[The Retro Future](#) Sep 17 2021 To most people paying attention to the collision between industrial society and the hard limits of a finite planet, it's clear that things are going very, very wrong. We no longer have unlimited time and resources to deal with the crises that define our future, and the options are limited to the tools we have on hand right now. This book is about one very powerful option: deliberate technological regression. Technological regression isn't about 'going back,' it's about using the past as a resource to meet the needs of the present. It starts from the recognition that older technologies generally use fewer resources and cost less than modern equivalents, and it embraces the heresy of technological choice, our ability to choose or refuse the technologies pushed by corporate interests. People are already ditching smartphones in favor of 'dumb phones' and land lines and eBook sales are declining, while printed books rebound. Clear signs among many that blind faith in progress is faltering and opening up the possibility that the best way forward may well involve going back. A must-read for anyone willing to think the unthinkable and embrace the possibilities of a retro future. John Michael Greer, one of the most influential authors exploring the future of industrial society, writes the widely cited blog The Archdruid Report. He has authored more than forty books including The Long Descent and Dark Age America. He lives in Cumberland, MD, an old mill town in the Appalachians, with his wife Sara.

[Teaching Translation](#) May 14 2021 Over the past half century, translation studies has emerged decisively as an academic field around the world, and in recent years the number of academic institutions offering instruction in translation has risen along with an increased demand for translators, interpreters and translator trainers. Teaching Translation is the most comprehensive and theoretically informed overview of current translation teaching. Contributions from leading figures in translation studies are preceded by a substantial introduction by Lawrence Venuti, in which he presents a view of translation as the ultimate humanistic task — an interpretive act that varies the form, meaning, and effect of the source text. 26 incisive chapters are divided into four parts, covering: certificate and degree programs teaching translation practices studying translation theory, history, and practice surveys of translation pedagogies and key textbooks The chapters describe long-standing programs and courses in the US, Canada, the UK, and Spain, and each one presents an exemplary model for teaching that can be replicated or adapted in other institutions. Each contributor responds to fundamental questions at the core of any translation course — for example, how is translation defined? What qualifies students for admission to the course? What impact does the institutional site have upon the course or pedagogy? Teaching Translation will be relevant for all those working and teaching in the areas of translation and translation studies. Additional resources for Translation and Interpreting Studies are available on the Routledge Translation Studies Portal.

Always Something New to Discover Aug 05 2020 Menahem Pressler and the Beaux Arts Trio German born pianist Menahem Pressler (1923) was forced to flee Nazi terror to Israel. He quickly attained international fame in 1946 by winning the Debussy Competition in San Francisco and performing his debut with Eugene Ormandy and The Philadelphia Orchestra. In Always Something New to Discover, Pressler's biography, esthetics, pianism and dedication to music are gathered in texts enriched with oral history as generously shared by Pressler and his intimates. With as yet no retirement in sight, Menahem Pressler continues his musical journey with an undiminished schedule and a full studio of international students, all in blissful service of the music he loves. Victorian Secrets Oct 31 2022 On Sarah A. Chrisman's twenty-ninth birthday, her husband, Gabriel, presented her with a corset. The material and the design were breathtakingly beautiful, but her mind immediately filled with unwelcome views. Although she had been in love with the Victorian era all her life, she had specifically asked her husband not to buy her a corset. She'd heard how corsets affected the female body and what they represented, and she wanted none of it. However, Chrisman agreed to try on the garment . . . and found it surprisingly enjoyable. The corset, she realized, was a tool of empowerment—not oppression. After a year of wearing a corset on a daily basis, her waist had gone from thirty-two inches to twenty-two inches, she was experiencing fewer migraines, and her posture improved. She had successfully transformed her body, her dress, and her lifestyle into that of a Victorian woman—and everyone was asking about it. In Victorian Secrets, Chrisman explains how a garment from the past led to a change in not only the way she viewed herself, but also the ways she understood the major differences between the cultures of twenty-first-century and nineteenth-century America. The desire to delve further into the Victorian lifestyle provided Chrisman with new insight into issues of body image and how women, past and present, have seen and continue to see themselves.

This Victorian Life Mar 31 2020 A unique memoir about a modern couple living the lifestyle of another era and what it teaches them about history and human nature. We all know that the best way to study a foreign language is to go to a country where it's spoken, but can the same immersion method be applied to history? How do interactions with antique objects influence perceptions of the modern world? From Victorian beauty regimens to nineteenth-century bicycles, custard recipes to taxidermy experiments, oil lamps to an ice box, Sarah and Gabriel Chrisman decided to explore nineteenth-century culture and technologies from the inside out. Even the deepest aspects of their lives became affected, and the more immersed they became in the late Victorian era, the more aware they grew of its legacies permeating the twenty-first century. Most of us have dreamed of time travel, but what if that dream could come true? In her first book, *Victorian Secrets*, Sarah Chrisman recalled a year she spent wearing a Victorian corset 24/7. In *This Victorian Life*, she documents her complete shift into living as though she were in the nineteenth century. Fascinating reflections on how each Victorian object shapes understandings of everyday life.

The Visual in Sport Feb 29 2020 This comprehensive, novel and exciting interdisciplinary collection brings together leading international authorities from the history of sport, social history, art history, film history, design history, cultural studies and related fields to explore the ways in which visual culture has shaped, and continues to impact upon, our understanding of sport as an integral element within popular culture. Visual representations of sport have previously been little examined and under-exploited by historians, with little focused and rigorous scrutiny of these vital historical documents. This study seeks to redress this balance by engaging with a wide variety of cultural products, ranging from sports stadia and monuments in the public arena, to paintings, prints, photographs, posters, stamps, design artefacts, films and political cartoons. By examining the contexts of both the production and reception of this historical evidence, and highlighting the multiple meanings and social significance of this body of work, the collection provides original, powerful and stimulating insights into the ways in which visual material assists our knowledge and understanding of sport. This collection will facilitate researchers, publishers and others with an interest in sport to move beyond traditional text-based scholarship and appreciate the powerful imagery of sport in new ways. This book was previously published as a special issue of the *International Journal of the History of Sport*.

Creative Teaching, Sustainable Learning Nov 07 2020 There are many books on foreign language teaching - this book is different because it focuses on the learner and the learning process. It starts from the social nature of interactive learning and locates learning in a community of learners, one of whom is the teacher. The conditions for lasting learning in the foreign language are the basis for the teaching methods. These aim to provide a rich and shared learning context, offer individualised support and scaffolding for learning and make the language the medium for learning what learners are interested in as developing persons. It makes teachers into reflective researchers of their practice, thus ensuring that teaching is an art, a craft and a science. The best learning occurs when teachers can read the effects of their teaching on the learning behaviour of the pupils and are able to adapt their approach to be inclusive of all learning types. The approach carefully developed in this book, takes foreign language teaching and learning to a new level. Without losing touch with its origins in Waldorf pedagogy, it also draws on contemporary learning theory. Above all it is an authentic account of the learning journey of a committed and caring teacher.
