing from the various theories put forward by historians, anthropologists and psychologists, the author offers a different taxonomy of the causes of war, focusing on the broader settings of politics, religion, migrations and empire-building. These four contexts were dominant and often overlapping justifications during the first four thousand years of human civilisation, for which written records exist.

The Rise and Fall of the Grand Alliance, 1941-45 Aug 29 2022 This collection by leading British and American scholars on twentieth century international history covers the strategy, diplomacy and intelligence of the Anglo-American-Soviet alliance during the Second World War. It includes the evolution of allied war aims in both the European and Pacific theatres, the policies surrounding the development and use of the atomic bomb and the evolution of the international intelligence community. It also considers the origins and consequences of inter-allied economic relations as they emerged during the war and the personal relationship between Winston Churchill and Franklin D. Roosevelt.

The Cambridge History of the Second World War: Volume 2, Politics and Ideology Jun 02 2020 War is often described as an extension of politics by violent means. With contributions from twenty-eight eminent historians, Volume 2 of The Cambridge History of the Second World War examines the relationship between ideology and politics in the war's origins, dynamics and consequences. Part I examines the ideologies of the combatants and shows how the war can be understood as a struggle of words, ideas and values with the rival powers expressing divergent claims to justice and controlling news from the front in order to sustain moral and influence international opinion. Part II looks at politics from the perspective of pre-war and wartime diplomacy as well as examining the way in which neutrals were treated and behaved. The volume concludes by assessing the impact of states, politics and ideology on the fate of individuals as occupied and liberated peoples, collaborators and resisters, and as British and French colonial subjects.

A Companion to International History 1900 - 2001 Apr 12 2021 A comprehensive overview of the most important international events, movements, and controversies of the 20th century. Written by distinguished scholars, each an authority in their field Explores influential, underlying themes such as imperialism, nationalism, internationalism, technological developments, and changes in diplomatic methods Addresses a broad range of topics, including

diplomacy of wartime and peacemaking, the cold war era and the "new world order", the end of European empires, the rise of nationalism in the Third World, globalization, and terrorism Chronological organization makes the volume easily accessible Includes useful guides for further reading and research

Reinterpreting the Dutch Forty Years War, 1672-1713 Sep 25 2019 This book aims to reinterpret current perceptions of the Dutch Forty Years War (1672-1713), usually regarded as a struggle against the expansionism of Louis XIV, birthing the European balance of power. Particular attention is given to recent international relations theory, through the examination of popular and official documents, as well as political and diplomatic correspondence. While focusing on the emergence and appropriation of Universal Monarchy and Balance of Power discourses, this book also provides counter discourses, allowing readers to explore the lively domestic debate on foreign policy along partisan lines.

Unpatriotic History of the Second World War Sep 17 2021 Sixty million people died in the Second World War, and still they tell us it was the Peoples War. The official history of the Second World War is Victors History. This is the history of the Second World War without the patriotic whitewash. The Second World War was not fought to stop fascism, or to liberate Europe. It was a war between imperialist powers to decide which among them would rule over the world, a division of the spoils of empire, and an iron cage for working people, enslaved to the war production drive. The unpatriotic history of the Second World War explains why the Great Powers fought most of their war not in their own countries, but in colonies in North Africa, in the Far East and in Germanys hoped-for Empire in the East. Find out how wildcat strikes, partisans in Europe and Asia, and soldiers mutinies came close to ending the war. And find out how the Allies invaded Europe and the Far East to save capitalism from being overthrown. James Heartfield challenges the received wisdom of the Second World War.

The Grand Alliance and Ukrainian Refugees May 26 2022 This study explores the role of refugees in international relations by looking at the largest involuntary migration of Ukrainians in history. Using both Western and newly available Soviet sources it sheds light on Grand Alliance policies towards World War II Ukrainian refugees. It demonstrates how the activities of this particular group of refugees had an impact on international refugee policy and provides insight into the origins of the Cold War.

Churchill on the Far East in the Second World War Oct 19 2021 Cat Wilson brings together two strands of historical scholarship: Churchill's work as a historian and the history of WWII in the Far East. Examining Churchill's portrayal of the British Empire's war against Japan, as set down in his memoirs, it ascertains whether he mythologised wartime Anglo-American relations to present a 'special relationship'.

***The Grand Alliance* Jan 22 2022**

***International Politics and Warfare in the Age of Louis XIV and Peter the Great* Mar 12 2021** The Peace of Westphalia (1648), ending the Thirty Years' War, resulted in the rise of the modern European states system. However, dynasticism, power politics, commerce, and religion continued to be the main issues driving International politics and warfare. Dr. William Young examines war and diplomacy during the Age of Louis XIV and Peter the Great. His study focuses on the later

part of the Franco-Spanish War, the Wars of Louis XIV, and the Anglo-Dutch Wars in the West. In addition, the author explores the wars of the Baltic Region and East Europe, including the Thirteen Years' War, Second Northern War, War of the Holy League, and the Great Northern War. The study includes a guide to the historical literature concerning war and diplomacy during this period. It includes bibliographical essays and a valuable annotated bibliography of over six hundred books, monographs, dissertations, theses, journal articles, and essays published in the English language. *International Politics and Warfare in the Age of Louis XIV and Peter the Great* is a valuable resource for individuals interested in the history of diplomacy, warfare, and Early Modern Europe.

