The Sleepwalkers Sep 29 2022 One of The New York Times Book Review's 10 Best Books of the Year Winner of the Los Angeles Times Book Prize (History) The Sleepwalkers: How Europe Went to War in 1914 is historian Christopher Clark's riveting account of the explosive beginnings of World War I. Drawing on new scholarship, Clark offers a fresh look at World War I, focusing not on the battles and atrocities of the war itself, but on the complex events and relationships that led a group of well-meaning leaders into brutal conflict. Clark traces the paths to war in a minute-by-minute, action-packed narrative that cuts between the key decision centers in Vienna, Berlin, St. Petersburg, Paris, London, and Belgrade, and examines the decades of history that informed the events of 1914 and details the mutual misunderstandings and unintended signals that drove the crisis forward in a few short weeks. Meticulously researched and masterfully written, Christopher Clark's The Sleepwalkers is a dramatic and authoritative chronicle of Europe's descent into a war that tore the world apart.

When Washington Shut Down Wall Street Jul 16 2021 Publisher description

History Sep 17 2021 Exam board: Edexcel Level: GCSE Subject: History First teaching: September 2016 First exams: Summer 2018 Practise and perfect the knowledge and skills that students need to achieve their best grade in the Edexcel GCSE (9-1) History exams. Packed full of consolidation activities and exam-style questions, this time-saving Workbook makes it easier to reinforce understanding throughout the course and prepare for examination. - Apply, embed and recap knowledge using tried-and-tested consolidation activities that put the large amount of content into context - Develop the exam skills required for the 9-1 examinations with a bank of practice questions that covers every question type and includes mark allocations to indicate how much time students should spend on an answer - Tackle the challenges of visual and written sources as plenty of examples and questions are provided - Help students identify their revision needs and understand how to improve their responses by consulting the online answers/answer guidance for each activity and question - Use flexibly for homework or classwork, during the course or for revision and exam practice - Feel confident about exam preparation, knowing that the activities and questions have been carefully created by a team of experienced examiners and practising teachers

The Christmas Truce Feb 08 2021 The Christmas Truce of 1914 was a remarkable episode during World War I; a single fleeting moment of man's humanity, amidst the horrors of war. This book takes a detailed look at the Christmas Truce, within the context of the social and political landscape at the time. It also considers the part that football may or may not have played during the truce and why it is that a football match has become the overriding symbol of the Christmas Truce in modern times. What topics does this book on the WW1 Christmas Truce cover? The book begins with a look at a number of the factors that ultimately led to the First World War and then describes in turn the early months of WWI, the phenomenon that was trench warfare, some of the other unofficial armistices throughout history and also early attempts at a truce, in the December of 1914. The Christmas Truce itself is then discussed, looking at the events that took place on Christmas Eve, Christmas Day and Boxing Day, before examining the part that football may have played within the truce. Finally, the legacy of the Christmas Truce is considered, especially in the context of the Centenary celebrations of 2014.

The First Iraq War--1914-1918 Aug 17 2021 When Allah made Hell, runs the Arab proverb, he did not find it bad enough, so he made Mesopotamia—and added flies. What was a British Army doing in this Godforsaken place and how had it all come about? A.J. Barker's masterful retelling of the story of Britain's first Iraq war in 1914 is a masterpiece of military history that provides many answers to the endless problems and realities encountered in Iraq since 2003. Prestige and power played a major role then as they still do today. If the British were dislodged from the Shatt-al-Arab, the effects would undoubtedly have reverberated throughout the whole of the Eastern world.

Audit Programmes and Procedure Sep 25 2019

Before Jutland Mar 24 2022 Before Jutland is an effort to understand what happened at sea in northern European waters in 1914-15 when the German High Sea Fleet faced the Grand Fleet in the North Sea and the Russian Fleet in the Baltic. The book is an extensively revised and extended version of the author's 1984 work *The King's Ships Were at Sea*. It covers the first six months of the First World War because very important things occurred in that time and, despite the loose ends that inevitably remain with four more years of conflict to follow, important things can be said. The focus is primarily on the British, but both the Germans and the Russians are integral to the study because neither the British nor the Germans' North Sea activities can be fairly assessed without giving due weight to the Baltic theatre of operations. This is an operational history, which balances coverage of the major incidents with treatment of the continuum of activity. The intent within the scene setting chapters is not to attempt a complete survey of the events of the previous decade, but to situate each navy within the environment of 1914. Before Jutland includes the battles of Heligoland Bight and the Dogger Bank, as well as the shock of the submarine and its effect on the operations of all the protagonists. In analyzing these events, it seeks to provide the context within which the protagonists were actually working, without the application of excessive hindsight, because in 1914 so much was new and experimental. Observers are inclined to consider what is known as the 'Fisher Era' as a continuum from Admiral Fisher's accession as First Sea Lord in the British Admiralty in 1904; in reality the pace of operational development not only accelerated but became truly multi-lane only after about 1909, just before the great reformer went into his first retirement. The pressures at all levels within navies were therefore intensifying in the years immediately before the outbreak of the war in ways that were not fully understood, nor necessarily recognized. In short, those involved were struggling to learn a new language of naval operations and warfare with an incomplete dictionary and very little grammar. In all, Before Jutland tries to show not only what happened, but how the services evolved to meet the challenges that they faced at the opening of the Great War and whether or not that evolution was successful.

