Patience—A Theological Exploration Oct 07 2020 What does it mean to exercise patience? What does it mean to endure, to wait, and to persevere—and, on other occasions, to reject patience in favor of resistance, haste, and disruptive action? And what might it mean to describe God as patient? Might patience play a leading role in a Christian account of God's creative work, God's relationship to ancient Israel, God's governance of history, and God's saving activity? The first instalment of Patience-A Theological Exploration engages these questions in searching, imaginative, and sometimes surprising ways. Following reflections on the biblical witness and the nature of constructive theological inquiry, its interpretive chapters engage landmark works by a number of ancient, medieval, modern, and contemporary authors, disclosing both the promise and peril of talk about patience. Patience stands at the center of this innovative account of God's creative work, God's relationship with ancient Israel, creaturely sin, scripture, and God's broader providential and salvific purposes.

Following the Cultured Public's Chosen One Dec 21 2021 "Soren Kierkegaard never shared the cultured public's enthusiasm for Hans Lassen Martensen, whom it identified as its chosen one. This volume examines the Kierkegaard-Martensen relationship, establishing ways in which the speculative theologian Martensen was a source for Kierkegaard's thought." "While these two never saw things eye-to-eye, and Kierkegaard's dislike for Martensen received expression in his writings, this spiteful ridicule and derision was directed toward one upon whom Kierkegaard was significantly dependent." "The development of Kierkegaard's intellectual life and work can be better grasped by investigating developments that Martensen himself was going through. The questions and issues preoccupying Martensen changed over the years, and these changes did not go unnoticed by Kierkegaard." "It is argued here that Kierkegaard followed Martensen's intellectual development very closely and that Martensen's shifting theological agenda in fact notably shaped the evolving agenda of Kierkegaard's own developing religious thought."—BOOK JACKET.

The Survival Guide for Christians Living in a Fallen World Aug 17 2021 The Survival Guide for Christians Living a Fallen World is another tremendous book written by Melvin Douglas Wilson. This book addresses the many problems that most Christians face in the world today, and provides a Spiritual solution to help navigate the moral decay in the world. This book also looks at past Church cultures and teachings to help provide solutions for current problems in today's society: There are currently more Christian cults in the United States of America than at any other time in the history of this great country of ours and many people are now simply walking away from God. We must all "give diligence to make your calling and election sure.": in these last and evil days! (2nd Peter 1:10) These Christian based written narratives will come to life with the graphically designed pictures that will help you to pain a picture in your mind concerning the Biblical themes in these stories. The author also uses metaphorical thinking in many of these written narratives in-line with Biblical teaching.

Cleanup Nov 27 2019 Imagine a runner, deep into a marathon, who, instead of catching much-needed water bottles generously tossed by the crowd, throws into the crowd toxicity balloons that burst on impact. This scenario pictures the damaging offload that selfishness dumps into relationships. Scripture calls this selfishness "the flesh," and this book will show how repentance—a vital change of heart—drains the toxicity from relationships and fosters a joyous self-giving otherwise known as love. The exhaustion of defensiveness begins to lift. When love enters the bloodstream of relationships, our frantic striving for safety and control gives way to fresh air, the hope of knowing and being known.

God's Good World Feb 20 2022 The doctrine of creation has often been neglected in Christian theology. Distinguished evangelical theologian Jonathan Wilson exposes what has been missing in current theological discourse and offers an original, constructive work on this doctrine. The book unites creation and redemption, showing the significance of God's work of creation for understanding the good news of redemption in Jesus Christ. Wilson develops a trinitarian account of the life of the world and sets forth how to live wisely, hopefully, peaceably, joyfully, and generously in that world. He also shows how a mature doctrine of creation can help the church think practically about contemporary issues, including creation care, sexuality, technology, food and water, and more.

2 Corinthians MacArthur New Testament Commentary Jan 10 2021 The Corinthian church required Paul's repeated care. In 2 Corinthians, he continues his attempt to correct errors of unchristian practice, worship, and doctrine. Concerned with false apostles who were leading the church astray, Paul defended his own authority as God's apostle and sought reconciliation within the church. Respected preacher and Bible teacher John MacArthur presents yet another comprehensive and compelling commentary in his New Testament series.

