Conshohocken in Vintage Postcards Jun 09 2021 The Lenni Lenape called this place gueno-sheiki-hacki-ing, meaning "beautiful or peaceful valley." Incorporated in 1850, Conshohocken's colorful history had its beginnings as Native American territory prior to 1684, when William Penn purchased the land from the Tammany people. Soon Quakers purchased land, built homes, and opened mills. Conshohocken begins with tales and images of early history and continues with rare

views that capture some of the majestic mansions built by the founding fathers, the tree-lined avenues with trolleys and horse-drawn carriages, the firehouses and train station and schools, and the many families and faces that have brought Conshohocken to life.

Real Photo Postcard Guide

Dec 15 2021 The Real Photo Postcard Guide is an informative, comprehensive, and practical treatment of this wildly popular American phenomenon that dominated the United States photographic market during the first third of the twentieth century. Robert Bogdan and Todd Weseloh draw on extensive research and observation to address all aspects of the photo postcard from its history, origin, and cultural significance to practical matters like dating, purchasing, condition, and preservation. Illustrated with over 350 exceptional photo

postcards taken from archives and private collections across the country, the scope of the Real Photo Postcard Guide spans technical considerations of production, characteristics of superior images, collecting categories, and methods of research for dating photo postcards and investigating their photographers. In a broader sense, the authors show how "real photo postcards" document the social history of America. From family outings and workplace awards to lynchings and natural disasters, every image captures a moment of American cultural history from the society that generated them. Bogdan and Weseloh's book provides an

American Woman Suffrage Postcards Nov 14 2021

American women's suffrage activists were fascinated with suffrage themed postcards. They collected them, exchanged them, wrote about them, used them as fundraisers and organized "postcard day" campaigns. The cards they produced were imaginative and ideological, advancing arguments for the enfranchisement of women and responding to antisuffrage broadsides. Commercial publishers were also interested in suffrage cards, recognizing their profit potential. Their

products, though, were reactive rather than proactive, conveying stereotypes they assumed reflected public attitudes—often negative—towards the movement. Cataloging approximately 700 examples, this study examines the “visual rhetoric” of suffrage postcards in the context of the movement itself and as part of the general history of postcards.

Agile Processes in Software Engineering and Extreme Programming Jul 10 2021 The XP conference series established in 2000 was the first conference dedicated to agile processes in software engineering. The idea of the

conference is to offer a unique setting for advancing the state of the art in the research and practice of agile processes. This year's conference was the ninth consecutive edition of this international event. The conference has grown to be the largest conference on agile software development outside North America. The XP conference enjoys being one of those conferences that truly brings practitioners and academics together. About 70% of XP participants come from industry and the number of academics has grown steadily over the years. XP is more of an experience rather than a regular conference. It offers several different ways to

Tahiti Beyond the Postcard

Jun 28 2020 Winner of the 2013 ICAS Book Prize (Social Sciences) The "Tahiti" that most people imagine - white-sand beaches, turquoise lagoons, and beautiful women - is a product of 18th century European romanticism and persists today as the bedrock of Tahiti's tourism industry. This postcard image, however, masks a different reality. The dreams and desires that the

tourism industry promotes distract from the medical nightmares and environmental destruction caused by France's 30-year nuclear testing program in French Polynesia. Tahitians see the burying of a bomb in their land as deeply offensive. For Tahitians, the land abounds with ancestral fertility, and genealogical identity, and is a source of physical and spiritual nourishment. These imagined and lived perspectives seem incompatible, yet are intricately intertwined in the political economy. Tahiti Beyond the Postcard engages with questions about the subtle but ubiquitous ways in which power entangles itself in place-

Miriam Kahn uses interpretive frameworks of both Tahitian and European scholars, drawing upon ethnographic details that include ancient chants, picture postcards, antinuclear protests, popular song lyrics, and the legacy of Paul Gauguin's art, to provide fresh perspectives on colonialism, tourism, imagery, and the anthropology of place. arranges and describes the postcards by subject or theme. Focusing on the period from 1900 to 1920, the book is the first to offer information about the cards' many publishers. More than a century ago, people sent postcards like we make phone calls today. Many also collected postcards, even trading them in groups or clubs. Adorned with colorized views of urban and rural

landscapes, postcards offered people a chance to own images of places they lived, visited, or merely dreamed of visiting. Today, these relics remain one of the richest visual records of the last century as they offer a glimpse at the ways a city represented itself. They now appear regularly in art exhibits, blogs, and research collections. Many of the cards in this book have not been widely seen in

well over a century, and many of the places and traditions they depict have long since vanished.
