The Victory Machine Aug 25 2019 How money, guts, and greed built the Warriors dynasty -- and then took it apart The Golden State Warriors dominated the NBA for the better part of a decade. Since the arrival of owner Joe Lacob, they won more championships and sold more merchandise than any other franchise in the sport. And in 2019, they opened the doors on a lavish new stadium. Yet all this success contained some of the seeds of decline. Ethan Sherwood Strauss's clear-eyed exposé reveals the team's culture, its financial ambitions and struggles, and the price that its players and managers have paid for all their winning. From Lacob's unlikely acquisition of the team to Kevin Durant's controversial departure, Strauss shows how the smallest moments can define success or failure for years. And, looking ahead, Strauss ponders whether this organization can rebuild after its abrupt fall from the top, and how a relentless business wears down its players and executives. The Victory Machine is a defining book on the modern NBA: it not only rewrites the story of the Warriors, but shows how the Darwinian business of pro basketball really works.

Good Morning Message Aug 18 2021 This daily devotional book has been a God-led inspiration from its very start-up; from its original Bible verse and note of encouragement to some coworkers and family members to people around the world via my email network. Our God is so awesome! I've had people return emails to me or speak to me and ask, "How did you know that I needed that today?" or "How did you know I was going through this?" That is when I thankfully remind them that God inspired each and every one of these devotionals. I am just being faithful and following His directions. Now I'm led to put them into a year of daily devotions book to reach others. Occasionally, my emailed devotionals have

colored photographs that I take as God inspired message for the day. Unfortunately, I couldn't include those in this book. I did include a photo in grayscale at the beginning of each month; the cover photo is a God-blessed look at an Alaskan sunset. I am so thankful that God is working in my life. I want to encourage each of you to grasp hold of whatever gift He has blessed you with and step out in trust and faith to go forth and to share it with others. When you feel down, just start counting each of the blessings God has touched you with in your life; and you will feel His Presence and comfort to encourage you. We are never alone; He is just a prayer away; nothing is impossible for our God. He is not done with us yet. He is asking us to be obedient in our service to Him, and He will help us grow in our faith. Trust in Him, and you will be astounded at what He has in store for you.

EB00K: Learning Disability Mar 01 2020 "The editors have brought together a range of eminent contributors who present a range of issues throughout the life cycle. The book asserts that it hopes to 'assist readers to anticipate change and discontinuity in people's lives and think about strategies to support them' through the many challenges that they may face in their lives. In my view this book certainly does that and the editors and contributors are to be congratulated on the production of a relevant and contemporary text that I have no hesitation in both endorsing and recommending to all involved in supporting and or caring for people with learning disabilities." Professor Bob Gates, Project Leader - Learning Disabilities Workforce Development, NHS Education South Central, UK "The editors have gathered an authoritative faculty to present and discuss a range of contemporary issues; both practical and ethical. The text is well grounded in the lived experience of people with disability and draws on the evidence-base of contemporary science. Each chapter includes thought provoking exercises. This is a seminal text for students and practitioners, researchers and policy makers." Associate Professor Keith R. McVilly, Deakin University, Australia "I currently own a copy of the first edition and it has proved an invaluable resource time and time again. There is not an essay I complete that does not make reference to the book and I can consistently use it to reflect back on my practice as a student nurse and social worker. Having read several extracts from the new edition it does appear to include very high quality content covering learning disabilities over the lifespan ... if I were to personally recommend any book for budding or current learning disability professionals then this would be it." James Grainger, Student Nurse/Social Worker, Sheffield Hallam University, UK "I like the way it has primary and secondary information from a range of sources. The exercises in the book also get you to think about the situation in question which helps us think about our values and anti-oppressive practice ... This book really does start with the basics and having a learning disability from birth and the effects, to in depth knowledge and literature ... This book would be very helpful to me as it brings in literature policies and models from both a health and social side, which is important for my course and collaborative working." Laura Jean Lowe, Student Nurse, Sheffield Hallam University, UK "It is written with a clearly conveyed in-depth knowledge and in a way that has professional lived experience within the context of the work. The authors have taken into account the emotional, client-centred approach to the modern practitioner's practice ... The book gives a true wealth of good practice scenarios that can only help practitioners be good at what they do and aspire to be." Lee Marshall, Student Nurse, Sheffield Hallam University, UK With its spread of chapters covering key issues across the life cycle this text has established itself as the foundational primer for those studying the lived experiences of people with learning disabilities and their families, and outcomes achieved through services and support systems. Recognising learning disability as a lifelong disability, this accessible book is structured around the life cycle. The second edition is refreshed and expanded to include seven new chapters, covering: Aetiology Breaking news (about disability) and early intervention Transition to adulthood The sexual lives of women Employment Personalisation People with hidden identities With contributions from respected figures from a range of disciplines, the book draws heavily upon multidisciplinary perspectives and is based on the latest research and evidence for practice. The text is informed by medical, social and legal models of learning disability, exploring how "learning disability" is produced, reproduced and understood. Extensive use is made of real-life case studies, designed to bring theory, values, policy and practice to life. Narrative chapters describe, in the words of people with learning disabilities themselves, their lives and aspirations. They helpfully show readers the kinds of roles played by families, advocates and services in supporting people with learning disabilities. New exercises and questions have been added to encourage discussion and reflection on practice.

