Moving Mountains Aug 30 2022 Deep in the heart of the southern West Virginia coalfields, one of the most important environmental and social empowerment battles in the nation has been waged for the past decade. Fought by a heroic woman struggling to save her tiny community through a landmark lawsuit, this battle, which led all the way to the halls of Congress, has implications for environmentally conscious people across the world. The story begins with Patricia Bragg in the tiny community of Pie. When a deep mine drained her neighbors' wells, Bragg heeded her grandmother's admonition to "fight for what you believe in" and led the battle to save their drinking water. Though she and her friends quickly convinced state mining officials to force the coal company to provide new wells, Bragg's fight had only just begun. Soon large-scale mining began on the mountains behind her beloved hollow. Fearing what the blasting off of mountaintops would do to the humble homes below, she joined a lawsuit being pursued by attorney Joe Lovett, the first case he had ever handled. In the case against the U.S. Army Corps of Engineers (Bragg v. Robertson), federal judge Charles Haden II shocked the coal industry by granting victory to Joe Lovett and Patricia Bragg and temporarily halting the practice of mountaintop removal. While Lovett battled in court, Bragg sought other ways to protect the resources and safety of coalfield communities, all the while recognizing that coal mining was the lifeblood of her community, even of her own family (her husband is a disabled miner). The years of Bragg v. Robertson bitterly

divided the coalfields and left many bewildered by the legal wrangling. One of the state's largest mines shut down because of the case, leaving hardworking miners out of work, at least temporarily. Despite hurtful words from members of her church, Patricia Bragg battled on, making the two-hour trek to the legislature in Charleston, over and over, to ask for better controls on mine blasting. There Bragg and her friends won support from delegate Arley Johnson, himself a survivor of one of the coalfield's greatest disasters. Award-winning investigative journalist Penny Loeb spent nine years following the twists and turns of this remarkable story, giving voice both to citizens, like Patricia Bragg, and to those in the coal industry. Intertwined with court and statehouse battles is Patricia Bragg's own quiet triumph of graduating from college summa cum laude in her late thirties and moving her family out of welfare and into prosperity and freedom from mining interests. Bragg's remarkable personal triumph and the victories won in Pie and other coalfield communities will surprise and inspire readers.

The Bluebird of Happiness Jul 05 2020 The bluebird has long been considered a symbol of happiness and a messenger of joy and contentment. . . . It is my hope that this book, like the bluebird's song of happiness, will bring cheer and joy to your life. --Vicky Howard, introduction * Vicky Howard's collection of antique bird art--nearly all pieces over 100 years old--is used here to adorn her lovely message about what is really important in our pursuit of happiness. Vicky Howard is a successful and recognizable name in the gift market. Using art from her private collection of vintage postcards, Howard presents avian images alongside positive-minded quotes from the early 1900s. While the creative elements of this book recall an early era, the art remains vivid and the words decidedly relevant: * You cannot always have happiness, but you can give happiness. --Proverb * The art of being happy lies in the power of extracting happiness from common things. --Henry Ward Beecher

From the Heart to My Friend Sep 06 2020 In the early 1900s, a Kansas schoolteacher named Nellie Howard delighted in receiving postcards from her many friends. She cherished each one, preserving her collection in a jewelry box. The jewelry box, handed down through generations, still houses what is now a museum-quality collection of exquisite Victorian postcards. A century after Nellie Howard received them, friends can once again share her beloved postcards. In *From the Heart to My Friend*, the beautifully rendered images from Nellie's collection are reproduced in authentic detail and presented with warm verses and quotes on the universal theme of friendship. The postcards whose artwork is captured in this unique book were created by talented artists, many of them women, during the "Golden Age of Postcards," from 1898 to 1918. The accompanying text, from books of the same period, is both fittingly nostalgic and strikingly relevant to today's sensibilities. The result is a lovely and meaningful gift to be treasured for a lifetime, a fascinating artifact of vintage Americana, and a distinctive product you'll be proud to showcase in your keepsake or gift book department.