American Tax Resisters Jun 14 2021 American Tax Resisters gives a history of the anti-tax movement that, for the past 150 years, has pursued limited taxes on wealth and battled efforts to secure social justice through income redistribution. It explains how a once-marginal ideology became mainstream, elevating individual entrepreneurialism over sacrifice and solidarity.

The Economic History of the Netherlands 1914-1995 Jun 26 2022 Jan L. van Zanden in *The Economic History of the Netherlands 1914-1995* answers these questions. In the first four chapters the long development of the economy is analysed in detail. Central to this part of the book are the rise (and decline) of managerial enterprise; the growth (and fall) of trade unions; and the expansion (and crisis) of the welfare state. The particular Dutch features of these institutional changes are highlighted. The second part of the book deals with different periods of growth (from 1914-1929, and 1950-1973), and relative stagnation (1929-1950, and 1973-1995). Moreover, van Zanden examines the role the Netherlands played in the process of European integration, and gives an explanation of the success of the 'Dutch job machine' in the 1980s

and 1990s.

The War Crisis in Berlin, July-August 1914 Dec 29 2019

Modernist Anthropology Jan 28 2020 Recent insights into the nature of representation and power relations have signaled an important shift in perspective on anthropology: from a fieldwork-based "science" of culture to an interpretive activity bound to the discursive and ideological process called "text-making." This collection of essays reflects the ongoing cross-fertilization between literary criticism and anthropology. Focusing on texts written or influenced by anthropologists between 1900 and 1945, the work relates current perspectives on anthropology's discursive nature to the literary period known as "Modernism.". The essays, each demonstrating anthropology's profound influence on this important cultural movement, are organized according to discourse type: from the comparativist text of Frazer, to the ethnographies of Boas, Benedict, Mead, and Hurston, and on to the surrealist experiments of the College de Sociologie. Meanwhile the book's orientation shifts from essays that approach anthropology from the vantage points of literariness and textual power to those that contemplate what bearing the junction of cultural theory and anthropology can have upon present and future social institutions. In addition to the editor, contributors include Vincent Crapanzano, Deborah Gordon, Richard Handler, Arnold Krupat, Francesco Loriggio, Michele Richman, Marty Roth, Marilyn Strathern, Robert Sullivan, John B. Vickery, and Steven Webster. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Two Thousand Questions and Answers about the War Dec 21 2021

Germany, 1848-1914 Nov 19 2021 A study of Germany between 1848 and 1890 for AS and A Level History students. It is designed to fulfil the AS and A Level specifications in place from September 2000. The two AS sections deal with narrative and explanation of the topic. There are extra notes, biography boxes and definitions in the margin, and summary boxes to help students assimilate the information. The A2 section reflects the different demands of the higher level examination by concentrating on analysis and historians' interpretations of the material covered in the AS sections. There are practice questions and hints and tips on what makes a good answer.

Europe's Last Summer Jan 22 2022 When war broke out in Europe in 1914, it surprised a European population enjoying the most beautiful summer in memory. For nearly a century since, historians have debated the causes of the war. Some have cited the assassination of Archduke Franz Ferdinand; others have concluded it was unavoidable. In Europe's Last Summer, David Fromkin provides a different answer: hostilities were commenced deliberately. In a riveting re-creation of the run-up to war, Fromkin shows how German generals, seeing war as inevitable, manipulated events to precipitate a conflict waged on their own terms. Moving deftly between diplomats, generals, and rulers across Europe, he makes the complex diplomatic negotiations accessible and immediate. Examining the actions of individuals amid larger historical forces, this is a gripping historical narrative and a dramatic reassessment of a key moment in the twentieth-century. From the Trade Paperback edition.
