[Entropy in Bloom](#) Sep 28 2022 For more than a decade, Jeremy Robert Johnson has been bubbling under the surface of both literary and genre

fiction. His short stories present a brilliantly dark and audaciously weird realm where cosmic nightmares collide with all-too-human characters and apocalypses of all shapes and sizes loom ominously. In "Persistence Hunting," a lonely distance runner is seduced into a brutal life of crime with an ever-narrowing path for escape. In "When Susurrus Stirs," an unlucky pacifist must stop a horrifying parasite from turning his body into a sentient hive. Running through all of Johnson's work is a hallucinatory vision and deeply-felt empathy, earning the author a reputation as one of today's most daring and thrilling writers. Featuring the best of his independently-published short fiction, as well as an exclusive, never-before-published novella "The Sleep of Judges"--where a father's fight against the denizens of a drug den becomes a mind-bending suburban nightmare--Entropy in Bloom is a perfect compendium for avid fans and an ideal entry point for adventurous readers seeking the humor, heartbreak, and terror of JRJ's strange new worlds.

The Loop Nov 18 2021 "Unputdownable...Fans of The Twilight Zone, The X-Files, and Stranger Things will be especially thrilled." —Publishers Weekly (starred review) "A satisfyingly dark satire of, well, everything...Imagine Blake Crouch and Mira Grant re-writing Chuck Wendig's Wanderers—fans of all three authors are part of the wide audience who will flock to this heart-pounding and deeply unsettling tale." —Booklist Stranger Things meets World War Z in this heart-racing conspiracy thriller as a lonely young woman teams up with a group of fellow outcasts to survive the night in a town overcome by a science experiment gone wrong. Suddenly the town is on edge, and Lucy and her friends must do everything it takes just to fight through the night.

Falling from Heights Jan 08 2021 Two voices, two families, two interweaving narratives with thirty years dividing them. In 1972 Birdie Cormack enters a highly controversial experiment in Toronto. Her story

unfolds piece by fascinating piece, mostly by way of a compelling series of letters written to her parents. And in 2002 Jeremy Jacks returns to the West Coast after a failed bid to become a writer back east. As he grudgingly reassumes his role at home, his brother Robert, fuelled by fear and rage and a recent suspension from his teaching position at the local high school, reels off on a dangerous and destructive path, exposing in the process the family's long-hidden secrets and leading to the novel's powerful climax. Meanwhile, as they struggle in their respective experiments, Jeremy and Birdie confront their demons both private and public and begin to see the possibility of love without understanding, and forgiveness without forgetting, by scraping away the lies that over the years have transformed themselves into facts. A penetrating portrait of a place and time unique in Canadian history, *Falling from Heights* explores the blood ties that bind us one generation to the next, while at the same time revealing the strange, oftentimes unrecognized power in us all to shape one another's destinies.

Winging it Jul 22 2019 'The house where Vanessa Redgrave lived during the seventies was just around the corner from the Ravenscourt Park tube station. She had left no distinguishing marks behind, so one just had to know. Robert could imagine her organising her Trotskyite activities in the mornings, memorising her Chekhov in the afternoons, leaving the door unlocked when she left for the theatre (What I have belongs to the people).' Like pilgrims to the shrine of culture come three Americans, Robert, Jesse and Vera, in love with London and famous Londoners. Emotionally hurt survivors of the 1960s, they have tried to make their lives immune from the pains and pleasures of desire. Into this strategy of damage limitation enters Jeremy, an ingenu Englishman, whose powers of seduction match his unerring ability to judge brief. As each member of the trio in turn becomes the object of Jeremy's affections, their long standing commitment to 'love and peace' is threatened. Part Henry James, part Armistead Maupin - *Winging It* celebrates the triumph of the unfashionable value of friendship in an age when fashion is everything.

Esthetic Experiments Mar 30 2020 Contemporary American landscape is wrought with ongoing processes and phenomena of technicization observable at the intersections of multiple layers of society. This book brings to attention their cultural and political aspects, emphasizing timeliness and necessity of academic intervention into, and evaluation of, their specificity and ramifications. Presenting critical and analytical account of cultural narratives which define, speak of, and use diverse technologies (of writing, sound, media representations, surveillance, war), the texts compiled in this volume investigate the coalescence between technological production on the one hand, and the textual on the other. The idea of the book responds to the current academic appeal - inspired by postmodern questioning of the foundations and realized, most importantly, by deconstruction - to dismantle one of the constitutive pillars of Western civilization, namely, between techne and episteme. In their interpretative mode, the texts proceed largely experimentally, bridging the gap between techne and episteme. In doing so, they endeavor to reformulate and complexify an experience of American culture. The book aims to clarify and exemplify that the junction of text and technology implies that meanings are embedded in a material. Consequently, the publication introduces and popularizes the assumption that American cultural experience emerges as a genuine

experiment of an esthetic nature.