The Message of Spiritual Warfare Oct 26 2019 This valuable exposition of the theme of 'spiritual warfare' is in four sections. The first is concerned with the nature of Satan and his activity in the world God has made. The second examines the different dimensions of Christ's victory over Satan. The third considers ways in which Christ's victory over Satan impacts God's people. The final section looks at various areas in which believers must fight sin and Satan. Two concluding chapters examine the weapons with which God equips his people for their spiritual warfare.

Milton's Kinesthetic Vision in Paradise Lost Sep 17 2021 The author demonstrates that the apparent contradictions in the poetic, dramatic, and conceptual framework of Paradise Lost are purposive, indeed central, to Milton's kinesthetic poetics.

The king can taste it; Serenity feels it deep within her bones. There is no other option. Now the two must come face to face. Liturgical Dogmatics Dec 09 2020 How can we do dogmatics when there is an absolute difference between the Creator and the creature? God is literally indescribable: "not-able-to-be-written-down." We dare not say anything about God without his permission. We receive this permission in the liturgy that he has given us to celebrate. God is incomprehensible, but he is not unapproachable. What cannot be fully comprehended by dogma can be approached when we liturgize God. Here God has given us access to himself, encourages our advance, attracts our deepest selves, elevates our natural desire, and amplifies our longing. But he must be approached correctly, and this is also taught us in liturgy. What knowledge cannot fasten together, love can unite. There is a movement occurring between God and his children, and this divine economy is the subject matter of dogmatics. It is also exactly the definition of liturgy that this work assumes. Liturgy is the perichoresis of the Holy Trinity kenotically extended to invite our synergistic ascent into deification. The Trinity's circulation of love turns itself outward, and in humility the Son and Spirit work the Father's good pleasure for all creation, which is to invite our ascent into participation in the very life of God, which consists of glory, love, beatitude. All chapter topics in this volume are subdivisions of this single story stretching from alpha to omega, and they all turn out to be liturgical vertices. What dogma stammers to state, liturgy celebrates in mystical participation. Liturgical Dogmatics therefore examines dogma in light of liturgy. The whole sweeping, saving activity of God, as described by dogma, is the subject of this book.

Departures Dec 29 2019 This is a devotional aid focused on the Book of Exodus, designed to take a New Testament lens to this second great inspired book in the Old Testament. It is this writer's view that all the pictures, types, and shadows dwelling in the Old Testament have more to say to the modern Christian of today than to the original inhabitants of those narratives.

Common Christianity / Uncommon Commentary Apr 12 2021 This book is a compilation of five years of weekly Christian newspaper columns with thoughtful and often wry reflections on Christianity, Christian life, and modern culture. Written by late-to-the-faith journalist and communications executive Bob Walters, the columns have been published in the weekly "Current" local general interest newspapers in Carmel, Westfield, Noblesville and Fishers, Indiana, on the northside of Indianapolis since the paper's founding in October 2006. It's uncommon for a newspaper to provide this kind of direct, believer's commentary on common Christian themes, hence the title - Common Christianity / Uncommon Commentary. Foreword by Dr. David Faust, President, Cincinnati Christian University.

Mystical Theology and Continental Philosophy May 14 2021 Exploration of the interface between mystical theology and continental philosophy is a defining feature of the current intellectual and even devotional climate. But to what extent and in what depth are these disciplines actually speaking to one another; or even speaking about the same phenomena? This book draws together original contributions by leading and emerging international scholars, delineating emerging debates in this growing and dynamic field of research, and spanning mystical and philosophical traditions from the ancient, to the medieval, modern, and contemporary. At the heart of which lies Meister Eckhart, perhaps the single most influential Christian mystic for modern times. The book is organised around significant historical and contemporary figures who speak across the intersections of philosophy and theology, offering new insights into key interlocutors such as Pseudo-Dionysius, Augustine, Isaac Luria, Eckhart, Hegel, Heidegger, Marion, Kierkegaard, Deleuze, Laruelle, and Žižek. Designed both to contribute to current trends in mystical theology and philosophy, and elicit dialogue and debate from further afield, this book speaks within an emerging space exploring the retrieval of the mystical within a post-secular context.