Armies of the War of the Grand Alliance 1688-97 Aug 17 2021 This title explores and illustrates the armies of France, and six countries allied against Louis XIV, in a wide-ranging Continental conflict that ushered in more than a century of European warfare. Formed in 1689, the 'Grand Alliance' or League of Augsburg was a military coalition of the Holy Roman Empire, the Dutch Republic, Britain, Spain and the Duchy of Savoy, to resist Louis XIV's rich, powerful and expansionist France. The first stage of the nine year conflict that followed also coincided with the so-called 'Glorious Revolution' in Britain (1688-91), when the throne passed to the Dutch Protestant leader, William of Orange, the head of a multi-national Dutch, Danish and English army, which finally expelled James II's Jacobite and French forces from Ireland. The long war on the continent was notable for the first widespread use of regimental uniforms and flintlock muskets with bayonets, plus the sophisticated use of siege warfare under the great French engineer, Vauban. The final Treaties of Ryswyck (1697) brought the war to an end and marked Louis XIV's political zenith, and also the ascendancy of both the Dutch and British as first-rate global powers. This fully illustrated title explores the armies which fought the War of the Grand Alliance, examining their strength, organization, uniforms and weapons, and explaining their campaigns and major battles.

Churchill's Grand Alliance Oct 07 2020 Offers a reassessment of the special relationship between the U.S. and England during and after World War II

The Second World War: the Grand Alliance Jun 26 2022 Dealing with war on a giant scale, *THE GRAND ALLIANCE* focuses on events as Britain, after fighting a desperate battle alone, was joined in the struggle against the enemy by Soviet Russia and the United States. Hitler's invasion of Russia brought to an end a period of almost exactly a year during which Britain and her Empire had stood alone. Six months later, the United States, attacked by Japan, joined the war and the Grand Alliance was born. It was a momentous turn in the course of the war and Sir Winston Churchill noted, 'United we could subdue everybody else in the world. Many disasters, immeasurable cost and tribulation lay ahead, but there was no more doubt about the end.'

Teaching American History in a Global Context Oct 26 2019 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students' understanding of American history. It includes a wide range of materials from scholarly articles and reports to original syllabi and ready-to-use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view. The contributors include well-known American history

scholars as well as gifted classroom teachers, and the book's emphasis on immigration, race, and gender points to ways for teachers to integrate international and multicultural education, America in the World, and the World in America in their courses. The book also includes a 'Views from Abroad' section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants. A comprehensive, annotated guide directs teachers to additional print and online resources.

The Second World War: Europe and the Mediterranean Dec 21 2021 From the prewar development of the German war machine to the ultimate victory of the Allied coalition, here is an in-depth analysis of the battles that raged on the Western and Eastern Fronts. It examines the major strategies, the innovative tactics, and the new generation of weapons—along with the people who used them.

The Internationalists Jun 22 2019 'It will change the way you remember the 20th century and read the news in the 21st' Steven Pinker 'A clarion call to preserve law and order across our planet' Philippe Sands 'A fascinating and important book ... given the state of the world, The Internationalists has come along at the right moment' Margaret MacMillan, Financial Times Since the end of the Second World War, we have moved from an international system in which war was legal, and accepted as the ultimate arbiter of disputes between nations, to one in which it was not. Nations that wage aggressive war have become outcasts and have almost always had to give up their territorial gains. How did this epochal transformation come about? This remarkable book, which combines political, legal, and intellectual history, traces the origins and course of one of the great shifts in the modern world. 'Sweeping and yet personable at the same time, The Internationalists explores the profound implications of the outlawry of war. Professors Oona Hathaway and Scott Shapiro enrich their analysis with vignettes of the many individuals (some unknown to most students of History) who played such important roles in this story. None have put it all together in the way that Hathaway and Shapiro have done in this book' Paul Kennedy 'In this timely, elegant and powerful book, Oona Hathaway and Scott Shapiro help us understand the momentous significance of the individuals who imagined an end to war. As the world stands on the cusp of a return to an earlier age, The Internationalists is a clarion call to preserve law and order across our planet' Philippe Sands

Lives of Lord Castlereagh and Sir Charles Stewart, the second and third Marquesses of Londonderry. With annals of contemporary events in which they bore a part. From the original papers of the family Jul 16 2021
