Student Study Guide, Old Testament Bible Survey Course Feb 09 2021 STUDENT STUDY GUIDE begins with the student answering ten basic questions concerning the Old Testament. What is the Old Testament? Who wrote the Old Testament? Where, When, Why and How was the Old Testament written? What are three major features of the Old Testament: Revelation, Inspiration and Preservation? How should we study the Old Testament? Why should you memorize verses of the Old Testament? When should one read the Old Testament? BIBLE MEMORY VERSES (97 memorized accumulatively) aid the student to say with the Psalmist "Thy word have I hidden in mine heart, that I might not sin against thee." This STUDENT STUDY GUIDE closes with an incomplete outline for each of the 39 books of the Old Testament. Each outline has space for personal notes, classroom instruction plus THE BASICS: Author, Date of Writing, Name Meaning, Passages for Particular Emphasis, Verses for Memory, Characters of Interest and Content Description. Following high school, a Bachelor of Science degree was received from Piedmont College, Demorest, GA plus a Georgia Teacher's Professional Certificate. Then came the Army Security Agency and three years later came employment with the National Security Agency, Washington, DC. Meeting Edith Campen from North Carolina led to marriage, February 1, 1957. A year after marriage, God called me to the ministry. Graduating from Southwestern Baptist Theological Seminary, Ft. Worth, TX with a Bachelor of Divinity (updated to Masters of Divinity) and Masters in Religious Education (updated to Masters of

Arts), God directed me to serve Him. For some 50 years, it was a pleasure to serve God and people in churches and classrooms as Minister of Youth, Minister of Education, Minister of Education/Administration, and Minister of Pastoral Care. It was a joy to teach this Old Testament Bible Survey Course to ninth grade students at Cypress Community Christian School, Houston, TX.

A Guide to Teaching in the Active Learning Classroom Oct 08 2020 While Active Learning Classrooms, or ALCs, offer rich new environments for learning, they present many new challenges to faculty because, among other things, they eliminate the room's central focal point and disrupt the conventional seating plan to which faculty and students have become accustomed. The importance of learning how to use these classrooms well and to capitalize on their special features is paramount. The potential they represent can be realized only when they facilitate improved learning outcomes and engage students in the learning process in a manner different from traditional classrooms and lecture halls. This

book provides an introduction to ALCs, briefly covering their history and then synthesizing the research on these spaces to provide faculty with empirically based, practical guidance on how to use these unfamiliar spaces effectively. Among the questions this book addresses are: □ How can instructors mitigate the apparent lack of a central focal point in the space? □ What types of learning activities work well in the ALCs and take advantage of the affordances of the room? □ How can teachers address familiar classroom-management challenges in these unfamiliar spaces? □ If assessment and rapid feedback are critical in active learning, how do they work in a room filled with circular tables and no central focus point? □ How do instructors balance group learning with the needs of the larger class? □ How can students be held accountable when many will necessarily have their backs facing the instructor? □ How can instructors evaluate the effectiveness of their teaching in these spaces? This book is intended for faculty preparing to teach in or already working in this new classroom environment; for administrators planning to create ALCs or experimenting with provisionally designed rooms; and for faculty developers helping teachers transition to using these new spaces.
