The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

[A User's Guide to Community Entry for the Severely Handicapped](#) Jan 10 2021 Once "warehoused" in institutions, many severely handicapped individuals are now living in community residences. Yet there are few resource materials available for those who face the difficult task of planning and operating these residences. A User's Guide to Community Entry for the Severely Handicapped offers practical guidance for creating the most home-like, least restrictive residential settings. Committed to the right of all individuals to live in their home community, Pancsofar and Blackwell address topics of vital concern to residential planners, administrators, and direct care personnel. The Guide covers administrative and programmatic issues, offering a wealth of suggestions, examples, forms, and checklists. It is a valuable special education textbook and reference work, and an excellent resource for families.

[Analysis of Command and Control Battlefield Functions as Performed in the Armored Brigade](#) Nov 07 2020 "The purpose of the research was to document the synchronization required by command and control tasks performed within the armored brigade, to include CS/CSS units. The immediate application of the documentation was to support developers of staff training in two related projects: Battle Staff Training System and Staff Group Trainer. The documentation was also intended to assist with the planning and execution of collective training. The documentation approach was to apply function analysis (FA) techniques for battlefield functions (BFs) in the Command and Control battlefield operating system. Thirteen FAs were developed for the Brigade headquarters and four supporting units: direct support field artillery battalion, engineer battalion, forward support battalion, and air defense artillery battery. The FAs were revised through a formative evaluation process that included internal review and successive external reviews by combat training centers, proponent agencies, and a review council representing potential users of the FAs. The final products include the FAs, a user's guide, and assessment packages for the BFs."--DTIC.

[The Large Group Facilitator's Manual](#) Feb 29 2020 Most organizations are adept at using small groups - witness the widespread use of teams. Yet, how do you work with 20 to 500 people at a time? How would you involve all stakeholders in a critical issue or the organization's future? How can you generate contributions, consensus and commitment from the bottom up? People want to contribute but often are frustrated through a lack of opportunity or means. Large Group Processes allow people to participate over things that matter to them. Participation leads to commitment and commitment to ownership. Working with large groups is relatively new, but these processes are proving very effective with positive outcomes. Audiences can be customized with stakeholders who might be inside or outside the organization, such as employees, customers, suppliers, shareholders, the general public and any other interested parties. Applications are wide-ranging, touching on almost every aspect of organizational life. The Large Group Facilitator's Manual offers you a blueprint for planning, preparing, running and reporting successful large group events. The authors walk you through six different processes from concept to step-by-step facilitation with sample invitations, checklists and even scripts. It is the first facilitator's guide to cover so many processes with such detailed instructions.

[Scientific and Technical Aerospace Reports](#) Sep 17 2021 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.

[Nuclear Science Abstracts](#) Feb 08 2021 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC).

NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

[User's Guide to Sears List of Subject Headings](#) Jun 14 2021 The Sears List of Subject Headings, an outstanding name amongst subject headings lists, is used all over the world in small and medium sized libraries. It has constantly been revised and kept up to date, both in its methods and contents, by incorporating new subjects and updated organizational machinery. Being handy, simple, inexpensive and always current, the Sears List is a convenient choice for teaching subject headings work in library schools. User's Guide to Sears List of Subject Headings, 2nd Edition is a companion book which, although based on the 222nd edition of the Sears List, should also be useful to the libraries using some previous edition. It attempts to explain the theoretical foundations, history and application of the Sears List as well as of the subject headings work ion general. It explicates the various hidden potentials of the system to construct subject headings needed for local situations. The object of this small, practical introduction is to be simple, clear and illustrative. The book assumes no prior knowledge either of the Sears List or of subject headings work in general. It is a manual for beginners to understand the importance of vocabulary control, the process of subject analysis, the structure and organization of the Sears List, and the methods to locate, specify and construct subject headings and provide cross references for the public catalogue. Subject headings in the complex areas of languages, literatures, biographical and geographical works are given a chapter each. Review questions and exercises conclude most chapters. A bibliography and glossary are valuable features of this work