Learning Disability is core reading for students entering health and social care professions to work with people with learning disabilities. It is a compelling reference text for practitioners as it squarely addresses the challenges facing people with learning disability, their loved ones and the people supporting them. Passionate Joy Nov 20 2021 Passionate Joy connects the psychological and spiritual understanding of our least discussed human emotion. This book reflects the dawn of a revolutionary approach to living. Norman Vincent Peale anointed Jim McReynolds as minister of joy to the world. The most important characteristic of a minister of joy is humility. This book teaches people the purpose of our lives is to create an atmosphere for joy and miracles to happen. Life is difficult. Building a wealth of joy enables us to know happiness. Readers will enter the joy of the Lord as they reflect upon their own joy. This book can be used as a text for study groups. Questions for reflections are included at the end of each chapter. This book was envisioned during studies at Vanderbilt University and the University of Oxford in England. The material has been shared during a lifetime of weekend retreats, conferences, and seminars for churches, schools, workplaces, and community groups.

Everyday Prayers for Joy May 27 2022 What is joy? We can receive fleeting moments of it when we watch sunlight break through the clouds, or see a little child laugh as he blows apart the fluff of a spent dandelion. But there is only one source of true, lasting joy—and that's our Savior, Jesus. During a season of unknowns, God opened His Word to author Gina L. Smith and taught her His definition of joy so that she could experience it deep in her heart. He helped her realize that she had been finding joy in His blessings, rather than in Him, the source of those blessings. And she learned how to "count it all joy" (James 1:2) come what may. Everyday Prayers for Joy is a thirty-day journey through God's Word that will help you discover the joy that God wants to share with you. He is with you always and can work out

all things for good. Fill yourself to overflowing with God's joy!

How to Create Joy Daily in Your Life Mar 25 2022 This book is based on a true story about how I changed my health. I grew up on a large farm where we lived off of the land. I ate fresh fruits and vegetables daily. When I moved to the city as young adult, I began purchasing foods from the grocery store that were frozen, processed, or canned. I was consuming too many preservatives and I was also eating fast foods. As a result, I began to feel different. I felt tired, sluggish, and energy depleted which was new to me because I had never felt that way on the farm. Consuming the right foods was the key to improving my health because we truly are what we eat. We need to eat a variety of fresh fruits and vegetables daily. Also, we need plenty of sunshine, fresh air, and activities such as working and playing. Every night we need to rest, relax, and sleep. If you or someone you know has ever suffered from diseases such as cancer, Alzheimer's, dementia, stroke, diabetes, heart disease, high cholesterol, depression, anxiety, or stress, you need to read this book! This book was written to bring joy into your life daily in every area. Enjoy!