Learning Java Nov 20 2021 Version 5.0 of the Java 2 Standard Edition SDK is the most important upgrade since Java first appeared a decade ago. With Java 5.0, you'll not only find substantial changes in the platform, but to the language itself—something that developers of Java took five years to complete. The main goal of Java 5.0 is to make it easier for you to develop safe, powerful code, but none of these improvements makes Java any easier to learn, even if you've programmed with Java for years. And that means our bestselling hands-on tutorial takes on even greater significance. *Learning Java* is the most widely sought introduction to the programming language that's changed the way we think about computing. Our updated third edition takes an objective, no-nonsense approach to the new features in Java 5.0, some of which are drastically different from the way things were done in any previous versions. The most essential change is the addition of "generics", a feature that allows developers to write, test, and deploy code once, and then reuse the code again and again for different data types. The beauty of generics is that more problems will be caught during development, and *Learning Java* will show you exactly how it's done. Java 5.0 also adds more than 1,000 new classes to the Java library. That means 1,000 new things you can do without having to program it in yourself. That's a huge change. With our book's practical examples, you'll come up to speed quickly on this and other new features such as loops and threads. The new edition also includes an introduction to Eclipse, the open source IDE that is growing in popularity. *Learning Java, 3rd Edition* addresses all of the important uses of Java, such as web applications, servlets, and XML that are increasingly driving enterprise applications.

Razabilly May 27 2022 Vocals tinged with pain and desperation. The deep thuds of an upright bass. Women with short bangs and men in cuffed jeans. These elements and others are the unmistakable signatures of rockabilly, a musical genre normally associated with white male musicians of the 1950s. But in Los Angeles today, rockabilly's primary producers and consumers are Latinos and Latinas. Why are these "Razabillies" partaking in a visibly "un-Latino" subculture that's thought of as a white person's fixation everywhere else? As a Los Angeles Rockabilly insider, Nicholas F. Centino is the right person to answer this question. Pairing a decade of participant observation with interviews and historical research, Centino explores the reasons behind a Rockabilly renaissance in 1990s Los Angeles and demonstrates how, as a form of working-class leisure, this scene provides Razabillies with spaces of respite and conviviality within the alienating landscape of the urban metropolis. A nuanced account revealing how and why Los Angeles Latinas/os have turned to and transformed the music and aesthetic style of 1950s rockabilly, *Razabilly* offers rare insight into this musical subculture, its place in rock and roll history, and its passionate practitioners.

Lucifer Rising Apr 13 2021 Lucifer Rising unravels for the first time the myths surrounding the most surreal yet, ultimately, seriously-intended secret operations of the Second World War when Britain stood alone against the Nazis. Featuring an eccentric cast of characters, including the creator of James Bond, the self-proclaimed 'wickedest man in the world', a cross-dressing astrologer and the Deputy Führer, bestselling author Nicholas Booth weaves together an incredible narrative about spying, sabotage, weird inventions, black propaganda and even the attempted harnessing of the occult as the British secret service sought desperately to gain the upper hand over the Nazis by whatever means possible. Using hitherto secret files - many only recently released - Lucifer Rising shows how nothing was considered too outrageous in the desperate fight against the Nazi regime, including the attempted manipulation of the occult and astrology with often unintentionally hilarious results.

The Book of Santa Claus Feb 21 2022 You don't have to be a child to appreciate the magic within The Book of Santa Claus. As author Vicky Howard notes, "We can never outgrow the anticipation of a visit from Santa Claus. He is a magical figure, drawn from the legends, history, and folklore of many countries." The legend of Santa Claus began in America in 1822 with Clement C. Moore's poem "A Visit from St. Nicholas." This enduring poem, which begins with the now-classic line "'Twas the night before Christmas," paints a vivid picture of St. Nick and his miniature sleigh pulled by eight tiny reindeer. Illustrated for the first time by Thomas Nast for Harper's Weekly in 1863, this famous depiction became an inspiration for much of the detailed Victorian art captured in The Book of Santa Claus. The rich compilation celebrates Santa Claus through the beautiful illustrations from century-old postcards from that era's preeminent commercial artists, such as Frances Brundage and Ellen Clapsaddle. Vicky Howard's personal collection of art from the "Golden Age of Postcards" is coupled with poems on the Christmas joy of Kris Kringle. This joyful miniature edition is perfect for a finishing touch to any gift basket, as a hostess gift, or for your own treasured keepsake.