Why Black Lives Matter Sep 25 2021 Beginning with a conversation prompted by African American scholars like Dr. Alvin Poussaint of Harvard Medical School in 2007, to the current Black Lives Matter movement, there has been much debate about what led to the deaths of Trayvon Martin and Michael Brown, among others, as well as other systemic challenges that undermine black thriving. Anthony Bradley has assembled a team of scholars and religious leaders to provide a distinctly Christian perspective on what is needed for black communities to thrive from within. In addition to the social and structural issues that must be addressed, within black communities there are opportunities for social change based on God's vision for human flourishing. Covering topics like the black family, hip-hop, mental health, mentoring women, masculinity, and the church, this book will open your eyes to fresh ways to participate in solutions that will truly set black America free. Although the Black Lives Matter movement keeps the church on the margins, the authors in this volume believe that enduring change cannot happen unless God speaks directly to these issues in light of the gospel. You are a Miracle waiting to happen.

Studies in Canonical Criticism Aug 24 2019 As one of the leading figures in New Testament studies, Robert W. Wall has continually focused on the function of the New Testament as a "canonical" or authoritative collection of writings, reflecting not only the content and essence of the Church's emerging faith, but also the life to that community of followers of Jesus who eventually became widely known as "Christians." In the vein of his defining work, The New Testament as Canon: A Reader in Canonical Criticism, Wall now reflects upon his more recent body of study. Always emphasizing 'canonical conversation', Wall had collected and revised some of his most important essays of the last two decades, including Unity of Luke and Acts (2010), The Unifying Theology of the Catholic Epistles (2003-13) and Images of Church in John's Revelation (2015). Completed by a new essay on the canonical approach to the Paratext of Hebrews, and with vital "introductory notes" for each chapter that highlight both Wall's revisions and his response to critical reception, this book is yet one more asset in Wall's continuing pursuit of the canonical function of the church's Scriptures.

The Real Church Feb 08 2021 What does it mean to believe in the church? What is the relationship between the church we believe in and the church we experience? Is there an invisible church that is different from the visible? This book is an argument for an ecclesiology of the visible. The only church, the real church, is a concrete reality made up of people, just like any other fellowship. What distinguishes it as church is the presence of the triune God among those who gather in the name of Jesus, making it a sign and anticipation of the fellowship of the kingdom of God. From this premise Dr. Hegstad analyzes such issues as the relationship between church and world, mission and diakoni, church as fellowship and organization, ministries in the church, worship, and the unity of the church, as well as discussing the relationship between a sociological and a theological understanding of the church.

Reinhold Niebuhr and International Relations Theory Mar 12 2021 This is the first book in international relations theory entirely devoted to the political thought of Reinhold Niebuhr. Focusing on the existential theology which lies at the basis of Reinhold Niebuhr's theory of international politics, it highlights the ways in which Niebuhrian realism was not only profoundly theological, but also constituted a powerful existentialist reconfiguration of the Realist tradition going back to Saint Augustine. Guiliherme Marques Pedro offers an innovative account of Reinhold Niebuhr's eclectic thought, branching out into politics, ethics, history, society and religion and laying out a conceptual framework through which his work, as much as the realist tradition of international political thought as a whole, can be read. The book calls for the need to revisit classic thinkers within IR theory with an eye to their interdisciplinary background and as a way to remind ourselves of the issues that were at stake within the field as it was growing in autonomy and diversity - issues which remain, regardless of its disciplinary development, at the core of IR's concerns. This book offers an important contribution to IR scholarship, revealing the great historical wealth, intellectual originality but also the limitations and paradoxes of one of the greatest American political thinkers of the twentieth century.