The Ideal made Real (Unabridged edition) Sep 26 2019 The purpose of this work is to present practical methods through which anyone, the beginner in particular, may realize his ideals, cause his cherished dreams to come true, and cause the visions of the soul to become tangible realities in everyday life. The best minds now believe that the ideal can be made real; that every lofty idea can be applied in practical living, and that all that is beautiful on the heights of existence can be made permanent expressions in personal existence. And so popular is this belief becoming that it is rapidly permeating the entire thought of the world. Accordingly, the demand for instructive knowledge on this subject, that is simple as well as scientific, is becoming almost universal. This book has been written to supply that demand. However, it does not claim to be complete; nor could any work on "The Ideal Made Real" possibly be complete, because the ideal world is limitless and the process of making real the ideal is endless. To know how to begin is the principal secret, and he who has learned this secret may go on further and further, forever and forever, until he reaches the most sublime heights that endless existence has in store. No attempt has been made to formulate the ideas, methods and principles presented, into a definite system. In fact, the tendency to form a new system of thinking or a new philosophy of life, has been purposely avoided. Closely defined systems invariably become obstacles to advancement, and we are not concerned with new philosophies of life. Our purpose is the living of a greater and a greater life, and in such a life all philosophies must constantly change. In preparing the following pages, the object has been to take the beginner out of the limitations of the old into the boundlessness of the new; to emphasize the fact that the possibilities that are latent in the human mind are nothing less than marvelous, and that the way to turn those possibilities to practical use is sufficiently simple for anyone to understand. But no method has been presented that will not tend to suggest new and better methods as required for further advancement. The best ideas are those that inspire new ideas, better ideas, greater ideas. The most perfect science of life is that science that gives each individual the power to create and recreate his own science as he ascends in the scale of life. (Great souls are developed only where minds are left free to employ the best-known methods according to their own understanding and insight. And it is only as the soul grows greater and greater that the ideal can be made real. It is individuality and originality that give each person the power to make his own life as he may wish it to be; but those two important factors do not flourish in definite systems. There is no progress where the soul is placed in the hands of methods; true and continuous progress can be promoted only where all ideas, all methods and all principles are placed in the hands of the soul. We have selected the best ideas and the best methods known for making the ideal real, and through this work, will place them in your hands. We do not ask you to follow these methods; we simply ask you to use them. You will then find them all to be practical; you will find that every one will work and produce the results you desire. You will then, not only make real the ideal in your present sphere of life, but you will also develop within yourself that Greater Life, the power of which has no limit, the joy of which has no end.

Das Buch der Freude Jan 11 2021 Zwei weise Männer, eine Botschaft Sie sind zwei der bedeutendsten Leitfiguren unserer Zeit: Seine Heiligkeit der Dalai Lama und Erzbischof Desmond Tutu. Obwohl ihr Leben von vielen Widrigkeiten und Gefahren geprägt war, strahlen sie eine Freude aus, die durch nichts zu erschüttern ist. Im Buch der Freude vereinen die „Brüder im Geiste“ ihre immense Lebenserfahrung und die Weisheit ihrer Weltreligionen zu einer gemeinsamen zentralen Erkenntnis: Nur tief empfundene Freude kann sowohl das Leben des Einzelnen als auch das globale Geschehen

spürbar zum Positiven wandeln. Unabhängig von allen Herausforderungen und Krisen, mit denen wir täglich konfrontiert werden, können wir diese Energie in uns entfalten und weitergeben. So wird die Freude zur Triebkraft, die unserem Dasein mehr Liebe und Sinn verleiht – und zugleich Hoffnung und Frieden in unsere unsichere Welt bringt.

Friendly Fireside Meditations May 03 2020 One year our pastor gave us twenty-five scriptures, one a week for twenty-five weeks, urging us to memorize one each week. Frankly, my friend, I laughed when the pastor advanced such a frightening thought at my age of seventy-six. I was doing good as a youth to memorize John 3:16 and the twenty-third Psalm. No chance at my age and IQ level! Then the laughing ended abruptly when, in a most alarming voice, God let me know he wanted me to memorize every one of those assigned scriptures. Although memorizing a verse a week might seem as intimidating, you will find it surprisingly easy when you allow God to guide you. In *Friendly Fireside Meditations*, Don outlines twenty-five verses that will help you draw nearer to God as you write His word upon your heart. The conversational and moving daily meditations that accompany each week's memory verse will help further encourage you in your new undertaking. Don't stand out in the cold, come warm yourself with the word of God! This book is dedicated to the hungry, ill-clothed and ill-housed children and their families wherever they are. Note that after printing costs the money from this book will go to missions such as Deni's Isaiah 58 In His Service Ministry, and to all the others she and I know to be so helpful to hurting children and adults.

The Book of Doing Aug 06 2020 When did you last take the time to do the things you loved as a child: crafts, games, getting your hands dirty? Or feel the same delight and wonder that you took from your favorite childhood activities? Despite the joy we gained from these pursuits, in our adult lives, we've left them behind—they're too frivolous, we're too busy or too old, and there's too much "real" work to do. It's time to change this mind-set. It's time to rediscover the things you love to do, because they energize, center, and connect you with the world in a meaningful and positive way. *The Book of Doing* offers a collection of ideas and activities that encourage you to use your life as a canvas and explore your creativity through everything you do-to create and make, to explore and experiment, to play and build, to paint and cook-to do. Go ahead. Roll up your sleeves and get to it. It's time to do the things that make you happiest.

One Small Step Can Change Your Life: What Makes You Happy Jan 29 2020 "Continuous effort - not strength or intelligence - is the key to unlocking our potential" Winston Churchill Thoughts are material; they are directly related to what we receive and who we are. It is only by the power of thought that one can bring to life a new experience or set insurmountable walls. Much has been written on the topic of how this happens. I will not go deeper. I believe that it is not necessary to know thoroughly how the mobile phone works so that to speak of it. Thoughts are a tool that in skillful hands becomes, perhaps, the strongest of all four 'weapons.' It is not sufficient though. There must be an actual connection with the rest of the components. Words are also a physical and powerful tool, especially words that are repeated and recorded. Hence the power of mantras and prayers in all religions is enormous. Some researchers of these issues, for example, Tony Robbins, argue that even changing some of the familiar words in one's vocabulary about some situation can affect the whole process in a given topic. But this is rather a perfection of experience, and I want to focus only on right tools. That's what we do and where we apply energy in a physical manifestation. The following is the most common example You did – you get. You didn't do – don't be surprised. But actions alone are also not enough for drastic changes. It's too long and time-consuming, like walking around the world barefoot. Questionable though, it's possible, on the other hand, spare your feet. And what's the point? - On the one hand, it is possible (although not a fact), on the other – you feel sorry for your legs. And what is good here? There are far more fascinating ways to see the world. You should not only do something but also use all other tools. **Would You Like To Know More? Ikigai Nov 28 2019 Ikigai is a traditional Japanese concept that embodies happiness in living. It is, essentially, the reason that you get up in the morning. This book is about finding your ikigai - identifying your purpose or passion and using this knowledge to achieve greater happiness in your life. Your ikigai doesn't have to be some grand ambition or highly noble life's purpose - it can be something simple and humble, like tending your garden or walking your dog. Having grown up in Japan, Yukari Mitsuhashi understands first hand what ikigai means to Japanese people. Now living in Los Angeles, she has written this book to introduce the traditional concept to a new audience. This is not a 'one size fits all' book. Instead, Ikigai encourages you to look at the details of your life and appreciate the everyday moments as you learn to identify your own personal ikigai. The book includes case studies from a range of people sharing their ikigai, from athletes to writers and business people. With its refreshingly simple philosophy and liberating concepts, this beautifully presented book will be a guide you will return to again and again.

Ikigai Sep 18 2021 ikigai ist »das, wofür es sich zu leben lohnt« Ob die Obstbauern von Sembikiya, der Keramiker Sokichi Nagae oder der 92-jährige Jiro Ono, der älteste mit drei Michelin-Sternen ausgezeichnete Koch: Sie alle haben ihr ikigai gefunden und damit Sinn und Freude im Leben. Anhand dieser und anderer inspirierender Lebensgeschichten und fundiert durch wissenschaftliche Erkenntnisse erklärt der japanische Neurowissenschaftler Ken Mogi die japanische Philosophie, die hilft, Erfüllung, Zufriedenheit und Achtsamkeit im Leben zu finden. Er gewährt zudem tiefe Einblicke in die japanische Kultur, in der das Verständnis von ikigai allgegenwärtig ist. Japaner trachten danach, ihr ikigai zu finden und zu leben – egal, ob in der Karriere, in den Beziehungen zu Freunden und der Familie oder in ihren akribisch gepflegten Hobbys. Dabei ist entscheidend, dass man sein Ziel mit Hingabe verfolgt und das, was man tut, um seiner selbst willen tut. Die Fünf Säulen des ikigai: 1. Klein anfangen 2. Loslassen lernen 3. Harmonie und Nachhaltigkeit leben 4. Die Freude an kleinen Dingen entdecken 5. Im Hier und Jetzt sein
